### CYCLONE HITS IN GRAVES COUNTY

Sunday's Storm Takes Toll Of Life In Ky., Tenn., Ark., Ill., Ala., Mo., And Ind.

Cairo, Ill., May 30.—Three persons were killed and seven-teen hurt in a tornado that struck Dublin in Graves County, Ky., late today, according to meager reports received here today.

Doctors and nurses from Mayfield have been ordered to Dublin.

Dyersburg, Tenn., May 30.—Six persons were killed and thirty-two were injured, two probably fatally, in west Dyersburg, a suburb, by a tornado which struck the outskirts of this city late today and swept through the central part of Dyer county. Twenty-two buildings, including three churches, were demolished and a number of others were damaged. Dyersburg is sixty miles north-east of Memphis.

Birmingham, Ala., May 30.—Meager reports from Sayre, fifteen miles east of Birmingham, said several were killed and many injured when a tornado struck the town early tonight. Doctors with ambulances hurried to the scene.

St. Louis, Mo., May 30.—A report was received here from

### WHEATCROFT BOY MEETS TRAGIC END

Brought Here and Taken to Irma For Burial. Ran Over By Train While Guarding Bridge

Wentzel Harrell, aged 20, a member of Company F, Providence, was killed by an Illinois Central train near Wyckliffe, Ky., Saturday night. Harrell was guarding a bridge and was run down by the train. The remains were shipped to Marion for burial near Irma in Crittenden county where his people live.

Harrell moved to Wheatcroft several years ago and was employed by the West Kentucky Coal Company. He was a well liked young man, a hard worker and of good habits.

He served with the Providence Company on the Mexican border and was later mustered out. He was called into service again when war with Germany was declared.—Morganfield Sun.

The Terneschoorean club gave a delightful dance last Thursday evening at the home of Mr. and Mrs. Creed A. Taylor. Dodson of Evansville furnished the music.

Duquoin, Ill., tonight that a tornado killed several persons and devastated a wide area near Murphysboro late today.

### OFFICERS ARE NAMED FOR REGISTRATION

### IN CRITTENDEN COUNTY, -SHERIFF GILLILAND ANNOUNCES MEN WHO WILL TAKE CENSUS

### REGISTRATION DAY WILL BE JUNE 5

Whereas, by act of Congress and Proclamation of the President of the United States, adopted and made on the eighteenth day of May, 1917, a registration of all male residents of the United States, between the ages of 21 to 31, is required to be made on the fifth day of June, 1917, between the hours of 7 a. m. and 9 p. m. Now, therefore, I, Dave Gilliland, Sheriff of Crittenden County, Kentucky, acting for the Board of Registration, charged with the administration of said law and proclamation, hereby do call upon all citizens and residents of Crittenden County, Kentucky of whatever color or nationality between the ages of 21 and 31, to assemble at their regular election voting places in the precincts of their residence, there to register in compliance with said law, and to discharge their duty as citizens or residents of the United States. The following named are hereby appointed Registrars: Marion No. 1. J. C. Bourland. Marion No. 2. R. E. Flanary. Marion No. 3. W. U. Howerton. Marion No. 4. W. D. Cannan. Marion No. 5. B. L. Wilborn.

### Eddyville Men Are Indicted For Treason.

Eddyville, Ky., May 25.—The grand jury last week returned indictments against two well known citizens of Lyon county for treasonable language against the government. Their names are withheld.

### Marion Boy Going To France.

Wilbur Boston, a Marion boy who has been in Fort Warren, Boston, Mass. for several years writes his father, City Marshall George E. Boston that he has been transferred to the Railway Corps of the U. S. Army which goes to France in June.

This is a department of volunteers and will go to aid the government in rebuilding, rehabilitating, and operating the National Railway System France behind the lines of battle to enable them to get supplies, munitions, and food to the boys in the trenches. Wilbur hopes to gain fame on the battlefield and come home covered with glory and we hope he may.

### Twenty Killed In Vicinity Of Hickman.

Memphis, Tenn., May 30.—A telephone message from Hickman, Ky., late tonight stated that reports from farming settlements about Hickman indicated that twenty or more persons were killed in that vicinity by a tornado late today.

### NOTICE

Your tax for the Marion Graded District is now due. After July 1st 1917, a penalty of 5 per cent will be added on all unpaid tax.

After July 15th, 1917 if not paid I will proceed to advertise all property subject to taxation and upon which the tax has not been paid, hence the additional cost of advertising will be added.

All those owing tax after July 15th may expect to pay this additional cost.

### 163 DEAD; 1036 HURT LOSS \$5,000,000

Cyclone Makes a Clean Sweep Through Illinois And Tennessee.

TOWN	DEAD	INJURED
Mattoon, Ill.	54	500
Charleston, Ill.	38	350
Andale, Kan.	26	50
Other Ill. towns	18	65
Arkansas	9	12
Indiana	9	200
Kentucky	3	17
Tennessee	6	32
Totals	163	1,036

Property damage, 5,000,000

Chicago, Ill., May 27.—More than 150 persons were killed, a thousand or more injured and millions of dollars worth of property destroyed by tornadoes which swept through Kansas on Friday, Illinois and Indiana on Saturday and parts of Tennessee, Arkansas, Kentucky and south Illinois Sunday.

Reports indicate that a large amount of farm implements, needed to produce the bumper crops desired this year were ruined, although the spasmotic wind storm struck only here and there in its frightful play through the rural regions. Crop damage is said to be not heavy in grains.

In Indiana at least nine persons were killed 7 at Hebron and Kouts, in the northwestern part of the state and two at Black Hawk, near Terre Haute, Ind., in the southwest part. The death list in Indiana may reach 20. More than 200 were injured in the Indiana territory swept by the storm. The property loss in Indiana is more than 2,500,000.

Losses in Illinois The heaviest toll of life was taken at Mattoon, Ill., a city of 13,000 population in the broad corn county of central Illinois, where 54 are known to be dead and 500 injured with a property loss of \$2,000,000.

CHARLESTON Population 5,000 Dead 38 Missing 20 Injured 150 Loss \$1,000,000 Charleston, Ill., ten miles east of Mattoon was also partly wrecked Saturday evening with a loss of 38 lives and 150 injured. The property loss there is a million dollars.

The next most serious loss was at Andale, Kansas, where 26 were killed and a score injured on Friday.

Dublin, Kentucky suffered three dead and seventeen injured.

In Tennessee and Illinois South Dyersburg, Tenn., was reported tonight to have lost 20 killed and fifteen injured in a tornado that swept Dyer county today. Near Blytheville, Ark. nine persons were reported killed and a dozen hurt.

### EXTENSIVE IMPROVEMENTS BY I. C. R. R.

Expenditure of \$800,000 Between Princeton And Central City, Ky.

Extensive improvements on the Illinois Central railroad between Princeton and Central City and the construction of a short line direct from Dawson Springs to Providence, Ky., are ready to begin, according to official announcements made here today. An appropriation of \$800,000 for the work has been made, but it is believed that before it is completed considerably over a million dollars will have been expended.

Between Princeton and Central City, a distance of 55 miles' grades will be reduced' curves will be straightened and there will be double tracking. The principal curves elimination will throw the railroad about a quarter of a mile south of the present line at Dawson Springs it is said.

The construction of a railroad from Dawson Springs to Providence a distance of about 45 miles will save the Illinois Central many miles of road in handling coal. At present it is necessary to haul from Dawson via Princeton and Wheatcroft, the mileage being between 75 and 80 miles.

### Weather Forecast.

Forecast for the week beginning Sunday May 27, 1917. For Ohio Valley and Tennessee: Partly overcast with frequent showers; cooler by Sunday night and Monday. Seasonal temperature thereafter.

### Registrars Take Oath

The Registrars who were called upon to act without compensation, and to report to Sheriff Gilliland at the County Court room in Marion, Kentucky, at 9 o'clock in the morning on Saturday, May 26, 1917, to accept such appointments, qualify by taking the official oath, receive full instructions as to their duties as Registrars, and to receive their forms and supplies for the registration were all on hand and qualified, each taking the proper forms and supplies for their use in the registration.

### For Sale.

Fine mare, three years old, works well any where, pretty as a picture, 15 1-2 hands high. G. D. Summerville R. F. D. No. 4; Marion, Ky.

Smaller towns in Illinois lost a dozen dead on Saturday with two score injured, while in the southern point of Illinois windstorms today killed a half dozen and injured a score.

## \$25,000,000 TO J. D. FOUNDATION

New York.—A new donation by John D. Rockefeller of \$25,000,000 to the endowment of the Rockefeller Foundation was announced to-night by Dr. George E. Vincent formerly president of the University of Minnesota, who assumed the presidency of the foundation at a meeting of the board of directors today. The new gift increases the resources of the foundation to \$125,765,000.

## File of Shark And Sea Weed Salad.

New York.—File of shark, grayfish, various forms of edible sea weeds and a large array of practically unutilized foods of the highest dietetic value are among the exhibits in the food and health exhibition opened today at the American museum of natural history. The exhibition includes sources of food supply and marketing and demonstrations in cookery with especial reference to corn meal and its products, butter substitutes and other comestibles.

### Auto's Pay For Roads

"That \$6,000,000 is a large sum to take away from the taxpayers," is an assertion being made a good deal in connection with the pending road bond issue in Oregon.

The assertion is being made upon a prevalent misunderstanding of what the act involves.

Nothing in the act requires any increase of taxation in order to get the \$6,000,000. It is the automobile which pays the money. Auto license have doubled and with a normal increase in the number of machines owned in Oregon, the fees will more than cover the interest and the sinking fund payments to retire the bond issue. Should there be no increase at all in the number of autos used it would still be unnecessary to raise taxes for the extra money would come from the quarter mile road tax. Supporters of the road bond measure will do well to correct this misunderstanding.—Zillah Washington Free-Press.

### Goethals Saw The Point.

Washington.—R. J. McBride, of Beaumont, was awarded a \$1,000,000 contract by the government for construction of wooden ships, and has gone to the large shipyards at Wilmington, Del., to obtain needed expert help. The fact that McBride firm had never engaged in ship-building promised to militate against him getting a contract, and the lack of practical experience was mentioned during his conference with Gen. Goethals. "Your firm has never constructed ships," said the general.

"No, sir,"  
"Well," pressed the government's representative.  
"General, you built the Panama Canal," replied McBride.  
"So they say," was the answer.  
"Did you ever build a canal before?"

Gen. Goethals saw the point.

### Lower Prices.

I will continue to sell goods at low prices, with special lower prices on some articles, on Saturdays and County Court days, and on these days a present will be given to each person buying 50c or more from me.

## GIANT SHIPBUILDING PLANT IN NEW JERSEY

**U.S. Steel Corporation Purchased  
Site for One of World's Greatest  
Maritime Factories**

New York, May 29.—The United States Steel corporation has purchased a big acreage near Newark, in the New Jersey meadows, within striking distance of deep water and will erect immediately one of the largest shipyards in the world where standard 8,000 to 10,000 ton steel ships will be built, probably with the co-operation of the government shipping board. It is reported the construction of the new plant was requested by the government.

### No More Zeppelins.

Geneva, (Correspondence of the Associated Press).—It is reported from Romanshorn, on lake Constance, that since the death of Count Zeppelin, who was always supported by the Kaiser in his aerial plans, a number of employees in the Zeppelin factory at Friedrichshaven have been dismissed and ordered to join the army. The framework of a large airship which would have been finished in six weeks, according to ordinary work during the war, will not be completed for several months owing to lack of workmen. The general opinion at Friedrichshaven is that the German military authorities will construct no more Zeppelins. No farther orders for building have been received.

## MEETING THE HIGH COST OF LIVING

Timely Topic to Be Discussed on Chautauqua Here by One Who Has Made a Close Study of Foods and Labor Conditions.

**G**EORGE L. McNUTT, the "dinner pail man," who is to speak at the Chautauqua here on "Meeting the High Cost of Living," says that the tragedy of the city is that it separates the worker from the soil. Mr. McNutt has made numerous interesting experiments in gardening. The accompanying photograph shows him in a unique garden which he planted and cultivated while a resident of Valparaiso, Ind.

The garden was one of the show spots of the city. Only 40 by 80 feet, it was made to produce over \$50 worth of foodstuffs and at the same time be a thing of beauty. This was done by constant interplanting, preserving a continuous growth of vigorous greens. The aesthetics were secured by screening an ugly alley and some tin blower fences and barns by three rows of sunflowers along two sides of the garden. As the picture shows, these attained to almost the stature of trees, being nearly sixteen feet high. At the same time these served as poles for Kentucky Wonder beans.

Along the other two sides was a hedge of cosmos. These with care at-

tained a growth of nearly six feet. As the cosmos is a fall bloomer, sweet peas were planted near enough to use the cosmos to climb on, making a very beautiful effect, peeping out through the mass of green of the cosmos.

Rev. George L. McNutt is unique among lecturers. Indeed, few men have in any degree come into contact with men in so varied circumstances as this experimenter in the laboratory of human nature. For seven years he toiled day in and day out along with the common laborer to see the world as the ordinary man viewed it.

He held charges in Chicago, Indianapolis and New York. At the time he left the ministry he was pastor of the Presbyterian church at Urbana, Ill., the seat of the University of Illinois. Mr. McNutt did not go as an onlooker and a man of independent wealth, but lived with his family upon the wages he drew for his daily labor.

First, as a roustabout, he labored in steel mills and then as laborer on construction gangs, as a "white wing" and as a mechanic he worked through Indiana, Ohio, Pennsylvania, Maryland, finally traveling northward through New England into Maine.

### Suspense Over At Last

There is a stammering physician out in one of our suburbs. A short time ago, while on a case involving a new arrival, his infirmity led to a rather funny misapprehension.

The husband and prospective father, who by the way, had set his heart on a son and heir, was nervously pacing the library when the physicians entered.

"Well, doctor," said the husband, forcing a smile, "Is it twins?"

"Tri-tr-tr—" began the doctor.

"Triplets! Great Caesar!"

"Qu-qu-qu—" stammered he doctor.

"Quadruplet! Holy smoke?"

"N-n-n," cried the doctor, Qu-qu-quite the contrary. Tri-tr-try to take it philosophically, my friend.

It's just a girl!—Boston Transcript.

### Billion Dollars Asked

For Merchant Fleet.

Washington—Congress will be asked to appropriate \$1,600,000,000 for the building of the great American merchant fleet which is to overcome the submarine menace.

The program evolved by the shipping board contemplates the diversion to government use of the products of every steel mill in the country except those of existing contracts between those mills and private consumers and where necessary payment of damages by the government to parties whose contracts are cancelled.

Estimates of the shipping board are that 5,000,000 to 6,000,000 tons of steel and wooden

vessels will be constructed by the government during the next two years.

The only manufactures of steel to be exempted from the program will be those needed otherwise for the defense. The bills for introduction in congress have been prepared and the administration hopes to get them under way as promptly as the first of ship building operations may be put in motion within two weeks.

Members of the shipping board and representatives of the shipbuilders were in conference to-night until after midnight. No information concerning the phases of the problem discussed was given out.

## GERMANY

**Fooled World By Giving Census  
Figures 20,000,000  
Short.**

Germany deceived the world in its last census and gave its population 20 million less than it really was, according to a dispatch from Berne, featured in London newspapers recently. According to official returns published by the German government shortly before the war began the census showed Germany to have 65 million population. Now it is said the population really was 85 million and that the number of able-bodied men named in the official government report was greatly under the actual figure.

The plan of the German government, it is asserted in the Berne dispatch, was to deceive the other powers of Europe as to Germany's actual man power. The discrepancy between the real population and the government figure, it is now pointed out, accounts for Germany's unusually strength in reserves and its remarkable recuperative powers. Allied experts for a long time have been unable to reckon accurately as to Germany's reserves which, according to calculation, should have been exhausted some time ago.

## 'EFFICIENCY DAY' HERE

Discussion Vital to Every Citizen at Chautauqua.

### STRIKING LECTURE PLANNED.

"Gatling Gun" Fogleman, Expert From New York City, to Speak on "An Analysis of Success and Failure." Can Talk Three Hundred Words Per Minute.

Two years ago, through Dr. Charles Barker's lecture on "How to Live One Hundred Years," the Redpath bureau gave to nearly three-quarters of a million people cardinal rules for physical efficiency and happiness. This year personal efficiency will be discussed on the second night of the Chautauqua in a striking lecture by H. L. Fogleman, the well known efficiency expert of New York city. His subject will be "An Analysis of Success and Failure."

Mr. Fogleman is expert on both salesmanship and efficiency. He has conducted classes in eight of the largest business institutions in the United States. To prove that he knows how to sell goods he went out and sold lo-

comotives for two years. His contracts ran \$5,000 to \$25,000. He has been called in as special adviser to the heads of the largest mercantile establishments of the country. He delivered a lecture before the salesmen of one of America's greatest watch factories. Afterward the proprietor in a letter of thanks to Mr. Fogleman told him that his ability to discover facts relative to their business was almost uncanny; that he had told them things about themselves of which they were not aware and had crystallized some vague ideas they had had in pertinent, concrete working form.

Mr. Fogleman is often referred to as "Gatling Gun" Fogleman because of his ability to speak at the rate of 300 words a minute and speak distinctly.

### Marquis de Charette Wounded.

Wounded while on duty as a tank driver and invalided home to his chateau in France, Marquis Antoine de Charette is to be decorated with the cross of the Legion of Honor. This interesting piece of news has just reached Louisville, following close on the announcements that the Marquis had been wounded and that his wife formerly Miss Suzanne Henning, had left for the front to see her husband.

Marquis de Charette's injuries it is understood, are not serious and he has been removed to his home to recuperate. Since entering the war at the first call to the colors, the Marquis has served in the artillery, driving a cannon wagon, and in the aviation corps. His transfer to the British tank division was made in the early spring.

The Marquis is well known in Louisville, having lived here for some time prior to his marriage to Miss Henning.—Louisville Post.

The Marquis was here the guest of Chester B. Norton engaged in mining a few years ago.

### Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional treatment. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and this tube restored to its normal condition, hearing will be restored forever; since cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by HALL'S CATARRH CURE. Send for circulars free.

# ONE YEAR IN PRISON

FOR PERSONS WHO FAIL TO REGISTER  
FOR MILITARY SERVICE.

All Male Citizens Over 21 And  
Who Have Not Reached  
Their 31st Birthday Re-  
quired To Register.

Registration To Be Held In Each Precinct  
On Tuesday, The Fifth Day of June,  
1917.

All Persons Should Become Familiar With requirements  
To Avoid Prosecution.

Sheriff, County Clerk And Chair-  
man Of County Health Board,  
To Have Charge.

ONE REGISTRAR FOR EACH  
PRECINCT.

President Appeals To Patriotism Of  
Country In Proclamation To  
The People.

Under a law recently passed  
by Congress and by the procla-  
mation of the President of the  
United States, all male citizens,  
white and colored, who have  
passed their twenty-first birthday  
and who have not reached their  
thirty-first birthday, are re-  
quired to register on Tuesday, June  
5th, 1917, for military duty, and  
a failure to do this makes the  
person so offending liable to im-  
prisonment for a period of not  
exceeding one year.

The Sheriff, the County Clerk,  
and the chairman of the County  
Board of Health will have charge  
of the registration in each coun-  
ty. So in this county, Sheriff  
Gilliland, County Clerk, Guess,  
and Dr. T. A. Frazer will have  
the matter in charge.

Registration will be held in  
each precinct of the county, and  
one person known as registrar,  
will be required to hold this regis-  
tration. The hours for holding  
the registration begins at seven  
o'clock, a. m. and close at nine  
o'clock p. m. The registration  
will be made on registration  
cards provided for that purpose,  
and a number of questions will  
be asked of each person who ap-  
plies for registration, and the  
answers noted on the card. A  
registration certificate will also  
be given to the person register-  
ing, so that he can show to  
those who investigate that he  
has complied with the law in this  
regard.

Registration officers for each  
precinct have been appointed  
by the sheriff, who is designated  
as the chief executive officer,  
and they are required to take an  
oath of office. It is urged that  
all persons who will, be asked to  
serve in these capacities without  
charge, and also that places for  
holding registration in each pre-  
cinct be procured without charge  
but provision is made for a nom-  
inal payment if persons demand  
it.

The grand divisions of control  
shall be the states under direc-  
tion of the Governors of the stat-  
es.

All officers of the state and  
the Federal Government are to  
give all assistance in seeing that  
the requirements of the law are  
carried out.

All persons who render service  
without pay will be properly en-  
rolled and forwarded to the Gov-  
ernor and then to the Provost  
Marshal General at Washington.  
Registering officers for the pre-

cincts are required to deposit the  
registration of their precincts  
with the Sheriff at once, and in  
no event not later than noon on  
the day following which will be  
noon on the 6th of June. This  
must be done in person by the  
precinct registrar. When the  
board meets for the purpose  
of checking and consolidating  
the returns from each precinct,  
the clerk will receive all regis-  
tration cards, and he is charged  
with the custody of these cards  
from this time on. Within five  
days after registration day the  
clerk will cause to be prepared  
lists in triplicate of all persons  
registered. One copy will be  
retained by the clerk; one copy  
forwarded to the Adjutant Gen-  
eral of the state, and one copy  
mailed to the Provost Marshal  
General at Washington.

Persons who are sick and who  
can not be at the registration,  
will be furnished with registra-  
tion cards by the clerk, who shall  
certify to same. These must be  
mailed or otherwise sent to the  
precinct registrar on day of regis-  
tration. The clerk can not issue  
registration certificate to ab-  
sent person, but this will be done  
by the registrar when his regis-  
tration card is sent to him as  
provided above.

Sheriff Gilliland says there are  
about fifteen hundred persons in  
this county eligible to registra-  
tion. It is highly important that  
all register as the law requires,  
and where it is impossible for  
persons, on account of sickness  
or otherwise, to his precinct and  
register on the day set apart for  
this purpose, he should have  
some one to go to the County  
Clerk and procure a registration  
card, have same properly pre-  
pared as required, and then mail  
or otherwise send same to pre-  
cinct registrar on day of regis-  
tration. Then a registration cer-  
tificate will be issued to him.

After the person applying for  
register, has answered all ques-  
tions propounded to him, he will  
then be required to swear to  
same and sign it himself, or if  
he can not write, then make his  
mark, as the law requires.

## President Issues a Proclamation Putting Selective Draft Into Effect

Washington.—President Wilson's proclamation, putting into effect the  
selective draft provision of the war army bill, follows:

A Proclamation By the President of the United States.  
Whereas, Congress has enacted and the president has, on the 18th day  
of May, one thousand nine hundred and seventeen, approved a law which  
contains the following provisions:

Section 5.—That all male persons between the ages of 21 and 30, both  
inclusive, shall be subject to registration in accordance with regulations to be  
prescribed by the president; and upon proclamation by the president or  
other public notice given by him or by his direction, stating the time and  
place of such registration, it shall be the duty of all persons of designated  
ages, except officers and enlisted men of the regular army, the navy and  
the national guard and naval militia while in the service of the United States,  
to present themselves for and submit to registration under the provisions  
of this act; and every such person shall be deemed to have notice of the  
requirements of this act upon the publication of said proclamation or other  
notice as aforesaid given by the president, or by his direction; and any per-  
son who shall willfully fail or refuse to present himself for registration  
or to submit thereto as herein provided, shall be guilty of a misdemeanor  
and shall, upon conviction in the district court of the United States having  
jurisdiction thereof, be punished by imprisonment for not more than one  
year, and shall thereupon be duly registered.

Provided, That in the call of the docket precedence shall be given, in  
the courts trying the same, to the trial of criminal proceedings under this act.

Provided, further, That persons shall be subject to registration as herein  
provided, who shall have attained their twenty-first birthday and who shall  
not have attained their thirty-first birthday on or before the day set for  
registration, and all persons so registered shall be and remain subject to  
draft into the forces hereby authorized; unless exempted or excused there-  
from as in this act provided.

Provided, further, That in the case of temporary absence from actual  
place of legal residence of any person liable to registration as provided  
herein, such registration may be made by mail under regulations to be pre-  
scribed by the president.

Frauds Provided Against.  
Section 6.—That the president is hereby authorized to utilize the service  
of any or all departments and any or all officers or agents of the United  
States and of the several states, territories, and the District of Columbia,  
and subdivisions thereof, in the execution of this act, and all officers and  
agents of the United States and of the several states, territories and sub-  
divisions thereof, and of the District of Columbia, and all persons designated  
or appointed under registration prescribed by the president, whether such  
appointments are made by the president himself or by the governor or other  
officer of any state or territory to perform any duty in the execution of this  
act, are hereby required to perform such duty as the president shall order  
or direct, and all such officers and agents and persons so designated or ap-  
pointed shall hereby have full authority for all acts done by them in the  
execution of this act by the direction of the president.

Correspondence in the execution of this act may be carried in penalty  
envelopes bearing the frank of the war department. Any persons charged  
as herein provided with the duty of carrying into effect any of the provi-  
sions of the act or the regulations made or directions given thereunder who  
shall fail or neglect to perform such duty, and any person charged with  
such duty, or having and exercising any authority under said act, regulations  
or directions, who shall knowingly make or be a party to the making of  
any false or incorrect registration, physical examination, exemption, enlist-  
ment, enrollment, or muster; and any person who shall make or be a party  
to the making of any false statement or certificate as to the fitness or li-  
ability of himself or any other person for service under the provisions of this  
act, or regulations made by the president thereunder, or otherwise evades  
or aids another to evade the requirements of this act, or of said regulations, or  
who, in any manner, shall fail or neglect fully to perform any duty required  
of him in the execution of this act, shall, if not subject to military law, be  
guilty of a misdemeanor, and upon conviction in the district court of the  
United States having jurisdiction thereof, be punished by imprisonment for  
not more than the year; or if subject to military law, shall be tried by court-  
martial and suffer such punishment as a court-martial may direct.

Now, therefore, I, Woodrow Wilson, president of the United States, do  
call upon the governor of each of the several states and territories, the  
board of commissioners of the District of Columbia and all officers and agents  
of the several states and territories, of the District of Columbia, and of the  
counties and municipalities therein, to perform certain duties in the execu-  
tion of the foregoing law, which duties will be communicated to them di-  
rectly in regulations of even date herewith.

June 5 To Be Registration Day.

And I do further proclaim and give notice to all persons subject to regis-  
tration in the several states and in the District of Columbia in accordance  
with the above law, that the time and place of such registration shall be  
between 7 a. m. and 9 p. m. on the 5th day of June, 1917, at the registration  
places in the precinct wherein they have their permanent homes. Those who  
shall have attained their twenty-first birthday, and who shall not have at-  
tained their thirty-first birthday on or before the day here named, are  
required to register, excepting only officers and enlisted men of the regular  
army, the navy, the marine corps, and the national guard, and naval militia  
while in the service of the United States, and officers in the officers' reserve  
corps and enlisted men in the enlisted reserve corps while in active service.  
In the territories of Alaska, Hawaii and Porto Rico a day for registration will  
be named in a later proclamation.

And I do charge those who through sickness shall be unable to present  
themselves for registration, that they apply on or before the day of regis-  
tration to the county clerk where they may be for instructions as to how  
they may be registered by agents. Those who expect to be absent on the day  
named from the counties in which they have their permanent homes, may  
register by mail, but their mailed registration cards must reach the place in  
which they have their permanent homes by the day named herein. They should  
apply as soon as practicable to the county clerk of the county wherein they  
may be for instructions as to how they may accomplish their registration  
by mail.

In case such persons as, through sickness, or absence, may be unable to  
present themselves personally for registration shall be sojourning in cities of  
over 20,000 population, they shall apply to the city clerk of the city wherein  
they may be sojourning rather than to the clerk of the county. The clerks of  
counties and of cities of over 20,000 population, in which numerous applica-  
tions from the sick and from nonresidents are expected, are authorized to  
establish such subagencies and to employ and deputize such clerical force as  
may be necessary to accommodate these applications.

The power against which we are arrayed has sought to impose its will  
upon the world by force. To this end it has increased armament until it has  
changed the face of war. In the sense in which we have been wont to think  
of armies there are no armies in this struggle. There are entire nations armed.  
Thus the men who remain to till the soil and man the factories are no less a  
part of the army that is in France than the men beneath the battle flags. It  
must be so with us. It is not an army that we must shape and train for war;  
it is a nation.

To this end our people must draw close in one compact front against a  
common foe. But this cannot be if each man pursues a private purpose. All  
must pursue one purpose. The nation needs all men, but it needs each man,  
not in the field that will most please him, but in the endeavor that will best  
serve the common good. Thus, though a sharpshooter pleases to operate a trip-  
hammer for the forging of great guns, and an expert machinist desires to  
march with the flag, the nation is being served only when the sharpshooter  
marches and the machinist remains at his levers. The whole nation must be  
a team in which each man shall play the part for which he is best fitted. To  
this end Congress has provided that the nation shall be organized for war by  
selection, and that each man shall be classified for service in the place to  
which it shall best serve the general good to call him.

The significance of this cannot be overestimated. It is a new thing in our  
history and a landmark in our progress. It is a new manner of accepting  
common purpose of us all. It is in no sense a conscription of the unwilling;  
it is rather, selection from a nation which has volunteered in mass. It is  
no more a choosing of those who shall march with the colors than it is  
a selection of those who shall serve an equally necessary and devoted  
purpose in the industries that lie behind the battle line.

The day here named is the time upon which all shall present themselves  
for assignment to their tasks. It is for that reason, destined to be remem-  
bered as one of the most conspicuous moments in our history. It is nothing  
less than the day upon which the manhood of the country shall step forward  
in one solid rank in defense of the ideals to which this nation is consecrated.  
It is important to those ideals no less than to the pride of this generation in  
manifesting its devotion to them that there be no gaps in the ranks.

It is essential that the day be approached in thoughtful apprehension  
of its significance and that we accord to it the honor and the meaning that  
it deserves. Our industrial need prescribes that it be not made a technical  
holiday, but the stern sacrifice that is before us urges that it be carried in  
all our hearts as a great day of patriotic devotion and obligation, when the  
duty shall lie upon every man, whether he is himself to be registered or not,  
to see to it that the name of every male person of the designated age is  
written on these lists of honor.

In witness whereof I have hereunto set my hand and caused the seal of  
the United States to be affixed.  
Done at the city of Washington, this 18th day of May, in the year of our  
Lord one thousand nine hundred and seventeen, and of the independence  
of the United States of America the one hundred and forty-first.

BY THE PRESIDENT.

ROBERT LANSING, Secretary of State.

## Imperial Regime of Germany Threatened

Geneva, via Paris.—Things  
are going badly in Germany and  
the imperial regime is threatened  
according to Dr. Aristides Aguer  
recalled Cuban Minister to Berlin  
who arrived here on his way to  
France Dr. Aguer said:

"I bring good news. I have  
been fourteen years in Berlin and  
you can easily realize that I have  
been able to thoroughly study  
the character of our enemies.  
Things are going badly on the  
other side of the Rhine. The  
facade of the imperial edifice  
seems solid enough from abroad,  
but in reality there are cracks in  
it."

"Understand he had no insurance."  
"Not a penny!"  
"Suppose you're insured all right?"  
"You bet! Dollar for dollar."  
"What's the name of your company?"  
"Blessed if I know! Left that to the  
agent."

"You don't know the name of your  
company, nothing about its finan-  
cial resources, nothing about its  
reputation for fair dealing, nothing  
about how promptly it settles  
losses—and yet you're quite sure  
you are safely insured!"  
"By George, I never thought of all  
that!"

"Well, you should. And if you aren't  
absolutely satisfied, look up the  
record of the Hartford Fire  
Insurance Company. Hundred  
and four years in business. Has  
always settled every honest obli-  
gation on the spot. That's  
my company—the old, reliable  
Hartford."

And that's the company we represent.

## Wu Ting Fang Made Premier of China.

Peking.—President Li Yuan  
Hung has issued a mandate dis-  
missing Premier Tuan Chi Jui  
from office and naming Dr. Wu  
Ting Fang, former ambassador  
to the United States, as acting  
premier and empowering him to  
form a new cabinet.

This action probably will end  
the deadlock in parliament and  
make possible a declaration of  
war by China against Germany.

## Many Submarines Are Be- ing Put Out Of Action.

Paris May 29.—Both French and  
British statistics on submarine  
sinkings during the last week  
show a certain improvement in  
the situation, says Marcel Hutin,  
a usually well-informed writer  
on the subject. He adds:

"I understand that our means  
of fitting submarines are increas-  
ing daily and without giving du-  
tels I can say that the number  
of submarines put out of action  
in the last few days has risen in  
a very satisfactory way."

## HOLSTEIN GIVES 102 POUNDS BUTTERFAT

Cream Exceeded in Richness by  
Only One Jersey—Best Rec-  
ords For April.

A Holstein cow belonging to  
Anton Hoing made a remarkable  
record in the Vanderburg Cow  
Testing association for the month  
which ended April 24. It pro-  
duced 1,569 pounds of milk,  
which tested 6.5 per cent butter-  
fat, a total of 102 pounds of but-  
terfat for the month. This re-  
markable record for a Holstein  
is attributed to a high tempera-  
ture the animal had. The high-  
est percentage of butterfat in  
the association was by a Jersey  
cow belonging to Ed Moll. The  
percentage was 6.6 but the total  
yield was only 755 pounds of  
milk, or a total for the month of  
49.8 pounds.

Among other figures sub-  
mitted by official tester, Will H.  
Ferguson, are the following.  
Three hundred and twenty-six  
cows were tested; 23 dry cows  
recorded; six cows produced over  
55 pounds of butterfat for month;  
9 cows over 50 pounds; 11 cows  
over 45 pounds; 29 cows over 40  
pounds; 95 cows over 30 pounds.  
Fourteen skim milk tests were  
made to check up on cream sepa-  
rators. Enough butterfat is  
left in some separators to pay  
the tester's fees for a year in  
the Cow Testing association.  
The plan to co-operate in feed  
buying is being pushed and most  
men gladly support the plan.

The following table gives the  
names and records of the cows  
in the association which have  
produced more than 42 pounds  
of butterfat or 750 pounds of  
milk during the period of thirty  
days ending April 24, 1917.

## Novel Water Heater.

One of the numerous new electric  
heaters has the form of a nickel tube  
seven inches long, with the usual cord  
and plug connecting to a lamp socket.  
The resistance coil in the tube becomes  
intensely hot very quickly, and it is  
claimed that shaving water in which  
the tube is immersed will be heated  
in less than a minute. In a little longer  
time small quantities of water or other  
liquids can be raised to boiling.

## A Good Farmer.

W. U. Hughes who owns the old Dr. Taylor place of 213 acres on the Morehead road is a farmer who has made

blades of grass grow where only one grew before. He has no croppers on his place and hires no hands in his crop except when making hay. Mr. Hughes finished planting 30 acres of corn 10 days ago, and will tend it by himself, which with attending to his stock, keeping up his fences, and gates proves that he is no larger when it comes to work. His stock always looks fat and sleek and show by their appearance and movements that they are well treated.

All of his farm except what is in timber and what he has in cultivation has been sown down in grass, and much of it will do to mow next month. What Will Hughes has done with the old Taylor place any one who works can do.

## A Birthday Gathering.

Ham, L. Sullivan and wife, Mert Duval and wife, Thos. Truitt, Mrs. Lucy Truitt and 3 children, W. Jett Nunn, wife and son E. L. W. U. Hughes and wife and Miss Lois Lamb were guests of Mrs. E. L. Nunn one day last week, on the occasion of his birthday. He wouldn't tell which one it was but the crowd guessed he was somewhere in "SIXTY". He was the happiest one in the crowd and is one of the best men in the county.

Such men ought to live to be a hundred.

# —To The FARMERS of Crittenden County—

The President has issued a call for more food, the destiny of the country lies with the American Farmer, and his ability to produce. What have you done towards increasing your food production? What have you done towards decreasing your feed bills?

## The SILO is The Only Way— You Can Save From 25 to 40 Percent of Your Feed Bills Then Why Not Plan For A Silo at Once?

The Railroad Service is almost a thing of the past, last week the government bought 3 billion feet of lumber which will keep us from getting 50 percent of the lumber purchased, so we are going to offer you, the farmers of Crittenden for the next 30 days a chance to get a silo at a saving from \$50 to \$75 over some other makes of silo.

Read these prices carefully, and see or write me at once, for our supply is very limited.

10X20 1 pc. stave \$125	10X24 1 pc stave \$150	10X26 2 pc stave \$150	12X24 1 pc stave \$175	12X26 2 pc stave \$175
12X28 2 pc stave \$190	12X30 2 pc stave \$210	14X24 1 pc stave \$200	14X26 2 pc stave \$200	14X28 2 pc stave \$218
14X30 2 pc stave \$230	14X32 2 pc stave \$243	14X36 2 pc stave \$270.		

All of the above prices include the famous KING CORN DOOR FRAME, the one which was made famous by the John Deere Plow Co., a better silo cannot be built, so why pay more for a silo when it isn't as good. Better phone, write or see me at once, for as mentioned our supply is very limited, and while prices are right.

We have a wonderful old bachelor in Marion by the name of Dr. O. S. Young. He not only knows how to keep house, make up beds, cook, hatch chickens, make gardens, sew on buttons, patch clothes and darn socks but can pull his own teeth and as a matter of fact, he put in two gold crowns and a bridge in his own mouth last week. He was displaying his new teeth with a broad grin yesterday and he is having trouble to make some people believe that he did it all by himself, but he swears

he did. When we learn self-reliance and absolute independence, there is no telling what we can accomplish. If you don't believe it ask "Horse America."

### GERMAN NAVAL DOCKS ABLAZE.

For Seven Hours Fire Sweeps Imperial Wharves at Wilhelmshaven Submarine Section Damaged.

AMSTERDAM, May 30—(Via London, 11:35 a. m.)—For seven hours on Wednesday a great fire raged on the imperial wharves at Wilhelmshaven, according to advices received here to day. The submarine building department was seriously damaged. The entire district has been closed to the public.

Wilhelmshaven is the chief German naval station and war harbor in the North sea and is the second largest naval base of the empire. It is situated in the province of Hanover on the north side of Jahde bay. The harbor contains numerous docks and ships capable of accommodating war vessels of every description and size. In addition to eight enormous drydocks and two 35,000 ton floating docks and four pontoons for torpedo boats.

### Mother, Home And War.

With trickling tears. O! saddened mind  
O! Mothers of today,  
With broken hearts, that this their fate  
That God gave this child to me  
My son; my hope, my idol boy.  
To this cruel war must go.  
What can this separation bring  
This sacrifice—such woe  
But God is good; he'll not refuse  
If I, on bended knee  
Ask Him three times a day  
In sweet humility,  
To guard, protect and guide him  
As a soldier brave and true  
To serve his country and his God.  
Nobly, his duty to pursue.  
The sacred hope of stars and stripes,  
In a serene field of blue,  
The valiant red, the tranquil white  
Our union (U. S.) brave and true,  
Emblem: patience, firmness, peace,  
Could a more beautiful banner of a nation be?  
The guiding star of our nation's hope  
As it waves in sweet tranquility.  
O! Mother dear, force back those tears  
And bravely, nobly say, did not our  
Mother in Heaven  
Give to the world a greater sacrifice  
than me,  
Her overflowing love and tenderness  
toward sinners so pure,  
This cruel war which the devil is waging  
against our souls,  
And his satanic majesty to allure.  
In Mary's love and influence  
Will she not turn to Him  
Knowing full well, that His dear heart  
Is torn and bleeding for the heart of man.  
O mother dears all dry your tears,  
Look up to Him in heaven  
And ask Him intercessions  
To the Prince of Peace, which only  
He, has given.  
Our flag—Patience, firmness and give us peace  
If we ask Him in loving trust not war—  
But mother, home and heaven.  
—Adelaide.

### Dismemberment of Austria Necessary.

"But Austria's present maneuvers toward peace ought not to deceive the Entente. She is willing no doubt to sacrifice some territory, but not enough to remove her as a menace. The dismemberment of Austria-Hungary is just as essential to permanent peace in Europe as the destruction of military Prussianism."

Bohemia with the Slovaks should become a separate independent State. The Italian elements in the monarchy should go to Italy; the Rumanian elements to Rumania. The Ruthenians to Russia; the Poles to Poland, and the South Slaves to Serbia. There would remain the German Austrians and the Magyars in separate States. This is the only possible way of crushing out the Mittel-Europa idea. If Poland and Bohemia are free 'Central Europe' cannot exist. I believe also that dynasty in Austria must go. The question is democracy or dynasty. Bohemia is for a republican form of government. The spirit of Austria must be changed. Dynastic Austria will always be dangerous because so closely linked with Germany. Nothing but democracy and dismemberment can achieve a really democratic reconstruction of Europe."

### Escaped From U-Boat.

Philadelphia, May 29.—Tales of a desperate encounter with a German submarine off the north coast of Africa were told by sailors of a British freight steamer which arrived at this port yesterday. The battle with the undersea boat took place shortly before daybreak on the second day out.

In the darkness the two boats maneuvered about, the British steamer's gunners locating the hostile craft only by the glare that went up as she fired volley after volley from her small guns. Officers of the steamer declared the U-boat fired at least 63 shells and then sent a torpedo through the water. It missed by a narrow margin.

The British gunners returned the fire, the battle continuing until daybreak. Then the U-boat fled toward the African coast and submerged. The freighter escaped without damage.

## HANDS, ARMS, LIMBS ASLEEP

And Was Run-Down, Weak and Nervous, Says Florida Lady. Five Bottles of Cardui Made Her Well.

Kathleen, Fla.—Mrs. Dallas Price, of this place, says: "After the birth of my last child...I got very much run-down and weakened, so much that I could hardly do anything at all. I was so awfully nervous that I could scarcely endure the least noise. My condition was getting worse all the time..."

I knew I must have some relief or I would soon be in the bed and in a serious condition for I felt so badly and was so nervous and weak I could hardly live. My husband asked Dr. about my taking Cardui. He said, 'It's a good medicine, and good for that trouble', so he got me 5 bottles...After about the second bottle I felt greatly improved...before taking it my limbs and hands and arms would go to sleep. After taking it, however, this poor circulation disappeared. My strength came back to me and I was soon on the road to health. After the use of about 5 bottles, I could do all my house-work and attend to my six children besides."

## Mary Magdalene of the Passion Play Coming Here

MISS MARIE MAYER.

MISS MARIE MAYER, who is to appear on our forthcoming Chautauqua program, has come across the sea to tell the story of the World's Greatest Drama and of the quiet, peaceful village of Oberammergau, which nestles in a high hanging mountain valley in Bavaria. Not only will she tell the story of the Passion Play, but she will also describe the present unhappy state of her people in the midst of a world at war.

Miss Mayer has taken part in the Passion Play three times—first as one of the children of Jerusalem in 1890, ten years later as the Angel in the Garden of Gethsemane, and then in 1900 she realized the greatest honor which can come to any girl of Oberammergau.

Thirty years before her own mother had dreamed of playing the same character, but the coveted honor went to another. She married and in 1910 enjoyed the supreme happiness of seeing her dream realized in her lovely daughter as Mary Magdalene.

Beautiful stereopticon pictures will be used to illustrate Miss Mayer's interesting story. The music for the evening on which Miss Mayer will speak will be furnished by the Spanish cellist, Antonio Sala, with assisting artists. Mr. Sala's successes, both in this country and abroad, have been most notable.

Why didst thou fly away?  
Why leave me here who loved to hear thee sing,  
Oh why didst thou not stay?  
O Delma, fairest child, where art thou now?  
My heart is sad today  
I need thy smile, thy kiss upon my brow,  
O why didst thou not stay?

## BRITISH EXPERT LAUDS RAILROADS OF UNITED STATES

Tells Congress Committee That  
They Lead World.

### NO GOVERNMENT OWNERSHIP

It Would Mean Political Control and  
Loss of Efficiency—Declares That  
Crisis Confronts Country on Account  
of Transportation Situation—Lowest  
Freight Rates to Be Found in United  
States.

Washington, May 14.—That the United States is face to face with a serious crisis in its commercial affairs, due to the conditions by which its transportation system is confronted, was the opinion expressed by W. M. Acworth, England's leading authority on railways, before the Newlands joint committee on interstate commerce at a special session held here to enable the committee to hear his views before his departure for London this week. Two steps are necessary, according to Mr. Acworth, to avert this crisis and to solve the threatening railroad problem confronting the country.

The first is to allow the railroads to charge freight rates sufficient to meet the great advance in operating expenses which is taking place and to enable them to command the credit necessary to provide the extensions and improvements needed to meet the growing demands of business. The second is to do away with the multiple and conflicting systems of regulation that now hamper railway operation and to provide one centralized regulatory agency with such local subdivisions as may be necessary.

Higher Rates a Public Necessity.  
Mr. Acworth's views on the transportation situation in the United States were expressed in answer to questions by members of the committee, who asked him to apply his knowledge of railway conditions throughout the world and of the experience of other countries with government ownership to the present problem before the United States.

"The fundamental factor in the situation is very simple," said Mr. Acworth. "It lies in the fact that you cannot get three-quarters of a cent's worth of work done for less than three-quarters of a cent, no matter whether the agency performing it is a government or private enterprise. Freight rates must advance when the cost of performing the service advances as it is doing at present, just as the price of bread or meat or any other commodity increases with increased cost of production."

In answer to a question Mr. Acworth said that he thought American freight rates had been at much too low a level for several years past, that they had reached this low point during the period of cutthroat competition among the roads and had since been held there by regulating bodies. Unless relief were afforded to the carriers very promptly, he said, the result would be a tremendous loss to the people of the whole country through insufficiency of transportation facilities.

Weakness of Government Ownership.  
On the subject of government ownership of railways Mr. Acworth said:

"It is impossible to obtain satisfactory results on government railways in a democratic state unless the management is cut loose from direct political control. Neither Australia nor any other country with a democratic constitution—perhaps an exception ought to be made of Switzerland—has succeeded in maintaining a permanent severance. In France, in Belgium, in Italy, parliamentary interference never has been abandoned for a moment. The facts show that government interference has meant running the railways not for the benefit of the people at large, but to satisfy local and sectional and even personal interests."

Prussia, Mr. Acworth said, was the best example of an efficient government railway system, and he pointed out that military considerations were treated as of paramount importance in the Prussian railway system. While American freight rates had been reduced nearly 40 per cent in thirty years, rates in Prussia were nearly as high as at the beginning of the period. While the charge for moving a ton of freight one mile in the United States was a trifle over three-quarters of a cent, the rate in Prussia was 1.61 cents.

As illustrating the difference in rates between government and private roads Mr. Acworth compared the railways of New South Wales, Australia, with those of Texas. While the amount of traffic to each mile of line was about the same in both cases, he pointed out, the Texas railways performed for the public four times as much service as the government owned roads of New South Wales. The charge in Texas for hauling a ton of freight one mile was less than 1 cent, while in the Australian state it was well over 2 cents.

"American railways lead the world," said Mr. Acworth. "Nowadays when men in any other part of the world want to know how to run a railway they come to the United States and study your railways here. The American railways are entirely the result of private enterprise, and I think they go a long way toward proving the case against government ownership."

### How One Lives at Kavanaugh

At this time when every one is stirred with stories of military life, it will be interesting to know that at Kavanaugh Camp a bugle call announces rising time, meals, recreation, all meeting, in fact everything. Then besides there will be a class in First Aid work where any who desire may be instructed by a competent doctor in the essentials of rendering service to the wounded soldiers. Dr. Ethel Polk will have charge of this class. Dr. Polk is just back from China, where she has had a large practice and has done a great work. Kavanaugh is a training camp for life, where one is drilled by competent officers of experience in life, "how to live."

Poor, helpless, hopeless, sick, suffering, miserable woman. Sick because she doesn't know any better. Sick because the organs that make her a woman are not properly performing their functions and so are sending nerve messages with aches and pains and distress all over her quivering body.

Nineteenths of women's sickness comes from disorder of these special organs. The symptoms are various—the cause the same. Dr. Pierce's Favorite Prescription is the remedy for the headache, backache, nervousness, wakefulness, neuralgia and fifty other troubles of women which can always be traced directly to feminine weakness or disease. Thousands of women right here in Kentucky, after years of discouragement, have written to Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., and now thank him for their renewed health and happiness.

It is a medicine devised to cure one certain kind of disease—female disease. It brings ease and comfort and sleep. It restores perfect health. It fills out cheeks and hollows, brightens the eyes, puts vim and snap into the whole body.

It is a wonderful prescription prepared only from nature's roots with glycerine, with no alcohol to falsify stimulate. It banishes pain, headache, low spirits, hot flashes, dragging-down sensations, worry and sleeplessness surely and without loss of time.

Sick women are invited to consult Dr. Pierce, by letter, free. Address Dr. Pierce, Invalids' Hotel, Buffalo, N. Y.

### New Zealand Suffering From Lack of Ships.

Newcastle-on-Tyne May 30.—Two million carcasses of frozen sheep are in cold storage in New Zealand waiting shipment but no vessel can be obtained, recently declared Premier Massey of New Zealand, while on a visit here. By the end of May the number, he said, would be increased to three and a half million carcasses and if shipping could be obtained New Zealand could export this year \$40,000,000 worth of dairy produce.

### Turks Would Let Russia Use Dardanelles, Report.

London, May 30.—In an interview published in the Bund of Berne, Switzerland, as forwarded in an exchange Telegraph dispatch from Copenhagen, the Turkish minister to Germany declared Turkey was willing to open the Dardanelles for Russia.

The newspaper says the negotiations which led to the London agreement, under which the Dardanelles, was closed, proved that this action was taken as a result of England's demand.

Turkey, the minister said, was ready to fulfill Russia's demands in as much as Russia was not striving against the independence of Turkey.

### A Family Picnic.

A pleasant and enjoyable affair was that of a family picnic and outing Sunday May 20th on Little River at the Burton crossing below Crowder, when the family of G. W. Howell, A. F. Franklin, Shelly Franklin, C. F. Binkley, Misses Edna Sutton, Frieda Marshall and Kathleen Marshall of Sikeston, Mo., and John Slaton, Vivian Franklin and Raymond Marshall of Bledgett, Mo., met to spend the day bathing, rowing, lounging and Kodaking, also to get a piece of Mother Howells cake.

The Mrs. Binkley Franklin's and Howell showed ignorance of the High Cost of Living by the big dinner which they prepared for the occasion. While by no means the men were not short of their duty, especially at lunch time.

Every one present had a delightful time and regretted to see the time come to leave and plans are being made for another outing soon.

### FORD'S FERRY

(Continued From last week.)

We notice that Colonel Theodore Roosevelt is still making strenuous efforts to secure an official permit for the raising of a division of volunteers and putting them on the fighting line in France. Of course the colonel would go with the division himself and take an active part in the operations. Mr. Roosevelt is an exceedingly brave man and his physical courage is unquestioned, but there are a number of people who entertain grave doubts as to his capabilities as a military leader. They are willing to give him ample credit for his bravery, but there are indications which seem to show that his courage is of the reckless kind which would cause him to sacrifice his men in a needless manner if he were given the command of a large body of troops. The Colonel is a long way from being on a par with such famous Generals as Washington and Lee—great military leaders who combine wonderful courage and bravery with a high degree of caution and skill.

The Agriculture Department is urging the planting and cultivation of an extensive crop of beans during the present year and it is also suggested that a considerable amount of peas should be raised. Beans and peas possess a considerable amount of nutritive value and a large crop of these two products would go a long way toward relieving the critical food situation which is now facing the world.

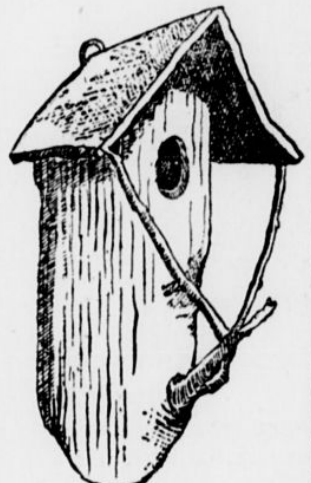

Greatly to the surprise and chagrin of the Tuetonic government, the German-Americans of our land have astonished the world by the manner in which the overwhelming majority of them are supporting and upholding the United States during the present crisis. The Russian Militaristic clique was confidently expected that a large proportion of the Tuetons in our land would be openly hostile toward our government and incidentally cause us a lot of embarrassment, if not actual hindrance, in the prosecution of our military operations. In making this premature calculation, however, it seems as though the German government was following its time-honored policy of counting their chickens before they were hatched, for the majority of our Tuetonic citizens are exhibiting a whole-hearted loyalty in favor of the stars and stripes. No matter what may be said in regard to the Germans in Germany, we can truthfully and conscientiously say that the Tuetonic citizens of our own land are certainly a much better class of people than the wicked and barbarous inhabitants of the country from whence they come.

### 40 YEARS ON THE JOB

I put 40 years in the study and practice of medicine and pharmacy before I was fortunate enough to secure and perfect the wonderful prescription for Number 40 For The Blood and at this late date in life I would not offer suffering humanity a medicine that I did not believe better than any offered by any doctor or druggist. I have observed the effect of 40 in thousands of cases and can safely recommend it in all diseases of the blood such as specific blood poisoning, in chronic rheumatism, catarrh, constipation, stomach and liver diseases, to cause sores and ulcers to heal and disperse nodes, tumors and serofulous swellings. ### COME, MRS. BLUEBIRD; NO RENT TO PAY!

The bluebird is one of the earliest northern migrants and everywhere is hailed as a harbinger of spring. Very domestic in habits, it frequents orchards and gardens and builds its nests in cavities of trees, crannies in farm buildings or boxes provided for its use. This very attractive blue bird residence ex-

FOR BLUEBIRDS.

hibited by the New York Zoological society is artfully arranged to look like a tree with natural and convenient limbs, and if Mrs. Bluebird while out house hunting discovers it she will be quite sure to move right in without even waiting for Mr. Bluebird to come home from the office and approve her choice. The bluebird has not been accused, so far as known, of stealing fruit or preying upon crops.

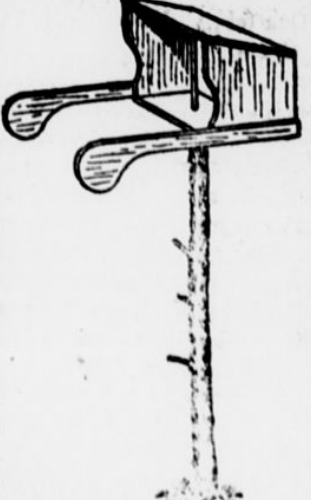

### CARE OF BIRD HOUSES

[From United States department of agriculture.]

Each spring before birds return from the south all filth and litter should be carefully removed from bird houses. In addition to the relics of previous occupancy, houses are likely to contain cocoons of insects and nests of bees or squirrels. Attention to this one item of spring cleaning is a substantial factor in attaching birds permanently to their houses. A little sulphur scattered about a house is a good remedy for parasites. When bluebirds or swallows take possession of a martin house it is a good plan to put up a one-room house in the vicinity and remove the nest from the martin house. Interlopers thus evicted often transfer their housekeeping to the small house. Houses designed for woodpeckers should always have an inch or so of sawdust in the bottom for the reception of eggs, as woodpeckers do not gather nest materials. Due attention should be given to repairs. It is easier to keep houses in good order than to build new ones.

### WEATHER VANE HOUSE FOR FEEDING BIRDS

The vital factor in attracting birds is the food supply. This may be furnished either by providing artificial food, such as crumbs, suet, chopped nuts, and the like, or by planting trees, shrubs and herbs which will produce fruits or seeds that the birds themselves may gather. Winter feeding is the most familiar phase of bird feeding, but there is no reason

why birds should not be attracted throughout the year by a supply of food.

For artificial feeding, the biologists of the United States department of agriculture suggest the use of several devices. A food shelf may be placed against the side of the house near a window, or a food tray may be fixed to the top of a post. A wooden house, open on one side, mounted on a pivot and provided with a vane to keep the open side away from the wind, may also be used as a feeding place.
