

TO THE TO- BACCO GROWERS

To The Farmers of Henderson,
Webster, Union, Hopkins and
Crittenden County.

At the urgent solicitation of members of the old Stemming District Tobacco Association, who have been writing Mr. Sellars, the chairman of the old board, on several occasions to call a meeting of the said committee, to discuss the advisability of making an effort toward pooling the tobacco crop of 1916 or the present planting.

After considering these various calls from over the counties above mentioned, Mr. Sellars gave notice to the committeemen of the five counties above mentioned, to meet at Henderson on the 24th day of May.

Pursuant to this call, the following members were in attendance at this meeting: Mr. R. H. Sellars, Henderson county; W. P. Curry, Webster county; B. E. Laffoon, Hopkins county; C. D. Orlesby, Union county; and Mr. F. I. Travis, Crittenden county.

These gentlemen met at the old Farmers Bank building on Main st., at 10 o'clock, and after discussing matters thoroughly, they decided to send out pooling papers to the chairman of the various counties, and they in turn would distribute these papers among the county committee men, who would place them in each school district in their respective counties, and get an expression from the people, as to whether or not they desired to pool the next crop.

On an unanimous vote the executive board decided to place this matter up to the tobacco growers of Henderson, Webster, Hopkins, Union and Crittenden, and to get an expression from them, as to whether they wished to pool the present crop or not, and after the committeemen had evidence to justify them, they would then call another meeting, say about July 1st, to take additional steps in the matter. It was the sense of this committee, that there was no money available now to pay canvassers, and it would be unwise to spend money in anticipation of another pool until they had had an expression from the people in these five counties.

These pooling papers will be sent out at once, and distributed over the five counties, and if it is the desire of tobacco growers to again pool, they will be given the opportunity to do so, and if in the opinion of the executive board, a sufficient per cent of the farmers indicate their willingness to pool the present crop, the committee will take hold of this matter and vigorously push it to a conclusion.—Executive Board.

BAPTIST MINISTERS MEET.

A dozen or more of the Baptist Ministers of the Ohio River Association met with the Second Baptist Church of Marion at 10:30 A. M. May 20th., and organized a meeting to be known as the Baptist Prayer Meeting of the Ohio River association.

They will meet quarterly with the various churches of the Association. The purpose of this meeting is to pray for the various objects of the work with in the bounds of this Association. There

was a great interest manifested among the brethren and we trust will result in much good in the cause of our master, next meeting will be held with Hampton Church August 22' 1916 at 10 A. M.

At the noon hour the good sisters of the 2nd., Church spread a bountiful dinner of which all present enjoyed very much.

The spiritual atmosphere was fine and many earnest prayers were offered.

We earnestly desire a good attendance of the brethren at our next meeting.

Willard Franks Thanks Friends

I take this method of expressing my sincere thanks to the people who gave me their votes in the late contest for the pony and carriage. You could not have conferred a favor on me that would have given me greater enjoyment in life and you shall always have my highest appreciations for this unmerited kindness. I hope I may so give as to maintain the confidence you have reposed in me.

Willard Franks.

Rev. James F. Price

Visits Old Friends.

Rev. James F. Price has just completed his annual trip in visiting among the old people, his relatives and his old time friends. While he did not get to visit half he would like to have seen, yet he did see most of the older people. He visited his sister, Mrs. Wheeler who is eighty-two Dr. Perkins who is ninety-three and uncle Linzey Travis, who is ninety-five.

He will make another trip to the mountains this week to be gone ten days or two weeks. He will visit Pulaski, Wayne and Russell counties looking after some church work.

YOUNG GIRLS!

Reform in dress of young girls is urged on the mothers of the state by the Federation of Woman's Clubs, in session at Maysville. The club women maintain that immodest dress has much to do with the downfall of women.

Card of Thanks.

We wish to thank all who rendered aid or sympathy during the illness and death of our son Robt. May God bless you in our prayer.

BEAUTIFUL RE- CEPTION GIVEN

In Honor Of Miss. Sallie Woods,
of This City At Jellico,
Tennessee.

A charmingly arranged affair which was beautiful in all its details was the reception given by Mrs. H. E. Downing and Mrs. J. U. Snyder, at the home of Mrs. Snyder, on Cumberland Avenue, Tuesday afternoon in special compliment to Mrs. T. B. Kelly, Narrows Va, guest of Mrs. Downing, and Miss. Sallie Woods, Marion Ky, guest of Mrs. Snyder. The spacious porch was artistically decorated with cut flowers and ferns in which a color motif of red and green was featured. Mrs. Frank L. Smith and Mrs. C. O. Baird received on the porch, where Miss Iris Francis and Mrs. Earnest Frazier very graciously presided at the punch bowl, and served delicious sandwiches. The reception suite was effectively decorated with a profusion of pink carnations and sweet pans.

Mrs. S. C. Baird received in the reception hall where the receiving line was formed. Mrs. J. U. Snyder, Miss Wood, Mrs. Downing and Mrs. Kelly formed the receiving line. After the receiving, the guests were invited into the dining room where Mrs. Joe Snyder and Miss Sidney Smallwood served a delicious ice course. The guest list included Mrs. T. B. Kelly, Miss Sallie Woods, Mesdames Robert Gray, Pete Bennett, Will Cook, Selma Fuller, Jas. F. MacPherson, H. B. McComb, T. B. Johnson, Jas. Wagner, H. M. Smith, J. T. Moore, W. S. Harkness, D. T. Jenkins, Ernest Frazier, Wm. Gaylor, D. E. Tyler, J. Ancil Smith, R. L. Moore, C. A. Templeton, Lizzie Badger, May Smite, D. W. Moore, Hollingworth, J. E. Martin, S. H. Potter, H. K. Trammel, Chester Bishop, Joe Snyder, S. C. Baird, C. O. Baird, Frank L. Smith, J. H. Baker, J. W. Foley, Misses, Nelle Duncan, Florence and Shelly Harris, Mary Hollingworth, Alberta Simons, Cornelia Gray, Mary Craig, Iris Francis, Ethel and Nell Hollingworth, Grace Fine, Bertha Perry, Kate Huey, Martha Blair, Rose Smith, Sidney Smallwood, Virginia, Mary, and Bessie Green.—Advance Sentinel, Jellico, Tenn.

Park Wilsonia Opens It's Doors.

Last Sunday May 28th., the doors of the Park Wilsonia Hotel were thrown open. Directly at 12:30 dinner was served, the orchestra played the entire time, making every guest feel the true hospitality of the proprietresses Mrs. Ida Conyer and her daughter, Miss Vera.

The dining room was filled to its full seating capacity three times. Everyone was delighted with the prospects of the New Hotel. Only those that did not attend were the ones that failed to enjoy the delicious dinner and splendid music.—One who was there.

W. O. W. Decoration.

W. O. W. decoration exercises will be celebrated on Sunday, June 4th, 1916, at the New Marion cemetery at 2 o'clock, p. m., sharp. All members are requested to meet at the Camp at 1:30 p. m., to march to the cemetery. J. W. Wilson, Gen Com. S. H. Ramage, Clerk.

COUNTY CONVEN- TION HILLS DALE

Reported A Great Success. Full
Report of Proceedings
Given Below

This Convention met at Hill's Chapel, Thursday, May 26, 1916. Opening song.—Praise God From Whom All Blessings Flow. Devotional exercise was led by Rev. R. S. Richardson, his lesson being taken from Romans 10th chapter.

Song by Cave Springs Choir, with Mr. Crowell and Prof. G. M. Travis as leaders. This choir did all the singing for the day. Miss. Mamie Crowell was the organist, and a good one too. The music was splendid; the best we have ever had, full of life, and very appropriate. The choir was on their job. May Heaven's richest blessings rest upon them.

Our pastor Brother Richardson gave the welcome address, after which Prof. Travis gave us a solid talk on music and it's importance. Nothing can fill it's place.

At 10:15, Rev. T. C. Gebauer gave us an address on, "The Measuring Line". This was his best, and he handled it without gloss, and to the point. We always enjoy hearing brother Gebauer.

At 11:10, General discussion. Brother E. F. Dean opened the way, and Rev. W. T. Oakley followed, and soon warmed up the good atmosphere. My! My! How he did show the Methodist blood that was in him! Brother Oakley is a walking engine when there is anything good to eat in sight.

Song—"When We All Reach Beulah With The King." I am awfully sorry for all who were not there.

Of course W. G. Hill was at his best.

Rev. Gebauer then took up a collection for the cause, and \$7.75 was the amount of the collection.

And now this brings us to where we can all take a part.

Noon hour. I had fixed a 30 foot table in the shade, and this was soon loaded down with good things to numerous to mention. Then on the grass in the shade was placed the rest of the good things to eat. Then "Grace" was said by Brother Gebauer, and every one then got busy. There was plenty to eat and to spare. Old School Presbyterians, Cumberland Presbyterians, Free Will Baptists, United Baptists, and the Methodists all ate at the same table, and had a good time together.

After dinner some time was spent in chatting, and the committees did their work.

The singings were in their places and gave us a song.

The President then called us to prayer with W. J. Hill.

John W. Blue then gave us a fine talk on the business end of Sunday School. My! My! How John did put down facts! It was simply fine. My! How he did go after the superintendents, teachers and officers on giving. He said "To do the King's business right, you must stay in touch with the King; and those who would not obey orders, must be turned out and others put in who will obey. Said, "Amen".

Superintendent E. J. Travis came up after dinner, and was called to the platform. He said, from the loss of sleep and good

roads talking, he did not know whether he could make a Sunday School speech or not. He gave us a few things to think over, any way.

Then had reports of the Committees.

Committee on Nominations, President E. F. Dean, Vice Pres. W. J. Hill, Secretary Miss. Willie Pickens.

Superintendent of Cradle Roll, Miss Julia Threlkeld.

Adult work—Gladdis Threlkeld.

Home Department—Joe Foster.

Temperance and Purity—W. W. Lamb.

Secondary work, G. W. Travis. Then on the home-stretch and at the eleventh hour. Brother Hollis Franklin came in and gave us a fine talk, with two fine lessons in it. First, the man or woman who neglects duty has a sad life and a starless crown. Second, Where you go some-one else will follow. He illustrated this with the story of the little black dog.

The good women say this was a fine Convention. They did their work well.

We were glad to have Brother McDowell with us. Also W. T. Oakley, G. M. Crider, uncle Al Dean, and all the rest. Uncle Muck walker was there with his usual appetite.

Come again one and all.

W. J. Hill.

INTERESTING REPORT BY

W. D. Cannon of His Trip to The
Southern Baptist Convention
at Asheville, N. C.

Leaving Marion 9:45 Tuesday morning May 16th, as a messenger to the Southern Baptist Convention at Asheville, N. C., via I. C., to Hopkinsville; then by the Tennessee Central to Mari-man, Tenn.; then by the Southern via Knoxville, Jeffersonville, Morristown and Newport, entering North Carolina by crossing Wolfe creek then following the French Broad river for seventy miles, which is a shallow river from 40 to 100 yards wide, winding its way through the mountains which often come up to the water's edge, crossing the beautiful river five times which comes surging over its stony bed, leaping over its many falls, shadowed by the beautiful mountains one is made to wonder at the handiwork of God.

Crossing the geographical date line, changing the time from Central to Eastern.

Near Hot Springs, N. C., we arrived in Asheville 2:55 Eastern time or 1:55 Central time.

Finding here a beautiful little city of 34,000 which is situated in the center of a vast plateau, surrounded by beautiful valleys hemmed in by mountain peaks. One of which (Mt. Mitchell) is the highest point in Eastern America, being 6,711 feet above the sea level.

Asheville is said to be one of the cleanest and most healthful cities in the world.

It is said of Asheville, that the water is so clear that the not over-energetic are tempted to abstain from bathing.

The water is piped 17 miles from the mountain and the water power is so strong that the water comes from the faucet, milk-warm. The water is so soft that soap is at a discount.

MARION GIRL IN CHARGE

Jellico School's Department Art Re-
ceives Great Honor And Is
Awarded A Picture.

The Department of Art in the Tenn. Federation of Women's Clubs gives annually a prize for the best collection of Art exhibitions at their State Convention, done by any individual School in the State. Through the interest of the Lanier Club which is a live member of that organization and which is interested in all the work done in our City School and by its pupils, a collection of pictures was sent to Chattanooga by Miss Florence Harris teacher, to the convention recently held there. The prize is given at these conventions for the best collection of Art, that is painting needle work, crayon and everything done with the hand that comes under the head of Art.

The Chattanooga High School had a very large and complete exhibit and was therefore awarded the prize, which was a beautiful picture. While the Jellico exhibit was small and consisted of only one class of work which was painting, owing to the individuality of the work and the artistic handling of the beautiful and well chosen subjects, Jellico City High School received special mention, a blue ribbon was also awarded a picture. Bristol and Johnson City also received these honors with Jellico, but these schools have had a Department of Art in their curriculum for years and have also exhibited before at this convention. Jellico should feel real proud of the talent possessed by some of the boys and girls along this particular line of work. Nearly every High School in the state of Tenn whose home town had a woman's club organization and there are one hundred eighty five clubs in the state with a membership of between eight and nine thousand women, whose business it is to promote all interests along educational and altruistic lines, had an exhibit there, and thus so much greater is the honor to the Jellico City High School.—Advance Sentinel, Jellico, Tenn.

DECORATION DAY EXERCISES.

The Decoration Day Exercises at New Cemetery on the morning of the 30th, was well attended, the largest crowd present that has ever been on this occasion. This was very gratifying to the association, as it speaks of more interest in the cemetery work, on the part of our citizens.

Owing to the cloudy, threatening morning, the crowd was late gathering, and the programme was delayed. After the decoration of the graves, the programme, which was appropriate, was well rendered and was as follows. Announcements by John W. Blue.

Prayer—Rev. J. B. Trotter. Recitation—Miss Viva Shuttlesworth.

Male Quartette.

Address—Rev. Escott.

Duet—W. B. Yates and wife.

Election of Directors.

After this, the Directors for the year were elected. The old Board, consisting of J. W. Blue, H. V. Stone, L. E. Crider, and J. C. Bourland, was re-elected unanimously.

DEANWOOD

(delayed from last week.)

The ice cream supper near Deanwood was well(?) attended.

Sylvia Dean, Rebecca Morse and Leah Birchfield are at home from Marion, where they have been attending high school.

Uriah Terry and family visited Mrs. Olivia Walker Saturday night and Sunday.

Miss Carrie Morse was the guest of Miss Ruby Dean at Marion several days last week.

How would you like to travel 108 miles by sleigh in zero weather?

That's what President Terry of the Hartford Fire Insurance Company did after the great New York fire of December 16, 1835, in order to make immediate payment of the Hartford losses.

In the same staunch spirit the Hartford promptly paid out \$1,900,000 after the Chicago fire, and \$10,000,000 after the San Francisco disaster.

Hartford protection costs you no more than other kinds—and you can depend upon prompt settlement in case of fire. May we tell you more about it?

Letter From Birmingham Alabama.

Mr. S. M. Jenkins:

Dear sir—

I would like to tell my few or my many friends through the press, my sad experience with the old Confederate soldiers today at the reunion which is being held here. I put on my badge with my suit of blue, and went down to mix with them. I was greeted altogether kindly, as I rambled through the crowd of them, which was said to be three thousand. I was greeted by many sad looking cases, some with one arm, some with one leg, some blind, some too feeble to get around alone; I also met many of them that were not far from me in the battle of Shiloh, Missionary Ridge, and Franklin Tennessee. As I looked at them and clasped their hand, I wondered if it is possible that this man's bullet was the one that came so uncomfortably close at these different engagements, to my old pate. And yet to-day we can meet and shed a tear of joy. The blue and the gray, know full well that the common soldier was not the cause of that four years of hard struggle, it was some one higher up. So the next time they want trouble between these old states of ours, we are not going to shoulder a gun, but let some one else interfere, then we will all go as one; both the blue and the gray, if they will have us.

Respectfully, L. J. Allison.

WIFE TOO ILL TO WORK IN BED MOST OF TIME

Her Health Restored by Lydia E. Pinkham's Vegetable Compound.

Indianapolis, Indiana. — "My health was so poor and my constitution so run down that I could not work. I was thin, pale and weak, weighed but 109 pounds and was in bed most of the time. I began taking Lydia E. Pinkham's Vegetable Compound and five months later I weighed 133 pounds. I do all the housework and washing for eleven and I can truthfully say Lydia E. Pinkham's Vegetable Compound has been a godsend to me for I would have been in my grave today but for it. I would tell all women suffering as I was to try your valuable remedy." — Mrs. Wm. Green, 322 S. Addison Street, Indianapolis, Indiana.

There is hardly a neighborhood in this country, wherein some woman has not found health by using this good old-fashioned root and herb remedy.

If there is anything about which you would like special advice, write to the Lydia E. Pinkham Medicine Co., Lynn, Mass.

ODESSA

As we haven't seen anything from Odessa in some time, we thought we would send in some news from this place.

About all the winter crop is harvested now. You all know what I mean when I say "winter crop." It's when the weather is real cold, and the snow is falling thick and fast, and several farmers gets gathered around a good

warm fire, it's then that we raise a big crop without much work.

Misses Lora and Mayme Hodges visited Miss Lura McConnell Sunday.

Roy and Lewis Coleman visited John Stenbridge's folks Sunday.

Coie McConnell went to Blackford Saturday on business.

Miss Nannie Brown is visiting her sister in Webster county this week.

Sunday school at Blackburn every Sunday evening. Everybody invited to come.

W. R. Warren and family were the guests of John Vanhooser's family in Caldwell county last week.

We had better close, but before we do we want to tell you a good story that will tickle you perhaps five minutes after you read it. It is true and we can prove it. Now to the story: A year or so ago, W. J. Hodges, of this community planted some corn in what is known as the Lemon bottom; is surrounded by cliffs and after the corn had gotten into roasting ears the groundhogs got to tearing it down, and one hot day at noon uncle Bill shouldered his long barreled rifle and started out to kill Mr. Groundhog. He got to the place where the depredation was being done, and sit down in a cool shade to await for the hog. He had not been there long till he became some sleepy and setting his rifle against a tree, he laid down and was soon fast asleep. He slept for some time and awoke by feeling something heavy on his leg, and when he raised up to look, lo, and behold there on his leg lay about a half-grown groundhog, he calmly picked up a stick and killed the groundhog, shouldered his rifle and went back to the house. Now, any one that can beat this for a true story. We would like to hear from you.

A Merciless Judge

One Who shows No Favor

A merciless Judge is Father Time. Before him the weak and the wanting to go to the wall. Only the truth can stand. For years the following statement from a Marion resident has withstood this sternest of all tests.

J. E. Glass, farmer, Marion, says: "I was subject to backache of the worst kind for years, in fact, the pain caused many sleepless nights. I took a number of medicines, including the doctor's without the slightest benefit. I finally got a box of Doan's Kidney Pills at Haynes & Taylor's Drug Store and they gave me instant relief. In less than a week, the pains in my back had vanished."

LASTING BENEFIT.

OVER FOUR YEARS LATER, Mr. Glass said: "I still recommend Doan's Kidney Pills to kidney sufferers. The benefit they gave me has been permanent."

The Parish Players, Who Are Coming Here Chautauqua Week In Three One-Act Plays

Photographs by Moffett, Chicago.

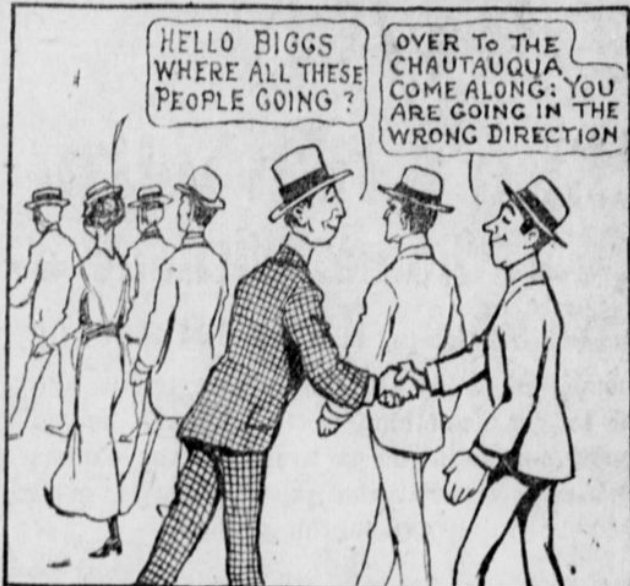

THE Parish Players. The value of the drama, rightly directed, in community life is to be described and illustrated on the third night of the Chautauqua. Harold Heaton, prominent in connection with the "little theatre" movement and Chautauqua lecturer on matters pertaining to the drama, will give a brief introductory address on this theme, upon which he is an authority. This is to be followed by three one-act plays by the Parish Players; also a brief sketch—the "Lady Teazle" scene from the old classic, "The School for Scandal."

The first play will be a stirring and timely drama known as "The War Zone," which not only interests, but has a lesson. The "Lady Teazle" scene will follow, then a romantic play and, lastly, a clever and pleasing comedy. As to the personnel, Harold Heaton, heretofore referred to, will play an important role. He has played with many famous actors, including James K. Hackett. Miss Fern Hobart Doubleday, another member of the company, is a brilliant young actress of great personal charm and vivacity who has appeared in several repertoire companies and has won honors in lyric pantomime and musical comedy. Having appeared in leading parts with the Victoria Players and the Boyd-Nolan Players, Miss Doubleday is an experienced player as well as a student of the drama.

Earl Russell, comedian and character impersonator, has been successful as the sultan in the "Sultan of Suta" as well as in other important characters in the plays from the writing of George Ade. Mr. Fritz Schlemmer is the fourth member of the cast. In addition to his work as an actor, he is a master of lighting effects and has recognized abilities as a painter, both of which talents will add to the effectiveness of this production.

The staging for the Parish Players, for example, was created especially for them by Fritz Schlemmer and executed by the Dodge & Castle Studios, New York. The lighting effects are from the celebrated Kierly Studios, New York, the same masters of stage lighting who produced the wonderful effects in the "Garden of Allah" and "Kismet" for the New York Hippodrome.

SEVEN BIG DAYS OF CHOICE INSTRUCTION AND ENTERTAINMENT

CHAUTAUQUA HERE
WEEK OF JUNE 23rd to 30th

Camels Utilized in Place Of Horses

London April 29—Owing to the scarcity of horses in Sheffield a big mercantile establishment hit upon the scheme of yoking two camels and an elephant to a dray and found the experiment that the outfit is a fixture on the city's streets. The animals jog along easily with a load of ten tons doing the work of eight horses.

A WORD FOR MOTHERS

It is a grave mistake for mothers to neglect their aches and pains and suffer in silence—this only leads to chronic sickness and often shortens life. If your work is tiring, if your nerves are excited, if you feel languid, weary or depressed, you should know that Scott's Emulsion overcomes just such conditions. It possesses in concentrated form the very elements to invigorate the blood, strengthen the tissues, nourish the nerves and build strength. Scott's is strengthening thousands of mothers—and will help you. No alcohol.

Every Chicken In Town
Killed By Hailstorm

DANGER SIGNALS.

No engineer would be mad enough to run by the flag which signaled danger. What the danger was he might not understand, but he would take no chances. It is different with the average man or woman. They attempt constantly to run by the danger signals of nature and that attempt costs thousands of lives every year. When the appetite becomes irregular or entirely gives out, when sleep is troubled and broken, when there is a loss of flesh,

there is a constant feeling of dullness and languor, nature is hoisting the danger signal. The stomach and its allied organs are falling in their work and the body is losing the nutrition on which strength depends. Such a condition calls for the prompt use of Dr. Pierce's Golden Medical Remedy. The world's proved and purifier. It's not a secret remedy for its ingredients are printed on the wrapper. Start to take it to-day and before another day has passed, the impurities of the blood will begin to leave your body through the liver, kidneys, bowels and skin, and in a few days you will know by your steadier nerves, firmer step, keener mind, brighter eyes and clearer skin that the bad blood is passing out and new, rich, pure blood is filling your arteries. The same good blood will cause pimples, acne, eczema and all skin eruptions to dry up and disappear. It's a tonic and body builder. Get it to-day in either liquid or tablet form or write Dr. Pierce, Medical Department, Buffalo, for free medical advice.

Another Danish Vessel Launched In 1786, Is Lured To Sea.

Copenhagen, May 27, (Correspondent of the Associated Press)—A remarkable example of the extraordinary straits to which shipping has been reduced for want of vessels is told of in a dispatch to the Ekstrabladet, from Svenborg, Denmark. Anything that will float is being pressed into service.

Two sailing vessels, one, the Marie of Troense, which was built in 1776, and another, the Tvede Brodre, of Marstal, built in 1786, have been rigged up and sent out to enter the competition for the enormous freight rates which are now being offered everywhere.

PEORIA WOMAN
TELLS EXPERIENCE

Mrs. W. L. McClellan, of Peoria, suffered torture from indigestion, gas belching and other symptoms of stomach trouble. She spent large sums of money for doctors' advice and medicine. Still her condition did not improve. She found relief, wonderful, surprising relief in a drug store window. This is her story, as she tells it: "I suffered so from distention and colicky pains that at times I was completely incapacitated for my household work. I saw a window display of Mayr's Wonderful Remedy and decided to purchase a bottle, which I did. I have taken only one bottle and the results have been really wonderful. I have not had a pain in my stomach since, and let me say that for the first time in many, many months, two days following I have had a natural movement of the bowels. I feel I cannot say enough for the remarkable virtues of your remedy." Mayr's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your druggist now and try it on an absolute guarantee—if not satisfactory money will be returned.

Notice

The license tax on all male dogs over three months old is \$1.00 each; on all female dogs \$2.00 each that are kept within the City limits. This tax is now due and must be paid at once, I am prepared to receipt you and give you a tag with number to be placed on the collar on your dog. The ordinance provides that all dogs that a license tax is not paid on must be killed by the City Marshal. I don't want to kill your dog, so it's up to you to pay the tax and keep your dog or refuse to pay it and have him killed. This means all who own dogs within the City limits.

CHIPPING SPARROW

Spizella passerina

Length, about five and one-fourth inches. Distinguished by the chestnut crown, black line through eye, and black bill.

Range: Breeds throughout the United States, south to Nicaragua, and north to southern Canada; winters in the southern United States and southward.

Habits and economic status: The chipping sparrow is very friendly and domestic, and often builds its nest in gardens and orchards or in the shrubbery close to dwellings. Its gentle and confiding ways endear it to all bird lovers. It is one of the most insectivorous of all the sparrows. Its diet consists of about 42 per cent of insects and spiders and 58 per cent of vegetable matter. The animal food consists largely of caterpillars, of which it feeds a great many to its young. Besides these, it eats beetles, including many weevils, of which one stomach contained 30. It also eats ants, wasps, and bugs. Among the latter are plant lice and black olive scales. The vegetable food is practically all weed seed. A nest with four young of this species was watched at different hours on four days. In the seven hours of observation 119 feedings were noted, or an average of 17 feedings per hour, or four and one-fourth feedings per hour to each nestling. This would give for a day of 14 hours at least 238 insects eaten by the brood.

Any price typewriter you want. See Walter Guess.

Protect your credit. Money to loan on farms, from \$1,000 up. From 5 to 10 years. Interest averages 7 per cent.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known for the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Whiskey? No.
Not For Rheumatics.

Don't drink whiskey if you have rheumatism, be sure and keep your feet warm and dry, and drink plenty of lemonade.

This advice, says an authority, is helping; but as all know who have suffered, rheumatism is a stubborn disease and yields only to a steady and energetic effort to conquer it.

Many doctors have prescribed and hundreds of helpful druggists have advised a half teaspoonful of Rheuma once a day, because they know that powerful Rheuma, harmless as it is, acts with speed and overcomes in a few days the most torturing case of rheumatism or sciatica.

Try Rheuma;—J. H. Orme and all druggists sell lots of it and will return your money if two 50-cent bottles do not stop all rheumatic misery. 15

A YOUNG MAN

without good clothes is like a fish without fins, an eagle without wings,—a "home without a mother-in-law." Incomplete, unhappy, out of the swim! It's as natural for

a young man to want good clothes as a horse to want oats. There's something wrong with any young fellow who "doesn't care." And if you care at all, you care enough to get the best; to get something worth while; to be "in style" and up-to-date! Of course---and it's all so easy that it's a wonder anyone should go wrong on the clothes question. YANDELL-GUGENHEIM CO., fill every requirement. We can give you exactly what you want---style, quality, distinctiveness; all at very moderate cost. We are specially well equipped to fit you out this spring.

Each day returns and brings us the petty round of irritating concerns and duties; help us to play the man; help us to perform them with laughter and kind faces; let cheerfulness abound with industry.—Stevenson.

"A gentleman is a man who's clean inside and outside; who looks neither up to the rich nor down on the poor; who can lose without squealing, and win without bragging; who's considerate to women, children and old people who is too brave to lie, too generous to cheat; who takes his share of the world's goods and lets other people have their's."

The Board of Issue was voted down last Saturday by a majority of 187 votes. A great interest was manifested in the matter. The precincts and their votes were as follows.

Question Validity of

Union's Bond Election

Morganfield, Ky., May 22. — A question has arisen as to the validity of the election held in Union county on April 1, by which \$450,000 bonds were voted for the building of roads and bridges.

The matter was referred to Storney, Thorndyke, Palmer & Dodge, bond attorneys, of Boston Mass., who in their opinion doubt the legality on account of the election not having been properly advertised.

The election was advertised in the Morganfield Sun, a twice-a-week paper, but only inserted in every other issue. The opinion of the attorneys being that it should have been printed in every issue.

Sufficient Proof.

This is what Herman Rosenfield, advertising manager of Sears, Roebuck & Co., recently told the American Ad club at a convention: "We have a bureau whose duty is to read the country newspapers. There is not a paper of any consequence in our territory we do not get. The bureau looks over these papers and when we find a town where the merchants do not advertise in the local paper, we immediately flood the territory with our literature. It always brings results far in excess of the same effort put forth in territory where the local merchants use their local papers."

A WONDERFUL ROOSTER.

Seymour, Ind., May 22.—Mrs. Eliza Jsacs, who lives on a farm eight miles west of this city, owns a rooster that is equal to any rat terrier when it comes to eradicating the rodents about the place. The rooster has located several holes near the sheds and patiently guards over them, awaiting the appearance of a rat. He sits on guard by the entrance and seldom lets a rat escape.

It Wasn't A Kitten.

Nearly all the pupil and the young teacher at Smartsville school thought it was a kitten at first. The exception was John Reading, who identified the animal and promptly slid out of an adjacent

window. Incidentally that is why Johnny didn't have to get a new suit.

Teacher and other pupils tried to fondle the kitten. Incidentally that is why they did have to get new suits and why they did have get new suits and why the school house is being fumigated.—Maysville Bulletin.

Interesting Report By

W. D. Cannan.

(Concluded from page 1.)

The air is so pure and invigorating that you find yourself hastily exhaling the breath in order to be able to inhale it again.

At 3 p. m., Wednesday, the 17th, the convention was opened in the Alexander Tabernacle, a great structure with a seating capacity of 5,000 but with extra chairs seating some 2,000 more. It was indeed a wonderful gathering of Baptists, as was shown from the report.

Representing over 4,000,000 Baptists. It seemed as if the whole world were Baptist, if not, they ought to be. It was indeed a great meeting and is an inspiration to be in the presence of some of the greatest preachers in the world, such as Geo. W. Truett, Lansing Burrows, Len G. Braughton, Dr. Gambrell, W. M. Wood, E. Y. Mullen, M. E. Miller and hundreds of others.

On Friday a crowd of about 100 availed themselves of the opportunity to go upon Mt. Mitchel. Eighteen States were represented on the trip. This certainly is one of the greatest scenes in America.

From the starting point to the top of this mountain is only 7 or 8 miles, but the way the scenic railway runs is 23 miles to the station on stopping point, then, a trail of one mile to the top.

We arrived at the last stop at 1 p. m., and about 1:30 we were on the mountain top. After a short rest and rambling over the summit, upon suggestion, a praise service was held, Rev. C. W. Rodgers, of Sarah, Miss., called to those who were present that some of us was going to hold a praise service in the observation tower. Bro. Rodgers made a short talk and called the meeting to order, and the following program was carried out:

Song—"Higher Ground."

Scripture Reading—Rev. Jas. Allen Smith, of Maryville, Tenn., Mark 9:1-14, speaking on the "Transfiguration."

Prayer—Rev. Z. D. Harnie, of Ellenboro, N. C.

Talk—"Importance of Religious Teaching."—W. D. Cannan, Marion, Ky.

Talk—"Standard of The Christian Should be Equal to that of The Pastor."—B. G. Broadman, Kingston, R. I.

Talk—J. J. Johnston, Oxford, N. C., "The Work of the Pastor and Teacher."

"Sweet Bye And Bye," and "Amazing Grace," was sung and closed with prayer by Rev. C. M. Rogers.

The following eighteen States were represented:

Rev. C. W. Rogers, Sarah, Miss.; Rev. Jas. Allen Smith and wife, Maryville, Tenn.; Rev. J. D. Harnie, Ellenboro, N. C.; W. D. Cannan, Marion, Ky.; Rev. B. G. Broadman, Kingston, R. I.; Rev. J. R. Stone and wife, Knoxville, Tenn.; Rev. J. W. Lett, Americus, Ga.; Rev. P. C. Stanton, Staunton, Va.; A. W. Cook, Greensboro, N. C.; Mary E. Peak, Kalama-zoo, Mich.; Frances Barbon, Detroit, Mich.; H. N. Buick, Rentz, Ga.; J. J. Johnston, Oxford, N. C.; H. P. Glasgow, Roanoke, Va.; Mrs. Mary Turner, Lynchburg, Va.; Mrs. Emily Judsan, Lynchburg, Va.; H. C. Duncan, Chesterwood, Ky.; Miss M. P. Marri, Lynchburg, Va.; H. A. Dane, Tillitoba, Miss.; Mrs. G. C. Holloway, Nicholasville, Ky.; John A. Baker, Jr., Pa.; Mrs. C. L. Turk, Bardwell, Ky.; W. H. Finney, Morrow, Ky.; Miss Swannie Saunders, Goodview, Va.; R. D. Carpenter, Crawley, La.; James L. Walker, Greenville, S. C., and a number of others that I failed to get their names and addresses.

While the convention was not in session I was trying to "see things." The Vanderbilt estate out at Biltmore, Mt. Pisga, Sunset Mountain, Grove Inn, Ridge Crest, were all beautiful but the scene on three hours ride and the one mile trail to the top of Mt. Mitchel put all the others in the background.

The sermon by Geo. W. Truett, of Dallas, Texas, was certainly plain and powerful.

Two hours before the time for the preaching the Tabernacle was filled and hundreds even thousands were turned away. The text—"I am not ashamed of the gospel of Jesus Christ." And I was not ashamed of it either. The convention meets next year at New Orleans. I hope that many of the lay members of this association will attend next year. It will help you and cause you to help others. This convention represented more than 4,000,000 Baptist with 35,779 white churches 18,679 colored churches Total 54,235 churches 37,371 ministers, 42,69 Sunday schools

with 3,288,992 pupils. Baptisms this year 309,243. —W. D. CANNAN

Decoration Day Exercises.

Continued From Page 1.

At four o'clock Tuesday, in the office of J. W. Blue at a meeting of the Directors, the following officers were elected:—J. R. Summerville, President, Frank Dodge, Vice-President, Mrs. W. B. Yandell, Treasurer, and Miss. Nelle Walker Secretary. The association will appreciate the co-operation of all the citizens of Marion, and especially urge the help of all the lot owners this year.

The Cemetery is now in the best of order, having been under the special supervision of J. S. G. Greene, who has proven himself very efficient in this work.

Let us all lend our hand to this worthy cause and show our appreciation of the officers of the Association who have worked so well and without any compensation, to make the Cemetery what it now is.

SONG SPARROW

Melospiza melodia

Length, about six and one-fourth inches. The heavily spotted breast with heavy central blotch is characteristic.

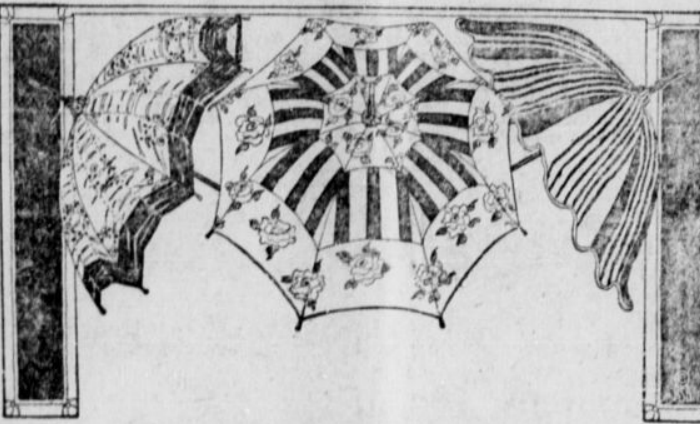

Range: Breeds in the United States (except the South Atlantic and gulf states), southern Canada, southern Alaska, and Mexico; winters in Alaska and most of the United States southward.

Habits and economic status: Like the familiar little "chippy," the song sparrow is one of our most domestic species, and builds its nest in hedges or in garden shrubbery close to houses, whenever it is reasonably safe from the house cat, which, however, takes heavy toll of the nestings. It is a true harbinger of spring, and its delightful little song is trilled forth from the top of some green shrub in early March and April, before most of our other songsters have thought of leaving the sunny South. Song sparrows vary much in habits, as well as in size and coloration. Some forms live along streams bordered by deserts, others in timbered regions, others on rocky barren hillsides, and still others in the fertile valleys. With such a variety of habitat, the food of the species naturally varies considerably. About three-fourths of its diet consists of the seeds of noxious weeds and one-fourth of insects. Of these, beetles, especially weevils, constitute the major portion. Ants, wasps, bugs (including the black olive scale), and caterpillars are also eaten. Grasshoppers are taken by the eastern birds but not by the western ones.

NEW PARASOLS FOR

RESPLENDENTLY LOVELY.

Many plain taffetas in blue, tan, green, rose, lavender and striped combinations in colors and black white are shown with natural wooden handles. The new short frilly parasol is very fetching, also the cord bracelet idea is good, slipping comfortably over the wrist so there is no danger of losing it. You should come in and see this showing. They make beautiful gifts for graduates and brides. Priced \$1.00 to \$8.00.

WOMEN AND CHILDREN

LITTLE GIRLS ADORE THEM.

Parasols for them are just as dainty and pretty as those we have provided for mother and big sister--in this showing there are parasols of flowered cottons for the little youngster and fancy striped and figured silks for young misses--splendid for gifts. Priced 50 cents to \$4.50.

You'll do just as we did when this shipment of Parasols arrived--really enthuse about them, they're so beautiful, so varied in style, colorings and materials. Just a suggestion of what some of them are like.

FRENCH BANK GATHERS GOLD

Bank of France Takes in a Billion and a Half Francs—Finances The Government.

Paris, April 28—The Bank of France has taken in a billion and a half francs in gold in deposits and in exchange for paper money and government bonds since Dec. 24, 1914, and the receipts continue at the rate of five million a week. These receipts have brought it's gold reserve up to about the five billion mark and maintained it there notwithstanding shipments abroad in the meantime of 666 millions, most of which went to Great Britain.

The Bank of France is not a government bank in the strictest meaning of the term, but it is the state's banker—the lender to which the state applies when it needs to borrow money.

The bank has now advanced to the government seven billion one hundred million francs. The money is lent at the special rate of one percent interest by the terms of the contract with the government, and is to be repaid within one year after the end of the war or before. If the loans are re-newed after that period, they will bear three percent interest.

Besides financing the government the bank has protected the exporters unable to realize on their foreign credits at the outset of the war by buying up their drafts to the amount of 800 million francs, and furnishing guarantees for an English loan of five million pounds to a Parisian bank and for an American loan of \$20,000,000.00. It has at the same time contributed largely to the revival of trade by facilitating payments in instalments of balance due from merchants at the beginning of the war, involving a stupendous amount of work since at the beginning of 1915 there were in the main of exchange more than 200,000 different debtors, amounting to 2,078,982 215 francs. The transactions of the bank during the first full year of the war, cash receipts and payments combined amounted to 214,522,000,000 francs.

One result of the perturbation in finances resulting from the war was the encouragement given to customers by the bank to make their transfers by check instead of currency. It may result in a permanent and general use of the American check system, thus far looked upon with little favor in France.

SENATOR BECKHAM

Thinks Some Other Democrat Should Be Placed On Kentucky Delegation

Washington, May 29.—Senator J. C. W. Beckham, who left last night for Lexington to attend the democratic state convention today authorized a statement to the effect that he will not ask the convention to make him a delegate to the national convention, believing that this honor should go to some democrat who does enjoy public office and party honor, but who is giving his time and ability to the success of the party as enthusiastically as if he enjoyed material honors from it. Senator Beckham says he thinks he should be content with honors present and past conferred upon him, and not seek to deprive some one else of recognition which he might have because of his present place.

Senator Beckham said:

It is, of course, gratifying to all democrats that the democrats of Kentucky are unanimous in their indorsement of President Wilson and in their earnest desire for his renomination and re-election even those who were as much opposed to him for the nomination four years ago are now loud in their praise of him and are advocating the utmost harmony in our state convention in Lexington next Wednesday.

NOT SEEKING PLACE.

Of course I appreciate the suggestion of my name as one of the four delegates from the state-at-large to the national convention at St. Louis, but I am not seeking the place and believe it should be given some other democrat."

Editorial note.

Not-with-standing the above Senator Beckham was named, and will go, so we are informed as one of the Party's delegates to the National Convention.

Mrs. Susan May Dixon, died Friday May 26, 1916, at 11 o'clock, after a lingering illness of several months, from which it was known by her family and friends she could never recover.

She was the widow of the late Dr. John O. Dixon to whom she was married June 20, 1889, and had never been reconciled to his death which came so suddenly and was such a shock to her.

She is survived by one son, Galen, of Hurricane vicinity, and one daughter Mrs. W. M. Nunn, of this city; two brothers, J. B. and P. B. Croft, of Tolu and three sisters; Mesdames Nora Yates, of this city, and Mrs. Green B. Crawford and Mrs. W. E. Dowell, of Tolu, all of whom were here to attend her funeral and burial.

The deceased was born April 26th, 1862 and was therefore in her 55th year.

The funeral was preached Saturday afternoon at 2 o'clock, at the First Baptist church of which she was a member, and the interment was at the new cemetery immediately after.

OUR PUBLIC FORUM

R. P. Schwerin
On the Seamen's Bill

The American plowmen are interested in sea commerce. It is expensive and likewise humiliating to have to salute a foreign flag every time a farmer wants to ship a bushel of wheat, a bale of cotton or a pound of farm products across the ocean. The American farmer is entitled to the protection of his flag in sending his products across the sea, and Congress should give such encouragement to shipping interests as is necessary to meet foreign competition in ocean commerce. A recent bill known as the Seaman's Bill became a law under the President's signature and Mr. R. P. Schwerin, vice-president of the Pacific Mail Steamship Company, when asked to define this law and outline its effect upon American steamship lines, said in part:

"The bill provides that no ship of any nationality shall be permitted to depart from any port of the United States unless she has on board a crew not less than seventy-five per centum of which, in each department thereof, is able to understand any order given by the officers of such vessel, nor unless forty per centum in the first year, forty-five per centum in the second year, fifty per centum in the third year, fifty-five per centum in the fourth year after the passage of this Act, and thereafter sixty-five per centum of her deck crew, exclusive of licensed officers and apprentices, are of a rating not less than able seamen."

"The overseas trade of the world is competitive, therefore the original cost of the ship and the operation of the ship have to be reckoned with in the keen competition of these rival nations with one another. The Oriental sailor is obedient and competent and is the cheapest sailor in the world. It is therefore manifestly clear that if this law applied to all nationalities in the trans-Pacific traffic, all would be on the same economic basis, but it works a single hardship to all the ships of the world, except the Japanese and American ships, and with the latter it works two hardships. With the European, the cost of constructing a ship is no higher than the cost of constructing a Japanese ship, but if they had to provide European crews, while the Japanese operated with Japanese crews, the condition of competition would be such that they could not overcome the handicap and they would be driven off. Put the American ship would have to contend not only with the tremendous increase of cost of wage in the substitution of the European crew for the Chinese crew, but also the greater initial cost of the ship. As the Japanese have now done away with their European officers and Japanese crews, all of whom speak a common language, there is no difficulty for them to comply with all the conditions of the bill and continue their Japanese crews, with Oriental wages."

"The law, therefore, instead of assisting the American ship, adds another heavy burden, while it places none whatever upon the Japanese ship, but, on the contrary, turns over to the Japanese the traffic of the Pacific Ocean, which the American ship is forced to forego by act of Congress of the United States."

Chautauqua Season Tickets

In arranging to inaugurate this Chautauqua this year, the local committee bought 1,000 \$3.00 season tickets.

After the opening day no season tickets can be had for less than \$3.00.

For the single admissions to the respective entertainments, see the official programs.

Season tickets are non-transferable except within the owner's family. The name of some member of the family must be written in ink upon every season ticket. This provision is made primarily as a protection to the owner in case the ticket should be lost.

Children's tickets admit children aged six to fourteen years inclusive. All children are admitted to the children's work free.

These tickets will be sold while they last at \$2.50 each.

QUARTER MILLION PEOPLE FAVOR A PROPER DEFENSE

Personal Protection Against Common Enemies Is the Popular Policy.

More than a quarter of a million people—over two hundred and fifty thousand men and women—praise Tanlac today because Tanlac has made them better—made them feel better, given them more strength, more energy, more vim, better nerves, surer ambition, surer hope.

The tremendous triumph of Tanlac is easy to understand.

There are many sick people—some of them actually diseased, others simply "ailing," "not feeling well," "run down." And very often to be ailing, not feeling well, run down, is just the beginning of being diseased, because weakness brings illness. The weak cannot successfully resist attacks of disease.

These sick people sometimes get used to being sick. They are in the habit of not feeling well. People get so they believe it is natural to suffer from indigestion, dyspepsia, belching and bloating from gas, sourness and soreness of the stomach, constipation, biliousness, inactive liver, distension, kidney troubles, pains in the sides and back, palpitation of the heart, headaches, "ringing in the ears," weakness, nervousness, loss of appetite, sleeplessness, falling off in weight, foul breath, coated tongue and irritability.

When such people take Tanlac and win relief from their ills by Tanlac, get back their health and once more actually enjoy "being alive," they praise Tanlac—praise it with the thanks and gratitude that only the winning back of health can put into their hearts.

TANLAC'S TRIUMPHS

In the first nine months after Tanlac was offered to the public in Kentucky, one million bottles were taken. Tanlac won instant recognition as the Master Medicine.

The Tanlac Laboratories are producing Tanlac at the rate of five million bottles a year, and the demand is even greater than that.

There is a reason for Tanlac's triumphs. Back of Tanlac's record in the drug store is Tanlac's record in the home. Back of both records is Tanlac's extraordinary merit. Only this extraordinary merit of Tanlac wins the kind of victories that Tanlac has won and is winning.

WHAT MEN DON'T KNOW OF WOMEN IS A WHOLE LOT

There are lots of things about women that the average man does not understand.

When women arise in the morning they are just as apt to feel tired as anybody else. But women generally conceal their weariness. They just go to their endless tasks about the house and say nothing.

Mrs. Lizzie Stewart, of 723 State Street, Louisville, gives some interesting experiences on this subject.

"While I sat up in the morning now I feel vigorous, and I work from morning till night without any pains whatsoever."

For Mrs. Stewart took Tanlac. Her condition before she took Tanlac was different.

"I suffered severely from my kidneys, and my blood was also in a bad condition."

"Hearing so many people speak well of Tanlac, I thought I had better try it. After taking three bottles I can truly say that it has helped me wonderfully. When I get up in the morning I feel vigorous and I work from morning till night without any pains whatsoever."

For Mrs. Stewart took Tanlac. Her condition before she took Tanlac was different.

"I suffered severely from my kidneys, and my blood was also in a bad condition."

STRANGE PEOPLES DELVE WEIRDLY IN HILLS AND PLAINS

Wilderness, Waste, Jungle and Tundra Have Harvests of Their Own.

Throughout the whole vast world Nature has her gardens—in the jungles of the earth's middle, in the frozen tundras of the regions near the poles, in the fields and forests of the temperate zones, in wild and waste, in dale and valley and mountainside.

Strange gardeners harvest and glean these gardens—Nature's children, wild men, many of them—others semi-civilized, who are the link between the enlightened peoples of the earth, and the untutored savages.

In every one of her gardens Nature has planted something for healing—something which has remedial and curative powers. Each of them has some strength and purpose all its own. While Nature scattered them throughout her vast gardens, man has gathered the best of them for Nature's great Master Medicine, Tanlac, the reconstructive tonic, system purifier, restorative and revitalizer which builds health and strength through the stomach, blood and nerves.

The gathering of any one of the ingredients of Tanlac—all vegetable, free from mineral taint—would make a thrilling story in itself. Some of them are gathered by natives at the risk of life and limb, in regions where the white man never sets his foot. The pictures suggest to the imagination the varied lands and peoples used by Nature as her gardens and her gardeners. Nature uses all things and all men—Nature in turn is used by wise men.

COOPER'S HAWK (Accipiter cooperi)

Length, about fifteen inches. Medium sized, with long tail and short wings, and without the white patch on rump which is characteristic of the marsh hawk.

Range: Breeds throughout most of the United States—southern Canada; winters from United States to Costa Rica.

Habits and economic status: The Cooper's hawk, or "blue darter," as it is familiarly known throughout the South, is pre-eminently a poultry and bird-eating species, and its destructiveness in this direction is surpassed only by that of its larger congener, the goshawk, which occasionally in autumn and winter enters the United States from the North in great numbers. The almost universal prejudice against birds of prey is largely due to the activities of these two birds, assisted by a third, the sharp-shinned hawk, which in habits and appearance might well pass for a small Cooper's hawk. These birds usually approach under cover and drop upon unsuspecting victims, making great inroads upon poultry yards and game coverts favorably situated for this style of hunting. Out of 123 stomachs examined, 38 contained the remains of mammals. Twenty-eight species of wild birds were identified in the above-mentioned material. This destructive hawk, together with its two near relatives, should be destroyed by every possible means.
