

SENATOR JAMES TO BE CHAIRMAN

Of Democratic Convention.—President Wilson Approves The Selection Of Our Ollie For Permanent Honor.

Washington, June 3rd.—President Wilson has approved the tentative selection of Ollie James, of Marion Ky., for permanent chairman of the Democratic convention at St. Louis. This assures the election of the senator by the convention.

As the permanent chairman, Senator James will be named the head of the committee which will notify President Wilson of his nomination, as he did after the Baltimore convention. The president has not decided yet where he will receive the notification of the committee, although his supporters in New Jersey are very anxious that he go to 'Shadow Lawn,' his summer home in that state for the ceremony.

Senator Stone, of Missouri, has been tentatively decided upon as chairman of the platform committee and when he goes to St. Louis will probably carry with him the outlines of the platform drawn by President Wilson himself.

LORD KITCHENER

Britain's Greatest Soldier Meets Doom With All On Board The Ship.

London, June 6.—Admiral Jellicoe, commander of the British grand fleet, reported to the Admiralty today that the British cruiser Hampshire, with Earl Kitchener and his staff aboard was lost off the West Orkneys. Four boats were seen to leave the Hampshire but a heavy sea was running and only a capsized boat and some bodies have been found.

Kitchener was on his way to Russia. Jellicoe reported little hope for any survivors. Kitchener was appointed secretary of state for war August 8, 1914. He was recognized as England's greatest soldier.

The Orkneys are off the north coast of Scotland. The Hampshire was on its way into the Atlantic around the northern end of the Scandinavian peninsula into the White sea. Kitchener probably intended to debark at Archangle. There had been no previous intimation that he intended to leave England.

The Hampshire was an old cruiser of approximately 11,000 tons.

59 ARKANSANS DIE IN TORNADO.

Terrific Storms Sweep State Leaving Death And Destruction In Wake.

Little Rock, Ark., June 5.—Fifty-nine persons have been reported dead and more than a hundred injured in a series of tornadoes that swept Arkansas this afternoon. All means of communication are crippled and it is feared the list of dead and injured will be increased by later reports.

New High School Building.

The County Board of Education and the Trustees of the Marion High School have entered into a contract to have a joint High School. A vote on a bond issue will be taken at once. The location has not yet been decided on, at least it has not been announced.

Married At Princeton.

Mr. E. A. Dempsey, of Providence, and Miss Cassie Coleman, of near Shady Grove surprised their friends by getting married at Princeton last Tuesday. The bride is the attractive daughter of Mr. S. C. Coleman, a prominent farmer of Caldwell county. The groom is the son of Mr. S. M. Dempsey, the watchmaker of this place, and he is an industrious young man of good habits and popular among acquaintances. The young couple will reside here. —Providence Enterprise.

A Curiosity.

Mrs. John E. Glass has a chicken with 4 well developed feet. It was hatched in a setting of eggs which she purchased of J. B. Carter. It is quite a curiosity and she hopes it will live and do well. It is well provided with scratchers, having 4 instead of two and should get its share of the worms and grow accordingly. It is said the "early bird gets the worm." How about the chick with four scratchers instead of two.

HEALTH IS BASIS OF ALL CONTENT

The Half Sick Man or Woman Is A Stranger to Happiness

Contentment is the very essence of happiness. But, to be contented, or happy, if you will, one must first have good health.

Our supreme toast to the one we admire is Health, Wealth, and Happiness, and the keystone is happiness.

So many persons complain of being nervous and run down. This is the age of speed, no time to care for ourselves. These run down men and women are not exactly sick, but just tired out, languid or maybe good-for-nothing most of the time. Their business, their home and their life suffer.

They need something to build them up, something to throw off these symptoms of a weakened, debilitated condition produced by either mental or physical overwork or by the abuse of a vital organ—more often the stomach than any other.

That something has been found it is Tanlac. A tonic of rare properties, an appetizer and general invigorant that rids the system of congestion, tones up the stomach, overcomes indigestion, headaches, backaches, nonassimilation of food, nervousness, dizziness, ailments of kidneys and liver, and the complaints that are so common to the half sick, debilitated men and women of today.

Its effect is like lifting your spirits gently back to the level of the world's happiness that rests on health.

Tanlac may be obtained in Marion Ky. at J. H. Orme's Drug store, where its properties cheerfully are explained to all callers.

MARRIED WELDON AND CLARK

Miss. Mary Lou Weldon, Age 13 And Mr. Willie Clark Age 18 Wed

Willie Clark aged 18 son of J. D. Clark and Miss Mary Lou Weldon aged 13 daughter of John Weldon were united in marriage Sunday morning at 9 o'clock at the home of the bride's father on West Salem St. Rev. J. B. Trotter officiating. The families of the two contracting parties were the only witnesses.

After the ceremony the happy young couple went to the home of Mr. and Mrs. J. D. Clark parents of the groom where they were entertained at dinner. Among the guests being the bride's father and Rev. J. B. Trotter and family. In the afternoon Mr. and Mrs. Clark left for Paducah on a bridal trip. They will visit relatives there a few days after which they will return and make their home with the bride's father on West Salem Street.

Another One of Marion's Best Citizens Has Moved Away.

Dr. J. Earnest Fox and his estimable wife left yesterday for Smithland, Ky., to reside.

Dr. Fox has purchased the office outfit of Dr. Fred LaRue who was recently appointed to the position of Superintendent of the Western State Hospital, at Hopkinsville and who will remove from Smithland to assume his duties about July 1st.

Dr. Fox wishes to get established in his new home and office before Dr. LaRue leaves for Hopkinsville.

Marion is the loser by the removal of Dr. Fox. He has been here a number of years and has the esteem and confidence of our people and has been successful in the practice of his profession. His wife who was Miss Grace Parsons of Pinckneyville, leaves many friends here but is not a stranger at Smithland, having visited there many times, being a sister of John C. Parsons, late Master Commissioner.

We take pleasure in commending this young couple to the good people of Livingston county. Dr. Fox has a quiet and unassuming manner which bespeaks the gentleman, and his popularity will grow at his new home as he becomes better acquainted.

Drag The Roads.

Mr. Dave Wolford of Mexico employed B. F. Capps to drag the road from Francis to the main road, via of Mexico, a distance of six miles. The work was done with a steel drag pulled by four mules. Mr. Capps did the work in less than a day and the road is now first class.

Miss. Dovie Walker of Sikeston, Mo. one of the most attractive visitors who has been in Marion this season left Saturday for home after spending several weeks with her aunt Mrs. O. H. Paris on Bellville Street.

10,000 LIVES LOST 32 SHIPS ARE SUNK IN THE ENCOUNTER

First Reports Showing Almost a Defeat for British Navy Changed To What Amounts to a Great Victory.

British Lost 14 Ships While Germans Lost 18

Germans Stole Out of Naval Base At Kiel, and After Luring British Into Seas Sowed With Mines, Were Forced Back Into Safe Retreat.

London, June 7.—The greatest naval battle in the history of the world has been fought; the event for which the entire civilized world has been waiting for nearly two years has at last occurred. The fleets of the British and German navy came together off Jutland in the North sea last Wednesday, and at the end of a terrific sea battle, during which the British vessels were lured into waters well planted with mines, the Germans were forced to retire into their safe retreat at Kiel, with the British suffering the least loss, and still in command of the seas.

First accounts declared that the British had lost fourteen vessels, while the Germans had lost but three large vessels and a few smaller craft. Later accounts, however, show that the Germans lost eighteen vessels, including two battleships, two dreadnaughts, four cruisers, nine torpedo boats and a submarine, while the report of British losses remains unchanged. Apparently the British made a complete report of their losses at once, while the Germans have endeavored to keep secret the extent of the damage done to the German navy.

The loss of life is placed at approximately 10,000, and included in the list are several admirals of both sides who went down with their ships.

TWO KENTUCKIANS DEAD

In Tornado Which Devastates Ohio Town, Opposite Augusta.

Augusta, Ky., June 3.—Cedron, a small village in Brown county Ohio, was almost wiped off the map last night when it was visited by a tornado traveling ninety miles an hour. The storm struck the town about 9 o'clock, demolishing a number of brick and several frame houses, as well as a number of large barns. It is reported that a man named King and his son, who lived west of Augusta, lost their lives. Cedron is about three miles from Augusta, directly across the Ohio river.

The White Hussars Coming on the Fifth Night of Chautauqua Week

Photograph by Frank Moore, Cleveland.

THE White Hussars, Alfred Sweet, musical director, have won fame through four years of transcontinental tours, in which they have appeared in nearly all the large cities of the country. They have developed the highest standard in band music. There are thirteen in this company, but the musical effect approximates a band of twenty. Their instrumentation is admirable. Also in the same program they appear as a vocal choir of equal merit, presenting some of the finest of serious compositions, delivered with distinct musical style, shading and intelligent attention to all phases of the interpretation.

Mr. Alfred Sweet, the musical director, is one of the great cornetists of the day. He is also the principal baritone in the vocal choir. For three years Mr. Sweet was director of Ringling Brothers' Symphonic Band and did much to establish that great organization in its present place among American military bands. He has directed the White Hussars for the past three years. Also the same soloists who have contributed to the upbuilding of the company will be heard in its concerts at every Redpath Chautauqua.

What's In A Name.

A young Liverpool citizen calls his sweetheart Revenge, because she is sweet; and a young married man residing in Birmingham calls his mother-in-law Delay, because she is dangerous; and a Bradford man calls his wife Fact, because she is stubborn thing; and a fourth wife of an attorney calls him Necessity, because he knows no law; and a Manchester man call his wife Sluggard, because she gets mad and goes to her aunt ever time he stays out at the lodge; and a Middleborough man calls his wife Frailty, because Shakespeare says, "Frailty, thy name is woman;" and a certain insurance agent calls his wife Honesty, because it's the best policy, and a Nottingham man calls his wife Mary Jane, because that is her name; and a Glasgow man calls his wife

Darling because that isn't her name—she's a regular vixen; and a Newcastle man calls his wife Enough, because she is as good as a feast. —Tit Bits.

RHEUMATISM ARRESTED

Many people suffer the torture of lame muscles and stiffened joints because of impurities in the blood, and each succeeding attack seems more acute until rheumatism has invaded the whole system. To arrest rheumatism it is quite as important to improve your general health as to purify your blood, and the cod liver oil in Scott's Emulsion is nature's great blood-maker, while its medicinal nourishment strengthens the organs to expel the impurities and rebuild your strength. Scott's Emulsion is helping thousands every day who could not find other relief. Refuse the alcoholic substitutes.

9,000 PACIFIC COAST LONGSHOREMEN STRIKE.

San Francisco, June 1.—A strike of 9,000 longshoremen employed at Pacific coast ports went

into effect automatically at 6 a. m. today. At Seattle where strike breakers have been hired, trouble is expected. Two thousand men are out there. Elsewhere apparently the employers have made no preparations for active resistance. For several days at least it is predicted that most of the deep sea and coastwise shipping affected will be tied up. Owners of several fast coast passenger steamers have announced, however that these vessels will be continued in operation, giving up if necessary all freight traffic. The strikers demand a flat rate of 55 cents an hour; the present rate being 50 cents and overtime of one dollar an hour.

Sugar Breaks All Records But One.

St. Louis, June 5.—Sugar is higher priced now than at any time since the civil war, save for a few months in 1889, when prices slightly higher than those prevailing now were in force. Ten or twelve pounds are sold for \$1 now with prospects, according to a St. Louis sugar broker, of even higher prices before Christmas.

Most of the sugar consumed in the United States comes from Cuba, Hawaii, Porto Rico and the Philippines, with the burden of production on Cuba. Now the allies, who had been buying their sugar from Germany, Austria and Russia prior to the war, are forced to draw on the islands for their supply. In previous years all the sugar made in the islands has been consumed by the United States.

ALLIES HAVE ADVANTAGE

Sugar from Hawaii, Porto Rico and the Philippines can be brought into the United States free of duty, but on that brought from Cuba there is a duty of 1 cent a pound. This gives the allies a margin of 1 cent a pound in their competition with sugar buyers from the United States. It also causes the allies to buy most of their sugar in Cuba, as in the other islands they are obliged to buy on an equal footing with buyers from our country.

Although all the sugar raised by Cuba is cane sugar, the prices of beet sugar in the United States have kept parallel in the increase with the prices of cane sugar. It is a "sympathetic" raise, and results from the fact that beet sugar becomes more appreciated as cane sugar goes higher.

PRICES DOUBLED.

Wholesale prices on beet sugar now are \$7.90 a hundred weight and on cane sugar \$8.00 a hundred weight. Two years ago, be-

fore the beginning of the European war, beet sugar sold wholesale at \$4.40 a hundred weight, while cane sugar brought only \$4.50 a hundred weight wholesale. This is virtually a 100 per cent. increase in price.

Whiskey? No.

Not For Rheumatics.

Don't drink whiskey if you have rheumatism, be sure and keep your feet warm and dry, and drink plenty of lemonade.

This advice, says an authority, is helping; but as all know who have suffered, rheumatism is a stubborn disease and yields only to a remedy mighty enough to conquer it.

Many doctors have prescribed and hundreds of helpful druggists have advised a half teaspoonful of Rheuma once a day, because they know that powerful Rheuma, harmless as it is, acts with speed and overcomes in a few days the most torturing case of rheumatism or sciatica.

Try Rheuma.—J. H. Orme and all druggists sell lots of it and will return your money if two 50-cent bottles do not stop all rheumatic misery. 15

French Hold Verdun Gains.

London, June 5.—The curtain of fire of the French has set at naught another German attack launched against trenches which the French recently captured at Le Mort Homme. This engagement which is characterized by Paris as a small one, has been the only fighting by infantry on the French and Belgian fronts. The big guns however, have not ceased their activity on various sectors. A very violent bombardment is reported in the region of Hill 304, northwest of Verdun.

The Germans are still throwing shells in great numbers against the Ikskull bridgehead of the Russians on the eastern front. There also has been a very heavy artillery duel between Germans and Russians in the region south of Krevo.

The usual bombardments and isolated infantry attacks are in progress on the Austro-Italian front.

The Turks started two offensive movements against the Russians, one in the region of Baidurt and the other near Eringran. Both were repulsed, according to Petrograd. The German General Liman von Sanders is superintending the concentration of Turkish troops in north Smyrna and in defense measures for Turkey's Asiatic coast.

Nanny Goat Serves As

Infant's Meal Ticket

Ida Lockwood, 3 months old, whose mother died a few weeks ago, owes her life to a pet goat.

The baby was brought here from New York immediately after the mother's death and placed in charge of an aunt. The aunt procured a goat and taught the infant to nurse in the natural way.

The child at that time only weighed five pounds and showed indications of tubercular tendencies. Today after nearly three months, the child weighs 12 1/2 pounds, and is pronounced exceptionally bright and active.

In the morning the goat walks into the kitchen and waits until the baby is brought out to "breakfast." If the child cries during the day, the goat hurries to the house to give "first aid." —[Rahway (N. J.) Cor. Detroit Free Press.

Chautauqua Season Tickets

In arranging to inaugurate this Chautauqua this year, the local committee bought 1000 \$3.00 season tickets. After the opening day no season tickets can be had for less than \$3.00. For the single admissions to the respective entertainments, see the official programs.

Season tickets are non-transferable except within the owner's family. The name of some member of the family must be written in ink upon every season ticket. This provision is made primarily as a protection to the owner in case the ticket should be lost.

Children's tickets admit children aged six to fourteen years inclusive. All children are admitted to the children's work free.

These tickets will be sold while they last at \$2.50 each.

P. A. puts new joy into the sport of smoking!

YOU may live to be 110 and never feel old enough to vote, but it's certain—sure you'll not know the joy and contentment of a friendly old jimmy pipe or a hand rolled cigarette unless you get on talking-terms with Prince Albert tobacco!

P. A. comes to you with a *real* reason for all the goodness and satisfaction it offers. It is made by a patented process that removes *bite and parch!* You can smoke it long and hard without a come-back! Prince Albert has always been sold without coupons or premiums. We prefer to give quality!

Prince Albert affords the keenest pipe and cigarette enjoyment! And that flavor and fragrance and coolness is as good as that sounds. P. A. just answers the universal demand for tobacco without bite, parch or kick-back!

Introduction to Prince Albert isn't any harder than to walk into the nearest place that sells tobacco and ask for "a supply of P. A." You pay out a little change, to be sure, but it's the cheer-fullest investment you ever made!

HELP FOR WORKING WOMEN

Some Have to Keep on Until They Almost Drop. How Mrs. Conley Got Help.

Here is a letter from a woman who had to work, but was too weak and suffered too much to continue. How she regained health:

Frankfort, Ky.—"I suffered so much with female weakness that I could not do my own work, had to hire it done. I heard so much about Lydia E. Pinkham's Vegetable Compound that I tried it. I took three bottles and I found it to be all you claim. Now I feel as well as ever I did and am able to do all my own work again. I recommend it to any woman suffering from female weakness. You may publish my letter if you wish."—Mrs. JAMES CONLEY, 516 St. Clair St., Frankfort, Ky.

No woman suffering from any form of female troubles should lose hope until she has given Lydia E. Pinkham's Vegetable Compound a fair trial.

This famous remedy, the medicinal ingredients of which are derived from native roots and herbs, has for forty years proved to be a most valuable tonic and invigorator of the female organism.

All women are invited to write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for special advice,—it will be confidential.

REV. JAMES CHANDLER AT RUSSELLVILLE.

In the evening the missionary
sermon, which is a regular fea-
ture of the annual commence-
ment exercises, was preached by
Rev. Jas. A. Chandler, pastor of
the Methodist church at Marion.
The sermon was a logical and
able defense of foreign missions,
the speaker showing by unans-
werable argument that it is the
duty of those who believe in the
Christian religion to contribute
the support of those engaged
in preaching the gospel in foreign
lands. "It is a mistake to say
that charity begins at home,"
Mr. Chandler said. "Charity
does not begin at home; duty
begins at home and charity
begins where duty ends." The
sermon was an unusually clear
presentation of the subject. Mr.
Chandler is a brilliant young
minister and held the undivided
attention of his audience from
the first word to the last. Many
in the gathering pronounced it
the strongest missionary sermon
they had ever heard.—Russell-
ville Times of June 1st.

SENATE CONFIRMS LOUIS BRANDEIS

Wilson Wins Fight For His Ap-
pointment To Supreme
Bench.

Washington, June 6.—The nomi-
nation of Louis D. Brandeis of
Boston to the supreme court to
succeed the late Joseph Rucker
Lamar was confirmed by the
senate today by a vote of 47 to
22. The vote, taken without
debate, ended one of the bitterest
contests ever waged against a
presidential nominee. Mr. Brand-
eis will be the first Jew to occupy
a seat on the supreme court bench.

Only one democrat, Senator
Newlands, voted against confirma-
tion. Three republican, Sena-
tors LaFollette, Norris and
Poindexter voted with the demo-
cratic majority and Senators
Gronna and Clapp would have
done so but were paired with
Senators Borah and Kenyon. The
negative vote of Senator Newland
was a complete surprise to the
senate and the Nevada senator,
recognizing that his action had
aroused comment, made public a
formal explanation.

"I have a high admiration for
Mr. Brandeis as a publicist and
propagandist and distinction,"
said Senator Newlands. "I do
not regard him as a man of
judicial temperament and for
this reason I have voted against
his confirmation."

Throughout the fight President
Wilson stood firmly behind his
nominee never wavering even
when it seemed certain that an
unfavorable report would be re-
turned by the senate judiciary
committee. Before the commit-
tee voted he wrote a letter to
Chairman Culberson, strongly
urging prompt and favorable
action.

Shopping.

Now when you wish to buy a hat
The proper thing to do,
Is get your friends and neighbors
And a catalogue or two

In Montgomery Ward you always
find

The best of everything
While Sears is good, the National
too.

The very best will bring.
You can spend a pleasant evening
Planning what you wish to get
Then have it sent by Parcel post
And you never need to fret.

Then if you are disappointed,
And wish a change in it,
Take it to your local milliner
For she won't mind a bit.
Anyway, she shall be glad,
We try to help her out.

Or perhaps you can exchange.
She would be glad no doubt.
To some it may be shocking
When they hear these awful
things.

But when milliners enter Heaven
They must surely borrow wings.

HOLLMAN-M'COY QUIETLY MARRIED

Miss Grace Holloman Formerly of
Marion Becomes Bride of
Ohio Capitalist

A quiet but beautiful wedding
occurred Tuesday afternoon at 3
o'clock at the home of the Rev.
J. D. Harley, 211 South Sixth St.
when Miss Grace Gertrude Hollo-
man, of this city, became the
bride of J. B. M'CoY, of Canton
Ohio. The bride is the daughter
of Mr. and Mrs. T. J. Holloman,
of this city, and is a popular
young lady numbering her friends
by her acquaintances. The groom
is a prominent business man
of Canton. They will make that
city their home.

Paducah News Democrat

Editorial Note

The bride formerly lived here
and has many friends who will
congratulate her on her happy
marriage. The Canton Ohio pa-
per refers in most complimentary
terms to the groom who is a cap-
italist.

Three Reported Drowned

In Iowa Cloudburst.

Dubuque, Ia., June 3.—Telephone
messages from McGregor, north
of here, say that a cloudburst did

damage to the extent of \$50,000,
and there are unconfirmed re-
ports that three persons were
drowned.

The water fell literally in sheets
and hundreds of head of stock
were drowned in the pens of the
stock yards. Hardly a business
house escaped injury and the
water flooded the local hotel to
the top of the dining room tables.
James F. Lee, a Dubuque paving
contractor lost \$10,000 when un-
paved streets were washed away.

Cemetery And Church Cleaning

On Tuesday after the 2nd, Sun-
day, which is June 13th, we will
meet to clean up the church house
and to clean off the cemetery at
Dunn Springs, all interested
come and bring tools to work and
dinner so we can spend the day
and do the work that needs to be
done, to honor the memory of
those we love who have gone on
before.

Strange Things Happening In Politics.

Strange things happen in politics
but we say there never was such a
spectacle as at present when the
two candidates most seriously
considered in connection with the
Republican presidential nomina-
tion are, respectively, a man who
is charged with having wrecked
the party four years ago and who
even now does not admit that
he is a republican and a man who
has never expressed an opinion
upon the most vital questions now

\$50,000 Bond Issue

Is Declared Legal

Shelbyville, Ky., June 3.—To
establish beyond controversy the
legality of the \$50,000 bond issue
voted last Saturday for a graded
school in Shelbyville, the case
was submitted to Judge Marshall

by graded school district. The
case being submitted on the gen-
eral demurrer of the plaintiffs to
the defendants answer the de-
murrer was overruled and the
petition dismissed. It was furth-

as the thing he wishes to get out

Operation Performed Four Times

On The Same Woman Successful In Henderson.

Hartford, Conn., April 27th. For the fourth time within seven years Mrs. Anna Peters, No. 124 Canton Street, this city, yesterday successfully underwent the Caesarian section operation and neither the mother or her baby will show ill effect from the operation, which was performed at the Hartford Hospital by Dr. T. Weston Chester.

Mrs. Peter's first Caesarian operation was performed at a Boston hospital in 1900, and although she recovered, her child died. The other operations have been performed by Dr. Chester at the Hartford Hospital, and her two boys and girl are alive and well.

The operations were necessitated by a deformity of the pelvis bone, and each incision into Mrs. Peter's abdomen had been made in a different locality.

You Can't Count On Him.

The names of some of the young men of a certain community, says the Round Table, were being discussed in regard to a matter of some importance. When one of the names was mentioned, this remark was forthcoming: "You can't count on him." He was just a young fellow and of good parts, but his own friends and companions had come to recognize his great fault he couldn't be depended upon. Little by little this defect in his make-up will show itself to others; some day he will apply for a position of responsibility and fail to meet its obligations, because he did not develop the strong principle of dependability. There are men, hundreds and thousands of them everywhere, men of good parts, men whom we might take to be worthy of positions of power and trust, but men who are just filling the small places of little responsibility, because they lack that same principle, dependability. A young lady had been given charge of a Sunday-school class; she seemed interested; it looked as though she would prove a good teacher, but the third Sunday of her new service she was absent. She lost the class, but more than that, she had lost the good opinion of those who knew her; she showed herself undependable she couldn't be counted on. The fellow who can't be depended upon isn't much good either to himself or anyone else whether he be in a game of football or in the game of life.

The President's Second

Visit To Hodgenville

The announcement that President Woodrow Wilson is to speak at Lincoln Farm, near Hodgenville, on September 4th, at the formal presentation of the farm to the Federal Government, recalls Mr. Wilson's former visit to Hodgenville.

During the years that John C. Pirtle, of Hardin county, was president of Kenyon College, in Hodgenville, he invited a number of learned men to come to the Larue county capital and address the students. Among those who accepted was Prof. Woodrow Wilson, then a member of the faculty of Princeton University, of which institute he afterwards became president.

Prof Wilson went to Hodgenville on June 23rd, 1898, and filled his engagement. While he was in Hodgenville Mr. Wilson was the guest of Mr. and Mrs. Ivy W. Twyman, and Mrs. Twyman now has in her possession a letter written by Mr. Wilson after his return to the East, acknowledging hospitality extended to him in her home.

Mr. Wilson left Hodgenville on the morning of June 24th as a modest college professor. He returns September 4th 1916, a span of less than twenty years, as the greatest Chief Executive the nation has known since the days of the illustrious war President whose birthplace is to be presented to the Federal Government on that day.

Woodrow Wilson

With the steadfastness of Andrew Jackson and the determination of Abraham Lincoln, Woodrow Wilson is guiding the ship of state through seas more storm-tossed than have been known since Lincoln's death. Road Bonds of \$600,000

Sold At Nice Premium

Owensboro, Ky., May 20. — One of the largest road bond issues ever disposed of in Kentucky was sold here by the Daviess county Fiscal Court, when the bid of Seasongood and Meyer, of Cincinnati, for the issue of \$600,000 was accepted. The bid of the Cincinnati firm was in part as follows.

"For the \$600,000 Daviess county, Kentucky, 4 1/2 per cent. road and bridge bonds, dated December 31st, 1915; due \$100,000 December 31st, 1921; and \$20,000, December 31st, 1922; and \$20,000 annually thereafter up to and including December 31 1946; denominations \$500 principal and semi-annual interest payable at some bank in New York City; we offer par (that is \$600,000) accrued interest to date of delivery of the bonds to us and a premium of \$4,200.

The interest on the bonds will amount to \$13,500 on June 1st, when it is expected they will be

delivered.

The issue was voted last year. Its validity has been passed on by the highest courts of Kentucky. This was the fourth time that bids have been received. The delay in selling them was occasioned by the strained relations between the United States and Germany.

The Fiscal Court will immediately prepare to let the contracts for the construction of rock roads. It is believed that two hundred and eighty miles of roads can be constructed with the \$600,000. Daviess county already has nearly fifty miles of rock roads.

RAILWAY STRIKE WOULD INFLICT STAGGERING LOSS

Would Cut Farmers' Prices, Stop Industry And Face Cities With Starvation

New York.—On one point related to the demands of the unions of train service employees for a heavy increase in wages the sentiment of the general public has been expressed in no uncertain terms. That is on the question of a strike.

Declarations have come from every quarter that an interruption of transportation will not be tolerated by the public, but will call forth drastic action. The enormous injury to the country that would result from a nation-wide strike of train service employees is discussed by a writer in the March National Magazine, from which the following extract is taken:

What such a strike would mean to the American people cannot be set forth in mere facts and figures. It can be dimly imagined by those who realize what an intimate and vital part railway transportation plays in every industrial activity of the country.

There is scarcely a person in any part of the land who would not be immediately affected if the millions of busily turning wheels on our nearly three hundred thousand miles of railway were to stop for a single day. If the tie-up continued for a week, the blow to the industry of the country would be greater than that caused by any panic of recent history. To the big cities of the country, and particularly to the cities of the eastern seaboard it would mean a cutting off of the food supplies that would place the inhabitants virtually in a state of siege. In the case of many food products these cities do not carry on hand a stock sufficient to feed their people for more than a week, and in the case of some, such as milk and fresh vegetables, supplies are replenished daily. The stoppage of transportation, therefore, would mean suffering and want to these city dwellers. And if continued for long would mean many of them with actual starvation.

To the farmers of the country a general railroad strike would be a catastrophe, only less serious. Cut off from his market, the farmer could not move his produce, and the price of grain and other staples would be quickly cut in two, which the market value of more perishable articles would disappear entirely. The great industrial plants of the country would soon be forced to close down following the declaration of a strike because they could not obtain supplies needed for their operation, nor could they ship their finished products to market. Their plants would soon be idle, and millions of men would be thrown out of work. With the income of practically every class of citizens either seriously cut down or suspended entirely, merchants would transact little business, because there would be few purchasers. In short, the industrial activities of the whole country would be virtually paralyzed from the moment the railroads ceased to operate.

Might Just As Well Ask Country To Return To Sailing Boats And Ox Carts

Washington, D. C.—To the public that pays every dollar of the railroad bill (and forty-five cents of every dollar paid for transportation is for wages) the leaders of the four brotherhoods of railway employees, who are demanding increased pay, say: "All the railroads have to do to meet our demands for higher wages is to shorten their trains, move freight more rapidly, and escape the penalty of overtime wages."

The fallacy of this statement, which is the last-ditch argument used in support of the demand for increased wages, is well shown in the following editorial which appeared in the Washington, D. C. Times of April 19, under the heading "A Mad Freight Train Idea."

"Everybody in the ranks of the general public will agree with the railway managers that the campaign which the railway workers are waging, particularly in the west, for shorter trains, while at the same time demanding higher pay and fewer hours of work, is of all possible claims the most preposterous. Indeed, in economic it is an ideal little shog of mild. The railroads have spent hundreds of millions of dollars lowering grades, eliminating sharp curves, ballasting roadbeds and putting in heavy rails, so that powerful locomotives, faster cars, and longer trains could be handled in one movement. If this object had not been achieved railway wages never could have been advanced to the point at which they already have arrived and traffic rates never could have been held down where they are today without the whole railroad system of the United States being made a financial wreck."

"Any child can see that if, after the principal railroads of the country have been reconstructed to haul the heavier tonnage in mass, you cut every freight train in half, the cost of operation must be increased stupendously, with two locomotives where one now does, with two engineers where one now does, with two conductors where one now does, with virtually two whole train crews where one now does, not to speak of the new equipment and the new terminal facilities that would be needed."

This proposal is not essentially different from urging that the world go back to the steamships of a century ago, from the railroads themselves to the stage coaches and ox carts of the past. It is like suggesting that the farmer himself drive his wagon-load of produce in small lots day after day to the distant market of the city instead of loading it in bulk into freight cars and shipping it all at once by rail."

PERFECT HEALTH IS EVERY WOMAN'S BIRTHRIGHT.

A Prescription That From Girlhood to Old Age Has Been a Blessing to Womanhood.

When a girl becomes a woman, when a woman becomes a mother, when a woman passes through the changes of middle life, are the three periods of life when health and strength are most needed to withstand the pain and distress often caused by severe organic disturbances.

At these critical times women are best fortified by the use of Dr. Pierce's Favorite Prescription, an old remedy of proved worth that keeps the entire female system perfectly regulated and in excellent condition.

Mothers, if your daughters are weak, lack ambition, are troubled with headaches, lassitude and are pale and sickly, Dr. Pierce's Favorite Prescription is just what they need to surely bring the bloom of health to their cheeks and make them strong and healthy.

For all diseases peculiar to woman, Dr. Pierce's Favorite Prescription is a powerful restorative. During the last fifty years it has banished from the lives of tens of thousands of women the pain, worry, misery and distress caused by irregularities and diseases of a feminine character.

If you are a sufferer, if your daughter, mother, sister, need help, get Dr. Pierce's Favorite Prescription in liquid or tablet form from any medicine dealer today. Then address Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., and get confidential medical advice entirely free. You can also obtain a book on woman's diseases, free.

Every woman should be careful that the liver is active and the poisons are not allowed to clog the system—get rid of these poisons by taking Dr. Pierce's Pellets, which regulate and invigorate stomach, liver and bowels. Keep the body clean inside as well as outside!

COMMON AMERICAN BIRDS

INTERESTING INFORMATION ABOUT THEM SUPPLIED BY THE BUREAU OF BIOLOGICAL SURVEY OF THE UNITED STATES DEPARTMENT OF AGRICULTURE

BLUE JAY

Cyanocitta cristata

Length, eleven and one-half inches. The brilliant blue of the wings and tail combined with the black crescent of the upper breast and the crested head distinguish this species.

Range: Resident in the eastern United States and southern Canada, west to the Dakotas, Colorado, and Texas.

Habits and economic status: The blue jay is of a dual nature. Cautious and silent in the vicinity of its nest, away from it it is bold and noisy. Sly in the commission of mischief, it is ever ready to scream "thief" at the slightest disturbance. As usual in such cases, its remarks are applicable to none more than itself, a fact neighboring nest holders know to their sorrow, for during the breeding season the jay lays heavy toll upon the eggs and young of other birds, and in doing so deprives us of the services of species more beneficial than itself. Approximately three-fourths of the annual food of the blue jay is vegetable matter, the greater part of which is composed of mast, i. e., acorns, chestnuts, beechnuts, and the like. Corn is the principal cultivated crop upon which this bird feeds, but stomach analysis indicates that most of the corn taken is waste grain. Such noxious insects as wood-boring beetles, grasshoppers, eggs of various caterpillars, and scale insects constitute about one-fifth of its food.

BOBOLINK

Dolichonyx oryzivorus

Length, about seven inches.

Range: Breeds from Ohio northeast to Nova Scotia, north to Manitoba, and northwest to British Columbia; winters in South America.

Habits and economic status: When American writers awoke to the beauty and attractiveness of our native birds, among the first to be enshrined in song and story was the bobolink. Few species show such striking contrasts in the color of the sexes, and few have songs more unique and whimsical. In its northern home the bird is loved for its beauty and its rich melody; in the South it earns deserved hatred by its destructiveness. Bobolinks reach the southeastern coast of the United States the last half of April just as rice is sprouting and at once begin to pull up and devour the sprouting kernels. Soon they move on to their northern breeding grounds, where they feed upon insects, weed seeds, and a little grain. When the young are well on the wing, they gather in flocks with the parent birds and gradually move southward, being then generally known as reed birds. They reach the rice fields of the Carolinas about August 20, when the rice is in the milk. Then until the birds depart for South America planters and birds fight for the crop, and in spite of constant watchfulness and innumerable devices for scaring the birds a loss of 10 per cent of the rice is the usual result.

"Food Dictator" Appointed In Germany.

Berlin, June 6 (via London).—The Koelnische Zeitung announces the appointment of a "food dictator" to take charge of and control all matters concerning food in the empire.

The newspaper says it is to be assumed that this new "food minister" is to have absolute control of the distribution and prices of all foods, so as to equalize matters and relieve a situation by which at present the large cities are suffering at the expense of the country.

In an editorial, the Koelnische Zeitung welcomes the proposed plan. It reiterates that it has no connection with the retirement of Clemens Delbrueck, Minister of the Interior.

Cruiser Penelope Was Damaged Beyond Repair

Berlin, May 4.—(By wire) to Tuckerton)—The British cruiser Penelope was so badly damaged in naval engagement off the British coast that followed the

German bombardment of Lowestoft on Apr. 25 that she cannot be repaired, according to reports received in Holland, Holland, says the Overseas news agency today.

The British cruiser Penelope is a vessel of 3,000 tons, 410 feet long built at Barrow in 1914. Her main armament consists of 6-inch and six 4-inch guns with four torpedo tubes. She is of the Arethusa class, the Arethusa herself having been sunk last February after striking a mine off the English east coast. A German admiral report on Apr. 27 said that a British cruiser of the Arethusa class had on the day of the Lowestoft fight been hit with a torpedo from a German submarine and the German official account of the Lowestoft affair declared that serious fire was observed to have broken out on one of the British cruisers that had engaged the raiding German fleet.

STORM FRIDAY AFTERNOON

Barns, Trees, Telephone And Electric Light Poles Blown, Only A Few Hurt.

A severe storm passed over Moranfield last Friday afternoon doing considerable damage in the country. There was rain, hail, thunder and lightning. The wind was very strong, almost a tornado. Barns, trees, telephone and electric light poles were blown down.

No one was killed but Bud Norton was severely injured by a falling barn and Joe McCauley was knocked down by a shock from lightning. Mr. Norton was in a barn on his brother's farm. The barn was blown down and Mr. Nortons collar bone collar bone was broken. He also suffered several bad cuts on the head. Mr. McCauley was standing near a rain barrel in his yard when a stroke of lightning so shocked him as to knock him down.

Tom Crawley lost a barn. Herman Eckman lost a silo. Jake French lost a barn. Baker Hite lost a silo. In an orchard on H. M. Davis farm of ten apple trees only one was left standing.

On the Gouch place, recently bought by Dave Woods and W. J. Greenwell, a hen house was blown against the residence, tearing off corner of the dwelling out. The barn on this place, which was covered with tin, was unroofed. Several trees were also blown down.

It is said that on John Hosmans place the wind blew three head of cattle from one field into another.

The Hercules Coal & Mining Co's tippie and smoke stack in this city were blown down.

The tippie fell on Mr. Mitchell's automobile maiming it considerably.

The smoke at Alhorn & Wallers brickyard was blown down. On Mayor W. T. Harris's farm a few miles from here, a silo and barn were blown down and eleven elm trees.

Both of the silos on McElroy Bros' farm were damaged.

John Holt's house was unroofed.

On Wm. LaMond's farm a barn and seventeen trees were blown down and a cultivator left in the field was blown out into the road. Trees were blown down in Posey Robertson's, D. M. Rhea's Lucian Mason's, Mrs. Mollie Moses and other yards in the city.

Telephone and electric light wires were blown down.

All in all the damage will reach thousands of dollars. Most of the barns lost, we understand was insured.
