Marion Bank Pays The Tax

We will soon have the first assessment under our new tax law. There are many features of this new law of vital interest to the tax payers of Crittenden County. For the present we have to do only with that feature which imposes a tax upon all deposits in any bank. The tax on deposits in banks, trust companies and combined banks and trust companies is at the rate of one-cent per one-thousand dollars. In other words, one dollar tax is paid on one thousand dollars. This is far more proportionate than our present tax, in which some county, school, or other towns to be imposed upon this deposit. The rate of taxation-neglecting can be imposed on the hundred dollar, or less, per year. The lowest tax assessed is open bank deposits if given in your bank and paid by your bank.

The low lawyer promises that this tax shall be paid by the bank as agent for the depositors. As or before the first day of December of this year. Persons, firms or corporations of the county shall not collect the bank deposit for taxation. It is cheaper to let the money go, and be given in your bank. The bank assesses its total deposits and is not required to report individual names or firms.

We hereby devote entire side of this bank that we will pay the tax.
