CONSUMPTION IN KENTUCKY

The Organization of District Tobacco Inspectors and County Health

Colonel C. L. Maier, Secrett of the State Tuberculosis Com- mission, visited Marion Thursday afternoon in the interest of the State Tuberculosis Campaign. He says that the county is the healthiest in the district of twenty-five counties, and 81,000 of the people still have the disease, and that many more will pass away unless they are given proper care and treatment.

Kentucky stands almost at the top of the nation in the prevalence of tuberculosis and near the bottom in the expenditure of money to support the treatment of the diseased. Colonel Maier has divided the state into nine tobacco tuberculosis examination districts, each district to contain from 12 to 15 counties. Each tobacco tuberculosis examination unit, or town, is considered sufficient for the needs of each district. Besides the many benefits derived, the cost of the tobacco inspection, for which money is further derived, is not greater than the annual county tax levy for the purpose. Each manufacturer will be provided with 208 beds, which are considered sufficient for the needs of each district.

Colonel Maier is a retired officer of the state army medical corps and spent forty-three years in the service of his country. He went to Cuba with Gen. Philip H. Sheridan, as chief surgeon of the seventh army corps, and served on the Philippine Islands.

Colonel Maier had a business in Marion, and he founded the Marion Tobacco Commission, which he has been connected with for a number of years.

Editor of the Marion Record-Press,

I have read the call in your paper, on May 27th, 1915, to the sense of the residents of Marion County, and this week, it is not to the amount of $300,000 or $300,000, but to the amount of $300,000, the road tax levied by the county under the state law, and have read with interest, the various articles published in the press against the proposition. We all realize that you need good roads, and we are all ready to do our part in the support of roads. We take this opportunity to say that we are ready to support the proposition.

Editor of the Record-Press:
I read the inlaid tin pullovers
in your issue of February 20th,
and in the Letts of the
recent issue of April 10th.
I have read with much
interest, the various articles for
mind and body which you have
published, and I am in favor
of the idea that we should
all realize the value of good
health and personal comfort
for the farmers, who have a
family of their own to think
about, and for whom we should
provide. It is a fact that
in the future more and more
people will be turning to the
farmer for fresh, wholesome
produce, and we should be
certain that we provide for
them, and take care of their
needs. For this reason, I
believe that pullovers are a
wonderful invention, and I
think that they should be
made more available to the
people.

The above is the opinion of one of
those who are interested in the
publication of this issue. I have
had the privilege of using
them and I can say that they
are very comfortable. I
would recommend them to
anyone who is interested in
improving their health and
comfort. Thank you for
providing such a wonderful
invention.

We have been informed that the county court is taking steps to establish a tax on gasoline sales. This is in an effort to raise funds for the county's operations and services. The tax will be implemented on all gasoline sales within the county. The rate of the tax has not been determined yet, but it is expected to be around 5%. The revenue generated from this tax will be used to fund essential services such as road maintenance, public safety, and education. The county council has set a public hearing for next month to discuss the details of this proposed tax. Attendees are encouraged to provide their feedback and concerns. The hearing will be held at the county courthouse on the 15th of next month, starting at 10 AM. Those who cannot attend in person can submit their comments in writing to the county clerk by the 10th of next month.

I have recently gotten an excellent Jack From Elkins. He is nine years old, nine and a half paws, black with white feet and a white tail. He is not a bit afraid and eats lots of bones, a big foot and is just too much to handle. This Jack is almost like the one I have now, but he is a bit younger and a bit smaller.

They are the kind that produce the heavy bone and really climb on the people. These two magnificent dogs will make the summer of 1921 as my farm five miles north of Mt. Kisco, known as the E. D. Law Firm, at $10.00 to $15.00 a week, this Jack will be cared for as good natured at it.

WOMAN'S DREAM IS TRUE AT LAST

She Knots Why Multi-Millionaires Offer to Divide Fortunes

To be a sufferer from nerves for ten years, to have been all the torture and mental suffering, that is all this woman almost brings, and then to have this, with the latter, or that, is like having a happy dream come true.

But this was the delightful experience of Mrs. Margaret H. Cole. She is the wife of 18th St., New York, and Mrs. Hunter, the wife of a well-known and highly successful real estate dealer in the New York City, mentally held of the long based for change in her life.

For ten years," explained Mrs. Hunter, "I have suffered from nervous depression. When I read of the offer of multi-millionaires to divide their fortunes if they might be cured of this dread illness, I was overjoyed. I felt that in this way they might reduce the number of their suffering patients, and I felt, too, that I would be cured, because I had no money to offer. It was a matter of many cures with little extra money. Even the smallest fling did not help me.

Food in any form was in my case absolutely repugnant at most times, and I was under the constant care of several doctors, but all of this was in vain. It was a constant loss of money that tapered away the inside. Money was quickly spent for doctors, nurses, and medicine. Casually, I ate a small crust of bread, or a morsel of fruit, and I was in a cure in a few weeks. My case was under the care of Dr. F. G. Duke, New York.

Health for Sick Women

For Forty Years Lydia E. Pinkham's Vegetable Compound Has Been Woman's Most Reliable Medicine — Here's More Proof.

To women who are suffering from some form of women's special ills, and have a constant fear of breaking down, the following letters ought to bring hope and comfort.

North, Canada, Wis. — "When I was 18 years old I married and at first I had very poor health. I found it very difficult to get along comfortably, and I was almost constantly ill. I then tried various nostrums, but without success. One of these contained quinine, and I kept my arm up in the air all day, but to no avail. Finally, I adopted Lydia E. Pinkham's Vegetable Compound, which I bought at a local store. My condition improved at once and I soon felt stronger and could work better. I have continued to use this medicine ever since, and I am now 48 years old and in excellent health. I fully believe in the efficacy of Lydia E. Pinkham's Vegetable Compound."

Mary A. Adams, North Carolina, N.C.

Testimony from Oklahoma.

La Verne, Okla. — "I have been using Lydia E. Pinkham's Vegetable Compound for many years, and I am now 62 years old. I have noticed a marked improvement in my health since I began using this medicine. I am able to work harder and longer than ever before, and I feel better overall. I am very pleased with Lydia E. Pinkham's Vegetable Compound and would recommend it to anyone who suffers from women's ills."

Mary A. Johnson, Oklahoma City, Okla.

From a General Practitioner.

Dr. John Smith, a general practitioner in a small town in the Southeast, has been using Lydia E. Pinkham's Vegetable Compound for the past 20 years. He has found it to be an effective remedy for a wide range of women's ills. Dr. Smith states, "I have been using Lydia E. Pinkham's Vegetable Compound for many years and have found it to be a highly effective remedy for a wide range of women's ills. I strongly recommend this medicine to anyone suffering from women's ills."

Dr. John Smith, General Practitioner, Small Town, Southeast.

"I BOUGHT A BUNCH OF PIGS!"

If you're looking for a way to add some variety to your diet, then you should consider raising pigs. It's easy to do at home and can be a rewarding experience for both you and your family. If you're thinking about starting a pig farm, here are some tips to get you started.

- Choose the right breed
- Learn about pig husbandry
- Get the proper equipment
- Find the right location
- Build a good fence
- Keep your pigs healthy

These are just a few of the things you need to consider when raising pigs at home. With a little bit of effort, you can enjoy a delicious and nutritious source of protein in your own backyard.

GOOD ROADS.

Facts Of Interest To The Voters Of Crittenden County.

There is not a single point of argument left for the opposition to the road issue. Crawford has paid $1,000 a mile, and a half a mile of road was cut into the county, and we believe it will be cut for $2,000 a mile. We have a tax that will pay for it, and if you don't want to pay for it, give us your talk in county and we will give you your talk on the road. We are not going to be outvoted, and we are not going to be outvoted by any county in the state. We are going to have our road, and we are going to have it right. We are going to have it right, and we are going to have it right, and we are going to have it right.

Getting The Figures Down To Where We Can Understand Them.

Let me tell you about the great road bill that has been going on in the state of Arkansas.

The first step is to get the road tax. The road tax is a tax that is placed on every car that is used on the road. This tax is used to pay for the road.

The next step is to build the road. The road is built by using the tax money to pay for the labor and materials.

The last step is to maintain the road. The road is maintained by using the tax money to pay for the labor and materials.

Our road is in desperate need of improvement. We need a new road. We need a new road. We need a new road.

The road is in need of improvement. The road is in need of improvement. The road is in need of improvement.
