

## EFFICIENCY IN OUR SCHOOLS

Care Must First Be Taken In The  
Preparedness and Selection  
Of Teachers.

"The tumult and the shouting dies;  
The captains and the kings depart;  
Still stands thine ancient sacrifice,  
A humble and a contrite heart.  
Lord God of Hosts, be with us yet,  
Lest we forget, lest we forget."

While the Father-Lands are locked in war's deadly embrace, making use of every conceivable device for taking human life thus decreasing the world's population at the rate of thousands per day, there is a "still small something" that is as surely but more slowly decreasing the population in Crittenden county. In 1900 our population was 15,191; in 1910, 13,296; 12.5 per cent decrease. Where are they? I told you week before last. Why did they go? You know. These are government figures, and cannot be denied.

"Lord God of Hosts, be with us yet,  
Lest we forget, lest we forget."

At all of our teachers' associations last year the text was, "The Highest Function of the School is Character-Building." The individuals who are responsible for a good school, or a bad one, are first; the trustee, second; the teacher, third; the parents, fourth; and the county superintendent, fifth.

There was a time when the trustee in a country district school was looked upon as one of the weakest vessels in the community and one of the most despised because he had all the taxes to collect, care for the school property and do all the necessary work about the house and grounds, gratis. Now it is different somewhat. He may be paid for some of his work. He is looked upon as a promoter of the best interests of the county. He may have under his control the entire school interests of the county. Actually he is permitted and earnestly solicited to attend the K. E. A. every year. In truth, he is the real foundation of the county schools. You will find some of the best men in the county who are not ashamed to own that they are trustees. The duties of the trustee are manifold and, some times, vexing. It is not the mission of this article to delineate all his duties, but I want to mention this one, that of selecting a teacher and PERMITTING her to teach his school.

I know it is sometimes hard to select a good teacher, but too often he looks at the task as "first come, first served," or like we used to do in the old game, "Puss wants a corner," when one jumps out the other jumps in. This same trustee if he should go to buy a pig, a calf, a cow or even a young mule he will make him stand in a corner, drive him around the lot, look at him from all sides and will ask questions enough about him to fill the Crittenden Record-Press before he will pay his money for him. Are you half so much concerned about whom you choose to shape the character of your boy or your girl—the future hope of the county? The whole current of the life of a pupil may be changed in one hour's teaching, for the right or for the wrong. Again, we have a few trustees who think the school fund should be used for charity. His neighbor's daughter is in poor circumstances

and needs the money. He gave her the school to help HER along. Poor little boys and girls at school. Again, "my daughter holds a second class certificate, and I thought she might teach our school this year. She has to learn to teach some where." Poor suffering humanity! De-luded mortals! When will we ever be able to look beyond the dollar mark in our transactions, especially in this business of Character Building? The trustee who will choose his teacher through sympathy alone for the teacher's "bad luck" or simply because she is his daughter, regardless of qualification, ought to be sent to old Mexico to hunt for Villa with nothing more than a common shot-gun with which to defend himself.

The above mentioned trustees may live in Mexico, I don't know I hope they do not live in Crittenden county. Of course, it is hard to always be able to choose the best teacher from among those who apply, and our methods of standardizing, or licensing teachers are not the best in the world, but we might, at least, give it as much thought and investigation as we do that of buying a pig.

The teacher is the next factor in this beloved institution of ours—the Public Schools. Teaching is a consecrated calling—next to that of preaching the gospel, quite so if rightfully pursued. This article would always remain incomplete without that old pedagogical statement, "as is the teacher, so will be the school." We believe ninety-nine per cent of this statement to be as true as gospel. The Public School system of the United States has been termed a failure by foreign critics, also, some of our own educators; especially, has Kentucky been criticized severely for her illiteracy, all on account of system, inefficient teachers, bad supervision, etc. But I must confine myself to Crittenden county. Our greatest trouble is professional unpreparedness. There are about three classes afflicted with this malady. The young teacher who is not old enough and who has not been taught to think; the old teacher, cynical and does not try to improve further; the busy teacher who farms through the summer and rides ten miles back and forth to school in the fall. The two latter ought to go to Mexico with their trustees. The younger teacher is not so much to blame for her unpreparedness as her parent is. Usually her good impulse, inspiration, or vision if you please, is the life of the world. Laudable in any mortal, but where is there a profession that will permit untrained hands and minds to perform its work? In time of war the government will not permit her boys to go out to shoot their neighbors without first submitting them to a strict mode of training. If the teacher is going to learn her job by cold-blooded experiment practiced on the childhood of the country the money to be paid for teachers' salaries should be kept in the treasury until she learns the profession.

Thank you, Dr. Stone. If my eyes ever need fixing I will give you the job, because I think you know your profession.

Yours very truly,  
E. JEFFREY TRAVIS,  
County Superintendent.

### SCHOOL TRUSTEES AND COUNTY BOARD HOLD MEETINGS

Trustees Discuss Important Questions While the Board Issues Edict for All Trustees.

The trustees of the county schools had their annual meeting Monday in the Court House and discussed many questions of vital importance to the schools. They fixed the time for all the county schools to begin on Monday, July 31st, 1916.

They discussed the propriety of throwing the doors of the school houses open to all kinds of meetings without first requiring some responsible person or persons to stand responsible for all avoidable damages done to property during said meetings.

The County Board, in a meeting after said mass meeting issued an edict that all trustees should follow Section 139 of the School Law in this matter, reading as follows:

"When a responsible person of any subdistrict may apply to any subdistrict trustee for the use of house, to be used when school is not in session, during the school hours or vacations, by any lawful assembly of educational, religious, agricultural, political, civic or social bodies, organizations or gatherings, and if said subdistrict trustee refuse the use of same, then the said trustee shall state his cause for refusal in writing, and if a demand, signed by five freeholders of said subdistrict be presented to said subdistrict trustee, then he shall deliver or cause to be delivered the keys of said school house, to such freeholders who shall be responsible for the use and care of said school property and of avoidable damages and the return of the keys to the teacher of said district, if school be in term session, or to the subdistrict trustee during vacations." (Act of 1912.)

According to the reports of the trustees and the county superintendent, there is hundreds of dollars worth of damage done to the school property of the county each year on account of a lack of a custodian.

Just received a line of new waists from New York, latest styles at bargain.

### THE CRITTENDEN COUNTY COMMERCIAL CLUB MEETS

Important Topics Are Discussed.—Various Speeches Made and Reports of Committees.

The Crittenden County Commercial Club met in regular session, Tuesday evening, March 28, 1916, in upstairs lobby of the Post office building, with President, W. B. Yandell presiding. A large and enthusiastic crowd being in attendance, and eight new members being enrolled, making total membership of club, fifty.

The meeting was called to order by President Yandell, minutes of last meeting was read and approved.

The various committees appointed at last meeting were called upon to make their reports, thereupon all committees that were ready to make reports did so, the chairman of said committees, each in a very interesting and impressive manner, orally made their respective reports, which reports will all be submitted in writing at a latter date.

Many topics of vital interest to all the citizens of Crittenden County, were discussed by members of the club, and very interesting and instructive talks were made by Mr. Hammack, of Union County, Ky., and Mr. Wright of Lexington, Ky.

The principal and most important topics discussed being farming, schools, good roads, public health etc.

The Commercial Club extends an invitation to all citizens of the County to attend these meetings and become members of the club thus lending their support to a movement which will result for the good and best interests of the citizens of the entire County.

### Mrs. Paulina Evans Paris Goes To Her Reward.

Mrs. Paulina Evans Paris died Thursday night at eleven o'clock at the home of her daughter, Nannie, wife of Esq. W. H. Brown, of the Emmaus section, where she went about ten days ago for a visit accompanied by her daughter, Mrs. Fannie Jennings. Mrs. Paris had been in failing health for some time and the change was made hoping to

benefit her, but pneumonia developed and soon carried her off. Her husband, James W. Paris, preceded her to the grave three years ago last September.

She is survived by eight children, three daughters, Mesdames Fannie Jennings, Nannie Brown, Corda Moreland, and five sons, Robert S. of Lola; Sam W. of Fulton; J. B., and Bunyan C. of this county; Maurice, of St. Louis, Missouri; and four step children, Mrs. Martha Fralick, of Canalon, Mo.; W. F. Paris, of Cocoa, Fla.; Rev. J. L. Paris, of Odessa, Mo.; and O. H. Paris, of this city.

Mrs. Paris before her marriage, was a Miss Conger, related to all that large family in this section, and was born in Smith county, Tenn., Dec. 13th, 1844.

She came here in early childhood and was married to James W. Paris, Oct. 11th, 1864.

She was a life long member of Pleasant Hill Primitive Baptist church, where the funeral and interment took place Friday afternoon at three o'clock, Rev. John A. Hunt officiating.

### Mayfield Wants Convention.

The editor is grateful for the following invitation just received from the Mayfield and Graves County Commercial Club, Incorporated, of Mayfield, Ky:

Esteemed Sir:—In event Mayfield is decided upon as the place for ye scribes of the District to hold your convention the 20th of May, we wish to offer on behalf of the Mayor and the City Dads the keys to our fair City, and in our own behalf offer to you the use of our Club rooms to do with as you wish on that date, and will assist in anyway possible to make your stay with us a pleasant one.

If you have not voted as yet, vote for Mayfield, then attend, and we are positive you will not regret it.

Yours truly,  
L. F. Orr, Sec.  
March 28th, 1916.

### Fire at Paris, Texas.

Twenty-seven blocks of residences and business buildings were destroyed at a loss of \$2,000,000 to \$3,000,000 at Paris, Texas, Tuesday night by a fire originating in a cotton compress.

### Business District Destroyed.

Greensboro' N. C., Mar. 22.—Spray, north of here, is burning this afternoon. The business district is reported as destroyed and the flames are spreading. Spray's population is ten thousand.

### Fire Still Raging.

Augusta, Ga., March 24.—Fire caused a damage estimated at \$2,000,000 in the down town section of Augusta tonight and at a late hour was eating its way unchecked down Broad street where the city's principal business houses are located.

Ten blocks have been destroyed or are burning, and the flames are threatening to spread to the residential section.

## NASHVILLE, TENN., HAS A BIG FIRE

Miss Maude Hughes, Formerly Of  
This Place, Writes Us Letter  
About the Conflagration.

Nashville, Tenn., Mar. 27, '16.  
Mr. S. M. Jenkins,  
Marion, Ky.

Dear Sir:—

Marion friends doubtless heard immediately of the fearful fire that swept Nashville, last Wednesday, March 22nd, but if anyone was damaged by the fire who has friends in Marion, I am not aware of it though I cannot speak with certainty.

The fire did not touch the central portion of the city, but was across the river, in what was formerly Edgefield, the nearest point of the burnt district being about seven blocks from the public square, which is one block this side of the river.

The wind was blowing about 50 miles an hour. The fire started about noon and a negro cabin caught first and that set a planing mill on fire and then the sparks and burning shingles set other buildings and a spotted fire resulted, which our splendid fire department could not cope with. All the engines in the city were on the ground but were powerless to check the fire; mansion and hotel went down before it, and in many cases splendid homes of brick and stone were burned to the ground, and small frame houses next to them escaped unharmed. Fire plays many strange freaks, as well as cyclones. The city wired for help to Clarksville, Chattanooga, Memphis and Louisville, but I do not think any of the engines got here, as the fire was subdued about 5:00 P. M.

About 36 blocks and 300 residences were burned, and this in a fine residential section. One Presbyterian church and one Christian church, opposite each other were burned. One large public school went down, but none of the children were hurt.

One Catholic church and school burned, and their home for the aged, called "The Little Sisters of the Poor" also burned. These last named were comparatively new buildings and were beautiful. Fortunately, there were only two sick people in this home for the aged, so there was no trouble in getting them out of the house. It was remarkable with the large area of the fire and the great confusion, no one was hurt, except the poor firemen were blistered. The whole city tried to flock over to the burning district, and orders were finally given for no one to cross the principal bridge that led directly into the burnt section. The State Militia was ordered out to prevent looting.

By 6:00 P. M. the city was preparing to feed and house the homeless people. Of course they did not know just how many there would be so they made ample provision which at last was not really needed. All the up-town churches invited people to sleep in their buildings if it was necessary, and the Young Men's Christian Association proposed to take a large number and care for them. The Young Women's Christian Association prepared to bed 150 women, and to feed all who came, but there

## TRIGG LAND TO AYER-LORD CO

### Rich Tract Will Be Sold to Big Tie Concern.

Cadiz, Ky., March 28.—The Hillman property in the neighborhood of Trigg Furnace will likely be sold in the near future to the Ayer & Lord Tie company. Terms have been practically agreed upon and all that is now necessary to consummate the trade is the arrangement of some minor details. The survey as recently made by the prospective purchasers showed only about 4,800 acres in the tract, and while the survey of the Hillmans made several years ago showed about 5,300 acres, this will in no way affect the trade, as the price was a lump sum and not so much per acre. Judge John D. Shaw, who has charge of the property was in Birmingham, Ala., and Paducah a few days ago on business connected with the deal.

### A Real Plan.

The crisis in foreign affairs

should not make America blind to the crisis in its domestic affairs.

The domestic crisis is the threatened strike of all the railroad men in the United States for a "basic eight-hour day."

For weeks this peril has been creeping upon us. For weeks there has drawn steadily nearer the possibility that our returning prosperity will be stopped and turned into adversity by a paralysis of the transportation systems of the country.

As a country we have made no preparation to meet it.

Our governmental machinery for preventing the railroads from getting too great incomes still lacks any instrument for adjusting the demands of labor to their fair place in the economic structure.

Into this gap the Chamber of Commerce of the United States steps with a proposal that looks to the rights of the public, the inevitable third party to the dispute. In an emergency resolution passed by its executive committee it says:

Whereas, It has come to the attention of the Chamber of Commerce of the United States of America that grave differences are impending between the railroads and certain of their employees which, if not adjusted, may result in serious interruption to transportation; and

Whereas, Such interruption of the traffic operations of the United States would be a national calamity, and if arising thru arbitrary action of either

side, without the questions in dispute being submitted to a careful and impartial analysis, would constitute an act inimical to public welfare and fraught with grave consequences; be it therefore

Resolved, That it is the sense of the Chamber of Commerce of the United States of America that the parties to the controversy should, and in the interest of the public weal must, settle their differences without recourse to measures that would impair the public services; and be it further

Resolved, That the board of directors of the Chamber of Commerce of the United States appoint a committee which shall carefully and impartially investigate and consider such phases of the situation as relate to the interests of commerce and the public, and shall from time to time report to the board of directors as to the best means of preserving the public service unimpaired.

Here is representation of the third party to the dispute. Here is a committee for the public, shall be concerned neither with the partisan interests of the unions nor with those of the roads, but which shall give its single thought to averting from the public the deadly blow of an interruption of traffic.

Out of this committee may well come a means to settle the strike before it is begun. Certainly it will be able, inofficial as it is, to speak to its client, the American public, authoritatively and powerfully, upon the rights and wrongs of the struggle.

We are glad to see that this fine new idea in industrial trouble has been gravely indorsed by the Chicago Association of Commerce, which, indeed, had a leading share in framing it.

Similar associations thruout the country should take this action.

All business men should recognize, as do those of Chicago, that here is for almost the first time an intelligent, organized, businesslike attempt to protect the public interest before trouble comes. The Chamber of Commerce plan gives the innocent third party his first chance to avert loss instead of merely accepting it.

Its success is to the best interests of the United States, now and in the future.—The Chicago Evening Post, Thursday, March 2nd, 1916.

### The Home Paper.

Ex-Governor David R. Francis, of Missouri, once said the follow-

ing of newspapers:

"Each year the local paper gives from \$500 to \$1,000 in free lines to the community in which it is located. No other agency can or will do this. The editor, in proportion to his means, does more for his town than any ten men, and in fairness he ought to be supported—not because you like him or admire his writings, but because the local paper is the best investment the community can make. It may not be brilliantly edited or crowded with thought, but financially it is of more benefit to the community than the teacher. Understand me, I do not mean mentally, and yet on moral questions you will find most of the papers on the right side. Today the editor of the local papers do the most for the least money of any people on earth."

### SAYS FUR-TOPPED SHOES INVITE FLIRTING BY MEN

### Oklahoma City Woman Complains To The Mayor About It.

Oklahoma City, March, 28.—Mayor Overholser closed all the gambling houses in Oklahoma City and drove the liquor dealers out of business. Now he is expected to start other reforms.

"Why don't you stop this flirting that is going on all the time?" asked a woman of sour visage who visited the mayor's office. The mayor, said he didn't know there had been any flirting.

"Well, there has and there is," said the woman. "It is going on now, all the time. I see it when I am down-town and you could, too, if you looked."

"Who is doing it?" inquired the mayor.

"Men and women, boys and girls," replied the visitor, "and the girls are just as bad as the men. I can show you girls on the streets right now who ought to be arrested."

"In what way do they flirt?"

## WHAT CATARRH IS

It has been said that every third person has catarrh in some form.

Science has shown that nasal catarrh often indicates a general weakness of the body; and local treatments in the form of snuffs and vapors do little, if any good.

To correct catarrh you should treat its cause by enriching your blood with the oil-ford in Scott's Emulsion which is a medicinal food and a building-tonic, free from alcohol or any harmful drugs. Try it. Scott & Bowne, Bloomfield, N. J.

asked the patient mayor.

"By looking sideways at the men and by wearing fur-topped shoes and dresses half was up to their knees," said the woman. "You've seen them, haven't you and you know they're disgraceful, don't you?"

Mayor Overholser said there was no ordinance regulating women's attire to that extent.

"Then pass an ordinance," insisted the visitor. "Put a heavy fine on the girls who wear fur-topped shoes and short dresses, or else on the men who look at them."

The mayor sighed wearily. "If you don't," the continued the woman, "this town will go to the devil. It's going there now, with its fur-topped shoes and flirting."

### Hoe to the End of the Row.

Governor Talbott, of Massachusetts got his high office, according to Dr. Russell H. Con-

well in the April American Magazine, because, General Swift made a happy application of the truth, in saying to the convention: "I nominate for governor of this state a man who, when he was a farmer's boy, hoed to the end of the row."

"He hoed to the end of the row!" became a campaign slogan. When the people discovered that this was one of the characteristics of the man, they elected him by one of the greatest majorities ever given in Massachusetts.

When wealth is lost, nothing is lost; When health is lost something is lost; When character is lost, all is lost.

I confess that there are several parts of this constitution which I do not at present approve, but I am not sure I shall never approve them. For having lived long, I have experienced many instances of being obliged, by better information, or fuller consideration, to change opinions, even on important subjects, which I once thought right, but found to be otherwise.—Franklin.

## Information for the Dairyman.

One of the greatest problems for the dairyman is feed for his cow. For their benefit we have taken the trouble to get the analysis of bran and flour which is as follows: Bran, 4.50 per cent. fat, 15 per cent. protein; Flour, 1 per cent. fat, 11 per cent. protein. The milk producing value of cornmeal is based on the protein it contains. Therefore it is an evident fact that there is more value in pure wheat bran than flour for the cow. It is a mistaken idea that bran is richer when it contains flour. The above analysis shows the opposite to be the facts in the case.

## DEATHS

Mrs. Dorcas Jackson died Thursday morning at the home of her daughter, Mrs. Rob McElroy in the Fredonia valley. She was buried at Wiles graveyard Friday at noon, Rev. W. T. Oakley officiating there and also at the funeral at Bethlehem church. The deceased was a sister of Mrs. Sarah Lamb and Mrs. P. J. Hill and the late Mrs. Mari Nunn deceased wife of Hon. E. L. Nunn, of Rodney, and was a daughter of the late C. Mac Phillips of the Mattoon section. She had many friends who mourn over her demise.

Wyatt Hunt one of Crittenden county's best citizens was called to his heavenly reward March 22nd, 1916 after a brief illness of nine days of bronchitis and other diseases with which he had been afflicted many years. Although his suffering was great he bore it patiently, never murmuring at his affliction but said: "If it was God's will he would rather go on and be done with his suffering, but if it was His will that he should stay awhile and suffer he only prayed for grace to sustain him until the end." And it was plainly evidenced that that grace was supplied him all through his illness. He expressed himself a number of times as being reconciled to God's will.

He seemed to have unusual strength to nurse his wife, Sarah B. Hunt through an attack of pneumonia, who died Mar. 11th, 1916 (preceding her husband eleven days) but after he had done all he could for her his strength seemed to give away and he joined her in the better world. He was born Sept. 17th, 1850, therefore being 66 years, 6 months and five days old. The funeral was preached by Rev. John A. Hunt and the interment took place at the Paris graveyard Thursday at noon. He leaves two sons, Simeon and Paul one daughter-in-law and three

grandchildren, also three brothers, Sion, John A. and Obediah and four sisters, Mesdames Letitia Hughes, Jane James and Nannie Paris of this county and Eliza Asbridge, of Hoxie, Kansas. We extend heartfelt sympathy to the family and entire community in their loss and bereavement.

How would you  
like to travel 108  
miles by sleigh  
in zero weather?

That's what President Terry of the Hartford Fire Insurance Company did after the great New York fire of December 16, 1835, in order to make immediate payment of the Hartford losses.

In the same staunch spirit the Hartford promptly paid out \$1,900,000 after the Chicago fire, and \$10,000,000 after the San Francisco disaster.

Hartford protection costs you no more than other kinds—and you can depend upon prompt settlement in case of fire. May we tell you more about it?

## Nashville Fire Loss

Placed at \$1,500,000.

Nashville, Tenn., March 23.—A ball of yarn, lighted and thrown by a boy into dry grass in a vacant lot, started a conflagration in Nashville at noon today which was not under control until late this afternoon, after 35 residence blocks had been swept by fire. The loss is estimated at \$1,500,000.

A 50 mile an hour wind fanned the burning grass into a torrent of flames, which quickly leaped from building to building until at least six hundred residences were destroyed.

## Soaring.

The price of paper and printing office supplies continues to advance, and the end is not

yet. The Times will have to increase prices on some lines of work just like the grocer and dry goods man and dealers in clothing, shoes and other articles of consumption. We cannot run our business without it. We are going to keep the price just as low as possible and on some articles we are getting the old price and paying an increased price for the paper.—Calloway County Times.

## SEVEN SPRINGS

James Brasher died at his home in this vicinity Thursday, March 23rd. He was in his 86th year. Mr. Brasher had been in failing health for several months, and a few days ago lagrippe set up—with old age as he was—ended his life. His remains were interred in the family burying ground near his old home the following day. Bro. Newt McKinney made a very impressive talk over the remains. A large crowd was in attendance to pay the last tribute of love and respect to a good citizen. Peace to his ashes.

Sunday school was organized at this place the third Sunday.

Jim Patton and family, of near Caldwell Springs, were guests of relatives here last week.

W. B. and T. J. Yandell, of Marion, attended the burial of Mr. Brasher Friday.

M. L. Patton was Mexico Saturday to get a monument which had been shipped to that point, to erect to the grave of his father, L. B. Patton, in the Caldwell Springs cemetery.

Mrs. May Stone, of Caldwell Springs, was the guest of her daughter, Mrs. Rhea Polk, and also the family of Joe Bell at this place last week.

Mr. and Mrs. Turner Hodge, of Emmaus, attended the funeral of Jim Brasher Friday.

Joe Bell and Oscar Patton were in Kuttawa Tuesday.

Edge Brasher, of Caldwell Springs, was this vicinity last week.

Tom Patton of vicinity was taken very suddenly sick at church at Frances Sunday and had to be carried home. He is not much better at this writing.

Miss Nannie Guess and brother, Henry, were in Kuttawa shopping Tuesday.

### A BIG ENTERPRISE LAUNCHED BY KENTUCKY WOMEN.

#### The Baptist Women's Missionary Training School Is Beginning.

In 1904 it was learned through Dr. Carver, Professor of Missions in the Baptist Theological Seminary, Louisville, that there were four young women who were attending classes at the Seminary, preparing to go to Mission fields. They were living in one room, enduring many discomforts and making great sacrifices for the privilege of this study.

They needed a better chance in more comfortable quarters and with more protection than was possible under this arrangement. The Baptist women of Louisville held a mass meeting and elected Mrs. S. E. Woody chairman of a committee to provide a home and protection for these and others who desired to come for the same study.

Generous responses were made. Each Missionary Society contributed money and many gave or loaned furniture and household equipment. A house was rented on Fourth street at \$40.00 per month and Mrs. Wigal installed as House Mother. The first dinner in the first Training School home was served on Thanksgiving Day 1904. The Louisville Societies gave pound parties and many individuals were generous in repeated gifts. Donations from many places out in the state began to come in. Other students arrived and in 1905 a larger house was secured on 8th Broadway. In Oct. of 1905, twenty-five young women were enrolled. As most of these were from other states the interest was broadened and help came from them also. Kentucky women, however, were the mainstay of the school for three years. It was then finally adopted by the Woman's Missionary Union Auxiliary to the Southern Baptist Convention. This put back of it the full force of Baptist women in seventeen of the Southern States. The main building now occupied was bought in 1907 with a gift from the Sunday School Board. The other adjoining building on the corner was bought in 1914 with money gathered in small sums by Southern Baptist women. The wonderful success of the students now on various Mission fields, as City Mission workers, pastor's helpers, and settlement workers, amply justifies the effort for larger quarters and better equipment. The women of Kentucky may needs be proud of this splendid enterprise.

When God has so signally and continuously blessed their efforts in the past they may unhesitatingly put their best into the new building. It belongs to Southern women.

## SQUEEZING BLOOD OUT OF A TURNIP

A Lot of People Apparently Think  
It Can Be Done.

"You can't squeeze blood out of a turnip." This is absolutely true, but a lot of people evidently don't believe it.

You can't expect nervous, run down men and women to be cheery, normal beings. They don't get one-half out of life that they deserve. But a lot of people expect it of them.

In every community there are a legion of these men and women. Not really sick, perhaps, but affected with a debilitated condition so that they imagine countless things are wrong with them. They have frequent headaches, are sluggish in mind and in body and they haven't enough real energy to make them self-reliant in even the little things of life. They haven't enough rich, red blood to nourish their bodies.

Their vital organs are congested. They need something to speed up their assimilation to a normal state, something to bring back old vitality, self-reliance and a cheery view of life.

They need something that contains the right nerve food, tonic, invigorator and appetizer which will awake their sleeping energies.

Tanlac is designed especially to meet these conditions. For the relief of stomach, kidney and liver ailments and catarrhal affections of the mucous membranes it is believed to be without an equal. It fortifies one to better encounter fatigue, exposure and the daily grind of life.

Tanlac has won the greatest success ever scored by a medicine. It could not have done so without superlative merit. As the proof of the pudding is in the eating, so is the proof of Tanlac in the taking.

Tanlac now may be obtained in Marion at J. H. Orme's Drug Store where it is being personally introduced and explained.

Tanlac may be obtained in the following nearby towns: Blackford, A. T. Brown; Wheatcroft, Hardin Pharmacy; Clay, Kearney Blue; Providence, R. G. Baynham; Sturgis, Meacham & King; Caseyville, W. E. Ames; Fredonia, W. E. Cox; Crider, L. W. Guess; Princeton, Wylie & Walker.

**ATTENTION**  
**DRUGGISTS—STORE KEEPERS.**  
An exclusive Tanlac agent is wanted in every town, village and cross road in this county. For particulars and advertising plans address Cooper Medicine Company, Dayton, Ohio.

## War Has Taken From Sea 2,000 Merchant Vessels

Washington, D. C., Mar. 27.—The European war has taken from the seas more than 2,000

merchant vessels of nearly 4,000,000 tonnage, according to figures published by the department of commerce. Germany with 600 vessels sunk captured or detained, heads the list of losers.

Two hundred and twenty-five of the 500 British vessels lost were sunk by submarines. Great Britain's allies lost 167 ships.

Austria lost 80 and Turkey 124. The total of neutral losses is put at 736, but most of these were released after being reported captured.

## Chickens Eat Cake Made By Bride Then Lay Down and Die

Pittsburg, Kan., March 27.—When a young wife of this town had bad luck with a cake recently, she threw it to the chickens. The chickens died, then the young woman decided there was poison in the baking powder and sent for a food inspector.

Harry Bell of Leavenworth investigated. He found the woman had used salt instead of sugar. The chickens ate the cake and died from thirst, the inspector says.

## Judge Quotes Scripture To Show Sausage Bad

St. Louis, Mo., March 27.—"What man is there of you, if his son ask for bread will he give him a stone, and if he ask for a fish will he give him a serpent?" quoted Judge Dyer in the United States district court when he announced an opinion holding that sausage containing more than 2 percent cereal and 3 per cent of water was unwholesome.

The Independent Packing Co. made the plea that the sausage made with water and cereal, was a philanthropic product, because it was a cheap food, within reach of the poor. Judge Dyer said the plea did not weigh with him, and he quoted from the scripture concerning the bread, stone, serpent and fish.

## The Secret of Success

"There has been altogether too much talk about the secret of success," says Dr. Russell H. Conwell in the April American Magazine. "Success has no secret. Her voice is forever ringing through the market place and crying in the wilderness, and the burden of her cry is one word—will. Any normal young who hears and heeds that cry is equipped fully to climb to the very heights of life."

**Cure Old Sores, Other Remedies Won't Cure.**  
The worst cases, no matter how long standing, are cured by the wonderful, old reliable Dr. Porter's Antiseptic Healing Oil. It relieves Pain and Heals at the same time. 25c, 50c, \$1.00.

Poor, helpless, hopeless, sick, suffering, miserable woman. Sick because she doesn't really know why. Sick because the organs that make her a woman are not properly performing their functions and so are sending nerve messages with aches and pains and distress all over her quivering body.

Nine-tenths of women's sickness comes from disorder of these special organs. The symptoms are various—the cause the same. Dr. Pierce's Favorite Prescription is the remedy for the headache, backache, nervousness, wakefulness, neuralgia and fifty other troubles of women which can always be traced directly to feminine weakness or disease. Thousands of women right here in Kentucky, after years of discouragement, have written to Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., and now thank him for their renewed health and happiness.

It is a medicine devised to cure one certain kind of disease—female disease. It brings ease and comfort and sleep. It restores perfect health. It fills out cheek-bellows, brightens the eyes, puts vim and snap into the whole body.

It is a wonderful prescription prepared only from nature's roots with glycerine, with no alcohol to falsely stimulate. It banishes pain, headache, low spirits, hot flashes, dragging-down sensations, worry and sleeplessness surely and without loss of time.

Sick women are invited to consult Dr. Pierce, by letter, Address Dr. Pierce, Invalids' Hotel, Buffalo, N. Y.

## You Get What You Are Worth, Says Pastor.

"As a matter of fact the world owes a man nothing that he does not earn. In this life a man gets about what he is worth, and he must render an equivalent for what is given him. There is no such thing as inactive success."

## 5,471 Persons Killed on Railroad Tracks Last Year.

In the April American Magazine Frederick Upham Adams says:

"In the United States last year 5,471 persons were killed while walking on railroad tracks! After a century of experience, after the expenditure of tens of millions of dollars in educating and warning the public against this deadly peril, fifteen met death each day, or one for every ninety six minutes."

## SAYS DRINK LEMONADE FOR RHEUMATISM

Relief from rheumatism and sciatica can be obtained by drinking lemonade and avoiding alcoholic drinks.

To get rid of this stubborn disease, however, to stop the twinges, pain and swelling, and drive the poisonous accumulations from the joints and muscles, all generously-inclined druggists will tell you to take half a teaspoonful of Rheuma daily until all misery ceases.

Rheuma is a powerful remedy, because only a powerful remedy can overcome such a terrible disease; but Rheuma acts speedily—the first dose taken and you'll know that you will soon be your healthy, happy self again. Jas. H. Orme and all druggists know what Rheuma will do, for they sell a great deal of it and guarantee two 50-cent bottles will overcome rheumatic agony or money back.

## Succeed With Strawberries.

"One very excellent reason why the strawberry should be one of the first essays of the amateur gardener," says a writer in the April Woman's Home Companion, "lies in the fact that it gives such prompt results. If we can make a garden this year, we can harvest a full crop of strawberries and happiness next year. Apples and peaches have to be waited for by years; even grapes and currants require as much time as a course in college; but the most shifty of American families who have a vulgar saying that it is cheaper to move than pay rent, can still grow their own strawberries, at least every other year.

## Good For Colds

Honey, Pine-Tar and Glycerine are recognized cold remedies. In Dr. Bell's Pine-Tar-Honey these are combined with other cough medicine in a pleasant syrup. ## Henry L. Riley Dead.

Henry Lewis Riley died Tuesday night, March 21st at 8:30 o'clock of pneumonia, and was buried Wednesday at the Roland graveyard.

He was born in 1847 near the place where he died and excepting 2 or 3 years when in Ills., he had spent his life in that neighborhood. He was married to Miss Nancy Ellen Morse who died several years ago. He is survived by five children, Mrs. Dallis Boswell, of near Salem, Mrs. Emma Harris, of Flat Rock, Mrs. Sallie Babb, of near Enon, Miss Daisy, who lived with her family at home and one son Wm. Riley who also lived at home.

He was a member of Walnut Grove Baptist church and had been clerk of that church for over thirty years. Rev. Barnes, of Farmersville, preached his funeral to a large congregation of friends and relatives.

## Ballard's SNOW LINIMENT

Is the Right Remedy for All Abrasions of the Flesh.

If the wound is cleansed and the liniment applied promptly, the healing process begins at once and the wound heals from the inside outwardly, thus performing a perfect cure that leaves no scar. If the wound is on the outside too quickly, pus forms under the surface and breaks out into a running sore that is hard to cure and inevitably leaves a bad scar.

Owners of blooded stock prefer this liniment to all others for that reason, and they use it not only on fine animals, but on human flesh, as it does its work quickly and thoroughly.

## RAILWAY AND FARM WAGES.

CHICAGO. — The Executive Committee of the Association of Western Railways has issued the following statement:

Mr. Farmer, once upon a time—like the railways—you paid your employes a fixed monthly wage. They worked until their work was done, no matter how many hours.

You farm-hand followed a plow behind a yoke of oxen, perhaps from sun up till sun down, then did his "chores"—and was contented.

Suppose that when you invested more of your capital in a good team of horses, to replace the oxen your employe had said:

"These horses turn more furrows in a day than the oxen and hereafter I want to be paid by the furrow, or the distance the plow travels, but in case anything stops the plow you must pay me for a full day if I work 10 hours or less—if that plan would give more money than the plow mileage amounts to."

Suppose that when you invest-

ed more money in a wheel plow, on which your employe could ride at ease instead of being required to walk in a furrow and wrestle with a heavy plow, he said:

"Hereafter I want you to pay me for a full days work if I work eight hours or less, or plow a fixed distance or less, with time-and-a-half pay for overtime, either on a time or distance basis, whichever will give me the most money."

Suppose, further, Mr. Farmer, that from 1904 to 1914 you had increased the wages of your farm hand from \$962.09 a year to \$1,253.37 a year, would you feel like granting his last demand for more wages for doing exactly the same work, in the same hours?

That is precisely the question that the railway managers of this country are now called on to answer.

The men employed in railway train service are demanding a 25 per cent. increase in pay for exactly the work they have been doing, and under the same conditions, except as to pay.

As with the farm-hand, the working conditions of railway train service men have been constantly improved at the expense of the employes.

Government statistics prove that the hazard of their occupation has steadily decreased. This is the result of millions spent by the railroads for better roadbeds, heavier rails, double tracks, block signals, automatic couplers, air brakes, mechanical stokers, oil burning engines and many other safety and labor-saving devices—for which the employes made no investment and assumed no financial risk.

The men who are now asking 25 per cent. higher pay are and always have been the best paid of all railway employes.

Their wages range from \$800 a year for inexperienced brakemen to nearly \$4,000 a year for the best runs.

The average wages of the 300,000 employes who are demanding an increase are \$1,253.37 a year, an increase of 40 per cent. since 1904.

The 1,400,000 other railway employes average \$684.78 a year, an increase of 25.2 per cent since 1904.

These are the facts, Mr. Farmer. Will you think them over and then say if you think the railway train service employes are justified in threatening the prosperity of every industry in this country, of even the very existence of individuals dependent for food supply on uninterrupted railroad service?

## LOYD'S BRAIN LEAKS.

By F. S. LOYD:

Dave Woods says, The man who minds his own business doesn't have to carry a rabbit foot and four leaf clover in his pocket.

Lacy Loyd says, Some men haven't any sense. A girl will carefully paste a piece of black court plaster on her face and call it a beauty spot. But you can't get me to believe that there isn't a pimple hidden under the black patch.

Guy Rice says, Father will go to sleep resolving to cut out the use of cuss words, and when he wakes up in the morning he will discover that mother has spilled a whole box of face powders all over the only decent tie he has to wear.

Oscar Hibbs says, This prohibition question is a mighty serious one. If they close the saloons, where are we going to fight the European war every night.

Uncle Dock Green says, Always try to remember that when you say nice things about people you will never be forced to take it back.

Abe Deboe says, Most of us are run down because we are always climbing hills that are not there.

Charley Byrd says, Some men borrow trouble, and some marry it.

Mrs. Albert Elder was asked: "Are you fond of sports?"

"Yes, I was, until I married one."

Tom Jones says, The fact that a girl has a mouth like a rosebud doesn't help any when she has been eating onions raw.

There is a certain young man, who used to be notoriously egotistic, some of his acquaintances. We one day speaking of him before an old lady who was not up in the slang expressions of the day. The next time she met him she put out a congratulatory hand, "Oh Mr. Wigginton," she said, "I am so glad you are better. I heard last week that you had the big head."

Mrs. Irene Smith said: "Mattie?"

"Yes, mother."

"Don't encourage Tom Jones."

"Don't worry, mother, he doesn't need any encouragement."

Ed Baker says, When a woman who has three or four summer skirts, tells her husband that she hasn't one that is fit to wear on the street. She often telling the truth without knowing it.

Uncle Gus Bentley says, A liar is a man who arrives home about 2:10 a. m., and begins to explain to his wife how it happened.

Calvin Elder says, You can't blame some women for getting tired of mar-

ried life. If you had sit opposite a rough neck mutt three times a day and hear him inhale his coffee and see him lick his soup off his mustash you would be tempted to treat him to about \$2.00 worth of rough-on-rats.

Mrs. Joe Dollar says When a woman hales another woman, she can call her dear, and the dear sound like cuss words.

Ed Baker says, There was a time when a girl needed two big trunks to hold her duds when she went on a trip, but now-a-days she can pack all she is going to wear, into a cigar box.

Ben Wigginton say, A great deal of the trouble in this world is caused by the fact that a girl will marry a man she doesn't love and then begin to love a man she didn't marry.

## Early Marriage Cheats Life.

"I am inclined to believe," says a successful business man in the April Woman's Home Companion, "that the boy and girl who marry too early cheat their lives of a very happy period to which every human being is entitled. We live only once; every period of life is good, and should be enjoyed to the utmost. We have a right to a carefree childhood, and a happy school life. And, in the normal life, there should follow a period between school days and marriage—a span of three or four years—when life is very free and full, devoid of the problems and cares of maturer years. That period in my own life was one of the happiest. Marriage sobers a man; it loads his share of the world's burden on his back. He has a right to a little day of freedom between his school days and his marriage, a period when he is his own boss, paying his own way in the world, but without the responsibilities of later life."

### Anger Should Be Guided, Not Eliminated.

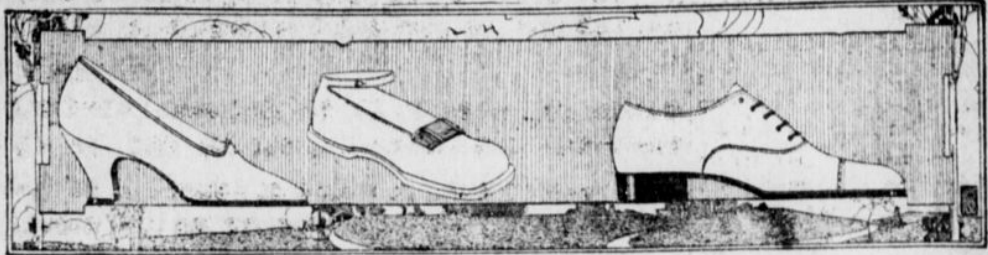

A writer in the April Woman's Home Companion says:

"The trained mother learns, often to her surprise, that today anger is regarded as something to be valued and guided, not, as we once thought, to be eliminated. This opens a wide field for study, since the problem of 'temper' is one that mothers have to meet every day. The baby pushes away anything he dislikes, and cries when he is displeased. But anger, if it is directed only against injustice and wrong, is something well worth preserving. A child shows strength of character in his indignation; one who tamely submits to everything will always be lacking in force."

When you pay your bills, give your grocer first money. He can't pay them with excuses. He cannot afford collection expenses. He should not be expected to. If he is courteous enough to give credit, show him equal courtesy by paying him promptly and without making him extra expense. He has no security. What you buy of him is soon consumed and he cannot get it back. He trusts you on your honor alone. Who else does as much for you? He asks no favors--needs no charity, but is entitled to a square deal. Be square--be fair--be just. Don't double your account.

### HOW MRS. BEAN MET THE CRISIS

Carried Safely Through Change of Life by Lydia E. Pinkham's Vegetable Compound.

Nashville, Tenn.—"When I was going through the Change of Life I had a tumor as large as a child's head. The doctor said it was three years coming and gave me medicine for it until I was called away from the city for some time. Of course I could not go to him then, so my sister-in-law told me that she thought Lydia E. Pinkham's Vegetable Compound would cure it. It helped both the Change of Life and the tumor and when I got home I did not need the doctor. I took the Pinkham remedies until the tumor was gone, the doctor said, and I have not felt it since. I tell every one how I was cured. If this letter will help others you are welcome to use it."

—Mrs. E. H. BEAN, 525 Joseph Avenue, Nashville, Tenn.

Lydia E. Pinkham's Vegetable Compound, a pure remedy containing the extractive properties of good old fashioned roots and herbs, meets the needs of woman's system at this critical period of her life. Try it.

If there is any symptom in your case which puzzles you, write to the Lydia E. Pinkham Medicine Co., Lynn, Mass.

#### Nashville has big Fire

(Concluded from first page.)

no call that night for either. However, since the first night there have been a few families staying at the Y. W. C. A.

The Commercial Club fitted up the old Duncan Hotel, opposite the Transfer Station, and offered it rent free to the fire sufferers.

However there are not a great many in it. Nearly everyone had friends in some part of the city, and the friends are caring largely for the sufferers.

About \$14,000 has been subscribed for the unfortunate people. Many of the people had insurance and will soon rebuild their homes, but the poorer people lost their all and will have nothing to rebuild with.

There were many deeds of heroism that the world will never know. One of them was the case of the colored janitor of Tulip St. Methodist Church. It was undoubtedly by his efforts that the church was saved. He lost his own home but he fought the fire like a tiger for the church.

It looked so hopeless that many who were helping him would have given up the fight, but when he would see them lagging he would cry "For God's Sake, Gentlemen, help me!" They finally saved the church which is a fine structure, and has the beautiful chimes which they purchased from the Centennial when it was here in 1897. At the service at this church Sunday they took up a fine offering for him, and he will doubtless be reimbursed for his loss.

The burnt section will soon rebuild and East Nashville will doubtless be more beautiful and progressive than it has ever been.

Very truly,  
Miss Maude Hughes.

#### Hint to Short Story Writers.

In the April magazine Jack Lairsays:

"You can find a story in a street-car conductor, or a tooth-pick sharpener, or a waitress with one eye, or a loan shark with his eye on one thing, or a tinsmith or a rich man's only and owing son. He, or she, or any of them, is mixed up in one of the seven original plots. He has to be. There are only seven. He can't get out of one—except to stumble into another."

#### News Print Paper High.

Washington, March 28.—A resolution for the investigation of the news print paper situation by the department of commerce was introduced in the house by Representative Copley, of Illinois. According to Mr. Copley the price of paper has advanced so far that the lives of many small newspapers are threatened.

### NOTICE TO FERTILIZER USERS.

In order to co-operate with our farmers and by request of our County Agent, Mr. J. Robert Bird, we will again act as agent for the purchases of Fertilizer for them this season.

Terms will be strictly cash, as our commission will be too small to admit of time prices.

We will pay for the fertilizer when it arrives and the purchaser pay us for same when loaded on his wagon.

By this arrangement the farmer will get his fertilizer practically at wholesale price, and a considerable saving to him.
