Marion, Crittenden County Kentucky, Thursday Morning, Aug. 17, 1916.

Vol. XXXIX

MANAGING A PUBLIC INDUSTRY

Thousands of Dollars Saved Annually by the Introduction of Modern Methods.

The interest of people in public affairs is considerably heightened when they learn that the revenues of the government are wisely and judiciously managed. A statement of economical expenditure which is susceptible of proof will always attract attention and please the thoughtful mind. Among the various industrial enterprises of the Postoffice Department in Washington is an establishment devoted entirely to the manufacture of mail locks and the bag attachments used in mail transportation. When this administration came into power, the Department was sorely in need of an improved type of mail lock. The shop was immediately re-organized, placed on a business basis, and its activities enlarged so as to meet the demand. Within a very short time a new and greatly improved lock had been devised and its production begun.

The lock in use weighed 5 1/2 ounces; the new one weighs 2 4/5 ounces. As 430,000 of this new product have been put into service, the difference in weight (the government paying as much for the weight of equipment as it does for the mail itself) can be easily calculated. The locks replaced by this new and better style cost 21 cents to make; those now being manufactured cost 8 1/3 cents, direct and indirect charges considered, the saving thus shown on original cost of production to date, amounting to \$53,750. Of the old style, 39,000 were annually returned for repair at a cost of about 9 cents each. Of the new style, out of the great number sent into the service, but 906 have been returned, and as these new locks can be repaired at a cost of 3 cents each, the annual saving on this item will amount to over \$2,100.

The Department has always encouraged its employees to give their best service to the government and many instances have recently come to notice wherein the Department has profited by this wise public policy. In the lock shop a recent achievement in this direction is an improved cord fastener, the work of three of its employees, for use on bags; also one designed for locking large quantities of parcel-post matter, which has been heretofore without this protection. It can be made at a very low price, requiring less material and a fewer number of operations. The significant part of this lies in the great number required for the service, between three and four millions, the output being 500,000 annually. As the cost has been reduced by the new method from 4 1/2 to 3 cents each it will be seen what a splendid showing this makes for administration economy.

Another valuable improvement has been the perfected locking cord fastener designed for use on tie sacks, something the Department for years has needed and vainly endeavored to accomplish. This device will be of great value to the postal service at large by increasing the capacity and efficiency of mailbags to a degree difficult to estimate. The modern system of business methods and the proper encouragement of employees to take an active and

earnest interest in their work, both of which desirable features this administration of the Department has favored and put into practice, is responsible for the many improvements made and the advantages gained.

Active experiments are constantly being made for the betterment of the service. For many years a tremendous expense has been the labeling of the immense quantities of mail bags in use. The form of label used in the past and still being used by clerks all over the country is the doubling and refolding of what is known as a "facing slip." The preparation of these labels by the thousands has been and is an expensive proposition, yet there appears to have been no effort on the part of previous administrations to progress from the old method. Under present direction a perforated label in sheets and runs has been designed which is practically ready for use when furnished to employees. Every postal clerk in the country and thousands of postoffice employees will find this new method of great advantage and it will result in a large economy to the service.

There have also been some other notable improvements made, viz: The substitution of steel where brass was formerly used, at a very considerable lessening of expense; a device for fastening foreign mail pouches; doing away with the old-fashioned method of string and seal; a scheme for saving twine by means of a simple holder which permits free and easy use without waste, and a flexible stamp design, for which the contract price was 38 cents, but which will now be made at a cost of but 8 cents. A mechanical pick-up or facing table for use in facing and stacking letters in first-class postoffices has also been developed and will soon be perfected. This device is considered superior to those now in use and costs less than one-third to manufacture. Those at present in use cost approximately \$1,500.

It will thus be seen that the activities of the Postoffice Department have been centered along lines which will not only produce large economies to the people of the country, but will also prove a great convenience to those in the service. During the past three years two objects have been kept constantly in view, viz: saving the public money wherever possible and serving the people to the fullest extent. There was room for great improvement and there has been much accomplished. It is but common justice to award due credit in these administrative reforms to the Fourth Assistant Postmaster General, in whose Bureau these measures of economy were developed and who has so faithfully devoted his time to that purpose.

Allies to Ship From

Southern Seaports.

Birmingham, Ala., Aug. 14.—Ships of the allies (England) within the next few weeks will be landing at New Orleans on a line for munitions of war, steel, ammunition and other material, the report which comes here from the latter city being to the effect that Alabama fuel, iron, steel and other products, are to be used in quantity. The fuel will be handled to New Orleans by the Warrior river and rail both, it is understood, and the handling of much steel will be by rail from this section.

Fourteenth Annual KENTUCKY State FAIR LOUISVILLE September 11-16, 1916

Miss Esta Worley Married in San Diego, California

Mr. and Mrs. M. T. Worley received the following announcement:

Mr. Clarence W. Carter and Miss Esta Worley were married Saturday, July 29th, 1916, San Diego, Calif. At home after August 5th, 1756 Cable street, Ocean Beach, San Diego, Calif. Miss Esta was the granddaughter of Mr. Taylor Worley, of this county. The family has not learned the occupation of Mr. Carter. The Record-Press congratulates him on winning the heart and hand of one of Crittenden's fair daughters.

Aged Apple Tree

Bears Fruit Biennially.

Princeton, Ky., Aug. 10.—J. F. M. Dunbar, a farmer of the Liberty section of this country, has on exhibition some apples which grew on an apple tree over 100 years old. The tree bears every other year and this year's crop is abundant and of good quality.

Henry Wadlington Dead.

The following notice clipped from the Memphis Commercial Appeal, will be of interest to many friends of the deceased, who formerly lived here and is remembered by many of our people.

"WADLINGTON.—At Denver, Col., Tuesday morning, Aug. 8, 1916, at 6 o'clock, James Henry, husband of Esther Faxon Wadlington, son of the late Mrs. Esther M. Wadlington, brother of Chas. T. and Leonard W. Wadlington, aged 31 years.

Funeral will take place from the residence of his brother, Leonard W. Wadlington, No. 1698 Lawrence Place, this (Thursday) afternoon at four o'clock. Friends invited. Interment private."

The deceased was a nephew of Mrs. Carrie Thomas and a nephew of the late Mrs. Lucy Glascock, and was a student of Prof. Charles Evans.

Zeppelins 820 Feet Long.

The Germans have just completed and placed in a large shed at Darmstadt, ten Zeppelins 820 feet in length with a gas capacity of 190,675 cubic feet. In the hull is provision for machine guns and for light pieces of ordnance. The newest Zeppelins are said to have four armor-plated cars, of which the first is the heaviest. All the cars are fitted with guns. Armor-plated gangways connect the cars. The engines indicate 4,000 horse-power and the speed is fifty-seven miles an hour. These ships can reach a height of more than 13,000 feet.—New York World.

Circuit Court Increases

Fine of Fred Lemon.

The case of Fred Lemon, of this city, charged with having intoxicants in his possession for the purpose of sale, was hotly contested in Circuit Court at Dixon Wednesday and Thursday by attorneys on both sides. The jury returned a verdict of conviction and the defendant was given a fine of \$70 and ten days in jail. The case was appealed from the Magistrate's Court, where he was fined \$60 and given ten days in jail. It is reported that Mr. Lemon will take the case to the Court of Appeals.—Providence Enterprise.

Italians Continue to Advance.

The Italians are continuing to advance from Gorizia on the Isonzo front. The Austrians are sharply attacking in other sectors but Rome reports all attempts checked.

Named By The Governor.

Hon. Edward D. Stone has been selected by Gov. Stanley as a delegate to the Southern Good Roads convention, to be held at Lexington, Sept. 5, 6, 7 and 8. Mr. Stone intends to be present at the convention, and also attend the speaking of Charles E. Hughes, the Republican nominee for President, Sept. 5th, at Lexington.

Ohio River Association.

This body meets with Dyer Hill Baptist Church, Livingston county, near Birdsville, Wednesday, August 23rd, at 10 o'clock. The introductory sermon by Eld. W. W. Crouch or alternate, Hosea Paris; reports from churches, representatives of various denominational interests and visiting preachers will be heard.

H. F. GREEN, Mod.
R. A. LARUE, Clerk.

Lost, Strayed or Stolen.

A large red Duroc Jersey sow, wt. about 250 lbs. with no marks. Left my premises about July 1st. Reward for her return or information leading to her recovery.
It. ALLIE POSTLEWRIGHT.

A Correction.

Inadvertently, (or by carelessness of the editor) the splendid article published last week was credited to Mrs. Verlie C. Koltinsky and should have been credited to Miss Ruby Asher daughter of Mr. J. D. Asher, of this city. The article headed, "Boys and Girls Need to Play," was handed in by a friend of Miss Asher, without her knowledge, and her name was not signed to it. Another article published previous-

ly was written by Mrs. Koltinsky, and the editor also gave her credit for the second article, which was written by Miss Asher. We regret the mistake and hasten to correct it as far as we can.

Miss Asher graduated with honors from the Marion High School and attended the Western Kentucky State Normal at Bowling Green and is now teaching at Piney Fork, and altho one of the youngest, will make one of the county's best teachers. Every one should hunt up a copy of the Crittenden Record Press of Aug. 10th and read her splendid article.

Repton Tent Meeting Begins Next Monday Evening

On Monday night Aug. 21st a tent meeting will begin in J. H. King's woods near Repton under the direction of Rev. J. R. King and W. T. Oakley. The public is invited to attend.

War And Volcanoes Afflict Italy

—Mt. Aetna in Eruption

Rome, Aug. 14.—The center of the crater of Mount Aetna, 1200 feet deep is in full eruption. Lava is flowing to the southwest.

A Class Which Does Something

On the evening of August 11 1916 Mrs. F. F. Charles Sunday School Class No. 10 of the M. E. Sunday School met at her home on North Walker St.

One of the members being sick, Miss Winnie Nesbit and it also being her birthday the class went to her home, each one carried her a little gift as a token of their love and friendship for her.

They afterwards returned to Mrs. Charles home, where they had a short business session, and then engaged in a Penny contest also Blowing Bubbles contest, which proved a very laughable one.

After refreshments were served a Bible contest was engaged which was very profitable.

The class adjourned to meet Sept. 8th with Miss Ruby Terry.

Want a Good Cow?

(From The Ottumwa (Iowa) Review.)

FOR SALE—One large red cow, three eights mule and five eights wild cat. She usually goes on a visit every summer, but she is very much attached to her home at present by means of a log chain. Any person wishing to buy her I will throw in 50 feet of two-inch rope and an old ax. Would like to sell her to some man who thinks he could whip Mexico single-handed. Address Logan Nickert, R. R. No. 8 Ottumwa, Iowa.

Program For Division I-Oak

Grove, August 25, 1916.

County High Schools.—Hollis Franklin.
Moon light Schools.—Raymond Hunt and Miss Mary Moore.
Library Plans.—Misses Jennie Clement and Ruth Melton.
Round Table Discussion of Fair Plans.

VISITS OLD HOME AFTER 1-2 CENTURY

Geo. Dupuy, of N. C., Visits Birthplace After an Absence of Nearly Fifty Years

Mr. George Dupuy, of Red Springs, N. C., who is the guest of his brother, Sidney T. Dupuy, made an automobile trip to Kuttawa and Eddyville Friday. Mr. Dupuy was born at Eddyville 53 years ago, his father being a tobaccoist there at that time and he has not been there since he was 8 years of age (45 years ago.) His mother and grandfather are buried there. The old home where his ancestors lived, built by Chittenden Lyon, the founder of Eddyville in the 18th century, and where Aaron Burr and other celebrities were entertained, has been torn down and a new high school building adorns the spot. Kuttawa, the dream of Governor Anderson, has been planned and built since Mr. Dupuy left his birthplace. Lake Clough was named for his uncle, Richard Clough Anderson. Only a few now reside in the old capital of Lyon whom he knew as a child, among them being Mrs. Mary Jenkins, now in her 85th year and Mrs. Lucy Childers, who has passed her diamond anniversary, and his visit was much enjoyed by these two old childhood friends. Mr. Dupuy's trip brought him many pleasant memories and some sadness of course, as it would have brought to any of us, but taken all in all it was much enjoyed and he said he would not have missed it for any reasonable price.

Crittenden County Pig Show.

Marion, Ky., Aug. 14, 1916. To the Crittenden Record-Press. The Crittenden Co., Pig Show will be held in Marion on September second (2nd). All pig club members must get their pigs in town early, and have their hurdles to make their pens out of. Mr. H. E. Snow, traffic manager for the Bourbon Stock Yards, Louisville, Ky., will be Judge.

Any firm or person wishing to offer a prize or help on the prize list by a contribution, give it to Mr. Marshal Jenkins, who will receive the offerings made. The State Fair Board offers for the winning Pig Club Member a free trip to the State Fair for the whole week. Crittenden county's representative won second prize last year at the State Fair, and we want two pigs to go to Louisville from this county this year.

We will have our second Annual Fair and Stock show, about the middle of October. The date will be decided on at the next regular meeting of Commercial Club.

J. ROBERT BIRD, Co., Agt.

Apple Tree Which Bears

Two Crops Annually

Bennie Tudor, the accommodating mail carrier on the Western and Repton star route has an apple tree in his yard at Weston which has the second crop of apples on it for the year 1916. The first were perfect and had seed, while the second altho perfect otherwise had no seed. The tree bears two crops every year and the last crop each year has no seed.

BRINGS HEALTHY COLOR TO CHEEKS

Many women are compelled to lie down at frequent intervals during the day. This, of course, is due to weakness, the forerunner of serious ills to follow. At first there will be great languor, especially in the morning; faintness, dizziness, weakness or sinking at the pit of the stomach. The digestion becomes impaired and appetite is gone. Then comes palpitation of the heart, shortness of breath on any slight exertion, cold hands and feet, headaches, paleness, dark circles under the eyes, a dragging pain across the hips; the memory becomes poor, the disposition irritable and nervous, the least noise or unusual occurrence upsets the nerves. Disease quickly destroys the complexion, making it yellow or greenish looking, the cheeks become sunken and spots of a brownish hue appear on the skin. All these symptoms are caused by poor circulation and and exhausting or wasting away of the nerve force. The blood becomes thin and watery and the nerves lack strength. It has been admitted that ill peculiar to women, in most cases start in the stomach; that when digestion is good, the blood is good, the nerves and organs are properly nourished and strength is the result. In hundreds of thousands of cases, Tanlac has been the means of relieving the ills of women, because it gives strength and tone to the system. Tanlac is a tonic, prepared from roots, barks and flowers gathered in many parts of the world. Testimonials from women who have used it say "I feel healthy again," "I enjoy housework" and other like expressions. Tanlac may be obtained in Marion at Jas. H. Orme's drug-store. Adv.

The Political Sea.

"The sea being smooth,
How many shallow boats must
dare sail
Upon her patient breast."
—Shakespeare.

Lost, Strayed or Stolen.

Some where in southern suburbs of Marion, a lady's hunting case gold watch. Big reward.
Bruce Nunn.

Denmark Forced To Pay Germans.

Amsterdam, August 7.—Denmark has been forced to pay a secret indemnity to Germany for failure to maintain strict neutrality. The indemnity exacted is understood to be as much as \$60,000,000 kroner (about \$22,000,000).

The offensive occurred last winter when the Baltic sea was invaded by a submarine. To enter the Baltic from the North Sea it was necessary to pass through Danish waters, strongly guarded by forts. Germany secured evidence that the English submarines could have not entered the Baltic without the permission or connivance of the Danish Government. Of all the Scandinavian countries, the Danes are the strongest sympathizers with the Allies and have the strongest antipathy to Germany.

Will Sloan's Liniment Relieve Pain?

Try it and see—one application will prove more than a column of claims. James S. Ferguson, Phila., Pa., writes: "I have had wonderful relief since I used Sloan's Liniment on my knees. To think after all these years of pain one application gave me relief. Many thanks for what your remedy has done for me." Don't keep on suffering apply Sloan's Liniment where your pain is and notice how quick you get relief. Penetrates without rubbing. Buy it at any Drug Store. 25c.

Burns \$10 Panama to

Flag Train in Vain.

Paris, Ky., Aug. 14.—When Dr. C. G. Daugherty's touring car stalled on the railroad crossing on the Clintonville pike last night, Judge Denis Dundon, who was in the car with him, set fire to a new \$10 Panama hat to use as a torch to flag an approaching train. His sacrifice was in vain, as the train struck and demolished the car. Judge Dundon suffered a sprained ankle in running up the track.

For Sale

Eight room house, in good repair, large lot, good stable and all necessary outbuildings. Plenty of water and fruit. Adjoining High School property. Will sell cheap.
G. R. Bibb, Marion, Ky. 4t 83

SHADY GROVE

Go'di Wade is yet quite sick with typhoid fever.

Charlie Clayton, H. F. W. D. and R. R. Tudor, D. Hubbard Wort Horning were in Marion Thursday.

R. E., and G. E. Towery were in Marion Friday.

Aunt Susan Campbell is very low at this writing.

Miss Mary Towery is teaching a good school at this place.

CATARRH CAN NEVER WITHSTAND THIS TREATMENT.

Louisville, Ky.—"I was run down and weighed 87 pounds when I should have weighed 130. I was a nervous wreck. Had catarrh all through the system and was bloodless as far as color is concerned. I was down in bed and getting weaker. I hardly thought I would live. I began using Dr. Pierce's Golden Medical Discovery and after using it for about a week I got out of bed and began to gain. My breath became less offensive, my appetite came back and I gained in weight. The use of four bottles restored my health, gave me a weight of 130 pounds, and I have been well since. It is a wonderful remedy and I tell everyone so."
—Mrs. J. M. Dean, 2322 Bank St.

The prompt action of Dr. Pierce's Golden Medical Discovery in driving harmful germs and impurities from the blood, sets in motion the repair process which works actively on the diseased membrane where Catarrh flourishes unchecked. Thus by building up a new and perfect covering and carrying out of the system the catarrh-infected matter by way of the blood, liver and kidneys, catarrh is overcome and permanently conquered. Don't be deceived in regard to catarrh; proper local applications help of course, but no catarrh sufferer can hope for permanent freedom from this stubborn disease until all impure matter in the blood is carried away. All dealers in medicines can supply Dr. Pierce's Golden Medical Discovery, or send 50 cents in stamps to Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., for trial box of tablets also ask for free book on catarrh.

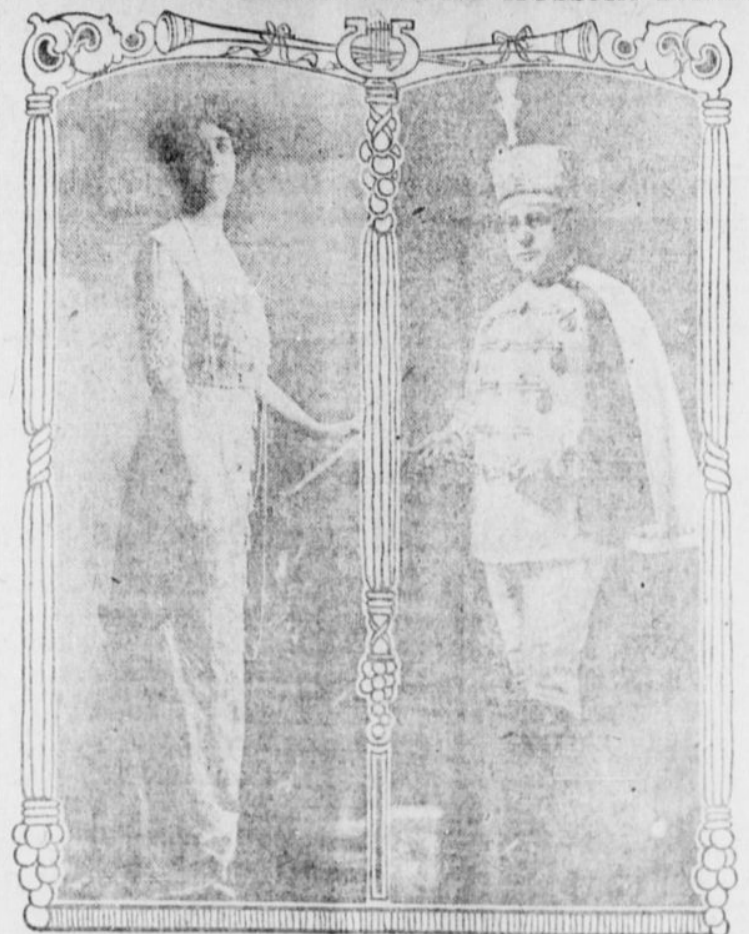

What Britain Has Spent In
Less Than Two Years of War.

London, Aug. 15.—Premier Asquith today asked the House of Commons to vote a credit of £450,000,000, the largest since the beginning of the war. This would bring the total to £2,832,000,000.

MAYR'S WONDERFUL REMEDY FOR STOMACH TROUBLE ONE DOSE WILL CONVINCE

Thousands of Stomach Sufferers owe their complete recovery to Mayr's Wonderful Remedy. Unlike any other for Stomach Ailments For sale by Haynes & Taylor, Marion, Ky., and druggists everywhere.

DAILY MUSICAL TREAT AT STATE FAIR BY NATIELLO'S ROYAL HUSSAR BAND

Marianne Conway and Signor Ernesto Natiello.

THIRTY-FIVE high-class musicians, including the famous bandmaster Signor Ernesto Natiello and noted soloists and instrumentalists, constitute the Natiello's Royal Hussar Band that will be the big feature at the Kentucky State Fair September 11-16. The management was very fortunate in securing this band, for there is none better in the country. All the men will be attired in white Hussar uniforms that give the band a distinction all its own.

Both the band and the soloists carry out Signor Natiello's long-known motto—"Give the people the music they want." This gives satisfaction all around and pleases everyone. The programs, which are changed daily, include both popular and classic selections.

The soloist with the band is Marianne Conway, one of the foremost concert sopranos in the United States. She has sung with the Boston Fiddlers, Theodore Roehmildt's Orchestra, Rich. Max Hornig's Orchestra and others of similar standing. Her voice is said to be very fine and has a range that enables her to sing all classes of pieces.

A feature that is attracting much

NEW SADDLE HORSE STARS

To Prance for Prizes in Banner Rings at Coming Kentucky State Fair.

WHEN the pavilion gates swing wide for the entrants in the four greatest horse events listed for the fourteenth annual Kentucky State Fair, to be held September 11-16, it is surmised that not one of the proud high-steppers in the Championship Five Gaited Saddle Horse ring formerly known as the Commissioner of Agriculture's Five Gaited Saddle Horse Stake, held Friday night of the fair—the Kentucky Championship Five Gaited Saddle Horse Stake—to be shown Tuesday night of the fair—the Kentucky Championship Five Gaited Saddle Horse Stake—to be shown Wednesday night of the fair and the new feature, a Championship Three-Gaited Saddle Horse stake, which will be shown Saturday afternoon of the fair, will be recognized by horsemen or a horse-loving public as ever having performed on the tankard oval of the great Kentucky show ring. While the list of nominators includes many of the former "stand-bys" of the fair it is well known to those posted in horse history that a phenomenal number of the most noted horses of the past decade owned by them have departed from Kentucky borders, among the list being R. E. Moreland's beautiful Cascade, which has been sold to a Pennsylvania horseman; Powhatan Stock Farm's Richland King, Kalamazoo Farm's brilliant prize winner, Rectina, who has also been reported to Pennsylvania; W. G. Shropshire's matchless Hazel Dawn, which was sold two seasons ago to Cuba's president, and her stable mate, Rex Barrymore, who was recently shipped to California as show horse at the Exposition; W. S. Moore's My Del sold into New York; A. G. Jones & Sons' Princess V, who has also been shipped to Pennsylvania; P. W. Ray's Senflower, sold into Pennsylvania; Mrs. R. T. Lowndes' famous Mary Vandell Fox and beautiful Kentucky's Chotee, and Bob Moreland's Nickel Plate, which has been sold into Missouri.

The above named have all figured in the celebrated Kentucky State Fair and other noted rings. In the fine harness and three-gaited class departed notables of horse-flesh are Gossip, champion three-gaited mare; Clara Bell, champion fine harness mare; Winchester, champion fine harness gelding; Ethel Mae and Gladys Carter, champion road mares, and Ebony King, champion road mare.

Increased Purse. Instead of offering the former prize awards in a flat sum in connection with the four features mentioned above, the State Fair management has announced the more tempting plan of listing all the entry moneys in a lump sum and adding to it for the Champion Five-Gaited Saddle Horse stake \$1,000 in cash and a handsome silver trophy; for both the Kentucky Championship Roadster stake and the Kentucky Championship Fine Harness Stake, \$500 additional to the entry moneys, and in the new three-gaited saddle horse stake the bonus added to the entry money will be \$200. As this stake is new to State Fair history, the entrants in same will, of necessity, be new to horsemen. In the fine harness stake the prospects are likewise for new blood. In the roadster stakes it is anticipated that the greatest lot of entries ever shown in a like event will be listed for the contest. Those who have purchased nominations above are:

FEEL LIKE GIVING UP?

Many Marion People On The Verge of Collapse.

A bad back makes you miserable all the time—Lame every morning; sore all day. It hurts to stoop—it hurts to straighten.

What with headache, dizzy spells, urinary weakness.

No wonder people are discouraged. Who can get on with the kidneys may be the cause of it all.

Give the weakened kidneys needed help.

Use a tested and proven kidney remedy.

None will feel like Don's Kidney Pills.

Mrs. E. S. Sweeney, 1027 S. Third St., Paducah, Ky., says: "I had been suffering considerably for about a year from a weak and aching back and pains across my kidneys. It was hard for me to bend over and I simply couldn't do any lifting. I knew that the trouble came from disordered kidneys and I decided to try Don's Kidney Pills. They soon relieved me. The pains gradually ceased and my back grew strong."

Price 50 cents, at all dealers. Don't simply ask for a kidney remedy—get Don's Kidney Pills—the same that Mrs. Seamon had. Foster-Milburn Co., Props., Buffalo, N. Y.

CAVE SPRINGS

(delayed from last week.)

Prof. Fred McDowell is in Henderson, this week attending the Teachers' Institute. He will teach at Hebbardsville, Henderson county.

Mrs. Alice Orr and daughter, Susie, visited her brother, Fred Clark, of Salem, Sunday.

Mrs. Effie Phillips was in Ripon Monday shopping.

Cave Spring choir attended the singing convention at Piney Fork, July 30th, and we are proud to say won the premium.

Quite a number from here attended the sale at the late E. R. Hill's residence near Denwood.

Miss Bertha McDowell has returned from Princeton, where she visited relatives.

Miss Edith Remond is visiting her brother, E. D. Reynolds, of Paducah.

R. L. Nichols was in Paducah Tuesday on business.

Mr. and Mrs. Orda Woodward and little son, Shesley, visited her parents, Mr. and Mrs. Sherman Curry, of Providence, this week-end of last week.

Rev. O. D. Spence, wife and little daughter, Myrtle, are the guests of his parents, Mr. and Mrs. Robert Spence.

James Allen was in Ripon Monday.

Aubrey Woodward was in Providence on business Tuesday.

Mrs. F. L. McDowell was in Marion Monday having some dental work done.

Miss Milla Brantley, of Marion, spent the week-end with relatives here.

Mr. and Mrs. Desmen Crowell and daughter, Miss Dulcie, of Nunn, attended services here Sunday.

David Williams visited his daughters, (Mabel) Woodward and Dossie Smith, Sunday.

Blue Belts.

Graveyard Cleaning

The Repton cemetery, generally known as the Thurman Graveyard, will be cleaned off Friday, August 24th. And interested are expected to bring dinner and tools and be prepared to spend the day. There will be services on the grounds just after the noon hour.

GEORGE D. BRANTLEY,
Committee.

Corn Wanted

We will pay 50cts for white shelled, clean, sound corn delivered at our mill.

Baker & Mayes.

Do You Need a General Tonic?

The Old Standard Grove's Tasteless Fruit Tonic is really valuable as a General Tonic because it contains the well known tonic properties of QUININE and IRON. It acts on the Liver, Drives out Malaria, Purifies the blood and builds up the Whole System. 50 cents.

For Rent Sept. 1st

My house now occupied by Charles McGregor on Walker St. F. G. Cox.

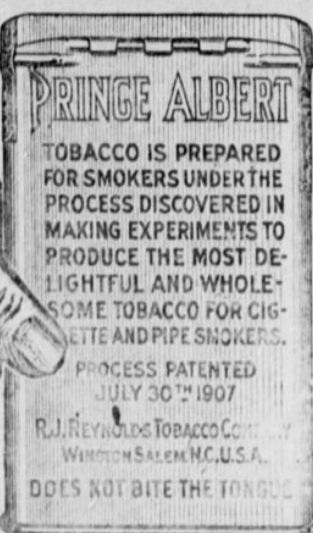

A Pessimist's Optimistic View.

"Are you looking forward to the summer with pleasant anticipations?" asked the optimistic citizen. "Yes, indeed," replied the pessimistic person. "A great many people I'm tired of looking at will go out of town for the summer."

Pigs For Sale

Full blooded Poland China Pigs for sale, weight about 75 to 100 lbs each. T. A. Enoch.

Old Sores, Other Remedies Won't Cure. The best cure, no matter how long standing, is found by the wonderful, old reliable Dr. J. C. Ayer's Antiseptic Healing Oil. It relieves and heals at the same time. 25c, 50c, \$1.00.

P. A. puts new joy into the sport of smoking!

YOU may live to be 110 and never feel old enough to vote, but it's certain—sure you'll not know the joy and contentment of a friendly old jimmy pipe or a hand rolled cigarette unless you get on talking-terms with Prince Albert tobacco!

P. A. comes to you with a *real reason* for all the goodness and satisfaction it offers. It is made by a patented process that removes *bite and parch!* You can smoke it long and hard without a come-back! Prince Albert has always been sold without coupons or premiums. We prefer to give quality!

Prince Albert affords the keenest pipe and cigarette enjoyment! And that flavor and fragrance and coolness is as good as that sounds. P. A. just answers the universal demand for tobacco without bite, parch or kick-back!

Introduction to Prince Albert isn't any harder than to walk into the nearest place that sells tobacco and ask for "a supply of P. A." You pay out a little change, to be sure, but it's the cheerfulness investment you ever made!

PRINCE the national joy smoke ALBERT

NATIONAL PARK CREATED

First Reserve East of Mississippi Is On Maine Island

Washington, Aug. 14.—Creation of the first national park East of the Mississippi, comprising 8,000 acres on Mount Desert Island, Me., was announced by the Interior Department. It will be known as *Sieur de Monts National Monument*. The tract, noted for its rugged beauty, was donated to the Federal Government by its present owners. Its northern boundary is only a mile from Bar Harbor, and several popular summer resorts lie near it. There are ten mountain peaks and four lakes within the tract.

Your Optical Work.

ROSEWOOD CAMP

NUMBER 22

WOODMEN OF THE WORLD

Meet in regular session on the 2nd and 4th, Monday Evenings in each month. At seven o'clock.

S. H. RANNEY, Clerk.

SPINE SEVERED,

MAN WILL DIE

Second Man Shot In Riots at Rosiclers Can't Live Long.

Hollie Schockley, 25, a striking miner from Rosiclers, Ill., who was brought to Paducah yesterday by Dr. Jackson for an X-ray examination at the Illinois Central railroad hospital, will die within the next six weeks or two months, according to local surgeons. Schockley was shot in a riot at Rosiclers about a week ago. The bullet which en-

tered his body on the right side, could not be located without an X-ray, so he was brought here. A photograph of the man's back revealed that his spinal cord had been severed by the bullet.

Schockley was returned to his Illinois home late yesterday afternoon. The wounded man who is deemed to die within the next two months, has a wife and a two-month-old baby. —Paducah News-Democrat.

MUSTANG

For Sprains, Lameness, Sores, Cuts, Rheumatism Penetrates and Heals. Stops Pain At Once For Man and Beast 25c. 50c. \$1. At All Dealers.

LINIMENT

THE CHEAPEST THING

Et don't cost a cent to forget a caller's name.
Or to make a little picky smile.
Et don't cost a cent to speak a cheerful word.
To a nigger dat's unlucky all the while.
Et don't cost a cent to holler "howdy do!"
You kin amble right along about you' br.
Et don't cost a cent to call on Uncle Eph.
When he's laid up with skyttle rheumatiz.
Et don't cost a cent to use de Gold-en Balm.
And to treat yo' feller-creechers push an' right.
Et don't cost a cent to prove it to yo' self.
Et et never costs a cent to be polite.

Your Bowels Should Move Once A Day.

A free easy movement of the bowels every day is a sign of good health. Dr. King's New Life Pills will give you a gentle laxative effect without griping and free your system of blood poison, purify your blood, overcome constipation and have an excellent tonic effect on the entire system. Makes you feel like living. Only 25c. at drug stores.

We are now prepared to handle fresh meats, vegetables, and fruits of all kinds, give us an order. —Babb Bros.

When My Lady Came In For Her Hat.

She was one of those dear ladies I had known her in years gone by. She had been my mother's neighbor. When I was not very high.

Of course, I wanted to please her. I tried to, my very best. And thinking she might be tired. I brought her a chair to rest.

At first she spoke of her daughter. She visited less than a month ago. How she had married a lawyer. And located nicely in San Antonio.

I tried on hats and bonnets. No doubt it was more than a score. It seemed I had tried on all we had. But still I kept trying some more.

I found several very becoming. But still she was not satisfied. One did not fit her head well. Another the brim was too wide.

Soon she began to get restless. I wondered what I had said wrong. Then she began unwrapping. A parcel she had brought along.

I never dreamed of a hat. Being rolled up in a parcel so it was a Neapolitan braid, my dear. And the style was of long ago.

She asked what I could allow her. Toward the price of a new hat. I said she might have it reblocked. —Oh! No! she'd not care to do that.

I told her I could not exchange hats. But would be glad a new one to sell. I wished very much to please her. And why you all know very well.

She took up her parcel and started. And just before turning to go. She looked up sweetly and told me. They swap hats in San Antonio. —L. M. P.

Money Wanted

I can place a number of small loans at 8 percent secured by first mortgage. Why not let me loan your money for you. B. L. Yates.

DEUTSCHLAND

Carries On Wireless Conversation With Station in Germany.

Baltimore, Md., Aug. 14.—A wireless message in code, to the German merchant submersible Deutschland from Nauén, Germany, was "picked up" last night at the wireless station of the Doubleday-Hill Electrical Co. near Pittsburg by Operator H. E. Digby and his assistant, according to a dispatch

from that city. The message was in code and little could be made out of it.

Operator Digby is quoted as saying that the operator on the Deutschland carried on a conversation in German with the operator in Nauén for several minutes, after they had finished the transmission of special business. He is said to have stated that the submersible was doing fine and that no untoward happening had so far marred their trip. Nothing, however, was said that would give the eavesdropper an idea as to the location of the U-boat.

The Doubleday-Hill radio station is the most powerful and costly wireless station in the world. It was built for experimental purposes.

Protect your credit. Money to loan on farms, from \$1,000 up. From 5 to 10 years. Interest averages 7 per cent.

GEO. M. CRIDER, Financial Correspondent Marion, Ky.

LAD INJURED

When He Fell Headlong Into The Ohio River, Dies.

Spottsville, Ky., Aug. 15.—As a result of a fall into the Ohio river two weeks ago, near Newburg, Bryan Frey, 19-year-old son of William Frey of near here, died at the Evansville sanitarium this morning at 8 o'clock. The lad's condition remained practically unchanged while he was confined at the sanitarium, and his death this morning was not unexpected by members of his family and friends.

As a result of the injury the boy's entire body was paralyzed, and although heroic efforts were made by Drs. Welborn and Davidson to save his life through an operation, the injury to the vertebra was so great that it was impossible to save him, and the end came as a relief to his sufferings early today.

Deafness Cannot Be Cured

by applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by the use of the *Lawson's Ear Cure*. It is an infallible remedy for the cure of deafness, and when it is used, the hearing will be restored. It is a simple, safe, and effective remedy, and it is the only one that can be used without any pain or discomfort. It is the only one that can be used without any pain or discomfort. It is the only one that can be used without any pain or discomfort.

Jealous of New Baby, Children Leave Home.

Chicago, Aug. 15.—Mr. and Mrs. Raymond Holland have a baby. Yesterday Geneva, aged 11, was sent to the grocery. When she failed to return, Mrs. Holland sent Geneva's brother, William Raymond, aged 8, after her. Neither can be found, and neighbors say the children were heard discussing the new arrival in the home disparagingly, and discussing the advisability of leaving home.

A TREAT YOU MUST NOT MISS

Will Be the Pennyroyal Fair at Hopkingsville on August 29th to September 2nd.

A Month Earlier Than Usual This Year—Program is Spectacular In Every Way.

The Pennyroyal fair this year will be held at Hopkingsville on August 29 to September 2, just a month earlier than has been the case heretofore. This is for the purpose of giving assurance of better weather than has been experienced in the past. Especially last year the heavy and continued rains seriously interfered with the attendance at the fair and also with the out of door features, so this year the management decided to hold it earlier. The fair this time promises to be the best yet given. Nothing has been spared to make this the case and all five of the days will be banner days. Every department will be filled to overflowing with exhibits for the prize lists are unusually generous and cover practically everything grown on the farm or made by the housekeeper. The official catalogue is just off the press and copies can be secured by calling on or writing to John W. Richards, the secretary.

The Third Regiment band is at Fort Thomas this year and won't be able to furnish the music which is a source of regret, but a splendid band from Chicago has been engaged for the entire five days. This band, as well as the free acts to be given in front of the grand stand each day, will be furnished by one of the biggest companies in the United States engaged in this business and this part of the program will be the best ever seen here.

Two women will be especially interested in the Floral Hall, which is this year in charge of Mrs. Holland Garnett and a number of prominent ladies. Mrs. W. A. Radford, superintendent of this department in the past, was unable to give it her attention this year because of duties calling her out of town. Mrs. Garnett and her assistants have gone at their task in a vigorous and enthusiastic manner and the Floral Hall promises to be better than ever. One thing that will be of especial interest to women who contemplate making exhibits, is that the prizes will be limited to Kentucky exhibitors only. Professional exhibitors from other states won't have a look in this year. There will be classes for girls, young ladies, middle-aged

ladies and older women, so that everybody may compete.

For the farmers there will be the usual interesting departments for stock, hogs, horses, sheep, mules, agricultural products of all kinds and anything they care to show. The Pennyroyal Fair is primarily a farmers' fair and at no time in the past has this been demonstrated more than it will be this year.

The poultry department, always one of the biggest attractions of the fair, will be just as good this year and that is about all that can be said for it for in the past it has been so remarkable in the great number and high class of fowls shown as to make it next to impossible to say that it can be exceeded.

The racing each day, as usual, will be splendid. There will be both trotting and pacing races in heats each day, and also running races. There will be some mule races and other features to add humor to the program as spice for the thrills.

On Saturday the Traveling Men will have charge again and they expect to put on a great many new and novel stunts. Their Mule Derby, which created so much fun last year, will be run over again with eighteen entries and with Governor Stanley and Congressman Kinchloe among the riders. They will also have a mule harness race with eleven entries that should be even funnier than the running race.

In every way will the fair be worth seeing, in fact everybody who misses it will be decidedly the loser. But it is expected that great crowds will be on hand every day and that the event will be the most successful in the history of the Pennyroyal Fair Association.

The Strong Withstand the Heat of Summer Better Than the Weak

Old people who are feeble, and younger people who are weak, will be strengthened and enabled to go through the depressing heat of summer by taking regularly Grove's Tasteless Chill Tonic. It purifies and enriches the blood and builds up the whole system. 50c.

Philadelphia Papers Are to Reduce Size.

Philadelphia, Aug. 9.—As a result of a series of meetings of the newspaper publishers of Philadelphia, called to consider the serious situation that is confronting them caused by what are practically famine conditions in the news print market, the following agreement was unanimously reached:

All daily, evening and Sunday newspapers will immediately reduce the size of their issues to the extent of a total in excess of eighty pages.

"Kindness is a golden chain by which we are bound together." —Goethe.

Silver of Quality and Beauty

Unquestioned durability and exquisite design—the highest ideals in plated ware—are assured in spoons, forks and fancy serving pieces bearing the renowned trade mark

1847 ROGERS BROS.

There are various makes of silver-plated tableware which are claimed to be "just as good," but, like all imitations, they lack the beauty and wearing quality identified with the original and genuine 1847 ROGERS BROS. ware, popularly known as "Silver Plate that Wears."

Sold by leading dealers everywhere. Send for catalogue "CL," showing all designs.

Editorial From Leman's Messenger.

(Scripture Quotation.)
Daniel 5:20-21.

But When his heart was lifted
up and his mind hardened in
pride, he was deposed from his
kingly throne, and they took his
glory from him.

And he was driven from his
sons of men; and his heart was
made like the beasts, and his
dwelling was with the wild asses;
they fed him with grass like
oxen, and his body was wet with
the dew of heaven; till he knew
that the most high God ruled in
the kingdom of men, and that
he appointed over it whomso-
ever he will.

Wealth and honors are what
man desires; but abide not in
them by help of wrong. Lowli-
ness and want are hated of men,
but forsake them not by help of
wrong. —Confucius.

Some men who have such good
memories that they can repeat
the names of all the books in the
Bible have such poor recollections
that they can't remember the
fact that they owe the editor a
dollar for the county paper.

ALLIES PLAN BIG STEEL CONTRACT

Five Hundred Thousand Tons of
Shell Material Are Bought.

New York, Aug. 14.—The en-
tente allied governments Friday
closed contracts for 500,000 tons
of shell steel and forgings with
the United States Steel Corpora-
tion and with several of the large
independent steel companies. It

is understood that the order in-
cludes semi-finished steel as well
as bars and forgings sold at an
average price of \$67.50 per ton.
If this correct the total contract
call for the payment of over \$33,-
000,000.

SECOND DUPONT BLAST

Trinidad, Col., Plant Blows Up
With No Fatalities.

Trinidad, Col., Aug. 14.—An
explosion of a magazine at the
DuPont de Nemours Powder
company at Augusta, four miles
east of Aguilar, late yesterday
wrecked the major portion of the
plant, shook the town of Aguilar
shattered windows of houses in
the vicinity for two or three
miles and cut off telephone and
telegraph communication with
the plant and near-by stations.

The explosion is said to have
been caused by lightning. When
communication was restored it
was discovered that none of the
employees had been injured.

FOR SALE

My farm 4 miles North east of
Marion 81 acres on Rural Route
Level land, 30 acres in grass, 2
acres in timber balance in good
state of cultivation, well watered
good orchard, tobacco barn, stock
barn, well fenced, terms easy.

A. H. Travis.

W. N. Rochester, Miss Eliza-
beth Rochester, of Marion, Ky.,
and Miss Vivien Kelly left this
morning for Dycusburg, Ky.,
where they will be the guests of
Mr. and Mrs. Guy Lambert.
They will motor to Marion in
Mr. Lambert's car, where Miss
Kelly will be a guest at a house
party to be given by Miss Roch-
ester.—Paducah News-Democrat

LEVIAS

Owing to the inclement weather last
Saturday and Sunday, Rev. T. C. Car-
ter, of Marion, could not fill his regu-
lar appointment at Union; but we had
a call meeting Sunday afternoon to
elect delegates to the Association, and
to appoint the time for our annual
meeting which will commence Satur-
day before the second Sunday in Sep-
tember.

On Monday, Aug. 21st, 1916, the
Union graveyard will be cleaned off.
All interested are invited and expected
to be present.

John Franklin and Dallas Davidson,
of Tolu, were guests Sunday at the
Franklin home. They were accom-
panied home by Mrs. Alice Franklin
and children, of Morley, Mo., and
Mrs. Mary Franklin, of Levias.

Misses Adaline Carter and cousin,
Mayme Love, returned from Salem
Sunday, where they visited relatives
the week-end.

Miss Lena Franklin was the guest of
her brother, J. H. Price, and family
Monday.

Gay Dunning spent Sunday night
with his wife and son here.

Mrs. Tom Dunning, J. H. Price, wife
and mother, Mrs. A. F. Babb, were
guests Wednesday of Mrs. L. L. Price
and daughter.

Mr. and Mrs. Herschel Lynn are the
guests of her parents, Mr. and Mrs.
Lawson Franklin. They will start to
Colorado Tuesday, where they expect
to make their future home.

G. G. Threlkeld and son, Oren, of
Ripon, were in Levias Thursday night.
The ice cream supper at C. C. Be-
bout's Saturday night was a perfect
success.

DEANWOOD

Several from this place attended the
camp meeting at Piney Sunday.
B. F. Drennan spent two days in
Dixon last week.

Olive Branch school has forty-eight
students enrolled, with more to follow.
Stella Dean, of Sugar Grove school,
and Fred Hurst, of Tribune, spent
Sunday afternoon with friends in Dean-
wood.

Mr. and Mrs. Lonnie Brantley are
attending camp meeting.

Lenard Hurst and family, who have
been visiting friends in Dexter, Mo.,
have returned home.

Mrs. John Thomas and children, of
Providence, are visiting her sister,
Mrs. J. T. Stewart.

Miss Maggie Walker spent one day

with her aunt, Mrs. Wm. Stewart, re-
cently.

Mrs. Allie Paris and children, of
Dexter, Mo., who have been visiting
her mother, Mrs. Sallie Woods, for
two weeks, left for home Wednesday.

Carrie Morse, of Odessa school,
spent the week-end with home folks.

MT. ZION

Mrs. Luther Vaughn is on the sick
list.

Mr. and Mrs. Logan McDowell went
to Weston Wednesday trading.

Mrs. Nora Truitt has returned home
after a few weeks' visit with friends
in Sikeston, Mo.

Little Annie Nylene O'Neal has been
quite sick, but is now better.

Misses Vera and Lillian Bennett
spent a few days last week with her
sister, Mrs. Beatrice Crisp.

Mrs. Annice O'Neal was the guest
of Mrs. Nora O'Neal one day last week.
Omer Crisp left Sunday for a few
days' visit with friends and relatives
at Princeton and Dawson Springs.

Mr. and Mrs. Ily Baker and two
children, of Princeton, spent a few
days last week with her uncle, A. B.
Crisp.—Watseka.

CASAD

School is progressing nicely at He-
bron with George W. Cenditt, as
teacher.

Mrs. Henry Lasher, who spent the
last two months with her parents, Mr.
and Mrs. T. N. Bracey, has returned
to her home in Titusville, Fla.

Mr. and Mrs. Ray Daughtrey are
the proud parents of a fine daughter,
named "Virginia Rhea."

Dr. O. T. Lowery, of Tolu, was called
to see Louis Taylor Daughtrey,
Sunday, and report the disease, eczema.

J. O. Paris and family spent Sunday
night in Marion.

Born to the wife of John Alvis, a
boy.

Herschel Franklin is still confined to
his room and is reported no better at
this writing.

Mrs. Herman Thomas and son, Wil-
bur Gray, who have been visiting rel-
atives in Henderson and Marion, re-
turned home Monday.

The ball game at Ford's Ferry Fri-
day.—Casad vs. Ford's Ferry, ended
with scores 7 to 4 in favor of Casad.

Misses Carrie and Mary Ainsworth
and Gilliam Bracey were pleasant cal-
lers in Ford's Ferry Thursday after-
noon.

Miss Millie Bracey and brother, Tom,
accompanied their sister, Mrs. Henry
Lasher, to Paducah, on her way to
Titusville, Fla.

Miss Mary Ainsworth, who has been
visiting her aunt, Mrs. Albert Elder,
of Fredonia, has returned home.

A Friend of Humanity.

Knicker—"Has Smith's car made him
popular?" Bocker—"Those he takes
out sue him for damages and the rest
sue him for breach of contract."

How It Happened.

"How did you happen to vote for
prohibition?" "I did it 'cause I got
the general state of groch," replied
Broncho Bob. "Everybody in Crimmon
Gulch got sort o' huffy with everybody
else an' we seem to get some kind o'
satisfaction out o' standin' around an'
suein' one another suffer."

Katherine Yandell, Ray Flanary
and Miss Clara Margaret Orme
with an automobile trip to Evans-
ville and Henderson taking in
the Uniontown fair enroute.

M. V. Sutton of Deanwood
brought to our office the skeleton
of a squirrel's head, last week
which was found in a cave near
E. R. Hill place on Piney, also
the jaw bone of a human skull,
which was dug up in the cave
many years ago.

Will Wallace the Sturgis in-
surance man was here this week.

If you are looking for a house
and lot, see Crider & McFee.

Zed A. Bennette, the Paducah
insurance man was here Tues.

Miss Cordia Smart opened up
her school at Dempsey, July 31st,
with thirty pupils enrolled.

Several thousand subscribers
are in arrears, no papers will be
mailed if not paid for after this
date. We are working on the
list as fast as we can.

Miss Blanche Bryant, of Ev-
ansville, Ind., is the guest of
Mrs. Jas. B. Hughes, this week.

Nat Rochester who visited
Alex Kelly and family in Padu-
cah last week has returned
home.

We can't continue to do it and
won't try. Papers must be paid
for if mailed out after this date.
No exceptions. Don't blame us
if paper stops.

Miss Alma Asher left Saturday
for Nashville Tennessee to accept
a position in a large millinery
store.

Miss Marion Clement enter-
tained at cards in honor of Miss
Nelle Dulin, of Madisonville, Sat-
urday afternoon.

Miss Bessie Nunn left Friday
day afternoon for Sturgis, her
old home, to visit relatives and
friends for a few days.

FOR SALE—Two No. 1 milch
cows, half and three quarters
Jersey. Both fresh. One calf.
W. F. McMurry,
Sturgis, Ky.

B. M. Vinson had the misfor-
tune to lose a fine barn near
Fredonia Tuesday night. We
have not heard the particulars
and do not know whether it was in-
sured or not.

Just received line new fall
white corduroy hats at 79cts. A
bargain for all. New line of
large collars at 10cts. Come and
see my new line early fall coats
at Lottie Tinsley Terry.

Dr. O. H. Wolner, of Gilbert,
Minnesota, owner of the Walnut
View Fruit Farm, arrived this
week just in time to help work
the road out by his plantation.

We can treat in our home a
limited number of cases with
Granular sore eyes. We will
also reduce the weight of fat or
bloated people without drugs or
starving. We guarantee results.
—J. R. Gilchrist Ophr.

Prof. C. E. Boyd, of Hampton,
has moved to Marion and is oc-
cupying Mrs. Margaret Moore's
cottage on West Depot street.
We welcome Mr. Boyd to our
midst.

Wm. Owen Moore, a student
of the Kentucky State college,
arrived home this week to visit
his parents, Mr. and Mrs. John
A. Moore.

Miss Mary Ellen Baldwin, of
Birmingham, Ala., arrived Fri-
day afternoon to be the guest of
Miss Susie Boston.

Misses Nannie and Leona Mil-
ler, after spending two months
with friends in Illinois, returned
home last Friday.

Miss Joanna Rankin, of Ford's
ferry, was the guest this week
of her cousin, Miss Jewell
Rankin.

L. E. Guess attended the
meeting of the Association of
County Clerks, which convened
last week at Dawson Springs.

Mrs. H. H. Sayre of Ardmore,
Okla., will be here this week for
a visit to Mrs. Geo. P. Roberts
on Walker St.

The Tent Meeting near Mattoon
will be held next week under the
direction of Revs. Oakley and
King of this city.

We pay the highest prices in
cash for old rags, metal, rubber,
etc. Our wagons will call for
same.
E. T. Frazier.

8174tp.

N. G. Rochester and wife of
Louisville are guests of his par-
ents J. G. Rochester and wife on
Bellville street this week.

Miss Lemah James, of Louis-
ville, who is spending the sum-
mer with her grand parents, Mr.
and Mrs. L. H. James, left Fri-
day for Kuttawa and Eddyville,
for a visit with friends and re-
latives.

Miss Louise Clement entertain-
ed with a Victrola dance Friday
evening in honor of Miss Nelle
Dulin, of Madisonville, Ky. Re-
freshments of brick ice cream
and nabiscoes were served.

Pearl Sigler, a prominent citi-
zen of Shady Grove, has pur-
chased the bungalow residence
of B. L. Yates on North College
street and will occupy the same
with his family September 1st.

A protracted meeting began at
Chapel Hill Wednesday night un-
der the direction of the pastor,
Rev. A. J. Thomson, assisted by
Rev. W. E. Morse, pastor of the
Main street Presbyterian church.

Mrs. Frank Webber of Union
City Michigan left Sunday after-
noon for her home after a visit
of several weeks with her sister
Mrs. Ida Stone wife of Mayor
George W. Stone.

Wm. Baird has been given the
management of the Rosiclare
company hotel and has moved
there, with his wife and son, and
taken charge. Mr. Baird has
been connected with the Elliott
factory here.

Miss Beulah Conyer and sister
of Memphis, Tennessee arrived
last week and will visit her
mother Mrs. Ida Conyer and sister
Miss Vera Conyer at the Park
Wilsonian for ten days before re-
turning to Memphis where she
has a fine position.

Money to loan on farms at 7
per cent. Geo. M. Crider.

Mrs. Clara Cosminsky and Mrs.
Minnie Burtis, and children, of
Memphis, Tennessee, who were
guests last week of Mrs. Marg-
aret Wright and her daughter,
Miss Daisy Smart, on North
Main street, are now visiting
relatives near Sheridan.

The Rev. James F. Price is
having a fine tent meeting at
Homer, Ky., in Logan county.
There have been forty-four pro-
fessions the first week and the
interest is increasing. Mr. Price
will go to Corinth, near Russell-
ville, to begin a meeting next
Sunday.

Renewals and new subscrip-
tions to the Crittenden Record-
Press will be received this month
at \$1.00. No paper will be mail-
ed after Sept. 1st, unless
paid for.

Ernest Carnahan, his mother,
Mrs. Clara Carnahan, his broth-
er, Douglass, and Miss Anna
Cox, left Tuesday morning ear-
ly for Mammoth Cave, going via
Hopkinsville, Russellville and
Bowling Green in Mrs. Carna-
han's new Overland car. They
will be absent several days.

Mrs. Frank Edwards, of Gil-
bert, Minnesota, and little son,
George, after spending the sum-
mer with her parents, Mr. and
Mrs. G. C. Gray, left Friday for
Minneapolis to visit her hus-
band's parents, Dr. and Mrs.
Edwards during the remainder
of August. Her husband will
meet her there about September
1st, and together they will pro-
ceed to their home at Gilbert.

Among the 15 applicants for
carrier on new Repton Rural
route who took examinations
were the following:

Taylor Lucas, Robt. Rankins,
Arthur Nunn, Roy Thurmond,
Fratt Stanley, Jake Mayes, Ray-
mond Minner, Leslie Bibb, Cur-
tis Hardin, Joseph Guess and
Howard Phillips. We have not
learned who the other four were.

Miss Annie Louise Dean has
accepted a position to teach Ger-
man and mathematics in the Pa-
ducah High School. She will as-
sume her duties September 4th.
Miss Dean, who taught in the
1914-15 session in the Cynthiana
High School, spent the past win-
ter in Florida and in Louisville,
Ky., and Knoxville, Tenn., visit-
ing school friends. She has had
several offers of positions, but pre-
ferred to rest one year. She now
assumes a choice place at a fine
salary and in one of the leading
cities in the state.

The Strong Withstand the Heat of
Summer Better Than the Weak
Old people who are feeble, and younger
people who are weak, will be strengthened
and enabled to go through the depress-
ing heat of summer by taking regularly
Groce's Tasteless Chill Tonic. It purifies
and enriches the blood and builds up
the whole system. 50c.

IN SOCIETY

Mr. and Mrs. Samuel Gugen-
heim gave an informal dancing
party at their home on South
Main St. Tuesday night in honor
of Miss Dulin of Madisonville,
the charming house guest of Miss
Louise Clement. Punch and a
dainty ice course was served.

Those dancing were:

Miss Dulin and Mr. Jenkins,
Miss Louise Clement and Mr.
Orme, Miss Marian Clement and
Mr. Douglas Clement, Miss Ruth
Croft and Mr. Flanary, Miss
Ruth Haynes and Mr. Threlkeld,
Miss Madeline Jenkins and Mr.
Babb, Miss Kittye Gray and Mr.
Cook, Miss Isabelle Guess and
Mr. Yates.

Complimenting Miss Dulin of
Madisonville, Miss Baldwin of
Alabama, Mrs. Haynes of Okla.,
and Mr. Herderich of Nashville,
Miss Ruth Croft was host at a
bridge party Saturday night.
Those playing were, Misses Du-
lin, Baldwin, Flanary, Marian
Clement, Louise Clement, Ruth
Haynes, Mayme Haynes, Boston,
Guess, Mesdames H. Haynes,
W. V. Haynes and Nunn, Messrs
Threlkeld, Jenkins, Douglass
Clement, Earl Clement, Orme,
Yates, Herdrich, H. Haynes, W.
V. Haynes and M. Nunn.

Honoring Mrs. Haynes of Okla.
Mrs. Rochester, of Louisville and
Miss Dulin, of Madisonville; Mrs.

Paul Adams and Miss Ruth Flan-
ary entertained at bridge Tues-
day afternoon at the home of
their father, R. E. Flanary on
West Belleville. The house was
attractively trimmed in garden
flowers and at the close of the af-
ternoon play, a dainty collation
was served. The guest list in-
cluded, besides the honorees,
Misses Rutter, of Idaho, Baldwin,
of Alabama, Boston, Guess, Ruth
Haynes, Croft, Louise Clement,
Marian Clement, Blue, Evelyn
Clement, Yandell, Jenkins, Roch-
ester, Gwendoline Haynes, Gray,
Mayme Haynes, Mesdames Mc-
Donald, of Chicago, Cross, of
Louisville, W. V. Haynes, Nunn,
C. W. Haynes, Guess, C. C. Tay-
lor, Orme, Barnett, Guggenheim,
and Thomas.

Miss Dulin, of Madisonville,
was the honor guest at a house
dance given by Miss Louise Clem-
ent Friday night. In the receiv-
ing line were Miss Louise Clem-
ent and Mr. Orme, Miss Marian
Clement and Mr. Clement, Miss
Dulin and Mr. Threlkeld, Miss
Baldwin, of Alabama, and Mr.
Jenkins, Miss Rutter, of Idaho,
and Mr. Duvall, Miss Boston,
and Mr. Hederich, of Tennessee.
Ices were served during the even-
ing. Other guests were Misses
Croft, Cox, Guess, Rochester,
Flanary, Mayme and Ruth
Haynes, Gilliland, Cook, of Pa-
ducah, Evelyn Clement, Jenkins,
Messrs. Orme, Flanary, Yates,
Wilson, Moore, Dowell, of Toiu,
E. Clement, Minner, Olive, Clif-
ton, Babb, and Mr. and Mrs.
Paul R. Adams.

TO WHOM IT MAY CONCERN

While in your city a few days ago, I called upon the
County and City Supts., also the School Board personally,
and they assured me that I would get their hearty co-op-
eration in opening a Business School in Marion, Ky.

Now---If the young men and ladies who wish to at-
tend a school of bookkeeping, shorthand and typewriting
in their own home, will sign this hand-bill and mail it to
me at once, it will be appreciated, also give me some idea
of what they want along this line. Place a cross mark
before the study is all that is necessary.

SWEEPING INCREASES IN INHERITANCE TAX

Democratic Members of the Senate
Finance Committee Would Also
Raise Munitions Taxes.

Washington, Aug. 6.—Complete revision of the munitions tax section of the house revenue bill and sweeping increases in the inheritance tax were ordered recommended to the democratic caucus today by democratic members of the senate finance committee.

The proposed higher taxes on big inheritances would increase the estimated revenue from that section of the bill alone from \$54,000,000 to \$72,000,000 annually. Retaining the house bill taxes of 1 per cent. on estates over \$50,000 graduated up to 5 per cent. on those in excess of \$450,000, the committee added schedules of 6 per cent. on estates in excess of \$1,000,000; 7 per cent. on \$2,000,000 to \$3,000,000; 8 per cent. on \$3,000,000 to \$4,000,000; 6 per cent. on \$4,000,000 to \$5,000,000; and 10 per cent. on estates in excess of \$5,000,000.

In revising the munitions tax, the committee struck out the varying rates provided in the house bill for munitions, powder, explosives, shells, cartridges, products of copper, etc., and decided to substitute a flat uniform tax on all of these commodities.

Determining that the tax should be a net profit tax on the manufacturer, the committee also decided to add the following commodities utilized in making munitions: Steel billets, blooms, ingots, shell forgings, denatured alcohol and cotton liners. In addition, chemicals actually used in the manufacture of munitions would be taxed. The rate to be imposed is still to be determined.

The income tax section was completed during the day, the committee retaining the normal tax of 2 per cent. on all incomes of \$4,000 and \$3,000 respectively for married persons and single persons, adding the special tax of 1 per cent. on incomes in excess of \$3,000 and \$2,000 respectively for married and single persons; retaining the surtaxes as proposed in the house bill with the exception of an increase from 10 to 13 per cent. on incomes in excess of \$1,000. All of the proposed changes are subject to the approval of the democratic caucus.

ELECTRIC HEATING DEVICES.

THE perfection of the American Beauty Rose is expressed in the high quality of the "American Beauty" Electric Heating Devices, in so far as man can approach Nature's perfect workmanship.

The Devices of the "American" Brand can be attached to the ordinary electric lamp socket and are instantly ready to give service. They make many household duties pleasant, easy and inexpensive.

Insist on getting "American" Electric Heating Devices, and you will be sure of the most complete and satisfactory service.

Cheap Transportation Has Built National Prosperity

This is a big American freight engine.

It is an achievement of AMERICAN INVENTIVE GENIUS.

It is built to HAUL LONG TRAINS loaded with the products of American industry from the mines, farms, mills and factories to the markets of the country, and to the seaboard for shipment across the seas.

In all the wonderful history of American industrial progress NO PIECE OF MACHINERY HAS PERFORMED SUCH SERVICE AS THE BIG FREIGHT LOCOMOTIVE.

Freight is carried on our railroads at the LOWEST RATES IN THE WORLD, while we pay our railroad workers the HIGHEST WAGES IN THE WORLD. A TON OF FREIGHT IN THE EAST IS CARRIED THREE MILES FOR THE COST OF A TWO-CENT POSTAGE STAMP.

Cheap transportation is one of the biggest builders of our prosperity. The big freight engine with its enormous tractive power, the big steel freight car with its great carrying capacity, and the heavy rails and rock-ballasted roadbed to support the weight of the great engines and heavy trains—these are the achievements of American industrial genius which have given us low freight rates and broad markets, and have enabled us to put our products in the markets of the world in competition with foreign manufacturers.

But now come well-meaning but short-sighted leaders of American railroad workers who say to the railroad managers:

"SHORTEN YOUR FREIGHT TRAINS so that the engineers and trainmen can haul the tonnage faster over the roads, and so make as many miles pay in eight hours as they now do in ten hours."

To the State Legislatures these same spokesmen for the railroad workers say:

"Pass laws LIMITING THE LENGTH OF FREIGHT TRAINS—we oppose big tonnage trains."

To the Farmers, Manufacturers, and Merchants they say:

"With shorter freight trains railroads can move your products faster to the markets."

To the American Public that pays every dollar of the railroad bill (and 44 cents of every dollar paid for transportation is for wages), they say:

"All that the railroads have to do to meet our demands for higher wages is to shorten their trains, move the freight more rapidly and escape the penalty of overtime wages."

What would be the result of taking these leaders of the 350,000 train employees at their word—shorten freight trains so that they can be run at higher speed?

Increasing the number of trains to handle the same tonnage would call for more employees to do the same work, more tracks, larger yards and terminals, more supervision, and it is plain that there would be more congestion of traffic and greater hazards in train operation. Hundreds of millions a year would have to be spent by the railroads to increase their facilities and to operate the bigger plant.

IT WOULD BE AS KIN TO USING HAND SHOVELS INSTEAD OF FIVE-TON STEAM DREDGES TO DIG A PANAMA CANAL.

American railroads have spent enormous amounts in reducing grades, cutting down mountains and filling up valleys; in increasing the hauling power of locomotives and the carrying capacity of cars; in putting down rock ballast and heavy rails—all for one purpose, to lower the cost of operation.

It is the public that has reaped the benefit—in better and cheaper railroad service.

If the railroads moved their tonnage in shorter trains at higher speeds, the public, it is seen, would have to shoulder a great burden in the increased cost of transportation.

Would the public get value received for its money?

Of the tonnage on the roads east of Chicago 60 per cent. consists of coal, coke, ores, stone and other mine products. To the public it is of no consequence whether this freight is a few hours longer on the road, so long as there is a continuous and regular stream of it coming to the markets.

FOUR-FIFTHS OF ALL THE TONNAGE MOVING IN THE EAST IS MADE UP OF LOW GRADE, SLOW MOVING FREIGHT, CARRIED AT THE LOWEST RATES IN THE WORLD.

To abandon the big freight trains on American railroads in order to increase the speed at which the bulk of the traffic moves, and thereby enable the train employees to earn higher wages in shorter hours, would place a great burden on American industry without giving the public any tangible benefit.

RAILWAY MAIL PAY.

Congress Directs Interstate Commerce Commission to Investigate Subject.
Washington.—The annual Post Office appropriation bill recently passed by Congress contains a clause directing the Interstate Commerce Commission to take up for investigation, report and the future of rates the question of payment to the railroads for carrying mail. The Commission is authorized to test the relative merits of payment by weight and by space.

The railroads have long contended that they were underpaid for this service and that they were losing millions of dollars a year under the system of payment now in effect. It was felt that the Interstate Commerce Commission, on account of the information at its command regarding all phases of railroad operation, is in the best position to determine the merits of the case.

LONG HOURS A RARITY.

Only Once in Five Years Does Average Trainman Exceed Legal Limit.
That long hours in train service have been reduced to a minimum is shown by a report issued by the Interstate Commerce Commission. Only one carman in five on the average last year was compelled to remain on duty more than sixteen hours during any one day in the whole year. Stated in another way, the chance of an engine man or trainman remaining on duty beyond this prescribed limit was reduced to once in five years.

The total number of cases of excess service from all causes reported to the commission was only 61,247 during the year ending June 30, 1915, as compared with 157,329 in 1914 and 274,827 in 1913, and with twice as many cases represented cases occurred as due to unavoidable causes.

Statistics on this subject are collected by the Interstate Commerce Commission under the national hours of service law. Every time a train is so delayed by a blizzard, washout or other cause that any part of the train crew is on duty longer than sixteen hours the railroad company must report the occurrence to the commission, giving the names of the affected employees concerned and a full statement of the cause for the excess service.

For several years the railroads and the Interstate Commerce Commission have been co-operating in efforts to prevent the breaking of employees on duty for long periods. The result, of nearly 50 per cent. in such cases which has been brought about in three years shows that the working of men for long stretches of continuous service has practically disappeared except in rare cases of unavoidable delay.

GOVERNMENT SHOULD REGULATE WAGES.

If a set of conditions have arisen which oblige the government to regulate rates, then it is equally obliged, on the basis of economic analysis, to regulate wages accordingly. Having taken one step, it must take the other. The logic of events is forcing this dilemma on the government. It is the public which sooner or later must pay for the increased expenses of transportation.—Professor J. Lawrence Laughlin, University of Chicago.

SOCIALISM AND THE FARMER

By J. L. Stark State Secretary of
Socialist Party of Ky.

According to government statistics, if the industries were all organized upon a basis of economy and the elimination of waste in competition and duplication, four or five hours work would produce \$10.00 worth of wealth, each day, and this amount could be increased by adding more hours to the work day.

Formerly with hand craft it required 200 hours to make a farm wagon. Now better wagons can be made with machinery in 48 hours and 18 minutes. Labor cost \$7.10 sells to the farmer for \$20.00 to \$25.00.

100 lbs. of granulated sugar cost the sugar trust, (labor) 62, requires 11 minutes work, sells for \$3.00 to \$5.00.

Best pair of men's shoes made 54 minutes, labor costs 31cts, sells for \$3.00 to \$5.00.

Where it formerly required by hand work 118 hours to make a plow now by machinery can be made in 3 hours and 42 minutes, labor cost 79c, sells to the farmer for \$10.00. Sewing machines are made now in 23 hours, labor cost \$3.25 sells for \$35.

Mr. Ford can make an auto today including all labor for \$75.00 which sells for \$300. to \$450, and he pays the largest wage of any employer in the country and yet clears \$25,000,000 per year.

The income of a Rockefeller is estimated at \$50,000,000 annually or \$9.27 per second. If Adam and Eve had begun 2,000 ago to save \$2. each per day and have lived up until today they would not have had by their combined savings of \$2. each per day but \$1,420,000, and it would have required them both at the same rate of saving 38,000 years to accumulate as much money as Mr. Rockefeller is estimated to save in each year.

But if Adam and Eve had owned the earth and collected 1 percent interest off of all the wealth produced in 2,000 years, they would perhaps be nearly as wealthy as Mr. Rockefeller.

What is necessary to save Mr. Rockefeller from the embarrassment of owning all the earth and the fullness thereof, is to change method of ownership from private to public, and pass a prohibition law, making it unlawful for any person to engage in the manufacture of coal oil. This kind of law can be made legally to apply to all other Trusts by the right of eminent domain.

Daily Thought.

"An effort made for the happiness of others, lifts us above ourselves."—Child.

Maxwell

\$595

F.O.B. DETROIT

We could claim 41 1-2
Horsepower and prob-
ably you wouldn't
know the difference

"HORSEPOWER" is a misleading phrase. It is sometimes wrongly used to carry the idea of something unusual, exceptional—some startling innovation.

We don't claim anything we can't prove. We don't mislead by reference to a technical subject you don't understand.

We've got something real to talk about. Examine the Maxwell car—its complete equipment. Note the attractive appearance. Consider its reputation and its unequalled record for performance.

The price includes all the horsepower you need to take you anywhere and as fast as you want to go.

5-passenger Touring Car, \$595 2-passenger Cabriolet, \$665
2-passenger Roadster, 530 6-passenger Town Car, 915
5-passenger Sedan, \$985

Another Raise

The Evansville newspapers are up against the print paper proposition, along with the other publishers of the United States.

The Evansville Courier has advanced to four dollars a year by mail and 65 cts a month by carrier.

The Courier has sold in the past as low as two dollars a year but the increased cost in the price of print paper has forced it to increase the rate the same as other newspapers all over the country. —Ex.

Worn Out?

No doubt you are if you suffer from one of the numerous ailments to which all women are subject. Headache, backache, nervousness, weak feet, dizziness, some of the signs of a worn-out woman, and you need a course of treatment to feel well. Thousands of women, who have been benefited by this remedy, urge you to

TAKE

Cardui

The Women's Tonic

Mrs. Sylvia Woods of Clinton Mills, Ky., says: "Before taking Cardui, I was, at times, so weak I could hardly walk, and the pain in my back and head made sleep impossible. After taking three bottles of Cardui, the pain disappeared. Now I feel well, and my appetite is improved. I would advise every woman to take Cardui."—Cardui Co., Louisville, Ky.

Dr. J. R. GILCHRIST

OPHTHALMOLOGIST

Is ready to relieve you of that headache, dizziness, nervousness, granulated sore and smarting condition and all discomforts caused by eye strain; also your eyes straightened without pain or operation; your lenses duplicated and old frames refilled. In office every day. Press Bldg., Marion, Ky.

Dupont Works Explodes

Four killed Outright and
Three badly injured

Tompton Lakes, New Jersey, July 12.—One of the powder houses of the Dupont powder works, near here, blew up this morning shaking the surrounding country. It was later reported four were killed and three injured.

BETTER BE LIKE MARION, HAVE NO RIVER

Eight Drown In River At Frankfort This Summer.

Frankfort, Ky., Aug. 15.—The Kentucky river claimed its 8th victim of the season yesterday afternoon when Melvin Willis, eight-year-old son of Abe Willis, an employee of the Leland G. Banning Lumber company, was drowned a short distance from his home, on Wilkinson street, while his nine-year-old playmate, John McDonald, stood on the river bank powerless to render assistance.

SWEET CLOVER SEED

Direct from grower. White and biennial yellow; hulled and unhulled. Special scarified seed for fall sowing. Also pure sweet clover extracted honey. Prices and circulars sent free.

JOHN A. SHEEHAN,
R. D. NO. 4, FALMOUTH, KY.

The Wilson Hill farm is posted no hunting allowed. Trespassers are warned to keep off.
Edie Wilson Jenkins.

Hammond Newspaper

Doubles Its Prices.

Hammond, Ind., Aug. 15.—Announcement is made today that the price of the Hammond Times will be increased from one cent to two cents a copy on the street on Sept. 1. The rate to subscribers will be ten cents a week. Increased cost of paper and everything necessary for publication of a newspaper is given as the reason for the higher price.

Farm For Sale

74 acres 4 miles north of Marion on Crooked Creek, well fenced, fairly good 2 room house, new tobacco barn, 25 acres in clover and grass, some fruit, two ponds and a spring, some timber a bargain for cash.

BROTHER'S BLOOD FAILS TO SAVE

Mrs. H. Chapman Mason Dies In Chicago—Brother Who Gave Life Fluid Dangerously Ill.

Henderson, Ky., Aug. 15.—The remains of Mrs. H. Chapman Mason, who passed away in a Chicago hospital Sunday night, arrived here today and private burial occurred in Fernwood cemetery at five o'clock this afternoon.

Mrs. Mason was a sufferer for many months. She is survived by her husband and small daughter, mother, three sisters, Mrs. Starling Thompson, Mrs. William Seaper and Mrs. Ewing Rankin, and two brothers, Stephen Sneed of this city and William Sneed of Chicago.

Owing to the critical illness of Stephen Sneed, no funeral services were conducted at the Sneed residence. Young Sneed, teller in the Farmers' bank, was stricken with a strange illness Sunday. He remained unconscious for twenty hours. Two physicians worked over him all day Sunday and last night and revived him this morning. His illness is not definitely known but is supposed to have been occasioned by transfusion of blood to his sister ten days ago in Chicago.

For Sale

56 acres of land near Repton on public road, a good 4 room house, bored well. For particulars see E. M. Eaton, Marion, Ky. R. F. D. No. 4. 4t 83.

Helping Each Other.

Sometimes we can help each other best by letting each other alone. At other times we need the friendly handshake and the word of cheer. Men are under the domain of natural law as much as bees. Bees live only through co-operation—a frictionless, efficient working together. Men also succeed only by working harmoniously with other men, and for other men as well as for themselves.

72,000 CATS KILLED IN PARALYSIS FEAR

Rats and Mice are Carriers of Deadly Disease Germs.

(New York Times.)

Thomas F. Freely, superintendent of the Society for the Prevention of Cruelty to Animals at Twenty-sixth street and Madison avenue, said yesterday that the inspectors were working overtime and had collected 80,000 dogs and cats, of which 10 per cent. were dogs, since July 1. All of these animals were disposed of in the lethal chamber.

"Since the beginning of the alarm over infantile paralysis," the superintendent said, "we have been receiving on an average of 800 requests a day for our men to call for unwanted domestic pets, mostly cats, in spite of the statement issued by Health Commissioner Emerson that cats do not carry the germs of the disease. Our men go out with motor ambulances at 7 in the morning and work until 1 the following morning and pick up a total of 3,700 animals a day."

"As an example of the amount of ground covered by our ambulances in one day I can tell you that one of our men started in West Seventy-seventh street this morning to make sixty-four calls, and end his trip some time tonight at 204th street."

"Many persons who became alarmed at the spread of infantile paralysis turned their cats out of doors immediately, and some who had dogs did the same, which is probably the reason there are so many adrift in the streets this summer."

"Our total figures of animals gathered in 1915 was 276,683, while this summer we have collected 80,000 in the first twenty-four days in July. In the same month last year the men brought in 29,236 cats and 4,105 dogs, a total of 33,341."

"The 'pirate cats,' which are said to annoy the residents of West Eightieth street and other parts of the west side, are doubtless domestic pets which have been turned loose by their owners for various reasons. When people have to economize the first thing they decide to do without is the cat, and out she goes. 'Our men are working as hard as they can and there is no doubt that Wang and his band of cats will be rounded up in due course with the other nocturnal nomads in the city.'"

Mr. Freely said that rats and mice carry germs of infantile paralysis, but that there was no evidence that cats had ever been germ carriers. The employees of the society had Sunday, July 2 and 23 off and July 4, but they worked on Sunday, July 9 and 16, the superintendent said, on account of the unusual number of unwanted animals offered, and

the fear of pets' seemed to be increasing instead of diminishing.

Bee Sting Results in

Death of Eight Persons.

Dayton, O., Aug. 7.—Eight persons were injured when Rex Rosichan, 17, was stung in the eye by a bee and lost control of the automobile he was driving and the machine turned over on the Sprinboro pike near Dayton yesterday.

Urge Hanging of Kaiser.

Von Tirpitz And Bissling.

London, Aug. 15.—One of the biggest demonstrations by workmen that has occurred during the war took place in Trafalgar Square yesterday. "The great gathering demanded reprisals for the execution of Capt. Fryatt of the British steamer Brussels by the Germans in Belgium, speakers urging the compounding of all German property and the hanging of Emperor William, Admiral von Tirpitz and Gov. Gen. von Bissling of Belgium as 'common malefactors,' before the conclusion of peace."

When You Have a Cold

Give it attention, avoid exposure, be regular and careful of your diet, also commence taking Dr. King's New Discovery. It contains Pine-Tar, Antiseptic Oils and Balsams. Is slightly laxative. Dr. King's New Discovery eases your cough, soothes your throat and bronchial tubes, checks your cold, starts to clear your head. In a short time you know your cold is better. Its standard family cough syrup in use over 40 years. Get a bottle at once. Keep it in the house as a cold insurance. Sold at your druggist.

Dick Gilbert Well Situated.

Adolphus, Ky., Aug. 5th, 1916. Dear Marshall:

You will find enclosed check to pay up for the Record-Press.

I am pleasantly located on the railroad and pike between Scottsville, Ky., and Galatin, Tenn. Have had the pleasure of attending a big camp meeting, held by the Free Methodist. I tell you they enjoy religion: quite a contrast between them and the city churches. They all speak up and tell of the great hope that in them dwells, while the city brother is closed like a clam.

I was on duty here thirty years ago, have not met any one that I then knew. At that time they were building the railroad. I can see that the railroad has had the usual effect, resulting in more people and better people. Allen county is dotted with the most beautiful hills and knolls.

I have never met a more congenial people. I was pleased to see our ex-Co. Bro. McConnell, who is located at Scottsville. I expect to be here several months. I would like to be there today to vote.

Yours truly,

A. M. GILBERT.

One Use for Marriage.

Many a man looks upon marriage as an institution that will enable him to put his property in his wife's name.

PAPER

Can Be Made From Cotton Stalks Declares Berlin.

Berlin, Aug. 15.—The royal material testing office announces a discovery that paper can be manufactured from cotton stalks. The discovery is pointed to as being of vast importance to the United States the greatest cotton-producing country in the world.

Electric Light.

The basic discovery of the possibility of electric light was made by Sir Humphrey Davy in 1810, but for the next 50 years the developments were solely scientific and no practical use was made of them. In 1862, however, an arc light was installed in a lighthouse at Dungeness, and this is generally believed to be the first electric lamp in regular service.

Lax-Fos, A Mild, Effective Laxative & Liver Tonic Does Not Grip or Disturb the Stomach. In addition to other properties, Lax-Fos contains Cascara in acceptable form, a stimulating Laxative and Tonic. Lax-Fos acts effectively and does not grip or disturb stomach. At the same time, it aids digestion, arouses the liver and secretions and restores the healthy functions. 50c.

WHAT CATARRH IS

It has been said that every third person has catarrh in some form.

Science has shown that nasal catarrh often indicates a general weakness of the body; and local treatments in the form of snuffs and vapors do little, if any good.

To correct catarrh you should treat its cause by enriching your blood with the oil-ford in Scott's Emulsion which is a medicinal food and a building-tonic, free from alcohol or any harmful drugs. Try it. Scott & Bowne, Bloomfield, N. J.

Child's Doll House.

A doll house which will please almost any child can be made with small expense by fastening together two orange crates. This will form a four-room house. Cover the outside with oatmeal paper, which will resemble the new cement houses. Paper the inside with wallpaper of a small pattern. Cover floors with denim. Furniture can be bought at a 10-cent store.

As a cure for coughs and colds Dr. Bell's Pine-Tar-Honey combines three remedies in just the right proportion to do the most good for summer coughs and colds. A trial will prove the value of this splendid cough medicine. Dr. Bell's Pine-Tar-Honey soothes the irritation, stops your cough, kills the cold germs and does you a world of good. A 25c. bottle will more than convince you—it will stop your cough. At druggists.

The Bo's'n's Net.

A bo's'n's mate was in charge of a bunch of men hoisting and lowering a boat from the water to the deck. It was seen it would be necessary to have a block of wood put under the boat to make it set up even. The bo's'n's mate yelled: "Put a block under the boat! Use your head!" Judge.

The Quinine That Does Not Affect The Head Because of its tonic and laxative effect, LAXATIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness or ringing in head. Remember the full name and look for the signature of E. W. GROVE, 26c.

Rebuked.

The persevering landscape painter knew that he had an observer looking over his shoulder at the easel. He knew from the rustle of skirts that the observer was a woman; yet he worked steadily on. Presently the observer spoke. "A charming landscape," she said. "Ah, you flatter me," said the artist modestly. "Compared with the original landscape it is very poor stuff." "I meant the original," said the observer.

Oldest Living Thing Is In United States.

Towering a giant among giants the oldest living thing that connects the present with the dim past, majestic in its mien, its dignity and its world-old experience, the "General Sherman Tree" is the patriarch of the Sequoia National Park of California. It was already 2,000 years old when Christ was born. In the age when the known world was rocking in the throes of the Trojan wars and the time that history tells us marked the exodus of the Hebrews from Egypt, this greatest of sequoia gigantea was a flourishing sapling of some 20 or 30 feet in height and truly under the especial care of the Creator, who held it safe from the lightnings of His wrath as He did from the attacks of earthly enemies.

The "General Sherman" was discovered in 1879 by James Wolverton, a hunter, and named by him in honor of General Wm. T. Sherman. It towers 279.9 feet into the sky; its base circumference is 102.8 feet; its greatest diameter 36.5 feet; and it has developed a diameter of 17.7 feet at a point 100 feet above the base of the ground.—National Geographic Magazine.

\$10,000 To Koenig In

Recognition Of Feat

New York, July 12.—A check for \$10,000 was sent today to Capt. Paul Koenig, captain of the German submarine Deutschland, by August Heckacher, a New York capitalist in recognition of the submarine's feat. The sum will be distributed among the officers and the men. Mr. Heckacher sent the check through Charles Von Helmlot, manager of the North German Lloyd Steamship company.

WOMAN HAD NERVOUS TROUBLE

Lydia E. Pinkham's Vegetable Compound Helped Her.

West Danby, N. Y.—"I have had nervous trouble all my life until I took Lydia E. Pinkham's Vegetable Compound for nerves and for female troubles and it straightened me out in good shape. I work nearly all the time, as we live on a farm and I have four girls. I do all my sewing and other work with their help, so it shows that I stand it real well. I took the Compound when my ten year old daughter came and it helped me a lot. I have also had my oldest girl take it and it did her lots of good. I keep it in the house all the time and recommend it."—Mrs. DEWITT SPRAGUE, West Danby, N. Y.

Sleeplessness, nervousness, irritability, backache, headaches, dragging sensations, all point to female derangements which may be overcome by Lydia E. Pinkham's Vegetable Compound. This famous remedy, the medicinal ingredients of which are derived from native roots and herbs, has for forty years proved to be a most valuable tonic and invigorator of the female organism. Women everywhere bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound.

GERMANY'S GREAT ADVANTAGE LOST

Ever since the beginning of the European war, Germany has had one signal advantage over her enemies. Occupying interior lines, the German commanders could shift troops between the eastern and western fronts whenever needed. Troops fighting in Flanders could be transported to Poland in forty-eight hours.

Ability to meet pressure wherever it was exerted made the German fighting units much more powerful. The advantage of cavalry over infantry is largely one of mobility. Germany's forces were all cavalry on a grand scale, "railroad" cavalry. With this advantage troops could be spared from a comparatively inactive front for more effective operations. The removal was only temporary. The troops could be replaced when needed.

The allies, on the other hand, did not possess this advantage. Troops moved from France to Gallipoli were too far away to be available in any sudden and wide-spread attack. It was only by way of Vladivostok or Archangel that Russians were transferred to France. They were almost permanently removed from the eastern front. Any crisis which might demand their return would probably be passed ere they could have completed their long journey home. Far from being "railroad" cavalrymen those Russians moved with the slowness of tramp steamers.

During the first two years of the war German high commanders frequently transferred across Germany east and west. A year ago this summer many divisions which had been on the western front during the spring drive for Calais, were used to drive back the Russians. These troops were also used to obliterate Serbia and then sent back to the western front to die at Verdun.

The advantage to Germany of this ability to shift forces had to be met by the allies on all fronts. In the great drive for Calais the British had to meet German troops that could be spared from all fronts. The Russians had to meet the great onslaught last summer. The French had to withstand the oncoming waves last spring. Russians could obtain little help from her allies during her greatest peril. France had to win her own salvation at Verdun.

There was only one way for the allies to meet the great mobility of the Germans. That was to have enough men on all fronts, attacking at the same time, so that the Germans could not spare men from any front. Then if Germany moved her troops she would be sure to be vanquished on the front which she deliberately weakened.

This the allies did.

Russia started the general attack just when Austria was driving the Italians down the Alps into the valley of the Po. Austria rushed troops back to the eastern front to meet the Russians. The Italians immediately attacked and regained lost territory. Then the combined French and English drive quickly followed and Germany could not spare the troops from the west to meet the new and mighty Russian armies pressing forward in the east. The advantage of mobility was for the first time checked by the greater number of men of the allies. One more attack in the general onslaught against Germany remains, and that is at Salonika, where the allies have an army of 500,000 men. This figure is an estimate, as the true strength of this force has been kept secret. It is no secret, however, that it will not remain inactive.

Today it makes little difference to the allies, whether the Germans give ground in the eastern or western front as long as the progress is great enough to compel them to retreat somewhere, to enforce a retirement with losses of men and material. To capture 1,000 Germans on the Sereth is as good as to capture them on the Somme. One strong position in Galicia is as big a prize as a similar redoubt in France.

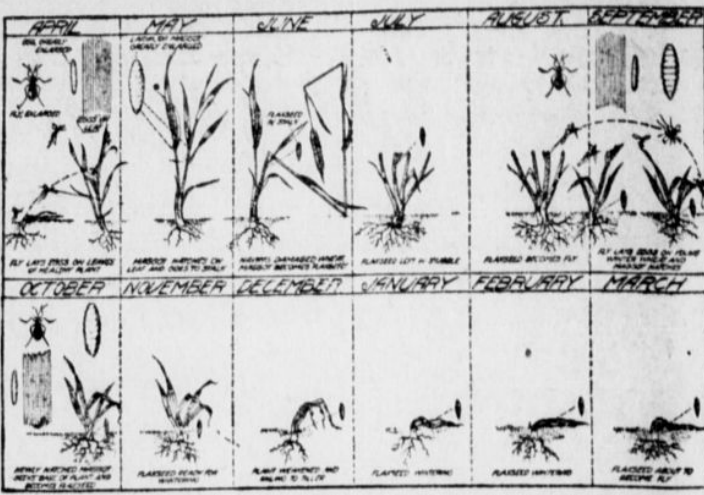

It is only because the French and British are pressing the Germans so hard in France that the Russians have been able to advance. The Russian drive would have been stopped before July 1st had the Germans not known that the British offensive was coming and did not dare to thin their lines in France. During June, with the Russians capturing many thousands of prisoners, the Germans could only keep increasing their forces in front of the British trenches. Railroad mobility was useless for the men could not be spared.

It is easy to see why military critics refer to the fighting on all fronts as the battle of Europe. The purpose of such tactics will be victory for the allies at the weakest point in the German defense. This point appears to be in the line in the east held by the Austrians. Here the armor is weakest.

The simultaneous offensive of the allies is a tremendous undertaking to maintain. It means munitions by the million and men by the million and more munitions and more men. It means that the allies must stand greater losses than Germany and still attack. It means complete unity of action.

The allies must continue to attack on all fronts. The Germans must hold on all fronts.—Boston Globe.

FIGHTING THE HESSIAN FLY

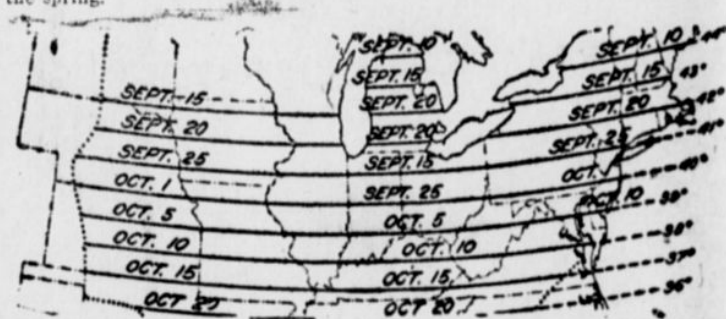

The life history of the Hessian Fly is shown above. The life of the adult fly is but a few days, probably but a week or less, and the great mass of the flies will appear at about the same time. If the wheat is sown after the flies appear by the time the wheat is up they will be gone and the plants escape the attacks of the fly.

Experiment stations urge you to sow wheat late in order to escape the Hessian Fly. Experience has taught you that the best yields are secured from plants that enter the winter with strong, healthy growth.

Solve this Problem by seeding late and hastening the fall growth by the use of 200 to 400 pounds of fertilizer containing 2% to 3% of available ammonia. Acid phosphate alone will not give the necessary quick, strong, healthy growth. If the fly does not happen to be present this year, the good effects upon both the wheat and the grass seeded with the wheat, will repay many times the cost of the added ammonia. You cannot afford to be without this Fly Insurance.

Read Farmers' Bulletin 640 (U. S. Dept. of Agriculture) which says: "The application broadcast of some quick-acting fertilizer containing a large percentage of phosphate, made as soon as general infestation is apparent will cause the plants to tiller more freely and give them sufficient vigor to withstand the winter, and thus increase the number of healthy stems the following spring." * * * While it may seem "far fetched" to bring forward as a preventive measure the enrichment of the soil, a fertile soil will produce plants that will withstand with little injury attacks that will prove disastrous to plants growing on an impoverished or thin soil. This is because a fertile soil will enable an infested plant to tiller freely, and these tillers will have sufficient vitality to withstand the winter and send up head-producing stems in the spring."

Plant On or After These Fly Free Dates (From U. S. Dept. of Agriculture)
If drought prevails, the seeding date should be longer delayed

UNCLE SAM'S EXPENSIVE GUEST

Uncle Sam has been playing host for over 150 years to one of the most menacing pests the country has ever known. It has cost him enormous sums. Its damage has been so great that the farmers in some localities have given up the growing of the crop it thrives on until it dies out. But it likes the treatment accorded here and seems disposed to hang on. It cares nothing that it has out-lived its welcome, but instead plods on year after year, and season after season taking the profits of our labor in the wheat fields.

What are you doing to stop the Hessian Fly? Your co-operation with your neighbor means as much to you as to him, and even if it didn't you owe a duty to your community to help in this eradication.

Remember these three things—sow late, prepare the ground well, and add available plant food to your soil. Give the young plants a late start to be free from the fly, but also give them a chance to obtain food by applying at least 200 pounds of fertilizer containing 2 to 4 per cent ammonia so that they may have a good growth before winter sets in.

"Swat the Hessian Fly" is the battle cry of the farming members of this big family of Uncle Sam, and won't you do your part to make the echo that much louder?

Nearly As Much Second Season.

"The increase in yields of the crops following the one to which fertilizer is applied is often nearly as much as that secured in the crop fertilized. In one experiment at the Ohio Station when fertilizer was used on wheat, it caused an increase in yield of the other four crops in rotation, of 86 per cent of that secured in the wheat crop," says J. F. Hudson, a well-known farm writer. "Fertilizers applied to the corn crop will not be entirely used up and will benefit the crops following especially when applied broadcast or drilled in evenly where the field is in sod."

Half the Battle Before Planting.

With wheat as with many other crops, the proper treatment of the seedbed and the supplying of plant food to carry along the crop with a good start and a steady growth, may be considered half the battle. As wheat is not cultivated after seeding, whatever cultivation is necessary must be done before the seed is put into the ground.

Double Your Profits From Wheat.

Millers pay more per bushel for high quality wheat than they do for that which only grades number four or five, according to a Chicago Board of Trade Member. Ohio Experiment Station Bulletin 243 shows that high quality wheat and large yields go together, thus giving the farmer double profits. The experiments reported in Bulletin 243 show a yield of 8.45 bushels of wheat per acre with 51 per cent plump and 49 per cent shriveled kernels, where no fertilizer was used, against a yield of as high as 34.15 bushels per acre of which 94 per cent of the kernels were plump and but 6 per cent shriveled when the wheat was fertilized.

As You Feed—So Shall You Reap.

"If I expect my horses to pull, I must feed them, and feed well. If I expect to grow 50 bushels of wheat to the acre, I must feed my wheat the same way," declares Muel Boaz, of Johnson county, Indiana. Last year Mr. Boaz raised 1,000 bushels of wheat that averaged 46 bushels to the acre. This year he is going to get over 50 bushels per acre, according to present indications.

Wheat Yields, Beef Production.

"Those 50 to 55 bushels to the acre wheat yields don't 'just grow' any more than does a load of prime finished baby beaves. The cattle are never allowed to lose their calf fat, and are fed liberally of a balanced ration from the day they are born until they go into the car for market," says Clyde A. Waugh, in Farm and Fireside. "Record wheat crops must have plenty of a balanced plant food ration to give them a quick start in the fall, to enable them to resist disease and insect attacks, to make enough growth in the fall to cover the ground before winter sets in, to start out early in the spring and to make a straight standing, early maturing, bumper crop of first quality."

No One Would Work a Sick Horse.

No one would think of working a sick horse, yet there are farmers in almost every community who are continuing to work their sick soils, and with the usual result of poor crops. Fertilizing will help some, and lime is the corrective agent, but for the best results both should be used. With wheat, when limestone and fertilizer are used on the same soil, the yield is larger than when of these is used alone.

Maxwell

\$595

F. O. B. DETROIT

Maxwell cars have greater, actual, delivered horsepower, per pound of weight, than any car built.

POWER must be reckoned in reference to the weight involved. This is the big underlying truth that is often overlooked in careless statements about horsepower.

We repeat that Maxwell cars have greater horsepower, per pound of weight, than any car built.

This has been proved within the last six months by four competitive tests made in the two leading scientific schools of the United States.

The point for you to remember is this:

Maxwell cars will take you anywhere that any car will take you and they'll take you as fast as you'll dare to travel.

We are ready to prove any and all of our statements.

SEVEN SPRINGS

Rev. J. C. Kinsolving and wife, of Emmaus, visited relatives here Sunday.
Mrs. Pauline Eaton is very sick at this writing. Dr. Hayden, of Salem, is attending her.

Quite a crowd from this place attended the camp meeting at Kuttawa Springs Sunday.

Mrs. B. A. Patton is in very poor health at this time.

Rev. U. G. Hughes, of Marion, preached at this place Friday night to a large and appreciative audience. While he was the guest of Lee Travis and family.

Joe Bell went to Paducah Monday on the Dispatcher.

Mrs. Nannie Patton visited relatives at Caldwell Springs Thursday.

Burl Burklow and wife, of Frances, were guests of Lee Travis and family last week.

John Patton, of Mexico, visited his mother last week.

Mrs. B. A. Patton, of Mexico, was taken to the hospital at Paducah last week for examination and treatment for a trouble in her breast. She accompanied by her husband, B. A. Patton, her mother and her brother. The physicians there think her trouble a hopeless case.

School commenced at Boaz school house July 31st, with Glenn Sullenger, principal teacher and Miss Ethel Hard has been teaching the little ones until a permanent teacher could be supplied for the other room. We are hoping for a good school.

Matthew McClure, of Detroit, Mich., is visiting his parents, Mr. and Mrs. John McClure, in this vicinity.

Dr. Sorey, of Crayne, was called to this vicinity Monday night to see Mrs. Sarah Patton, who is quite sick with malarial fever and nervous prostration.

Julius McKinney, one of our Seven

Springs young men, has purchased a Ford car and is now seen traveling around.

Jim Patton and daughter, Ruth, of Caldwell Springs, visited here Friday.

YOUTH.

Youth is not a time of life; it is a state of mind. It is not a matter of ripe cheeks, red lips and supple knees; it is a temper of the will, a quality of the imagination, a vigor of the emotions. It is a freshness of the deep spring of life.

Youth means a temperamental predominance of courage over timidity, of the appetite for adventure over the love of ease. This often exists in a man of fifty more than in a boy of twenty.

Nobody grows old by merely living a number of years. People grow old by deserting their ideals.

Years wrinkle the skin, but to give up enthusiasm wrinkles the soul.

Worry, doubt, self-distrust, fear and despair—these are the long, long years that bow the heart and turn the green- ing spirit back to dust.

Whether sixty or sixteen, there is in every human being's heart that lure of wonder, the sweet amazement at the stars and at star-like things and thoughts, the undaunted challenge of events, the unfailing, childlike appetite for what's next, and the joy of the game of living. You are as young as your faith, as old as your doubt; as young as your self-consciousness, as old as your fear; as young as your hope, as old as your despair.

In the central place in your heart is an evergreen tree; its name is Love. So long as it flourishes you are young. When it dies you are old. In the central place in your heart is a wireless station. So long as it receives messages of beauty, hope, cheer, grandeur, courage and power from God and from your fellowman, so long are you young.

—Dr. Ogden, Pastor Central Presbyterian Church, Atlanta, Ga.

WESTON

W. H. Gahagan and family moved from his father's farm to Hershaw, Wednesday.

Mr. and Mrs. George Thorne and little daughter, Grace, spent Friday and Saturday with his brother, John, and family, of near Lamb, 10.

Misses Vera and Lillian Bennett spent Saturday and Sunday the guests of their sister, Mrs. Beatrice Crisp.

Miss Maude Wolford is visiting Mrs. Callie Hughes of this place.

Mrs. Butler Crisp was in Weston Saturday trading.

Miss Ruby Sturgeon spent Friday night with Miss Ruby Gahagan.

Mr. and Mrs. George Robinson and daughter, Ruby Eloise, and Mr. and Mrs. U. G. Dillard spent Sunday with Mrs. R. E. Lamb.

Miss Bertha Rankin spent Friday night the guest of Mrs. Lillie Walker.

Joe Thurman spent Saturday night and Sunday the guest of Will Winders.

Tom Lewis spent Sunday with Geo. Eskew.—Little Pansy.

A Remedy.

"I am worried about my son. He is developing no qualities that are positive." "Make him a photographer, then he can develop good negatives."

Mental Race Suicide.

Percy Pettigrew—"With me the wish was father to the thought." Dolly Dill—"Your wish has a very small family."

Told the Truth.

"Your advertisement distinctly stated, there are no mosquitoes here," said the disappointed guest. "I told the truth in that advertisement," answered the proprietor of Pine Ridge inn. "Why, the idea! They are swarming about us right now." "I wrote it last winter."

GERMANY'S GREAT ADVANTAGE LOST

Ever since the beginning of the European war, Germany has had one signal advantage over her enemies. Occupying interior lines, the German commanders could shift troops between the eastern and western fronts whenever needed. Troops fighting in Flanders could be transported to Poland in forty-eight hours.

Ability to meet pressure wherever it was exerted made the German fighting units much more powerful. The advantage of cavalry over infantry is largely one of mobility. Germany's forces were all cavalry on a grand scale, "railroad" cavalry. With this advantage troops could be spared from a comparatively inactive front for more effective operations. The removal was only temporary. The troops could be replaced when needed.

The allies, on the other hand, did not possess this advantage. Troops moved from France to Gallipoli were too far away to be available in any sudden and wide-spread attack. It was only by way of Vladivostok or Archangel that Russians were transferred to France. They were almost permanently removed from the eastern front. Any crisis which might demand their return would probably be passed ere they could have completed their long journey home. Far from being "railroad" cavalrymen those Russians moved with the slowness of tramp steamers.

During the first two years of the war German high commanders frequently transferred across Germany east and west. A year ago this summer many divisions which had been on the western front during the spring drive for Calais, were used to drive back the Russians. These troops were also used to obliterate Serbia and then sent back to the western front to die at Verdun.

The advantage to Germany of this ability to shift forces had to be met by the allies on all fronts. In the great drive for Calais the British had to meet German troops that could be spared from all fronts. The Russians had to meet the "great onslaught" last summer. The French had to withstand the oncoming waves last spring. Russians could obtain little help from her allies during her greatest peril. France had to win her own salvation at Verdun.

There was only one way for the allies to meet the great mobility of the Germans. That was to have enough men on all fronts, attacking at the same time, so that the Germans could not spare men from any front. Then if Germany moved her troops she would be sure to be varquished on the front which she deliberately weakened.

This the allies did.

Russia started the general attack just when Austria was driving the Italians down the Alps into the valley of the Po. Austria rushed troops back to the eastern front to meet the Russians. The Italians immediately attacked and regained lost territory. Then the combined French and English drive quickly followed and Germany could not spare the troops from the west to meet the new and mighty Russian armies pressing forward in the east. The advantage of mobility was for the first time checked by the greater number of men of the allies. One more attack in the general onslaught against Germany remains, and that is at Salonika, where the allies have an army of 500,000 men. This figure is an estimate, as the true strength of this force has been kept secret. It is no secret, however, that it will not remain inactive.

Today it makes little difference to the allies, whether the Germans give ground in the eastern or western front as long as the progress is great enough to compel them to retreat somewhere, to enforce a retirement with losses of men and material. To capture 1,000 Germans on the Sereth is as good as to capture them on the Somme. One strong position in Galicia is as big a prize as a similar redoubt in France.

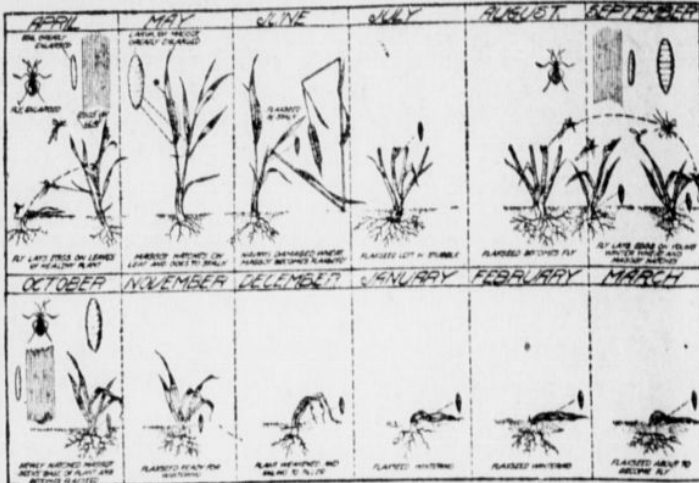

It is only because the French and British are pressing the Germans so hard in France that the Russians have been able to advance. During June, with the Russians capturing many thousands of prisoners, the Germans could only keep increasing their forces in front of the British trenches. Railroad mobility was useless for the men could not be spared.

It is easy to see why military critics refer to the fighting on all fronts as the battle of Europe. The purpose of such tactics will be victory for the allies at the weakest point in the German defense. This point appears to be in the line in the east held by the Austrians. Here the armor is weakest.

The simultaneous offensive of the allies is a tremendous undertaking to maintain. It means munitions by the million and men by the million and more munitions and more men. It means that the allies must stand greater losses than Germany and still attack. It means complete unity of action.

The allies must continue to attack on all fronts. The Germans must hold on all fronts.—Boston Globe.

FIGHTING THE HESSIAN FLY

THE LIFE OF THE HESSIAN FLY (From the U. S. Dept. of Agriculture)

The life history of the Hessian Fly is shown above. The life of the adult fly is but a few days, probably but a week or less, and the great mass of the flies will appear at about the same time. If the wheat is sown after the flies appear by the time the wheat is up they will be gone and the plants escape the attacks of the fly.

Experiment stations urge you to sow wheat late in order to escape the Hessian Fly. Experience has taught you that the best yields are secured from plants that enter the winter with strong, healthy growth.

Solve this Problem by seeding late and hastening the fall growth by the use of 200 to 400 pounds of fertilizer containing 2% to 3% of available ammonia. Acid phosphate alone will not give the necessary, quick, strong, healthy growth. If the fly does not happen to be present this year, the good effects upon both the wheat and the grass seeded with the wheat, will repay many times the cost of the added ammonia. You cannot afford to be without this Fly Insurance.

Read Farmers' Bulletin 640 (U. S. Dept. of Agriculture) which says: "The application broadcast of some quick-acting fertilizer containing a large percentage of phosphate, made as soon as general infestation is apparent will cause the plants to tiller more freely and give them sufficient vigor to withstand the winter, and thus increase the number of healthy stems the following spring." * * * While it may seem "far fetched" to bring forward as a preventive measure the enrichment of the soil, a fertile soil will produce plants that will withstand with little injury attacks that will prove disastrous to plants growing on an impoverished or thin soil. This is because a fertile soil will enable an infested plant to tiller freely, and these tillers will have sufficient vitality to withstand the winter and send up head-producing stems in the spring.
