"WE MUST WIN THIS WAR"

Should Be Our Slogan.—The Housewives Must Do Their Part And do it Well

Women in time of war as well as in time of peace have done their part in the world's work. During this great crisis there will be more work for them than ever before.

In the past women have shown as much initiative as have men, and the annals of history records many brilliant achievements of the women who have made this world better by their having lived.

Betsy Ross made the first American flag and we love that flag. We will all fight for it, and for the principles that it stands for.

Florence Nightingale the best loved and most useful woman who has ever lived went upon the battle field during the Crimean war and nursed and cared for the sick and wounded soldiers. She was the first woman to practice the profession of nursing. In fact she originated this the noblest of all professions and now where ever the soldier goes the nurse goes to do her bit in the alleviation of suffering and hardship.

Jenny Lind charmed the world with her wonderful voice and did her bit to make mankind happier and better.

Clara Barton was the founder of the Red Cross and has made her name worthy of a place in the Halls of Fame. Where a great calamity befalls mankind the Red Cross is there to help. To do their part in the care of the injured and the establishment of order.

There are so many women who have distinguished themselves in the world work that we can only mention a few of the most prominent.

We have got the world to feed and the housewife rules like a monarch when it comes to feeding the average man. The nearest route to a man's heart is by the stomach, and most women know this and make use of this knowledge.

The food that is wasted is mostly wasted by way of the kitchen, and if this waste is to be checked, it must be checked in the kitchen. Herbert C. Hoover our great food expert has issued an appeal to the housewives of our country to save all they can and we are sure this appeal will be heeded by most women. We would not advise women to leave off all social gatherings where good things are served to eat, but they should see that nothing is wasted while entertaining their friends.

The time may come before this war is over when it will be necessary for a large number of our women to go to the field and do the work that the men are now doing. Let them begin now and try to prevent such drudgery as the women of Europe are now experiencing.

Garden seed for next years planting must mostly be saved by women. So it behooves every woman to begin now, learn to save every thing that is worth while to save.

See that nothing is wasted that can be feed to man or beast. Make your arrangements to can and dry all surplus fruit and

vegetables. Call on this council, call on Mr. Bird and his good wife for advice, and we will do the best we can for you.

It is our mission to help the people of Crittenden and there by do our bit to win this war. Think of these things seriously, but work while you think, and we will get results.

Mrs. Pearl McAdams

Tenders Resignation

Mrs. Pearl B. McAdams who for more than seven years has been in the employ of the Central Home Telephone Co., here as night operator, tendered her resignation last week, effective July 1st. The patrons of the exchange will regret to know this, as Mrs. McAdams has been at all times pleasant and agreeable, and is quite popular with all the users of the telephone.

Horse Drowned

A horse belonging to R. S. Lander and driven by C. B. Varney and Dr. R. M. Bailey, walked off of the ferry boat Thursday of last week and was drowned. —Eddyville Herald

Drug Stores Must Close in

Madisonville on Sunday.

Madisonville, Ky., —Beginning July 1 all drug stores here must remain closed on Sunday, the Council having passed an ordinance to that end. It is stated that the sale of Sunday newspapers will be forbidden, and that livery stables, garages, gasoline stations, ice plants, etc., will not be permitted to remain open on the Sabbath.

The Sunday closing movement was started by ministers of various churches. They were present at the Council and made addresses.

Taylor-Newman Debate

There will be a public oral debate between Elder H. B. Taylor of Murray, Ky., and Rev. T. C. Newman, of Marion, Ky., to take place at Sugar Grove, Ky., church, July 3rd 1917 continuing for four days, two sessions a day of two hours each from 9:30 in the forenoon to 11:30 and from 2:30 in the afternoon until 4:30 of each on the following propositions:

1st. The Holy Scriptures teach, that the Lord Jesus Christ, did organize or establish a church during the days of his earthly ministry, and that church was a Missionary Baptist church.

Taylor affirms.
Newman denies.

2nd. The Holy Scriptures teach, that the Church of God set up in the family of Abraham, spoken of as the Kingdom of God, or Kingdom of Heaven, or Kingdom of Israel, composed of believing parents and infant children, has been continued as the Church of Christ.

Newman Affirms.
Taylor Denies.

3rd. The Holy Scriptures teach, that the Baptism of saved persons by Immersion in water, upon the authority of a Missionary Baptist Church is the only Scriptural Baptism to-day.

Taylor Affirms.
Newman Denies.

4th. The Holy Scriptures teach that sprinkling or pouring of water on the forehead of a proper subject, by a proper administrator in the name of the Trinity, constitutes the proper mode of water Baptism.

Newman Affirms.
Taylor Denies.

REDPATH CHAUTAUQUA BEGAN HERE WEDNESDAY JUNE 20.

An Elaborate Program is Booked And Prospects Are Brighter Than Ever Before For The Success This Year And Assurance Next Year For These Rare and Grand Treats

CREATORE'S BAND IS BIG FEATURE

The Big Redpath Chautauqua which opened here Wednesday afternoon for seven days, will present the best balanced program ever offered by the Redpath bureau. The Chautauqua management always strives to offer attractions which will please generally. This year this aim has been wonderfully achieved.

The Boyd lot was found too small to hold the tent and the Finley corner lot was chosen.

Mr. R. A. Parsons, the clever and hustling advance man of the big show, has been in the city several days and will remain here until the chautauqua begins. He is boosting the chautauqua with more enthusiasm than usual and declares the program this year is the best Redpath has ever put out, which is saying much.

I. AFTERNOON AND EVENING.

The Boheman orchestra will appear the 1st, afternoon and evening. The program on the first night is featured by the lecture of Dr. Martin D. Hardin on "America and the World of Tomorrow." Dr. Hardin is the son of P. Watt Hardin, for several years attorney general of Kentucky.

Dr. Hardin's lecture is something which every person should hear. It deals with the present war situation and goes into the question of America and the years that are coming. What will America do? Will she be able to democratize Europe or will Europe militarize America. Dr. Hardin is a forceful talker and will propound many questions which will make his hearers think. This lecture is calculated to make better Americans and better citizens of every one.

II. AFTERNOON AND EVENING.

The Beulah Buck Ladies Quartette is the musical attraction. Gatling Gun Fogleman is another headliner. His lecture comes the second night of the Chautauqua. Mr. Fogleman is an efficiency expert, who has made a success in business. He has taught more men to sell than any other man in the United States. He will talk on "Success and Failure in Business," and every one directly or indirectly interested in business should attend, for Mr. Fogleman not only has something worth while to say, but he knows how to say it.

He is called "Gatling Gun" Fogleman because he frequently reaches a speed of 350 words a minute in delivering his verbal shot.

III. AFTERNOON.

Oratorio Artists Lecture Moonshine. B. F. McDonald Newark, Ohio.

FRIDAY NIGHT.

"Oratorio artists."

SATURDAY AFTERNOON.

Antonio Sala, Spanish Cellist and Artists. The Indian Princess Watahwaso is a real Indian princess, the daughter of a chief of the Penobscot Indians. She

was born on Indian Island, off Maine, and there lived until she was taken to Boston to be educated by a Cambridge professor, who took a kindly interest in her and her family. Watahwaso is called the Indian prima donna and she deserves the title. She presents a program of Indian songs, legends and dances, and her vivacity and splendid voice make her one of the Chautauqua season's favorites. This is her first appearance in the South.

SATURDAY EVENING.

Marie Mayer, Magdalene of the Passion Play, is a Redpath attraction of interest. Her talk on the Passion Play, in which she herself was a principal actor, is authentic and compelling.

MONDAY AFTERNOON

AND EVENING.

Gilbert and Sullivan Opera Company.

Light Opera "The Mikado," Monday Evening.

Another great musical offering this season is "The Mikado," which is given by the Chicago Light Opera Company, an all star cast of thirty stars, carrying a special baggage car of over one hundred pieces of scenery. The company includes many of the members of the Chicago Grand Opera Company.

"The Mikado" is a wonderful sensation in Chautauqua this year. The stage setting is splendid and the lighting most suitable. It was a great question to many at first as how "The Mikado" could be given an adequate setting on the Chautauqua platform. The problem was handed over to Hosman & Landis of Chicago, and it was more than solved.

The unanimous verdict of the newspapers in the Chautauqua cities this season has been that "The Mikado" scenery is wonderful. Redpath was doubly fortunate in securing for "The Mikado" two such artists as Ed Andrews and Arthur Aldridge. Mr. Andrews sings the part of Ko-Ko, a role which he has taken over 1,200 times. There is no doubt but what he is the greatest Ko-Ko of the generation. Arthur Aldridge starred with DeWolf Hopper in the recent stellar revival of "The Mikado" in New York City.

Never before has Redpath attempted such a big production. A mark has been set which every one who sees "The Mikado" will say is very high.

TUESDAY AFTERNOON.

"How to meet the high cost of living." By George L. McNutt of New York City.

TUESDAY NIGHT.

The above are a few of the attractions for the grown-ups. It must not be forgotten that the Chautauqua has something for the kiddies in the Mother Goose festival. This festival is the culmination of the children's hour work for the week. It comes on Tuesday night and is participated in by about 150 of the brightest children of the city. It will be a treat to

the children, and will be immensely enjoyed by the older people.

Great War Lecturer Tuesday Night.

LIEUT. ROBERT BOWMAN

As has been announced before a special attraction will be the great war lecture of Robert Bowman, who comes direct from the French front at Verdun. Too much emphasis cannot be laid upon the extraordinary authenticity of the talk by Mr. Bowman who received the cross of the legion of honor in this war with the gold star from the French government as a reward for conspicuous bravery at Verdun, an honor which is the highest ever conferred upon any foreign non-combatant by the French.

WEDNESDAY

Afternoon and Evening
Creatore and His Band.

For those who are interested in things musical, the coming of the great Creatore and his band will be a splendid treat. Signor Creatore is known everywhere as a bandmaster of genius and his tour with the chautauqua this season is winning for him and his bandmen a wonderful reception. Band day is the last of the seven big days, and on this day the tent is sure to be crowded to overflowing for both the afternoon and evening performances. Creatore has won special renown for his vital method of conducting. He is a cyclone of energy and he imparts to his band an artist which is peculiar to this great Italian.

YOU CAN NOW GET TIN CANS

Car Load Will be in Shortly.—Put in Your Order Now So They Will be Reserved

Crittenden County Council of national defense composed of the following named gentleman Dr. T. A. Frazer chairman W. R. Cruce sec'y. J. H. Orme and J. R. Bird exoffice member met Saturday in J. R. Bird's office and ordered a car load of tin cans to be distributed at cost to any citizen of Crittenden Co. desiring them. Those wishing to have them, reserved should get in communication with the committee at once.

This council for national defense was appointed by the Governor and works in conjunction with our county agent J. R. Bird who counsels with them and they with him on all matters pertaining to the conserving of food.

Liberty Mining Co., File Articles of Incorporation.

Articles of incorporation were filed yesterday for the Liberty Mining Company, with capital stock of \$12,000 and principal office at Hopkinsville, to mine and develop mineral properties in Crittenden and Caloway counties containing fluorspar barytes lead, etc.

The incorporated are Rodman Meachan, of Hopkinsville; E. V. Rawn and Walter Stokes, of Nashville, Tenn., and Milton Vandell of Francis, Ky. The company has already started operations near Mexico, Ky.

—Hopkinsville, Kentuckian.

Names Of Chautauqua Guarantors Omitted Last Week.

Last week we published a list of the guarantors of the Redpath Chautauqua but inadvertently overlooked those names written on the reverse side of the contract. The men are as much entitled to thanks as the list published last week, and we cheerfully give their names to the public. The names follow.

Galen Dixon New Studebaker Wrecked Saturday Afternoon.

When Galen Dixon, Will Clifton started for a drive with Garth Mayes colored, at the wheel, the car slipped on the freshly oiled streets or the chauffeur lost control, and ran it into the iron columns supporting the shed on the McConnell corner next to the Marion Opera House knocking two of the supports out and demolishing two wheels of the car and otherwise injuring it. Fortunately none of the occupants was hurt. The damages to the car are such as to necessitate the sending of it to the factory for repairs which will require probably a month.

THE GREAT CREATOR and his BAND

The Great Creator and His Band Will Be Here
On the Seventh Day of the Redpath Chautauqua

SINCE the days when we followed our first circus parade, to the pulse-stirring strains of the uniformed band sitting aloft in their gilded, palatial wagon drawn by prancing horses, we have never quite lost the magic thrill which always returns when we hear the rousing strains of a good band.

Creator is one of the greatest band leaders our country has ever known. When the well known Italian leader first came to this country he was a veritable sensation. Dramatic, picturesque in his directing, and cyclonic in his intensity and a revelation of musical energy, he was a marvel of emotional possibilities. He quickly be-

came the rage. Creator's genius lay, not only in his singular ability to impart to his men the contagion of his vivid emotions, but also in his unusual mastery of instrumentation. From the shrill call of the cornet to the thunderous roar of the kettledrums every instrument is in perfect harmony. Some one has rightly styled the result

as a "Sublime Festival of Harmony." Classic and popular music alike bring thrills of delight to every hearer. The program is sufficiently varied to please the diversified tastes of the great crowds which turn out to hear this celebrated leader. Before the climax the audience reaches a high pitch of enthusiasm.

"At the end of one of his concerts," says the Boston Globe, "the audience refused to disperse and, after Creator had been called out a half dozen times, he got his band together and repeated 'The Star Spangled Banner' with an accompaniment of musical fireworks that sent everybody home in an exalted state of mental elation." Creator's

appearance at the Panama Exposition proved a similar sensation. Creator and his band come here on the seventh day of the big Redpath Chautauqua program. Creator will direct his band only at the evening performance. The concert of the afternoon will be led by the assistant-director.

A FOOL AT 40

It is an old proverb that every man is either a fool or a physician at 40. Well I fooled along for 40 years in the drug business and practice of medicine before I perfected a blood medicine that I thought and knew I could offer the public with impunity.

I have perfected Number 40 For The Blood, and to show you that I do not wish to fool you I will send you your dollar by mail if you return the front of the carton with the statement that you have tried one bottle without satisfactory result for any terrible disease, for blood poison, chronic rheumatism, malaria, chronic liver and stomach trouble, constipation or in any disease for which it is recommended. Two Noted Actors Who Are to Appear Here In "The Mikado"

ARTHUR ALDRIDGE, Who Plays the Part of Ko-Ko In "The Mikado." ED ANDREWS, Who Plays the Part of Nanki-Poo In "The Mikado."

THE Redpath chautauquas have been doubly fortunate in securing two eminent artists for their production of "The Mikado" here Chautauqua Week. Mr. Ed Andrews is to take the part of Ko-Ko, and Mr. Arthur Aldridge as Nanki-Poo. Ed Andrews is conceded to be the greatest Ko-Ko of the generation. He has sung the part 1,200 times. He possesses a thunderous bass voice and sings the part with zest and a delightful enthusiasm. Many famous comedians have played Ko-Ko, but few have been able to obtain an intelligent conception and interpret Gilbert's fine humor and brilliant satire as Ed Andrews has.

Mr. Arthur Aldridge is, like Mr. Andrews, one of the great interpreters of his role, Nanki-Poo. In the recent revival of the Gilbert and Sullivan Operas he scored a tremendous success with De Wolfe Hopper. He has appeared recently in the mammoth New York Hippodrome productions and is now recognized as New York's leading light opera tenor. Indeed, some critics have been so kind as to claim that he has few equals among the world famous grand opera tenors.

Beautiful and unique effects have been secured in the scenery built especially for the Redpath chautauquas by Sosman & Landis of Chicago.

Check That Cold Quick

As every cough or sneeze distributes millions of germs, we only need a draft, chill or fatigue to lower the body's resistance and start a cold. At the first sign, take Dr. Bell's Pine Tar-Honey and don't let a "summer cold" become deep seated. The pleasant balsam qualities in Dr. Bell's Pine Tar-Honey cut the phlegm, relieve congestion and allays inflammation. Children like it, used with success by singers and public speakers. 25 cents at your druggist.

Supertintendent Travis Receives

Letter From H. S. Supervisor

Superintendent E. Jeffrey Travis has received the following letter from McHenry Rhodes, Inspector of High Schools, which explains itself.

The letter follows:
Frankfort, Ky., June 16, 1917.
Supt. E. Jeffrey Travis,
Marion, Ky.

My dear Superintendent:

I have read and carefully considered copy of the contract made and entered into by the County Board of Education of Crittenden county and the Board of Trustees of the Marion School District.

This contract is made in accordance with the provisions of the State Law permitting contracts of this type. It sets forth clearly the terms of the contract, the privileges and responsibilities of both Boards of Education, plans for establishing and maintaining said joint high school, together with plans for election of superintendent and teachers, maintaining discipline in the school, providing for the type of work to be done therein, and all other things required by law to make the contract legal. I am familiar in a general way with high school conditions in your county and am still of the opinion this joint high school is the very best solution of the high school problem, both for the county and city.

Co-operation between the country and town is advisable at all times. It is especially so in school conditions when neither country or town could maintain, without great expense, separate institutions of standard grade. By this arrangement, high school pupils from the country will have the advantage of attending a combined high school of standard grade which, according to the contract, offers subject matter of real interest to country students who expect to live in the country after graduation from the school. The subject matter is also extensive enough

to furnish similar opportunities to students in the town who expect to remain there after school has been completed.

Another advantage in co-operation is financial. The cost of maintenance in one school is proportionately less than the cost of maintenance in separate institutions. I think you and your County Board of Education acted wisely in co-operating with the Board of Education and people of Marion in furthering the high school interests of the entire county by establishing this combined and co-operative town and county high school. I believe future conditions will bear out the truthfulness of this statement.

I have the pleasure to remain, Yours very respectfully,
McHENRY RHODES,
High School Inspector.

Stop That Summer Cough

We have coughs and grippy feelings in warm weather because colds are germ diseases. That's why we should have Dr. King's New Discovery remedy. It's antiseptic ingredients fight the growth of germs and loosen their hold. It's laxative qualities expel these germs and cleanse the system. You can feel its pleasant balsams soothe the inflammation, heal tissues strained by coughing and promote rest and sleep. Millions of bottles sold. 50c, and \$1.00 at your druggist. Used for nearly 50 years.

The Morning Hour.

At this time when all people are intensely interested in Bible study, one has a rare opportunity at Kauaungh Camp to join a Bible class conducted by Mr. J. M. Fugua. To learn of our neighbors across the seas, in China, Japan, Korea, Africa and Brazil, or of those here at home, one may join the Mission Study classes which will be taught by Miss Bessie Combs and Miss Grace Rowland. Of special interest to young women will be the class in first aid work, a thing so vitally necessary at the present National crisis. Besides these classes competent leaders will conduct Institutes on every phase of missionary work in the local societies. If you are an officer this will be of an especial interest to you to help you to be more efficient. Mrs. Spillman will give a series of inspirational addresses at the morning hour.

The Emperor and Hindenburg Had A Narrow Escape

LONDON June 9.—Emperor Othman was with Field Marshal von Hindenburg, Prince Eitel Friedrich and other members of the German Emperor's staff inside the St. Peters station at Ghent, Belgium, when it was bombarded by Entente Allied airmen the other day, according to the dispatch to the Exchange Telegraph Company from a Dutch frontier correspondent.

The Emperor's party was unhurt, but three army officers nearby were killed.

THE RICHES OWNED BY KENTUCKY FARMERS

The farmer to-day represents a new generation of intelligent, independent, thrifty people with money and inclination to be progressive. The farm products of this year bring to the farmers and planters probably five billion dollars, which would prove that they could corner the money market of this country if they got together and used it as one man. Strength, strenuousness and the future health of the American people depend upon our country folks. As a rule, country folk are healthier than those who live in our crowded cities. Consumption is a disease of civilization. Life in the open air and sunshine gives vitality and health. Nature is the great teacher and developer of mankind. People have more faith in a remedy which is taken from nature, from the vegetable kingdom, than from any other source. A remedy which has enjoyed a good reputation for nearly half a century is Dr. Pierce's Golden Medical Discovery, an alternative extract taken from bark, roots with pure glycerine without the use of a particle of alcohol or narcotics. This medicine goes to the root of disease by imitating nature's methods of replacing wasted tissue, enriching impoverished blood and increasing nerve force. This "Medical Discovery" of Dr. Pierce cures the digestive functions and helps in the assimilation of food, or rather takes from the food just the nutriment the blood requires.

The prompt and certain action of Dr. Pierce's Golden Medical Discovery in driving all harmful germs and impurities from the blood, sets in motion the repair process which works actively on the diseased membrane where eczema flares, itching unhealed or where the skin gives warning of the bad blood beneath by showing pimples and boils, also the skin clears up and becomes wholesome and ruddy.

Dr. Pierce's Common Sense Medical Advice, cloth-bound, sent free to you on receipt of three dimes. Address Dr. Pierce, Invalids' Hotel, Buffalo.

WHAT IS LAX-FOS

LAX-FOS IS AN IMPROVED CASCARA A DIGESTIVE LAXATIVE CATHARTIC AND LIVER TONIC

LAX-FOS is not a Secret or Patent Medicine but is composed of the following old-fashioned roots and herbs:

CASCARA BARK BLUE FLAG ROOT RHUBARB ROOT BLACK ROOT MAY APPLE ROOT SENNA LEAVES AND PEPSIN

In LAX-FOS the CASCARA is improved by the addition of these digestive ingredients making it better than ordinary CASCARA, and thus the combination acts not only as a stimulating laxative and cathartic but also as a digestive and liver tonic. Syrup laxatives are weak, but LAX-FOS combines strength with palatable, aromatic taste and does not gripe or disturb the stomach. One bottle will prove LAX-FOS is invaluable for Constipation, Indigestion or Torpid Liver. Price 50c.

AMERICA AND THE WORLD OF TOMORROW

Subject to be Discussed Here by Dr. Martin D. Hardin.

Timely Lecture by One of Chicago's Best Known Pulpit Orators on the First Night of the Chautauqua.

"I am not a 'peace at any price' man," declares Dr. Martin D. Hardin, whose peace lecture concerning the titanic struggle in Europe was declared by William J. Bryan to be "the strongest speech delivered in America on the European situation."

Dr. Hardin will lecture at the Red path Chautauqua on "America and the World of Tomorrow." Dr. Hardin heartily supports the president in his stand with Germany and believes that there is no hope of world peace until Germany is brought to her senses.

What part is America to play in the present world crisis? What policy is she to stand for after the war closes? Can there be a permanent world peace? Will America democratize Europe, or will Europe militarize America? What lessons has the world war to teach the great republic, and what

DR. MARTIN D. HARDIN.

has America to offer the world? These are the pertinent questions of the hour discussed by Dr. Hardin. You will love America more and be a better patriot for having heard his address.

Not long ago when Dr. Hardin was introduced to an audience in Minneapolis a man sitting next to ex-Congressman J. Adam Bode whispered to the former wit of the house: "That can't be a peace preacher. Why, that fellow has got enough punch to be a prize fighter!"

Possessed of strong body, Dr. Hardin is a man's man to the core. He is an ardent sportsman, a crack shot and plays a good game of tennis. He delights in fishing and always spends some of his vacation time in the Wisconsin lake region. As a golfer Dr. Hardin is an adept. Indeed his record of eight better than bogie on the Minnesota links is a record that a professional might be proud to claim. When in college Dr. Hardin was an all star football man.

While a college student Dr. Hardin gave evidence of the fine oratorical powers which he possesses and which, developed with experience, have won him today the acknowledgment of being one of the masters of public speaking. While in college in competition with the representatives of the entire south Dr. Hardin won the southern intercollegiate oratorical contest. Dr. Hardin is a son-in-law of the late Vice President Adlai E. Stevenson.

A southerner by birth, Dr. Hardin is a man of northern experience, until recently holding the pastorate of one of the largest of Presbyterian churches in Chicago, resigning to enter the lecture field.

Because of his intensive study and extensive research and through his visits to practically all of the warring countries Dr. Hardin's advice has been much sought by others. He has been made chairman of the peace committee of the Federated Churches of Chicago.

For nine years he was in charge of the activities of the Third Presbyterian church in Chicago, with more than 1,000 members. He organized the West Side Sunday Night club, and so successfully was this carried on that an average of 1,400 people were present each Sunday evening. Prior to his coming to Chicago he was pastor of the largest Presbyterian church in the southern assembly at Charlotte, N. C.

Educated in Edinburgh, Scotland, Dr. Hardin brings to his subject the thoughtful efforts of a scholar's mind, the foundations of which are laid solidly on first hand information. Dr. Hardin has made several trips to Europe.

Dr. Hardin last year lectured on the topic "Civilization at the Crossroads," speaking to large audiences in 112 cities on one of the western Redpath circuits.

Whenever You Need a General Tonic Take Groves' The Old Standard Groves' Tasteless Chill Tonic is equally valuable as a General Tonic because it contains the well known tonic properties of QUININE and IRON. Stop And Think.

Where is Crittenden County along educational lines today? First let us take a brief review: The schools, a few years ago were not standardized, and graded; the school fair was unknown, there was little, if any restriction made between the teacher who prepared to teach and the one that "crammed" for examination. Our attendance was 48 per cent of all the children within school age, less than half. Parents were uninterested.

But let us turn from the dark picture of the past and joyfully gaze upon the present.

Our schools are graded, giving the country child the same advantages as the city child. We have a splendid school fair each year of which Crittenden County is proud.

Our teachers are better prepared. We have a county agent whose great educational work in agriculture we cannot estimate, and who would have been impossible to obtain had not our people been awake to educational interests. Our attendance has greatly increased from 48 per cent to 53 per cent. Over half are now getting what belongs to them, due to the fact that the parents are more interested.

As we note the great forward march of our county, we stop to ask, what caused the revolution. And which one volume we all will say. The right man got it to the right place. The only way to improve our County is their education, and the only way to promote education is the cooperation of parents and teachers led by a real live man. This we are glad to say we have now.

People of Crittenden County, if you are interested in the welfare of your boy and girls, and want to see our grand old County continue to progress as it has the past eight years, rally to yourself sacrificing superintendent and let him continue to fulfill his mission, and then we can realize our dream of Crittenden, first in education, first in farming and the best place for the best people to live.

Crittenden County Delegation at Western Kentucky State Normal. W. Glenn Sullenger, president, Eulah Gass, secretary.

FOR COUNTY SUPERINTENDENT

E. Jeffrey Travis Will Make Third Race For School Superintendent of Crittenden County

To the Voters of the County.

Dear Friends: After having thought long and seriously over the matter, I have decided to again enter the race for the nomination for County Superintendent, subject to the action of the Republican voters in the August primary.

This is the third time I have asked the people of my county for this same office. They have granted it twice, not, I hope, as a personal favor to me, individually, but because my work warranted it. It is on this point that I have courage to ask for the place again, as I am aware of the fact that some people object to individuals holding office for a third term. The Crittenden County Board of Education pays \$2.00 per month on the salary of any teacher who teaches for the third term in the same school. They believe in efficiency and not in favoritism. They are willing to pay more for the teacher who does the most good. This good is witnessed by the people whom he serves. I am not asking for more money, just here, but I am asking for re-endorsement if my work in the schools of the county for the past seven years will stand the test.

I come, demanding no favors, nor seeking obligations on your part, whatever. If you think

there is another who will do more good for your children than I have done, or will be able to do choose that person with the least hesitation, and take not the least thought of me, because I have lived forty-eight years, principally by my own efforts, and expect to live out the remainder of my allotted time looking out for No. 1. You do not owe me a thing beyond what I earn. The thought I wish to emphasize is, look entirely to the schools in making your choice in this race. Politics, I know, is a fascinating game, and at intervals fills the participant with either glee, anxiety or remorse. Politics does not mix well in schools or churches. For this reason I believe the schools ought to be kept entirely free from its demands. But as it is not the case, and as I am asking for the third term, I will also, ask you to measure my ability as a school officer along with the others who are asking you to vote for them, and if I am at the head of the class please forget the "hand-around game" that politics usually demands and give me your vote. I have never made any promises to get votes, but if I am your choice again this time I will pledge myself to bring about things in the system that have never yet been done in the county. I have tried to perform the duties of the office honestly and fearlessly. My intention is to continue the same. It is my choice to vote for me, and I will do my best to return the favor by helping our children to have as good or a little better chance than any other child in the State so far as we are able.

Yours very truly,
E. Jeffrey Travis.

'EFFICIENCY DAY' HERE

Discussion Vital to Every Citizen at Chautauqua.

STRIKING LECTURE PLANNED.

"Gating Gun" Fogleman, Expert From New York City, to Speak on "An Analysis of Success and Failure." Can Talk Three Hundred Words Per Minute.

Two years ago, through Dr. Charles Barker's lecture on "How to Live One Hundred Years," the Redpath bureau gave to nearly three-quarters of a million people cardinal rules for physical efficiency and happiness. This year personal efficiency will be discussed on the second night of the Chautauqua in a striking lecture by H. L. Fogleman, the well known efficiency expert of New York city. His subject will be "An Analysis of Success and Failure." Mr. Fogleman is expert on both salesmanship and efficiency. He has conducted classes in eight of the largest business institutions in the United States. To prove that he knows how to sell goods he went out and sold to

H. L. FOGLEMAN.

comotives for two years. His contracts ran \$5,000 to \$82,500. He has been called in as special adviser to the heads of the largest mercantile establishments of the country. He delivered a lecture before the salesmen of one of America's greatest watch factories. Afterward the proprietor in a letter of thanks to Mr. Fogleman told him that his ability to discover facts relative to their business was almost uncanny; that he had told them things about themselves of which they were not aware and had crystallized some vague ideas they had had in pertinent, concrete working form.

Mr. Fogleman is often referred to as "Gating Gun" Fogleman because of his ability to speak at the rate of 300 words a minute and speak distinctly.

Reed Miller, the Noted Oratorio Tenor, Scheduled to Appear Here

REED MILLER, who appears here with the Oratorio artists Chautauqua week, is probably the best known oratorio tenor in this country. He was born in South Carolina and received there his early musical education. He has appeared on many occasions with Walter Damrosch and the New York Symphony Orchestra, the Philharmonic Club of Minneapolis and the Apollo Club of Chicago.

MEETING THE HIGH COST OF LIVING

Timely Topic to Be Discussed on Chautauqua Here by One Who Has Made a Close Study of Foods and Labor Conditions.

GEORGE L. McNUTT, the "dinner pail man," who is to speak at the Chautauqua here on "Meeting the High Cost of Living," says that the tragedy of the city is that it separates the worker from the soil. Mr. McNutt has made numerous interesting experiments in gardening. The accompanying photograph shows him in a unique garden which he planted and cultivated while a resident of Valparaiso, Ind.

The garden was one of the show spots of the city. Only 40 by 80 feet, it was made to produce over \$50 worth of foodstuffs and at the same time be a thing of beauty. This was done by constant interplanting, preserving, a continuous growth of vigorous greens.

The aesthetics were secured by screening an ugly alley and some tumble-down fences and barns by three rows of sunflowers along two sides of the garden. As the picture shows, these attained to almost the stature of trees, being nearly sixteen feet high. At the same time these served as poles for Kentucky Wonder beans.

Along the other two sides was a hedge of cosmos. These with care at-

Bird Houses and How to Build Them

By NED DEARBORN
Assistant, biologist of the United States department of agriculture.

Birds may be gathered about us in all seasons of the year with ease and certainty merely by offering what they desire. In winter they are often pushed for food, and if we supply this need they will report daily at the lunch counter and help to relieve the tedium of our indoor life. In summer they care less for food provided by their human friends, and other means must be sought to attract them about the home. They appreciate fresh water for bathing and drinking. A shallow pool, of varying depth, if only a foot across, becomes on hot days a center of attraction for all the birds in the vicinity, and it may be made with little effort and material. Only a small amount of cement is required, or, if that be lacking, a pan with stones in it set in the ground will be equally serviceable. Trees, shrubs, and vines bearing fruit relished by birds are great attractions in their season.

Useful and Interesting.

Birds are desirable about premises not only on account of their beauty and song, but because of their economic worth. They are especially useful as insect destroyers during the breeding period, when they have to work early and late to obtain sufficient food for their nestlings, and their movements at this time are more interesting than during any other season. There is, therefore, a double purpose in offering them special nesting facilities. If mud is available, swallows, robins and phoebe will found and wait their nests with it. If we put out feathers, bits of wood or twine a dozen different kinds of birds will make use of them. If we furnish safe retreats in which they can rear their young most of them will be occupied.

A few years ago four species were commonly regarded as house birds—the house wren, the bluebird, the tree swallow and the martin. Since the movement to protect birds and make neighbors of them began, however, their natures and needs have become better understood, and it is now known that many other species will avail themselves of houses constructed for them by their human friends.

House Birds Increasing.

The habit of nesting in bird houses has been adopted by individuals of many species which would not ordinarily be expected to make use of such homes, and this may be taken as indicating that it will become more general from year to year as facilities are afforded and as the number of birds hatched in houses increases.

That western wrens and bluebirds should take as naturally to artificial shelters as did their eastern relatives was to be expected. On the other hand, the use of houses by birds which until recently had persistently ignored them is surprising and must be considered a victory for those who have studiously attempted to enlarge their circle of feathered neighbors.

Woodpeckers, nuthatches and titmice excavate their own houses, usually new ones each year, leaving the old homes to less capable architects. Builders of artificial houses generally go to the woodpecker for designs, and by varying styles to suit the tastes of different kinds of birds, have been rewarded by such tenants as chickadees, tufted titmice, white breasted nuthatches, Bewick and Carolina wrens, violet-green swallows, crested flycatchers, screech owls, sparrow hawks and even some of the woodpeckers, the master builders themselves. Flickers readily accept houses built according to their standards. Red headed and golden fronted woodpeckers are willing occupants of artificial houses, and even the downy woodpecker, that sturdy little carpenter, has, in one instance at least, deemed such a home a satisfactory abode in which to raise a family. Shelters having one or more sides open are used by birds which would never venture into dark houses suited to woodpeckers. They have been occupied by robins and brown thrashers.

Constructing Bird Houses.

House birds differ decidedly in their requirements. For those which usually excavate homes for themselves, the diameter of the entrance and the depth and diameter of the cavity must be in accord with their specific standards. Some birds are satisfied with almost any sort of a lodging. Bluebirds and wrens, for example, are content to build in tomato cans, although chickadees and nuthatches disdain them. Wood is a better building material than metal or earthenware. Entrance holes should be countersunk from the outside to exclude rain. Heads of nails and screws should be set rather deeply and covered with putty. All houses should be easy to open for cleaning. A perch at the entrance is unnecessary and may even be an objection, as it is frequently used by English sparrows while they twitter exasperatingly to more desirable occupants. To provide for proper ventilation a row of small holes is sometimes bored just beneath the eaves, but there should never be a ventilating hole lower than the entrance, and joints should be made tight, as drafts of air are dangerous. In case there is danger that rain may be driven in through the door, a small drainage hole, which will be covered by the nest, may be made in the middle of the floor.

[Other short illustrated articles about bird houses and attracting birds will be published later.—Editor.]

The Vigilantes

By Julian Street of the Vigilantes.

A GROUP of poets, writers and artists, many of them well known men, recently met in New York and formed a new society to work in the preparedness movement, this one to be called the Vigilantes. The object of the new organization is to go behind the movement for a large and fully manned and equipped navy, for adequate coast defenses, for universal military service and for equipment for an army of a million or more men to be raised under the universal service plan favored by General Leonard Wood and modeled somewhat on the Australian system—to go behind this movement and work for what may be termed "mental preparedness."

JULIAN STREET.

The Vigilantes believe that universal service will be a great democratizer of American youth, that it will tend to level classes, raise American physical standards, give American boys the taste of discipline so sorely needed by many of them and achieve other very desirable results. But most of all it is believed by the men who formed this new society that universal service—service for every man—is the only really democratic system for national defense. Not until each citizen understands that he must "do his bit" along with the other fellow will he appreciate the fact, so often lost sight of, that with the privilege of citizenship there go dependent duties.

It is especially desirable that immigrants from abroad perceive this fact. Large numbers of them do not now perceive it. Large numbers of immigrants are becoming American voters, but what else are they doing? What good do they do the country merely by voting? None whatever, unless behind each ballot they cast there is a sense of the individual's absolute duty to the government. By native citizens and by those from other lands the ballot has come to be regarded too much as a right and not enough as a privilege.

It is the idea of the Vigilantes that even if we get our navy, our army, our equipment and our trained citizen soldiery we will not have obtained the most essential thing until we have quickened the senses of our people to the need of a more devout and more cohesive nationalism.

DEATHS

P. C. Stephens died at his home near Repton Wednesday morning at 12:10 o'clock, of the diseases incident to old age after a lingering illness of several weeks. He is survived by his wife and by three children, J. E. Stephens, of Pembroke; J. A. Stephens, of Cochran Hardware Co.; and Mrs. Elizabeth Cannan, wife of W. D. Cannan, of this city.

The funeral will be preached Thursday morning at 10 o'clock at the residence, Revs. H. R. Short and T. C. Newman officiating. The Masons will then take charge of the remains which will be buried with Masonic honors at Repton at high noon.

The deceased was a Mason in good standing for sixty years and no man in this section stood higher in its councils. He had lived on the farm where he died, for half a century and was beloved and respected by all who knew him.

In early life he joined the Methodist church which in those days had a log church building in the Sugar Grove vicinity, and he never changed or moved his membership after the house went to decay and the organization disbanded.

Peter Cartwright Stephens was born in Caldwell county, near Princeton, June 2nd 1838, married the first time to Mrs. Henrietta Bristow March 14, 1866. She was a daughter of J. P. Thurmond a prominent citizen of this county. She died March 6th 1890, and on Oct. 4th. 1894 Mr. Stephens was married to Mrs.

Ann Wallingford who in her maidenhood was a Miss Nunn related to all the large family of that name in this section.

Mr. Stephens has no brother and only one sister surviving him, she being Mrs. Rebecca Pool of Herrin, Ills. Medley Pool, the banker of Princeton, Ky., is his nephew.

Drives out Malaria, Builds Up System

The Old Standard general strengthening tonic, GROVE'S TASTELESS CHILL TONIC, drives out Malaria, enriches the blood, and builds up the system. A true tonic. For adults and children. 50c.

Men Wanted

The cavalry, engineers, coast artillery, signal corps and quartermaster corps of the regular army have been already brought to war strength.

45,000 recruits are needed at once to complete the new regiments of infantry and field artillery.

25,000 additional recruits are desired at the earliest practicable date to fill vacancies in order for war strength of 300,000 men may be maintained.

Facilities are in readiness for placing these 70,000 men under proper training.

Any delay in obtaining this number will necessarily cause the loss of invaluable time.

It is the earnest desire of the war department that 70,000 single men between the ages of 18 and 40, who have no dependants and who are not engaged in professions, business, or trades vitally necessary to the prosecution of the war, be enlisted in the regular army before the 30th. of June, 1917.

Newton D. Baker,
Secretary of War.

THE PROPER COURSE

Information of Priceless Value to Every Marlon Citizen.

How to act in emergency is knowledge of inestimable worth, and this is particularly true of the diseases and ills of the human body. If you suffer with kidney backache, urinary disorders, or any form of kidney trouble, the advice contained in the following statement should add a valuable asset to your store of knowledge. What could be more convincing proof of the efficiency of Doan's Kidney Pills than the statement of a Marion citizen who used them and who publicly tells of the benefit derived?

Mrs. J. A. Redd, 219 W. Depot St., Marion, says: "I have never suffered any serious kidney trouble but I have been bothered at times with a weak and aching back. At these times I procured Doan's Kidney Pills at Haynes & Taylor's drug store and they have always given me relief. I certainly think they are a fine kidney medicine."

Price 50 cents at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Redd uses. Foster-Milburn Co., Props., Buffalo, N. Y. 73
