EPWORTH LEAGUE ORGANIZED

Mt. Zion Takes Another Step Forward; Epworth League Organized Sunday Night.

At the invitation of the pastor and his congregation at Mt. Zion, an organizing team from the Marion Epworth League on last Sunday evening went to Mt. Zion for the purpose of perfecting an organization at that place.

Mt. Zion bears the name of being the liveliest country church in the county, and the community with its large number of splendid young people offers a wonderful opportunity for the development of a real live wide awake League. The League will mean much to the church and to the spiritual life of the young people of the neighborhood.

The organizing team was under the direction of Miss Clara Nunn, President of the Marion League.

After scripture reading by the pastor, Rev. Renfro, and prayer by Mrs. O'Neal, a brief but very enjoyable entertainment program was given. It consisted of a reading by Miss Nellie Stone a vocal solo by Miss Gusie Burgett and a patriotic reading by Miss Lena Holtzclaw. Hollis C. Eranklin then spoke of the Epworth League as a means of service for the young life of church. Miss Clara Nunn then explained the workings of the League. At the conclusion of Miss Nunn's talk more than thirty young people expressed their desire to become members of the Mt. Zion Epworth League.

The people of Mt. Zion have every reason to be proud of their young people and the young people themselves are pleased with the outlook for the League.

The members of the organizing team, besides those who appeared on the program were: T. H. Cochran, Mr. and Mrs. W. R. Croft, Miss Mary Dollar, Miss Elva Pickens, and Miss Ruth Moore. Visitors with the team were: Miss Gladys Hardy, Messrs. Elzie and Newton Moore and Robert Hamilton.

The Pop-Corn Popper Popped.

Billy Eskew was painfully burned last week when a pop corn popper he was operating exploded, blistering his face in several places pretty severely. The accident came near causing him to lose an eye. Billy says some boy turned on the gasoline while he was gone to dinner and that caused an explosion the moment he lighted the lamp. Fortunately Billy was not fatally burned. Boys should keep their hands off things not their own.

Six Months' Old Calf is

Sold For \$106,000.

Milwaukee, Wis., June 8.—Champion Sylvia Johnson, a six month old Holstein bull calf, sold for \$106,000 at the state fair park here yesterday. The previous record price was \$53,000 paid for the calf's mother, May Echo Sylvia, a year ago. The mother holds the world's record with 41.01 pounds of butter and 1,005.80 pounds of milk for a seven-day period.

The seller was A. C. Hardy, Brockville, Ont., and the purchaser E. A. Stuart of Oconomowoc, Wis.

U. S. RAILROAD ADMINISTRATION

W. G. McAdoo Director General Washington, D. C., Desires That Justice be Done.

May 28th, 1918.

To all railroads and terminal companies under government control.

The Federal Control Act contemplates that suits for personal injuries may be brought as heretofore, provides that executions may not be levied on the property of the carrier while in the possession of the Government. This means that while a judgment may be recovered, it devolves upon the Director General to provide for payment and this places upon him the responsibility of considering the merits of the claims and the persons to whom payment is made. It is the desire of the Director General that justice shall be done to all employees who are injured in the discharge of their duties. This does not mean that verdicts based upon prejudice or passion shall be paid or that large sums shall be paid by the Government attorneys and solicitors who have no claim upon the Government. The right is reserved to consider the merits in determining what provision shall be made.

It will be the policy of the Government to discourage litigation, and to deal directly with injured persons to the end that the injured person may receive the benefit of any amount which the Government pays, without the expense of litigation, and without being compelled to turn over one-half to an attorney. You may, therefore, let it be known that such claims will be considered on their merits.

As to fee contracts: You are authorized to exercise a wise discretion, and are not required to make payment as provided therein, but only on such terms as will enable the person injured to receive just treatment. If the contract, in unjust you may pay the attorney such reasonable sum as will pay him for the services actually rendered.

Regional Director.

In addition to the above order the administration has also ordered that, on account of the interference in the operation of trains and the delays in the movement of troops and war supplies so caused by the sending of trainmen as witnesses. Cases requiring the attendance of such witnesses shall be continued during the period of war. Upon a statement being filed in court by the Railroad, asking for a continuance.

SHOCKING NEWS.

Miss Jewell Hill, of Seattle, Washington, who came to Kentucky a few weeks ago to spend the summer with her grandparents, Mr. and Mrs. T. M. Hill, and other relatives, received a telegram Saturday evening telling her of her mother being instantly killed. The message did not state how she was killed or give any particulars. Miss Jewell left on the first train for her home in the far west but will not reach there until today, as it takes four days to make the trip. Her mother was Miss Flora Melton, of Blandville, Ballard county, before her marriage to Duke S. Hill. Her husband, one daughter and four sons survive her.

NATIONAL WAR SAVINGS STAMP DAY FRIDAY, JUNE 28.

Will your dollars help Crittenden county to go "over the top?" An idle dollar is a "slacker" dollar. Don't have any SLACKER dollars!

A country that is good enough for the best manhood of our land to fight and die for is good enough for YOU to save for. Make up your mind now as to how much you will invest on June 28.

Uncle Sam wants to raise \$2,000,000 by Jan. 1, 1919. He pays you interest at 4 1-2 per cent, compounded quarterly, a higher rate of interest than any bank in America would pay you—an investment as safe as the nation.

Invest \$4.17 on June 28, 1918, and draw \$5.00 on Jan. 1, 1923. Invest \$83.40 on June 28, 1918, and draw \$100.00 on Jan. 1, 1923. Can you think of a better investment?

Every man in the county will be asked to buy on or before June 28. You will be expected to invest every dollar you can. When a man asks you to buy War Savings Stamps DON'T REFUSE this chance to help the boys "over there."

Your dollars will help America to win. Tell your friends that June 28 is the day on which every man, woman and child in Crittenden county will be expected to buy War Savings Stamps. Ask your postmaster or any rural carrier. BUY NOW.

Says Battleships Have

Destroyed Half Of Subs

Washington, June 12.—Senator Swanson, acting chairman of the naval committee, after a conference with navy heads today, declared that the allied and American naval forces have destroyed 60 percent of all German submarines constructed and that they have cut shipping losses in half.

Chickens Hatched in Marion

In a Coal Oil Stove.

Mrs. E. H. Porter has gained an enviable reputation this season as a raiser of young chickens and she now has a fine brood with no mother. One of her hens sickened and died recently leaving a nest full of eggs. Mrs. Porter immediately brought her oil stove into requisition and put her eggs near it and kept the room closed and the eggs covered with warm cloths, with the result that they hatched at the proper time. The chickens are lively and healthy and having never known any other mother than Mrs. Porter, they are quite happy and do not miss the hen. They will be looked after, fed, watered and given every opportunity by their foster mother, we opine, and are probably the first batch ever brought off by the use of an old fashioned coal oil stove.

W. O. W. Decoration Day.

Next Sunday, June 16, is W. O. W. Decoration Day at the new Marion cemetery. All Woodmen are requested to meet W. O. W. Hall promptly at one o'clock, where the line will be formed for the march to the cemetery. This is an interesting service and should attract a vast throng to witness the ceremonies.

BITTEN BY A SNAKE.

Winfield Hughes who lives on the Piney road about one mile from the court house was severely bitten by a copper head snake one day last week. When he got up in the morning and went to the kitchen to make a fire in the stove he put his hand in the wood box where the snake was concealed and it struck its fangs into the back of his hand. Antidotes were quickly applied and a physician called, and while the wound was quite painful and his hand badly swollen he does not anticipate any serious trouble unless some complication should arise.

NOTICE TO CONTRACTORS.

Having a school house to build at Cookseyville. The Crittenden County Board of Education, will receive sealed bids from any one who desires to erect this house, at 2 o'clock on Monday, June 10, 1918. The house to be completed within the time, and according to plans and specifications which may be seen in the Superintendents office, and will be given to the lowest and best bidder, unless the County Board should think it best to reject any and all bids, the right to do so being reserved.

Respectfully,
J. L. F. PARIS, Supt.

Ordered Into Army Uniform.

Pomeroy, O., June 7.—Benny Kauff, outfielder for the New York Giants, and one of the best known baseball players in the county today, was ordered by his local draft board to report for military service on June 24. He probably will be sent to Camp Sherman, O.

They say the wedding bells will ring in Marion before June two-thirds gone and again soon after July is half past.

THE CLYDE PRESSING SHOP

I have moved to the concrete building opposite the New Crittenden Hotel, where I am prepared to do Short Order Cleaning and Pressing. I guarantee satisfaction. Phone 303.

My boys deliver promptly, when work is done.
CLYDE RAMAGE.

SON-IN-LAW OF REV. H. V. ESCOTT

Signally Honored -- Third Vice President of L. & N. Gets Appointment.

Addison R. Smith, third vice-president of the Louisville & Nashville Railroad Co., in charge of traffic, is today serving his connection with that company, to take the position of assistant regional director of railroads of the southeastern region, with headquarters in Atlanta. He will have charge of traffic of all of the railroads in the entire section.

The appointment was made in Washington and came through B. L. Winchell, regional director of the southeastern region.

G. B. Lovall, vice president of the Southern Railway Company, will be assistant director of the Southeastern region in charge of operations.

The Southern region has been split, and C. H. Markham, who has been director of the Southern region, has been made regional director of the Allegheny region.

Mr. Smith is the son of Horace F. Smith, vice president of the Nashville, Chattanooga & St. Louis Railroads Company, and a nephew of Milton H. Smith, president of the Louisville & Nashville Railroad Company. He entered the service of the Louisville & Nashville in 1887 as an office boy in the office of Stuart R. Knot, then vice president of the company. He advanced steadily and rapidly and became chief clerk in the freight department. Later he left the L. N. and became secretary in the Southeastern Mississippi Valley Freight Association, and subsequently held various positions with the Southern railroad, and was general freight agent of the Western of Alabama, and was also with the Atlanta & West Point Railroad Company. In 1905 he returned to the L. & N. and was made third vice president in charge of traffic.

Mr. Smith is regarded as one of the most capable traffic men in the country, and his selection to the important post of traffic director of the entire southeastern section of the country comes as no surprise to those associated with him in the management of the L. & N. and to other railroad men who are familiar with his capacity for work and his ability.

Mr. Smith will leave tomorrow night to take charge of his new work. For the present his family will remain here.

Mr. Winchell, who takes the place of regional director, will soon announce Federal directors, for all of the railroads in the south. Mr. Winchell was formerly in charge of the traffic of the Union Pacific, but since February has been identified with the railroad administration in Washington.

Marion Man Saves Wife in Nick of Time.

"My wife was unable to eat even the lightest food, and had fallen away to a living skeleton. She could not even keep doctor's medicine on her stomach and was tortured with pain. On the recommendation of a friend I bought a bottle of Mayr's Wonderful Remedy and she is aight now and has gained forty pounds." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.
HAYNES & TAYLOR.

WHAT GOD SAYS TO HIS SOLDIERS.

Paper Published by Engineers in Washington Gives Quotations From Bible.

"The Sapper," the official paper published by the 318th engineers, stationed at Vancouver barracks, Vancouver, Wash., of which Robert Adams, formerly of Evansville, is a member, gives the following quotations from the Bible under the title of "What God Says to His Soldiers":
Reveille.—"Awake, thou that sleepest, and arise from the dead and Christ shall give you light."—Eph. 5: 14

The roll call—"I have thee by name; thou art mine."—Isiah, 43. "And He calleth His own sheep by name."—John, 10: 3

Attention.—"Look unto Me, and be ye saved."—Isiah, 45: 22.

Quick march.—"I press toward the mark for the prize of the high calling of God in Christ Jesus."—Phil. 3: 14.

Halt.—"Stand still, and see the salvation of the Lord."—Ex. 14: 13.

Stand at ease.—"I will give you rest."—St. Matt., 11: 28.

When on guard.—"Watch ye and pray lest ye enter into temptation."—Mark, 14: 38.

When in camp.—"The angel of the Lord encampeth round about them that fear Him, and delivereth them."

When fighting.—"Fight the good fight of faith, lay hold on eternal life."—1 Tim., 6: 12.

When wounded.—"They that wait upon the Lord shall renew their strength."—Isiah, 40: 31. In quietness and in confidence shall be your strength."—Isiah 30: 15.

When a prisoner.—"Fear not, for I am with thee; be not dismayed, for I am Thy God."—Isiah, 41: 10.

In the hour of death.—"Let not your heart be troubled; ye believed in God, believe also in me."—John, 14: 1. When thou passeth through the waters I will be with thee."—Isiah, 43: 2 "I will never leave thee."—Heb. 13: 5.

The last post.—"Watchman, what of the night?"—Isiah, 21: 11 "I heard a voice from heaven, Blessed are the dead which die in the Lord.—Rev., 14: 13.

In the grand review.—"Well done! that they may rest from their labors. Thou good and faithful servant, enter thou into the joy of the Lord."—Matt., 25: 21.

Eight Indicted For

Vagrancy At Princeton

Eight men were indicated for vagrancy at the session of Caldwell circuit court, which ended at Princeton Saturday. Their cases were continued until the next term. Judge Carl Henderson severely lectured the defendants and told them to go to work. Princeton Leader.

French Merchantman Fights

Submarine Off U. S. Coast.

An Atlantic Port, June 8.—A French armed merchant ship came into port here yesterday and reported an encounter with a German submarine off the Virginia capes. Details of the battle are lacking, but it is said the fight occurred a short distance outside the capes. The extent of the damage to the merchantman is unknown.

ZONE SYSTEM FOR ARMY'S PURCHASES

TERRITORY HAS BEEN ALLOTTED TO EACH OF THIRTEEN GENERAL SUPPLY DEPOTS.

ORDNANCE EQUIPMENT READY

Every Soldier Leaving for France Has Been Fully Outfitted—American Merchants Take Over the Interests of German Fur Men.

(From Committee on Public Information.) Washington.—A zone system for the apportionment of purchases throughout the United States and to facilitate distribution has been established by the quartermaster department. Territory has been allotted to each of 13 general supply depots. The general supply depot quartermasters are charged with the duty of ascertaining the manufacturing possibilities of their zones. On the basis of reports along this line forwarded to the acting quartermaster general, food and equipment for troops at the different camps will be purchased within the zone in which the camp is located.

Formerly nearly all of a particular class of supplies was purchased through a single general supply depot. Other articles were obtained through other supply depots. Manufacturers in sections distant from the particular supply depot buying their goods were at a disadvantage, and were unable to compete with rivals nearer the point. Under the new system most classes of supplies will be purchased through each of the 13 depots, and manufacturers will be able to transact their business through the depots nearest them. Each general supply depot quartermaster besides ascertaining production facilities within his zone is instructed to recommend to the quartermaster general's office the employment of such producers as are in his judgment qualified to fulfill contracts. Each depot is expected to keep informed as to market conditions and spot goods located in that zone, and when shortages occur submit recommendations for purchase of articles which may be obtained within the zone.

Purchases are to be made after advertisement by open competitive bidding when time will permit. In emergency cases competition is desired whenever possible. The record of bids received and awards made will be open to public inspection.

The army ordnance department has thus far met every demand imposed by the new program for overseas shipment of American troops, according to a statement by the department. Despite the great acceleration in the sending of American forces to France, no infantryman goes aboard ship without a United States model 1917 rifle (modified Enfield), bayonet, belt, haversack, pack carrier, handkerchief, bayonet scabbard, and full issue equipment.

Tonnage is today a limiting factor in the shipment of ordnance material overseas, especially because of the present necessity of increasing the transport of infantry regiments. Sufficient supplies of artillery—French 75-millimeters and 155-millimeters and American heavy railway artillery—are already in France to meet the present demand. Sufficient machine guns are also immediately available for American forces in France.

A Canadian order in council provides that no person, with the exception of manufacturers of flour, bakers, confectioners, wholesale or retail dealers, or persons living at a greater distance than two miles from a licensed dealer, shall hold or have in his possession or under his control more flour, made wholly or in part from wheat, than is sufficient for his ordinary requirements for a period not exceeding 15 days.

Anyone living at a distance greater than two miles and less than five miles from a licensed dealer may hold or control flour made wholly or in part from wheat up to an amount sufficient for his ordinary requirements for a period not exceeding 30 days. Anyone living more than five miles and less than ten miles from a licensed dealer may have sufficient for his ordinary requirements up to 60 days, while a person living more than ten miles from such a dealer may have sufficient for his ordinary requirements for a period up to 120 days.

Any wholesale or any retail dealer licensed by the Canadian food board may not hold flour made wholly or in part from wheat in excess of a quantity sufficient for his ordinary trade requirements for a period exceeding 60 days.

The regulation regarding sugar parallels this save in the last clause. Manufacturers, wholesalers, or retailers may not have more sugar than is required for a period exceeding 45 days.

The Swiss federal government has by decree fixed the maximum price at which farmers may sell cattle for slaughter as well as the prices at which various quantities of butchers' meat may be retailed. Farmers may demand no more than 23 cents per pound for first-class fat beef cattle. The price applies to cattle sold on the farm. If sold in a city or other distant market cost of transportation may be added.

With the exception of steaks and fillet cuts, retailers may ask no more than 40 cents per pound for beef.

Arrangements are being completed by which the interests of German furmen, amounting to several millions of dollars, will be purchased by American merchants and the money thus paid turned into the treasury.

Before the war broke in Europe, according to a statement issued by the alien property custodian, the trade of American furriers was practically nothing but a collecting and shipping agency for the Germans. Almost every pelt taken by American trappers went to Leipzig before it could be sold. Although London was the fur market, three-quarters of the fur shipped to London from America, Russia, and even China, went to Leipzig for dressing and dyeing.

The Leipzig dressers and dyers were recognized as the best in the world. Each year after the fur was prepared and German merchants had fixed the price, Americans were allowed to purchase as much as three-fifths of the year's output for manufacture into garments, but in so doing they were forced to pay the original cost, expense of dressing and dyeing, a big profit to the Germans, and a 80 percent duty, before the furs were returned to America.

The war deprived Germany of the chance to purchase fur in London, and limited the supply from America—now also entirely cut off.

According to the Leipzig correspondent of a Christiania newspaper, the Leipzig spring fair showed exhibits of many substitutes and surrogates which have been placed on the market in Germany. Descriptions of some of these have been received by the United States chamber of commerce:

A surrogate for pepper is offered for sale which, judged only by its appearance, seems almost the same as real pepper. The color, odor and taste have been surprisingly well imitated.

A tea is shown to which the name of "German tea" has been given. It is prepared from any one or a combination of a great variety of plants, from strawberry leaves to linden blossoms. It is said to taste very much like genuine tea, but even a half dozen cups will not produce the stimulation caused by a single cup of real tea.

There are any number of surrogates for marmalades. Most of them are prepared from garden vegetables instead of from fruits, with a minimum amount of sugar.

Substitute soap is offered for sale, which is said to have been prepared from the oil in barries and from pumice stone. It lacks, however, the one main characteristic of soap, that of working up into a rich, creamy lather; otherwise it is very good. Substitutes are also to be had for laundry bluing.

Substitute bicycle tires are sometimes made of two concentric iron rings with small springs between them. They are very serviceable on asphalt pavements, but are not exactly as noiseless nor as easy riding as genuine rubber tires.

A large number of articles offered for sale had been prepared largely or entirely from paper—coarse working clothes for men and women, blouses, aprons, and other fabrics. There were paper belts which seemed capable of driving heavy loads.

Many artificial and substitute leathers were noticed. Brass and copper articles were not seen, and attempts were made to place substitutes on the market in the form of plated ware.

A committee on public information representative in London says: London has never heard of a baseball season before, but will get its chance this year when the American baseball league gets its schedule of games well underway. There are eight American and Canadian teams stationed in London, with games scheduled for each Saturday during the summer.

The thousands of American soldiers who may pass through London, or be invalided or stationed here, are in a fair way to be made to feel that England is the next best place to home and that English hearts are kept warm for them.

"Make England the Sammy's 'blighty,'" is the way the English press puts it in urging readers to entertain the American troops. "Blighty" is the war word for everything the soldier wants in intervals of his fighting work; the place where friends, recreation, and homelike comfort await him.

The Weekly Dispatch recently called for suggestions for a public entertainment to be offered American soldiers and an instant response made thousands of dollars available for amusements and entertainments. The idea that found greatest favor, however, was to throw open the homes of the nation to the Sammies.

An officer commanding an American squadron operating with the British fleet has reported on a late inspection and speaks in high terms of the present state of efficiency in which he finds both ships and men.

"Vessels show the most gratifying improvement in battery and fire control," he said. "Our ships are smart, spick and span, and have been recipients of many high compliments from British flag officers."

Prior to the war the treasury prepared approximately 150,000 checks annually for the payment of interest on registered bonds of all loans, the issue of these 150,000 checks being distributed through the year. In the May payment of interest on registered bonds of the second Liberty loan more than twice that number of checks were prepared.

More than 2700,000 members of American fighting forces are now insured by the United States government.

SAVE ALL MATERIALS FOR WAR PURPOSES

PRESIDENT WILSON APPEALS TO AMERICANS TO BUY ONLY ESSENTIAL THINGS.

WAR IS ONE OF NATIONS

All of the 100,000,000 American People Must Be Economically and Industrially Adjusted to War Conditions.

Washington.—To save materials and labor for necessary war purposes, President Wilson has appealed to Americans "to buy only those things which are essential to the individual health and efficiency," and to volunteer on or before June 28, national thrift day, to invest systematically in war savings and thrift stamps or other government securities.

"This war is one of nations—not of armies," said the president, "and all of our 100,000,000 people must be economically and industrially adjusted to war conditions if this nation is to play its full part in the conflict. The problems before us is not primarily a financial problem, but rather a problem of increased production of war essentials and the saving of the materials and the labor necessary for the support and equipment of our army and navy. Thoughtless expenditure of money for non-essentials uses up the labor of men, the products of the farms, mines and factories, and overburdens transportation, all of which must be used to the utmost and at their best for war purposes.

Results Demand Unity. "The great results which we seek can be obtained only by the participation of every member of the nation, young and old, in a national concerted thrift movement. I therefore urge that our people everywhere pledge themselves as suggested by the secretary of the treasury, to the practice of thrift; to serve the government to their utmost in increasing production in all fields necessary to the winning of the war; to conserve for food and fuel and useful materials of every kind; to devote their labor only to the most necessary tasks, and to buy only those things which are essential to individual health and efficiency, and that the people, as evidence of their loyalty, invest all that they can save in Liberty bonds and war savings stamps.

Door Wide Open. "The securities issued by the treasury department are so many of them within the reach of everyone that the door of opportunity in this matter is wide open to all of us. To practice thrift in peace times is a virtue and brings great benefit to the individual at all times; with the desperate need of the civilized world today for materials and labor with which to end the war, the practice of individual thrift is a patriotic duty and a necessity.

"I appeal to all who now own either Liberty bonds or war savings stamps to continue to practice economy and thrift and to appeal to all who do not own government securities to do likewise and purchase them to the extent of their means. The man who buys government securities transfers the purchasing power of his money to the United States government until after the war and to that same degree does not buy in competition with the government.

"I earnestly appeal to every man, woman and child to pledge themselves on or before the 28th of June to save constantly and to buy as regularly as possible the securities of the government; and to do this as far as possible through membership in war savings societies. The 28th of June ends this special period of enlistment in the great volunteer army of production and savings here at home. May there be none unenlisted on that day."

DRIVE WEDGE INTO ALLIES

Win Important Ground in the Chemin-des-Dames Region—Giving Allies Setback.

London.—The reports from the battlefields of France, both official and unofficial, show that the allies have again suffered a setback, whereby they have lost all ground in the Chemin-des-Dames region so gallantly won by the French in the great struggle from April to October, 1917.

The enemy has driven a wedge into the allied line on a front of some 25 miles, and at last reports the tremendous battle was still continuing about Fismes, which is the center of important allied communications. French reserves, however, were arriving to counter further enemy advances.

Big Savings Will Result.

Washington.—Saving of millions of dollars and better service to millions of people of the United States was predicted as a result of the merging under a private corporation with a capital of more than \$20,000,000 of the four leading express companies of the country—the Southern, Adams, American and Wells-Fargo. Announcement of the merger was made by Director-General of Railroads McAdoo, who formulated the agreement. The combination becomes effective July 1.

Dame Fashion's Latest Decree

BUDDIES SMASH COUNTER BLOWS

HUNS LAUNCH A HEAVY GAS ATTACK IN THE LUNEVILLE SECTOR.

REPULSED WITH BIG LOSS

The Enemy Attempted to Reach Our Lines, But Failed at All Points. Americans Holding Cantigny.

With the British Army in France.—The enemy counter-attacks against the American troops, who had stormed their way into Cantigny, have been repulsed, and at latest reports the overseas men were holding their positions in the shell-torn village strongly.

Three counter-attacks made by the Germans to retake the terrain which they had lost in Picardy, completely broke down, in the face of American artillery fire and the heroism of our infantrymen. All the ground won by the Americans remains in their possession.

The enemy launched another heavy gas attack against our troops in the Luneville sector, and attempted to reach our line at three places. They were repulsed with comparatively heavy losses.

The first attack, made two kilometers southwest of Premont, broke down under the hot machine gun fire from the American trenches, the Germans retreating. Both the Americans and Germans fought in gas masks.

Soon afterward the enemy put down a heavy barrage a kilometer to the west, and 14 Germans managed to penetrate a trench in which the Americans were subjected to a gas attack and who were fighting mad.

The Americans emerged from their dugouts, and hand-to-hand fighting, which was bloody for the Germans, ensued, the Americans going for the enemy with knives and bayonets.

The Germans had been ordered to take prisoners at any cost, but they failed to get any.

The American losses were insignificant. The enemy lost all the 14 men who penetrated the American position—nine having been killed, one having died of wounds and four having been made prisoner.

BAD MONTH FOR SUBMARINES.

Allies Are Rapidly Overcoming the Submarine Menace.

Paris.—As proof that the allies are rapidly overcoming the submarine menace Georges Leygues, the minister of marine, informed the army and navy war committees of the senate that Great Britain and the United States alone had constructed in April 40,000 tons more shipping than was sunk by the enemy. The minister declared also that means employed to rid the seas of submarines had become increasingly effective since January with decisive results.

16 INSANE MEN PERISH.

Hospital Ward Burns in South Carolina—Victims Run Back in Fire. Columbia, S. C.—Sixteen white male patients at the South Carolina hospital for the insane perished in a fire which destroyed a one-story frame structure on the hospital grounds here. Fifteen were burned to death in the building, having run back in the burning structure after they had been rescued. The other man was rescued from the building a second time, but not until after he had received injuries from which he died a few hours later.

AT DISPOSAL OF HOLLAND.

German Ships May Replace Two Dutch Ships Sunk.

Amsterdam.—Two German ships will sail in the near future from the Dutch East Indies to Holland as Belgian relief ships, according to a Rotterdam telegram to the Nieuwe Rotterdamse Courant. The German vessels, the dispatch says, have been placed at the disposal of Holland by the German government to replace two of the six Dutch ships which were torpedoed on Feb. 22, 1917.

HUN ATTEMPT TO RETAKE CANTIGNY

CONTINUOUS WAVES HURLED AGAINST AMERICANS—HUNS STRIKE STONE WALL.

MANY GERMANS ARE KILLED

Three Attempted Hun Raids in Lorraine Are Repulsed by American Artillery Fire and Infantry Action.

Washington.—Complete repulse of further enemy attacks upon the new American positions near Cantigny is announced in General Pershing's communique, issued at the war department. Fighting continues active around Cantigny and in Lorraine.

The Americans evidently have been subjected to almost continuous attacks since they stormed their way into Cantigny. In every case the enemy's waves have been broken against the stone wall resistance of the Americans.

This latest German assault appears to have been the heaviest the Teutons have yet essayed in their attempt to evict the overseas men from the village of Cantigny.

The dispatch follows: "The enemy has been again completely repulsed by artillery fire and infantry action in attack against our new positions near Cantigny. Artillery fighting continues active there and in Lorraine, where it includes the use of gas shells.

"Section B—in Lorraine the enemy was again very active against our troops. There again was considerable shelling with gas, but the results obtained were very small.

"Protected by an artillery barrage a raiding party of about 60 men attempted to surround one of our advanced posts. The attempt was a complete failure, the enemy losing 10 dead and four wounded. Of these some were killed in bayonet fighting. In this case also our casualties were very light.

"During the night two other attacks on our lines were prevented by our barrage and machine gun fire, the enemy failing to penetrate our wire.

"Lieut. Fisher, Curtis, Buford and McLanahan, flying at 4,000 meters, on patrol duty, encountered hostile planes in the region of St. Mihiel. In the fighting which ensued one of the hostile planes broke into flames and fell. Credit for bringing down airplane is given to Lieut. Rickenbacker and Lieut. Hamblen.

"An English aviator returning from a bombing expedition, was wounded in the arm. He was chased by two enemy machines. Lieut. Campbell drove the hostile airplanes off, enabling the English aviator to return to his airdrome safely."

ENEMY ADVANCE IS HALTED

French Statement Says Enemy Progress Is Prevented in Western Outskirts of Soissons.

Paris.—"We have prevented enemy progress in the western outskirts of Soissons," says the official report from French headquarters.

"To the south we solidly hold the left bank of the Cris river. The Germans are multiplying their efforts in the direction of Villen-Tardenois and Verzy.

"The battle continued with undiminished violence along the whole extent of the front.

"On our right and to the northwest of Rheims we are holding our positions.

"The enemy air forces, which have been very aggressive and numerous during the battle have been attacked with the greatest daring by French airmen, who destroyed 19 German machines, brought down two balloons and compelled 22 enemy airplanes to land in a damaged condition.

"French aviators dropped 23 tons of explosives on bridges and crossings on the Ailette and Aisne and on various outposts. Thirty-seven tons of bombs were dropped on convoys, troops and railway stations."

Twenty-Six Killed in Air Raid. Amsterdam.—The Rotterdam Maasbode reports that an entire allied air raid has been carried out over Liege. The Longdoz railway station was destroyed and 26 persons were killed. The Longdoz railway station is the junction point for lines running to Namur and Maestricht.

Austrian Aviator Is Killed. Paris.—Lieut. Kiss, reputed to be the leading Austrian aviator, has been killed in an aerial battle, according to a dispatch from Berne.

Washout Causes Loss of Three Lives. Amarillo, Tex.—Three lives are known to have been lost and much property damage done in portions of the Panhandle region of Texas as a result of heavy rains and wind storms which swept this part of the country, according to reports received here.

Made An Honorary Member. Washington.—Honorary membership in the Military Order of Foreign War of the United States was conferred on President Wilson by a committee of the New York commandery.

The Housewife and the War

(Special Information Service, United States Department of Agriculture.)

EAT POTATOES EVERY MEAL

Stuffing Potatoes, One of the Attractive Ways of Preparing Them.

POTATO RECIPES FOR FAMILY USE

Millions of Bushels of Good Food Will Be Lost Unless Consumed Quickly.

MADE A DUTY AND PLEASURE

Some Menus Worked Out by Experts Without Allowing Them to Become Monotonous—Others Are Easily Obtainable.

Do you know that there are millions of bushels of potatoes in the United States in excess of the usual supply at this time of year, and that, unless people generally eat more potatoes than they ordinarily do, millions of bushels of good food will be lost at a time when nearly the whole world is suffering for food? Potatoes are bulky and heavy and cannot well be transported over seas. The United States must eat its own potatoes and release other foods for export.

Eating potatoes every day is a duty—and eating potatoes every meal can be made a pleasure. Following are some recipes, worked out by the cooking experts of the United States department of agriculture, covering every meal for two days. Similar recipes, both economical and palatable, have been worked out covering every meal for a week.

For breakfast:

Potato Omelet.

1 cupful mashed potato, 1 teaspoonful salt, 1 egg, 1/2 cupful milk, 1/2 cupful cream or milk. Wash eggs and separate the white and yolks. Add the yolks to the potato and beat until there are no lumps. Season with onion juice, if desired, and chopped parsley. Beat the whites until stiff and fold into the potato mixture. Put into a well-oiled frying pan and bake in oven until brown. Then turn and fold on hot platter. Serve at once.

For lunch or supper:

Potato and Corn Chowder.

1 pint canned corn, 1 small onion chopped, 1 cupful potato cut in small pieces, 1/2 cupful milk, 1/2 cupful cream or milk, 1/2 cupful salt pork, 1/2 cupful cornstarch. The salt pork should be cut into small pieces and cooked with the chopped onion until the onion is a golden brown. Add the potato and cook for ten minutes. Add the milk and corn and cook slowly in a double boiler. Add the flour mixed to a smooth paste with an equal amount of cold water. Add the pepper and additional salt if necessary. Cook until the mixture is creamy.

For dinner:

Browned Potatoes With Roast Beef.

Parboil potatoes for ten minutes. Remove the skins and place the potatoes on a roasting rack with meat. Bake them for about 40 minutes, or until the potatoes are tender, basting them occasionally with the juice in the pan. Use the left-over potatoes to make potato cakes. They are very good served for breakfast with crisp slices of bacon. Brown them in the bacon fat.

Potato Cakes.

Season cold mashed or rice potatoes to taste with salt and pepper, and mix with a little milk. Add egg, if desired. Mold with the hands into small round cakes. Fry on both sides in well-greased skillet, frying pan, or griddle, and serve hot.

For supper or lunch: Potato soup can make the largest part of the meal.

Potato Soup.

Boil three medium-sized potatoes and when soft rub them through a sieve. Slice a small onion and scald this and a little chopped celery or one-

quarter teaspoonful celery salt in five cupfuls of skim milk. Remove the onion and add the milk slowly to the potatoes. Mix one and one-half tablespoonfuls corn starch, one and one-half teaspoonfuls salt, and a little cayenne pepper to a thin paste with two tablespoonfuls cold milk. Stir this mixture into the boiling soup. Continue to boil for one minute; strain and serve.

For dinner:

Stuffed Potatoes.

Bake potatoes in a hot oven for about 45 minutes, or until soft. Cut a slice from the side of each and scrape out the inside. Mash this and season with salt and pepper. Add enough heated milk to bring to the consistency of ordinary mashed potatoes. When partly cooled add egg. This may be left-over whites or yolks or whole eggs, well beaten. Add not more than one egg to six medium-sized potatoes. Refill the skins, brush with melted fat, and put back in the oven for 5 or 10 minutes. Serve hot.

STAY SLENDER

Body fat is stored-up energy. Keep your energy in circulation—not in storage. Don't be afraid of potatoes. Eat plenty of them. Use up the energy they give you for your war work and stay slender.

Eat Well. Work Hard.

Be Patriotic.

Write the United States department of agriculture for new potato recipes.

Baking With Wheat Savers.

Wheat saving need not involve hardship. Nor is there danger of hunger for lack of bread. Abundant crops of other cereals are available to mix with wheat flour in making palatable and nutritious breads. If every housewife would use some substitute for wheat flour in whatever bread, biscuits, pastry, and so on she prepares, the necessary saving in wheat would be accomplished. In Farmers' Bulletin 955 of the department of agriculture complete directions are given for making bread, biscuits, muffins, cookies and various kinds of pastry in which wheat flour substitutes are used.

In yeast bread as much as 25 per cent flour or meal from other grains or from dried peas, beans, potatoes, nuts, and so on may well be used, the publication says, and as much as 50 per cent in "quick" or hot breads produces articles excellent in flavor and attractive in appearance. It is not necessary to use these substitutes always in the form of flour or meal. The use of boiled or baked potatoes, cornmeal mush, cooked rice, and so on, all produce breads which compare well with those made from the corresponding flours or meals. This enables the housewife to make good use of left-over food and to prevent waste.

Substitutes for Sugar.

Satisfactory substitutes for sugar may be used to a much larger extent. These include sorghum, corn and cane sirup, maple sugar and sirup, and honey. The maple sirup and sugar production can and should be increased in those areas in which maple trees are growing in sufficient numbers to warrant the expenditure of the necessary time and labor. Maple sirup and sugar are produced in 19 states, the annual output exceeding 14,000,000 pounds of sugar and 4,000,000 gallons of sirup. These figures can be increased. The production of sorghum sirup in 1917 exceeded that in 1916 by nearly 4,000,000 gallons. Sorghum sirup may be produced in nearly every state in the Union. An increased production of sorghum sirup will enable the public still further to conserve the sugar supply in the most available form for transportation to our soldiers.

Excellent succotash can be made with dried lima beans and dried corn.

NEWS and GOSSIP OF WASHINGTON

Washington Residents Fleecing the Patriotic

WASHINGTON.—"Most persons are greedy." The words were spoken by a Washington woman who had been observing with some disgust the way many of her fellow Washingtonians were exploiting the war situation. "Some I know," she said, "have an apartment that they used to rent unfurnished for \$45 a month. They have furnished it simply and tastefully and they are now getting \$150 a month. I call that performance simple extortion."

It is, obviously, extortion. And it is a typical case. Many of the sufferers from the extortion have come here out of patriotic motives and are working for the government either without pay or for very much less than they are used to getting. A capable man came here and offered his services to one of the most important of all the war boards. He was told that he would be given a position if he would agree to take 40 per cent of his average salary for the last three years. He did agree and he went to work with a will and he wrote to his wife and children that he would send for them just as soon as he could find the right kind of house.

He finally was driven to thinking that it would be best for him to take an apartment that was furnished. But he couldn't find one.

At this point he decided to go home.

The government lost an able worker through not taking care of him properly.

Now it realizes and it has provided an agency to see that the war workers are properly housed.

With Blood in His Eye Dog Cop Seeketh the Sly

THIS is the tale of some cops and a hound; a taxi adventure, and the district dog pound. The cops are now mad; the hound is quite dead, while one taxi chauffeur is some bucks ahead. Murphy, dog cop at the capitol grounds, espied a big bulldog while making his rounds. He picked up the canine with great expectation of fetching to owner with hopes of remuneration. The other policeman with hopes of some fun, with much speed and action to phone booths did run, while Officer Boyd said to Murphy, you see, "you call up and find who the owner might be." When Murphy called up, the wires were "pulled," and Murphy, unknowing, was thoroughly "bulled," for instead of the owner the officer spoke to the other policeman, "in on" the joke.

He asked for reward; the answer was "yes," and Murphy was given a "phony" address. Exultant, the victim the bulldog did grab, and made a wild dash for a near taxicab. The address he shouted and off they did go, whereto quiet reigned for an hour or so.

Later Murphy, the dog and the taxi came back, with Murphy bewailing—alas and alack!—that the address he'd sought he never had found and the confounded mutt he would send to the pound.

Murphy was busted; he hadn't a cent, so the chauffeur to Officer Calkins he sent. Calkins, amazed, heard the taxicab man blare that he was expected to pay Murphy's fare. At that there were signs of a violent fight, till the capitol cop came into sight. So Calkins, bewildered, dug deep in his jeans and greased the chauffeur's palm with sundry odd beans.

There endeth the yarn of the cops and the mutt, the taxi, the joke, in fact everything—BUT—

The fact that Cop Calkins is waiting to know by whose low-down scheme he was ordered to blow the most of his pay for a darned taxi-toot and then get a call from the captain to boot.

Girl War Workers Are Not Afraid of the Dark

THAT prewar girl who was "fraid to go home in the dark" is very much T among the missing. Girls, especially war workers in Washington, think nothing about going about alone late at night. There's so much to do that girls cannot be bothered with escorts. They found that the bugbear around the dark corner hasn't materialized.

Especially is this true of the group that is working under the direction of Miss Stella Osbourne at the District campaign headquarters of the Red Cross.

There are girls from several government departments that have been doing clerical work for the Red Cross every night since early in April except the night after the parade when they all were pegged out with marching. They are preparing for the big drive that is to take place soon for the purpose of obtaining funds for the Red Cross.

Their services have been devoted gratis to the cause and should the hours they have put in be counted in the final reckoning of the fund it would be found to be quite an item.

They have a complete organization. A girl was chosen by the chief clerk in each government department to be a member of the clerical committee. Under each of these girls is a corps of six assistants. Those in turn have reserves.

As the headquarters would not hold all the workers some of them work at night at the library of congress under the direction of Mrs. Woods. Others are at the interstate commerce commission at night, and still others are burning the midnight oil for Uncle Sam in the post office.

"Central" No Longer Is Bureau of Information

WASHINGTON, the most talkative place in the United States, if press bureaus of the various departments are to be classed as "word producers," is one of the first large cities of the nation to eliminate talk among its telephone operators. By an order issued by the company operating the capital telephone system unnecessary and frivolous questions will not be answered by "central."

If you forget to wind your watch at night and wake up early in the morning oblivious of the time of day the ever-convenient "hello girl" will not be your savior.

If you are held in your office while the Yankees and the Senators are pummeling each other at the ball park and you pine for the "score," central will be a blank if you ask her.

The White House and capitol could be raging torrents of flames, and you in your suburban home might seek knowledge of the location of the fire by taking down the receiver, but central is prohibited from advising you.

War has trebled the telephone service in Washington for purely legitimate business, and no longer is there time to be wasted by answering unnecessary questions, say officials of the company, who declared that more than an hour's time each day is saved by the company's decision to prohibit operators from answering unnecessary questions.

Another war move that saves time in Washington is the decision to close all departments to the public. Admission to the White House, except to the executive offices, is now refused to everybody. The time-saving process has even been extended to the street-car systems, which now have installed the skip-stop plan, by which the service is expedited.

Our Part in Feeding the Nation

(Special Information Service, United States Department of Agriculture.)

HOW TO SELL HOME-CANNED PRODUCTS.

These Home-Canned Tomatoes, Pimientos, and Peppers Are Attractive Enough to Sell Themselves.

NEARBY MARKET IS USUALLY BEST

Canning Clubs Should Be Able to Guarantee Packs of Different Products.

LABELS ON TIN CONTAINERS

As Necessary to Establish Reputation for Reliability as to Have Products Put Up Attractively—Cater to Needs of Buyers.

Well-stocked pantry shelves found in so many American homes at the end of the canning season have not been enough in the way of food saving for many women and girls who last year, especially through their organized clubs, put up millions of jars and cans of fruits and vegetables in response to the world's need of food.

Although some of this surplus canned food, that the pantry shelves would not hold, was sold on local markets, and some of it was even shipped to nearby points, here and there the home canners found that it was hard to sell the surplus. One of the main difficulties, as pointed out by the bureau of markets, was that the home-canned products were not standardized, for many cases were found where well-selected, carefully packed standardized goods brought good prices to the home canner.

Best Markets.

Local or nearby markets for home-canned products are usually the best. The attractiveness of the pack and containers affects its selling qualities. Merchants or other buyers do not want a miscellaneous assortment of products, and it is better practice to put different products in boxes by themselves and not to mix containers of peaches and peppers, for example, in the same lot when offering them for sale. Containers should be graded as to size and quarts and pints kept separate. Labels are necessary on tin containers and help sell canned goods.

Where products are put up by members of canning clubs under organized supervision it is possible to guarantee the pack of the different products as to grade and weight of measure. This is a considerable aid in selling, since the buyer then knows exactly what he is buying.

Pooling Products.

In case the products are pooled for marketing, the different kinds of fruit or vegetables can be placed together in graded-sized containers, when, perhaps, the pack of any one individual might not be large enough to make up a quantity sufficient to attract buyers. It is as necessary to establish a reputation for reliability as to have products put up attractively. The marketing of home or club-canned products can be made successful if the canners will study the marketing problem and cater to the needs of buyers. When orders are secured in advance for products, home canners should endeavor to fill the orders on time and give the buyer the kind of products agreed upon.

Why Beekeepers Fail.

Failure to make a success of beekeeping almost always results from lack of study of the needs of the bees, combined with the failure to do things on time. Beekeeping is essentially an industry which requires studious care, and in consequence the proper development of this branch of agriculture necessitates to an unusual degree the dissemination of information of a rather detailed nature. While there are published bulletins and

books which contain the needed information, these have not proved adequate.

It is quite possible for the American beekeeping industry to be developed so that the honey crop will be ten times what it is at present. Not only would such a development be valuable in an emergency such as the present crisis, but in normal times the beekeeping industry can provide a concentrated, nutritious food, almost universally liked, and assuredly an article of diet preferable to the inferior sirups and jams so commonly used.

850,000,000 QUARTS CANNED LAST YEAR

Girls' canning clubs in the United States put up a total of 14,640,187 containers of fruits and vegetables during 1917. Counting in the canning done by the organized women's clubs and through the home-demonstration agents, the total canned product is estimated at 850,000,000 quarts, with a value of about \$140,000,000, and this does not include the products dried and salted for home use.

Big Wages for Spare Time.

Factory workers in an Ohio town, last year, earned money during spare time at the rate of 92 cents an hour. That would be \$7.36 for an eight-hour day, \$220.80 a month, \$2,649.60 a year. That is a good deal more than a fair profit on idle hours.

What were they doing? Working in home gardens, growing vegetables that they and their families ate. The manufacturing concern for which they worked during regular hours kept an accurate record of the time the men spent working in the gardens and the value of the garden stuff grown.

This matter isn't news, particularly. It is nearly nine months old. But it does seem worth mentioning just now by way of calling the attention of the industrial workers of the nation to the fact that time spent working home gardens is not time thrown away, that the hour they spend morning or evening working the garden yields better returns than any hour they put in in the factory.

Care of Young Horses.

Give the weanlings and immature horses good care. The colts should be given an ample supply of grain and good roughage in order that they may mature into useful work horses. The saving of grain should be made with the idle mature horse and not with the colt. There are many economical rations that can be fed to both young and mature stock, depending on the local feeds available. Write to your state experiment station for information regarding the most economical rations to be fed in your state. Also write to the United States department of agriculture for Farmers' Bulletin 803, which gives information on the feeding and management of young horses.

Inexpensive Garden Tools.

The cultivation of a home garden requires very little expenditure in tools. A spade, a hoe, and a rake, representing a total cost of considerably less than \$5, are all the bought tools necessary to be used. Everything else can be improvised. A garden line can be made with a piece of twine tied to two sharpened sticks that serve as stakes. A thin piece of board or a shingle can be made into a serviceable trowel. A good scratcher and weeder can be made by driving about three small nails through the end of a piece of lath. A heavier weeder can be made from a piece of hoop iron, with one end sharpened, bent into a loop.

He that is down needs fear no fall.—Bunyan.

God sifted a whole nation that He might send grain over into this wilderness.—Stoughton.

Dallas, Texas., June 10.—Forty-five conscientious objectors were sentenced to life imprisonment here today.

When all is done, human life is at the greatest and best, but like a froward child, that must be played with and humored a little to keep it quiet until it falls asleep, and then the care is over.—Temple.

DEATHS

The remains of Mrs. Zora Hunt wife of Joseph Hunt, arrived here Friday afternoon at 3:20 on the south-bound train from Evansville, where she passed away Thursday night at 8 o'clock, following an operation at Walker's Sanitarium on Saturday, June 1, for appendicitis, from which she never rallied. She was taken there Friday, May 31, and was attended by her mother and husband, who were with her when the end came. She was a daughter of Mr. and Mrs. John Campbell, and was about 31 years of age. She was married to Joseph Hunt nine years ago and leaves one child. She is also survived her husband and parents and three sisters and four brothers: Ada, wife of Dow Sutton; Odie, wife of Jas. Hunt; Ardelle, wife of Leslie Jennings and Edgar, Gilbert, Robert and Carlous Campbell.

Her remains were taken to Pleasant Hill cemetery, where a large concourse of friends gathered to pay their last token of respect and love.

Rev. J. B. Paris officiated, as her pastor, Rev. John A. Hunt, was ill.

MEDICINE VS FOOD

Do not buy something which you already have. You have food which you feed your horses, cattle and sheep, but when you want medicine, buy only medicine. That is what you get in B. A. Thomas' Stock Remedy. We sell it and guarantee it to be medicine. We tell you that it will tone up the entire system of your stock and aids digestion, thereby causing them to get all the food value out of the grain that you feed them.

For sale by J. H. ORME, Marion, Ky.

NEW SALEM

(delayed from last week.)

Rev. W. H. Archey, of Princeton, conducted the quarterly meeting at Tyner's Chapel and visited old friends here Saturday and Sunday.

Vernon Gilliland has moved to Harry Howard's farm.

Mrs. C. F. Hardy and children, of Florida, are visiting J. W. Baker's family.

Geo. N. McGrew, of Bayou, visited W. C. Tyner last week.

Clyde McMaster, of Mexico, visited here Tuesday.

P. S. Travis, of Hodge Mines, was here Sunday.

F. E. Tyner was in Paducah several days last week.

Kelly Austin, of Piney, attended church here Sunday.

Reed Clark, of the Franklin mines, visited his family here Sunday.

A FAMILY MEDICINE

In Her Mother's Home, Says This Georgia Lady, Regarding Black-Draught. Relief From Head-ache, Malaria, Chills, Etc.

Ringgold, Ga.—Mrs. Chas. Gaston, of this place, writes: "I am a user of Thedford's Black-Draught. In fact, it was one of our family medicines. Also in my mother's home, when I was a child. When any of us children complained of headache, usually caused by constipation, she gave us a dose of Black-Draught, which would rectify the trouble. Often in the Spring, we would have malaria and chills, or troubles of this kind, and we would take Black-Draught pretty regular until the liver acted well, and we would soon be up and around again. We would not be without it, for it certainly has saved us lots of doctor bills. Just a dose of Black-Draught when not so well saves a lot of days in bed."

Thedford's Black-Draught has been in use for many years in the treatment of stomach, liver and bowel troubles, and its popularity, which it now enjoys is proof of its merit. If your liver is not doing its duty, you will suffer from such disagreeable symptoms as headache, biliousness, constipation, indigestion, etc., and unless something is done, serious trouble may result.

Thedford's Black-Draught has been found a valuable remedy for these troubles. It is purely vegetable, and acts in a prompt and natural way, regulating the liver to its proper functions and cleansing the bowels of impurities. Try it. Insist on Thedford's the original and genuine. E 79

Bones Found in Mines at Depth of 45 ft. Under 9 foot Vein of Spar

Last Saturday there was uncovered at a depth of forty-five feet on the Simpson lease of the Union Spar Co., the bones of some animal, which have lived in their hiding place there for probably many centuries. Mr. Gip Watkins, one of the owners was here with the bones in a box. J. M. Stone, the hardware man of Sturgis is manager and Henry Butler, the Superintendent of this mine. The bones resemble human bones in some ways and were found under a nine foot vein of fluor spar, and quite a curiosity and were examined by many mining men and others, none of whom admit ever seeing any thing of the kind before. Mr. Watkins will add them to his display case of mineral samples and curios which he has assembled from his various mining properties in this county.

Card of Thanks.

To the friends, neighbors, and

PROMINENT ARKANSAS CLUB MAN SAYS VIN HEPATICA IS GREATEST MEDICINE THAT HE EVER SAW

Saw in Papers Where it Helped Nashville Friend of His--Took it For Weak and Run Down Condition, Stomach Trouble and Head-ache--Made New Man of Him Already, He Says.

Mr. W. M. Gleaves, Manager of Menasha Outing Club, Menasha, Kansas, says the Vin Hepatica prescription has made an entirely new man of him.

"I saw in the papers," writes Mr. Gleaves, "where it had done so much for the wife of Lieut. Long, of the Nashville police force, and knowing her personally, and that what she said was true and could be depended upon. I went and bought two bottles of Vin Hepatica."

"I had tried everything else for my stomach trouble, indigestion, headache, and run down condition, but without any results.

I was at one time on the police force in Nashville, but had to give it up on account of my health. I am now manager of the Menasha Outing Club, where they have everything good to eat. But before taking Vin

people who may have done a good deed, said a good word, or assisted in any way, during the sickness and death, of our dear brother. May God's richest blessings rest upon you and to Mr. Ed Hunt and his dear wife, we want to thank you for your kindness and assure you that we appreciate your kindness and trouble very much, and may you all have your reward in heaven. May God bless whatever might have been done or said during his sickness and death.

We trust that we will meet in the great beyond where there will be joy, peace, and happiness.

Yours for a better world and may God bless and help you. A. McMican and family.

Appreciates Our Work.

Mr. S. M. Jenkins, Marion Record-Press, Marion, Ky.

Dear Sir:

Thank you!

The Lake Division (Ohio, Indiana and Kentucky) of the American Red Cross is most grateful for the wonderful support you gave during the recent National Drive for \$100,000,000.

Up to date the Lake Division has gone nearly 35% over the quota assigned by National Headquarters.

The incomplete returns are as follows:

Ohio Quota \$6,400,000
Ind. Quota 2,100,000
Quota 900,000
Amount raised \$7,782,520
Amount raised 2,613,488
Amount raised 1,931,000
Total Quota \$9,400,000
Total Amt. raised \$12,327,008

The patriotic cooperation of papers like yours undoubtedly did much to make possible such a magnificent showing.

Again we thank you in behalf of the American Red Cross.

Cordially yours,
D. C. Dougherty.

Bridge in France is Named For Wilson.

Paris, June 8.—Senator Herriot, mayor of Lyons, and the city council have given the name of President Wilson to a new bridge over the River Rhone, which will be opened on July 14. The bridge has been built since the beginning of the war. The Wilson bridge parallels a bridge which for a century has borne the name of the Lafayette bridge.

DYCUSBURG

Dalton Vosier of Paducah spent Saturday night and Sunday in town the guest of Mesdames Cothran and Vosier.

J. A. Graves was in Paducah Tuesday.

During the period of the war, we will not sell an American Midget Marvel Mill unless its purpose is to supply the local needs of a community, or our Government, with flour and feed.

DO YOUR BIT. Help the Government by saving the freight on wheat and flour. Believe the railroads of this unnecessary congestion by establishing in your community one of these wonderful American Midget Marvel Roller Flour Mills.

And Make Money, Too

\$150 to \$1,000 per month can be made with this permanent, substantial and dividend business. This wonderful self-contained roller mill is revolutionizing milling. Makes splendid flour at a better yield than the government requires. One man without previous milling experience can run it successfully. Small cost, small power, easy operation enables it to make a better barrel of flour cheaper. You can sack your flour under our nationally advertised brand "Flavor".

Our Service Department inspects your product each month free and keeps you up to quality. Place of mill from 15 to 100 barrels per day. You can start with the small size if you have \$12.00 to invest. Sold on 30 days' free trial. Write for our catalog and experience of successful owners all over the United States. Anglo-American Mill Co. 647-64 Trust Bldg. Wheelersburg, Ky. 180

U-Boat Peril Shows Decrease.

Washington, June 4—Danger from submarines has decreased to such an extent that the bureau of war risk insurance has recommended a reduction from \$2.50 to \$1.50 per 1,000 in the insurance rates on lives of officers and crew of merchant vessels passing through the war zone this is in line with the recent lowering of marine insurance rates on vessels and cargoes from three to two per cent.

Administrator's Sale.

All persons holding claims against the estate of the late Wm. T. Reid are requested to file same, proven by law, on or before June 30, 1918, or be forever barred.

Those indebted to same will please come forward and settle, thus saving me trouble and yourself costs.

GEO. W. STONE,

Administrator,

Rev. W. T. Reid, deceased.

CARD OF APPRECIATION.

Louisville, Ky., May 28. Crittenden Record-Press. Marion, Ky.

Gentlemen:

We want to express our appreciation of your splendid co-operation in giving space to our news story in your paper of May 23. This cannot help but have the desired effect and increase enlistments in your section.

We are going to take the liberty of informing you from time to time of boys that enlist from your county, and want you to feel that we are at your service to furnish news of all sorts regarding the navy that you wish.

Yours very truly,

J. H. TEACH,

Recruiting Officer.

Catarrh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a local disease, greatly influenced by constitutional conditions, and in order to cure it you must take an internal remedy. Hall's Catarrh Medicine is taken internally and acts thru the blood on the mucous surfaces of the system. Hall's Catarrh Medicine was prescribed by one of the best physicians in this country for years. It is composed of some of the best tonics known, combined with some of the best blood purifiers. The perfect combination of the ingredients in Hall's Catarrh Medicine is what produces such wonderful results in catarrhal conditions. Send for testimonials free. F. J. CHENEY & CO., Props., Toledo, O. All Druggists. 75c. Hall's Family Pills for constipation.

Notice to The Public.

Dr. Wm. C. Davis, recently of Lola, Livingston county, has located at Tolu, Crittenden county, Kentucky. Dr. Davis will take care of the practice of Lieut. O. T. Lowery, who leaves Tolu June 1, to enter the service of his country. Dr. Davis will be found in Tolu, and will answer any call that needs his service. Dr. Davis comes to us highly recommended in his profession. We who know Dr. Davis personally feel that we were fortunate in securing his services for this community.

A TEXAS WONDER.

The Texas Wonder cures kidney and bladder troubles, dissolves gravel, cures diabetes, weak and lame back, rheumatism and irregularities of the kidneys and bladder in both men and women. Regulates bladder troubles in children. If not sold by your druggist, will sent by mail on receipt of \$1.25. One small bottle is two months' treatment, and seldom fails to perfect a cure. Send for sworn testimonials, Dr. E. W. Hall, 226 Olive St., St. Louis, Mo. Sold by druggists.—Advertisement.

The "Hello" Girl.

With a clamp on her head like a cage for her hair, She sits all the day on a stiff little chair And answers the calls that come over the wire From people of patience and people of ire, And "Number!" she queries of noble or churl— A wonderful voice has the telephone girl. She has to be pleasant, and hustling and keen, With a temper unruffled and ever serene. There are forty-five things she must she must think of at once, Or some rough subscriber will call her a dunce; Since it seems a general custom to hurl The blame for your grouch on the telephone girl. It's wearisome work on the nerves and the brain. Continual hurry, continual strain, And Central gets tired—as other folks do— And needs to be thoughtfully treated by you; So think of her doing her best 'mid the whirl, And try to be while to the telephone girl.

PERSONALS

E. L. Harpending, Notary Public
Mrs. R. H. Haynes went to Evansville last week to be treated for appendicitis.

FOR SALE.—One white-faced Hereford male, two years old.—J. N. Boston. 5 16 4t

W. O. Wicker, of Fredonia and Mexico, was in town Saturday doing some shopping and attending to other business matters.

Have your tires repaired now The roads will be good in a few days.
Marion Steam Vulcanizing Co.

Mrs. R. F. Haynes, who was in Evansville on a shopping trip last week, has returned home.

FOR SALE.—Pure Wild Mallard Duck eggs. \$2.50 per 13 eggs. Write or phone 124-24 Mrs. Mont Morrell, Marion, Ky. 4 25 2 m p

Mrs. Hugh Agee is still in the Walker sanitarium and is not doing well. She was Miss Nonie Swansey before her marriage and has many friends here and in the county.

STRAYED from my farm at Sullivan, Union county, Ky., one pair of bay mare mules, 154 hands high. Please notify me and I will pay for same.
W. M. Quirey.

Mrs. Mary Gilbert Haynes, who was operated on for appendicitis at the Walker sanitarium, is recuperating and will soon be at home again. Mr. Haynes accompanied her and is still with her.

Don't throw away your old auto tires and tubes have them repaired.
Marion Steam Vulcanizing Co.

Creed A. Taylor is in the Walker sanitarium at Evansville, having undergone an operation for hernia and piles. He is improving and will be able to return home soon. His wife is at his bedside.

I have several good farms for sale close in, also have town property and mineral rights.
W. E. Belt.

William Sanford Adcock, of the United States battleship (Orah), is here on a furlough, the guest of his sister, Mrs. J. B. Trotter. He was reared at Newton, Ala., which is his home. He has been in the navy two and a half years. He will leave today to go aboard his ship, the Utah.

For sale: A few jersey cows, F. W. Nunn.

Mr. and Mrs. R. E. Wilborn and son, Lyle, were in Evansville to spend the week end and to do some shopping and to have the young gentleman's tonsils and adenoids removed. He stood the operation and is getting along o. k.

For sale, some good, used auto tires and tubes.
Marion Steam Vulcanizing Co.

Mrs. J. D. Asher and little daughter, Mary Belle, and son, J. D. Jr., have returned from Evansville, where she took the children to have their tonsils and adenoids removed, which was done successfully at Walker's sanitarium.

CORN FOR SALE.—Calvin Corley, phone 194-2 rings.

Mr. and Mrs. Joel Farmer and nephew, Willard Franks, arrived from Florida Thursday and will spend the summer at their home on Walker street.

I have several good farms for sale close in also town property and mineral rights.
W. E. Belt.

Cl. de Ramage has moved his pressing shop to the concrete building and Bud Fowler will operate his alone in the Press building.

FOR SALE.—Duroc Jersey Male and female pigs, eligible to registry. Have 15 of each. Price \$12.50 during May. After June 1, \$15.00.—J. N. Boston. 5 16 4t

Miss Iva Hicklin, who taught in the Ardmore, Oklahoma, City Schools the past year, has returned home and is now with Mr. and Mrs. J. D. Asher on Elm street.

When you have Backache the liver or kidneys are sure to be out of gear. Try Sanol, it does wonders for the liver, kidneys and bladder. A trial 50c bottle will convince you. Get it at the drug store.

Mrs. Rose Mayes, of Caldwell Springs section, was the guest of relatives and friends here to spend the week end. Her little nephew, J. F. Flanary Jr. accompanied her home.

FOR SALE.—Three mares, 3, 4, and 6 years old, well bred. George W. Hill, Fredonia, Ky., Route 3. 4tp

Mr. and Mrs. C. W. Haynes and daughter, little Miss Elizabeth Lee, have returned from Walker's Sanitarium, where the daughter underwent a serious operation. We are glad to report that she is recuperating nicely and will soon be well.

Misses Ruth and Mamie Haynes, of Deland, Florida, arrived Sunday to spend a month with their brothers C. W. Haynes and his family at the old homestead on Salem street, and Wilbur V. Haynes, at Mrs. Croft's.

Gentlemen boarders wanted T. J. McConnell. Phone 256

Judge C. E. Doss and his little granddaughter, Pearl, of Shroder, are seen almost daily driving through our streets behind "Billy Becker," a fine Shetland pony stallion, which Judge Doss recently purchased in Indiana. With his outfit, including harness and buggy with canopy top, he is quite a pretty picture, as fat and sleek as a mole and much admired by the children.

FOR SALE.—I have some new and second hand telephones for sale.—W. T. Black, Marion, Ky.

Little Miss Stella Fritts is a real heroine in the days of war. Recently she sold gloves for one of Marion's enterprising merchants, Mrs. Lottie Terry, who gave her all the profit to donate to the Red Cross Society. If a little girl can do that, why can't any one do something. We believe they can and should.

No time like the present to stop in digestion and stomach ills. Mi-o-na tablets do the work. Sold by Haynes & Taylor; your money back if they fail

Mrs. Katie Goodlove and little daughter, John Barnett Thomas, of Savannah, Ga., arrived last week to visit her mother, Mrs. May Barnett.

Mrs. V. Y. Moore came over Sunday after her son Jim Al and returned Monday to her home in Madisonville going via Nortonville on the afternoon train.

Mrs. T. J. Wring has returned from a visit to her daughter, Mrs. Richardson, at Mexico, and to her mother, Mrs. Fannie Travis, at Seven Springs.

Do you get up at night? Sanol is surely the best for all kidney or bladder troubles. Sanol gives relief in 24 hours from all backache and bladder troubles. Sanol is a guaranteed remedy. 50 cent bottle at the drug store.

Mr. and Mrs. Loren Yates and children of the Sheridan section were in the city shopping Tuesday and were the guests of Mr. and Mrs. A. J. Pickens.

Eugene H. Joiner has arrived in the city to spend his vacation. He graduated from Kentucky Wesleyan College on June 4. He won first honors for being the best all round man and was honor man at his graduation.—Madisonville Hustler.

Rev. Hugh Watson, will leave today for Nashville to attend a two days' institute of churches on "The Moral Aims of the War." While there he will be the guest of Vanderbilt University. Some noted speakers are on the program.—Madisonville Hustler.

Mr. Richard Maurice Horning of the Tribune section left Tuesday morning at 10 o'clock for camp Zachary Taylor. He is thirty years of age and has been detained on account of sickness.

Ray Flanary returned last week from Louisville, where he went to enlist in the Hospital Corps of the United States navy. He expected to leave today for the Great Lakes naval training station, near Chicago, but got instructions Wednesday to await further news as the training camp was crowded.

Mrs. W. H. Guess, of Marion, came Friday to visit her daughters, Mrs. W. A. Walker and Mrs. Jas. Dodds. Mr. Walker met her at Blackford.—Providence Enterprise.

Misses Edna Moryan and Lillie Gass who took positions last week at the office of Crittenden Record-Press to learn to set type are getting along nicely and will soon be expert typists.

The many friends of Guthrie Flanary, who has been in Honduras, Central America several years working for United Fruit Co., will be interested to know that he has left there for the States to enlist in some branch of U. S. Army.

L. J. Allison who has been in the National Soldiers Home in East Tennessee all winter contemplates entering the U. S. Army as a guard and will probably leave the old soldiers home this month.

Rev. James F. Price preached at Poyosburg Saturday and Sunday. He went to Louisville Monday and to Booneville Tuesday. He will visit and preach at a number of churches and missions in Owsley county.

Fined For Vagrancy.

Jim Fork, white, of near Daniel Boone, plead guilty to a charge of vagrancy Friday afternoon and was fined \$10 and costs by County Judge Crick Monday afternoon.—Madisonville Hustler.

Judge Kevil Monument Erected.

On the lot where the late Judge J. Bell Kevil is buried a large granite monument has been erected which stands nine feet high and weighs 15,000 lbs. All those who are lovers of art will find in this memorial that the utmost

skill in monument making was put forth. This work was erected by Henry and Henry, having been purchased by the Kevils heirs of this city. There are three graves there now. Judge Kevil's, his wife's, and his daughter, Miss Mabel's and each has a large, full size slab over the grave.

A Woman's Burdens
are lightened when she turns to the right medicine. If her existence is made gloomy by the chronic weaknesses, delicate derangements, and painful disorders that afflict her sex, she will find relief and emancipation from her troubles in Dr. Pierce's Favorite Prescription. If she is overworked, nervous, or "run-down," she finds new life and strength. It's a powerful, invigorating tonic and nerve which was discovered and used by an eminent physician for many years, in all cases of "female complaints" and weaknesses. For young girls just entering womanhood; for women at the critical "change of life"; in bearing-down sensations, periodical pains, ulceration, inflammation, and every kindred ailment, the "Favorite Prescription" is the only medicine put up without alcohol—ingredients on wrapper.

PALOS, VA.—"Eight years ago this summer I could hardly do anything. It was before our first little girl came. My lower limbs were so badly swollen I couldn't rest any where. I was telling a friend what a condition my limbs were in. She said, 'Take my advice and get some of Dr. Pierce's Favorite Prescription; so I concluded to try it and this is what it did for me. I had only used it about one week when my limbs quit cramping, the veins got better, and I could sleep all night, good restful sleep, so I continued its use and had no trouble at all. Four years ago I used it again, and another little girl came almost entirely without discomfort. One year ago I again needed Dr. Pierce's medicine but did not get it as I was in very poor condition financially, and I suffered five days and nights. Now note the difference.

"I will always praise the 'Prescription' to any expectant woman for cramping in limbs and pains. It makes women stout and gives extra strength and prepares them for motherhood. I know it has no equal."—MRS. CURRY LAM.

If Madisonville Can

City Engineer Geo. Flanagan will begin oiling streets of the city not oiled today. He will continue oiling until all of the streets have been oiled.—Madisonville Hustler.

Dr. Gilchrist

Instruments for examining conditions inside as well as outside of the eye. Glasses scientifically fitted. Prices reasonable.

Office in PRESS Bldg., adjoining Marion Bank, next to McConnell & Wiggins' barber shop. Carlisle St., Marion, Ky.

Losing Money.

You are MAKING MONEY every day, but how much are you LOSING? If you are making \$2 a day, but could make \$5 a day by taking the necessary training, you are losing \$3 a day, or \$75 a month, or \$936 a year, or \$9,360 in ten years. Quite a loss, isn't it? But that's the size of your loss if you are in the \$2-a-day class. The right business training—The Draughton Training—will stop this loss, will take you out of the \$2-a-day class and put you into the \$5-to-\$10-a-day class.

MISS EDITH PHILLIPS, Assistant Bank Cashier, Springfield, S. C., writes: "I'm glad I took a course at DRAUGHTON'S."

R. M. FLOYD, Bank Cashier, Conway, S. C., writes: "At every opportunity I speak a word for Draughton's College, which I attended. I believe it is the BEST."

What the Draughton Training has done for these people it will do for YOU. Catalogue FREE. Draughton's Practical Business College.—Nashville, Tenn.

50,000 VOICES

And Many Are The Voices of Marion People

Fifty thousand voices—What a grand chorus! And that's the number of American men and women, who are publicly praising Doan's Kidney Pills for relief from backache, kidney and bladder ills. They say it to friends. They tell it in the home papers. Marion people are in the chorus.

Here's a Marion case: G. B. Johnson, 502 E. Depot street, says: "I suffered for five years with kidney trouble and it was sapping my very strength away. My back ached and pained constantly and I was lame, especially mornings. The least exertion tired me and when I overdid I had headaches and dizzy spells. I was very nervous and the kidney secretions passed too frequently, making me get up at night. I got a box of Doan's Kidney Pills at Haynes & Taylor's drug store. They helped me from the first and I continued taking them until entirely cured."

Price 60 cents at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Johnson had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. 11

Stock Pens

The Marion Milling Co. have a few Stock Pens for sale at a bargain. Call them.
Marion Milling Co., Incorporated.

Do you believe in signs?

HERE is one you can bank on—the sign of a company that has stood between the country and its fire losses for over a century.

It is also the sign of a live agency—one that specializes on insurance—one that is watchful of your interests as well as the interests of the companies it represents. When you see this sign, think of protection. Think also of agency service. You can safely rely upon our care in looking after your property and in securing prompt and fair settlements in case of loss.

If You Want INSURANCE LOOK FOR THE HARTFORD SIGN C. G. Thompson, Agent.

Seven Day Redpath Chautauqua, Marion, Ky., June 25th to July 2nd.

WORLD'S BIGGEST TRUST COMPANY PART OF UNCLE SAM'S WAR WORK

Making German Money Invested in This Country Work for the United States, Is Important Work Being Done by the Alien Property Custodian—Citizens Urged to Help by Reporting Any Enemy-Owned Property in Their District.

Washington.—Call it what you will, the biggest trust company, auction shop, or bargain counter sale, Uncle Sam has it among his war activities. Congress gave it its charter, the goods dealt in are enemy owned, United States citizens are its stockholders, and the title of the business manager is alien property custodian.

It is doing a trust company business because the bulk of the property taken over belongs to individuals and has to be safely administered by Uncle Sam. It is an auction shop because the great industries here in the United States owned and controlled by German trade barons which are seized under the trading with the enemy act will be sold outright to loyal citizens of this country, Americanized, and German control of commerce and industry in the United States of America stamped out forever. It is a bargain counter sale because many times in odd collections of German owned property here and there are small pieces

inside the enemies' lines is subject to immediate seizure. Also all interned aliens here in the United States are classed as enemies and their property treated accordingly.

Agents of the bureau of investigation of the alien property custodian, under the direction of Francis P. Garvan, an experienced assistant to former District Attorney Jerome of New York, are combing the country for enemy owned property and millions of dollars' worth have been reported. But as much more is confidently believed still unreported. Some of it is actively helping Germany's deadly campaign of spying, bombing, and arson; all of it is potentially a menace.

A. Mitchell Palmer, addressing himself to the citizens of the United States and shareholders in this, the biggest trust company on earth, said: "The more of this property reported the more harmless it will be, the better the business of your trust company, the bigger the returns to the treasury."

A. Mitchell Palmer, Head of Biggest Trust Company on Earth.

that have to be quickly converted into cash to prevent loss either to the individual owner or to Uncle Sam. As such, they are passed across the counter in spot sales and the money turned into Uncle Sam's treasury.

But whether earnings or sales, this money is turned over by the alien property custodian to the treasury of the United States and there converted into Liberty bonds. Thus is German money made to work for Uncle Sam, to help build ships, buy food and supplies, and keep fields and factories at home humming with industry against the Hun.

Palmer Is Director.

The alien property custodian in whose hands the direction of this great economic force against Germany has been placed is a Pennsylvania Quaker. His name is A. Mitchell Palmer. His forefathers came to America in the same ship with William Penn, and the family has lived for several generations within the lines of the original Quaker settlement.

When appointed by the president, Mr. Palmer for several days carried his oath of office in his pocket. He could not find even desk room in crowded Washington. That was only five months ago. Today his force numbers over 400 employees in Washington alone, besides the hundreds scattered across the country. The headquarters' force is now established in an eight-floor apartment house in one of the best residential districts of Washington which the government commandeered and took possession of before it was finished.

From here the alien property custodian is today making pencils in New Jersey, chocolate in Connecticut, brewing beer in Chicago, sawing lumber in Florida, mining metal in Mexico, running real estate stores and commission offices and public utilities in all parts of the country. This enemy owned property may be stock certificates, or bonds or debts, life insurance premiums, or cash, real or personal property, but to come within the reach of this big government trust company it must be either owned in whole or in part by persons living within the enemy lines or by persons trading with interests within the enemy lines.

Safe If He's Good.

If a German citizen lives here in the United States, obeys its laws, does not trade with Germany, and does not engage in any pernicious activities against the government, his property and his business are free from any interference on the part of the alien enemy custodian. On the other hand, the property of a citizen of the United States who maintains his residence

experience of Ridge Sly of Yakima, a member of the United States Marine corps now with General Pershing's forces in France.

Sly's mother received a letter several days ago from her son in which he described his furlough, spent "somewhere in France" out of the battle zone.

In the letter he tells of being quartered in one of many hotels set aside for American soldiers on leave, where he was given the honor of sleeping in the chamber formerly used by the Grecian monarch.

WHEN U. S. GOT BUSY MAN MADE CHECK GOOD

Bartlesville, Okla.—During the Liberty loan campaign here, a solicitor secured a subscription from a business man who gave the worker a \$5 check as first payment on a \$100 bond.

The check was turned down at the bank when presented. Repeated calls by the collector found the man always absent. The solicitor turned the check over to a federal agent. As a government receipt had been given for the check, the latter called on the business man and presented the check. It was made good at once.

AMERICAN GAS MASKS BEST

Takes Only Six Seconds to Put It on and It Is Gas and Fool Proof.

Chicago.—When it comes to fighting gas attacks the American soldier is the best equipped in the world.

This is the declaration made here by Maj. J. J. Auld, chief advisor of the British scientific mission, who is a chemical expert.

He said that the German command has become so enraged at the failure of its high-powered gases to discomfit the Americans that they have offered a reward of ten marks to any soldier who brings in an American gas mask.

"The American mask is the marvel of the allied armies," says Major Auld. "It is absolutely gas proof and fool proof. It takes only about six seconds to put it on. Unlike the German mask it does not hang down and get in his way when one bends over."

IS BRAVEST WOMAN IN WAR

Officers' Tribute to Miss Beaton, Just Returned After Two Years' Service.

Denver, Colo.—Miss Eunice H. Beaton, known to the officers of the allied armies as "the bravest woman of the war," has returned to her home in Denver, after two years' service on the western front in France as a Red Cross ambulance driver. After a brief rest, Miss Beaton again will enter the service of the government in training women as ambulance drivers.

Miss Beaton is known in the West as a typical outdoor girl. She excels in swimming, tennis, golf, trap-shooting, motoring and horsemanship.

On the western front Miss Beaton was under fire a score of times. She helped carry wounded from No Man's Land and was driving an empty ambulance from a hospital to the front when the car was wrecked by a shell.

GERMAN BANNED IN SOUTH

Language of the Hun Is Being Eliminated in Schools and Churches.

Birmingham, Ala.—German language and German names are being eliminated in the South. The most recent evidence of this fact is shown by announcement of Rev. Hans Reuter, pastor of the Zion Lutheran church, to the effect that he will discontinue preaching sermons in the German tongue. Hundreds of schools have eliminated teaching German and business houses in several Southern cities have changed from German to English names.

SLEEPS IN BED OF KING

United States Marine on Leave in Paris Is Also Attended by Highly Decorated Valet.

Seattle, Wash.—Sleeping in the luxurious bed once occupied by the king of Greece when he visited France and being attended by a valet attired in velvet and gold lace was the novel

MAIL FOR FRENCH WAR PRISONERS

The city gymnasium at Berne, Switzerland, has been converted into a post office for French prisoners interned for the period of the war. Here all mail for prisoners is received and sorted for distribution among the various prison camps.

FIRST AMERICAN AIR POSTAL ROUTE, NEW YORK TO WASHINGTON

The first air mail route in America, between Washington and New York, is in fairly successful operation now daily. The photograph shows Postmaster Patten of New York handing a mail bag to Aviator Webb at the start of the initial trip.

VANGUARD OF AMERICAN TELEPHONE GIRLS REACHES FRANCE

These are the first of the American telephone girls who are going to operate the switchboards for our soldiers in the fighting lines, photographed on their arrival for duty in France.

NURSES TAKE GAS TRAINING

To fit them for duties on the front, hospital army nurses are receiving gas instructions at Camp Kearney, California. This official photograph shows one of the army nurses leaving the gas chamber.

GEN. MARCH'S DAUGHTERS WED OFFICERS

When Josephine March was married the other day to Maj. Joseph M. Swing, the three daughters of Gen. Peyton C. March, chief of staff, had become war brides within six months. Josephine is shown below at the right. At the left is Mildred, who married Capt. John Milliken, and above is the general's second daughter, whose husband is Capt. Paul Russell Frank.

UNITED STATES MARINES IN A TRENCH

Here are some of the American marines in a trench in the American sector in France, ready to meet a rush of the Huns. Many of the Marine corps are now on the fighting lines.

Japanese Hero Worship.

The Japanese are a hero-worshipping people who treasure their own past. American history has none of the picturesque atmosphere that adorns feudal Japan, still an actuality in the lives of many of the grandfathers of young people now in school. Through their tales, history is fresh. No alchemy compounded of modern disillusion can convince the young Japanese that the glamor of the past is not all gold. The rich brocades and gorgeous attire of the feudal lords of the Tokugawa days, the beautiful elaboration of temple and palace, the exquisite art and craft productions, the ritual of elegant ceremony attached to court life, the ancient ideal of Bushido, or knightly conduct, everywhere encountered in allusions to heroic and loyal deeds, all lend their vibrancy to old Japan.

His Day Cut Short.

"I don't understand this law business."
"Huh?"
"They said I was to have my day in court. All the neighbors turned out."
"Well?"
"The judge disposed of my case in less than a minute."

Evanesce.

"Did your husband speak of the punch he got at our house?"
"Well, I must say he came home just full of it."

Three Exquisite Daytime Frocks

The smart woman of today improves each shining hour of summer by taking her knitting everywhere she goes, and by wearing frocks much like those that help to make the three graces pictured above, look so lovable. These frocks are of a sort to make even the jaded millionairess grow interested, and everyone else, who knows anything about clothes, to grow enthusiastic. They have everything that we aspire to in our apparel—simplicity, style, refinement, originality—all within the boundaries set by the season's modes, and they are not out of the reach of women of ordinary means.

It is hard to point out just what gives distinction to a frock as simple in design as that worn by the girl sitting at the left. It lies in the choice of material, in good hues and in the wide band of embroidery about the skirt with its motif repeated to finish the neck. Khaki-kod, or similar fabrics, would be a good choice for it, or some of the heavy weaves in silk or satin that are supple like those made for the handsomest sports skirts. The embroidery is done in the color of the dress with touches of black or a dark color introduced. (Oyster-shell white, gray or sand color are good choices for this dress.)

The one-piece tunic dress at the center appears to be of satin with over-bodice and apron draps, at the

front, of georgette crepe. The two long tassels at each side of the apron are important items in its make-up, and the sleeves are especially smart, with deep shaped cuffs. The tunic is bordered with a braided band—the braid in the color of the dress and the neck finished with small, covered buttons set in a row at each side. It will be noticed that a tailored hat is worn with this daytime frock.

Silk jersey, for which satin or foulard might be substituted, is shown in the skirt and coat design at the right of the picture. The sailor collar and tunic are finished with embroidered bands, and they define the sides of the bodice also. The much-admired covered buttons in precise rows add their neatness to this exquisite dress.

All these frocks have wide, crushed skirts, adjusted easily to the figure below the waistline, and are worn with pumps and silk stockings—footwear that is in keeping with them.

Millinery Styles.

There are definite characteristics to be noted in the spring and summer millinery and the styles of the season are almost all charming. There seems, in fact, to be an obvious dismissal of weird and freakish shapes and trimmings, and a firm adherence to those that are truly attractive and beautiful.

War-Time Outfit in Summer Shoes

Just how few pairs of shoes can we get along with this summer? That's the question that women are called upon to settle for themselves, now that wartime economy calls for retrenchment on all sides. Secretary McAdoo says he has his shoes halved when they need it—and appears to be proud of it, recommending this course to every one else. Leaving out house slippers and evening slippers that need not come in the reckoning at all, three pairs of good shoes will see one through. This will seem an impossible slim allowance to the woman who usually buys from six to twelve pairs, but three pairs will answer. There is no economy in having only one pair of street shoes, because they wear much longer and look much better when two pairs are worn alternately. Shoe trees keep them in good shape when they are not in use and are as necessary to shoes as hangers are to coats and frocks.

A wartime summer outfit in shoes might follow the suggestion in the group of three pairs shown in the picture. These do not include shoes made solely for sportswear, which can be considered beside the question of shoes that are indispensable. All the shoes pictured are in the best materials and workmanship, which are matters of real economy in footwear. They include a pair of substantial black kid street shoes, a pair of smart white canvas oxfords and kid pumps for dress.

The high boots for street wear have sensible Cuban heels and moderately heavy soles. Perforations along all the seams and at each side of the face

ing at the front, give them a handsome finish and they look altogether dependable and smart—just as women themselves aspire to look in these times. White canvas oxfords for wear with summer street suits and frocks are very plain and may be had with either Cuban or French heels. They are easily kept clean and are very durable. Where street shoes will strike the wrong note and something more dressy is needed, kid pumps, similar to those shown in the picture, will fill all requirements. They are of black kid with gray panels, but there is a great variety of pumps in all-black and black with colored panels to choose from.

Julia Bottomley

Different Shades of One Color.

The combination of different shades in the same color is a very smart note in millinery just now; this is noticed, perhaps, most in the tortoise shell colorings. An attractive small hat of Milan has an upturned side brim and is trimmed in a very light shade of apple-green wheat, which is laid thickly about the crown sides and topped by a row of foliage in the color of the straw.

Colored Leghorn Sport Hats.

Colored Leghorns make smart sport hats, some of these being faced in a contrasting color, jagged and trimmed by single strips of the tassel used on edge and made into a motif that reaches from the crown base to the brim edge.

The KITCHEN CABINET

In the cause of friendship, I would brave all dangers.—Dickens.

If your friend has got a heart, There is something fine in him; Cast away his darker part, Cling to what's divine in him.

LET US EAT POTATOES.

Someone is originating a new way of serving potatoes almost every day.

They are the standby for all occasions and for all meals, this season. Because of the bountiful supply, patriotic women who wish to save wheat will be more generous with the potato.

Because of the high cost and scarcity of animal fats, deep frying is not so popular as formerly, neither is sautéing, for both methods take fat. Vegetable fats are still on the list of admissible fats and they make most satisfactory ones to use in various ways; they are not very expensive and are common in the market. Corn oil, olive oil, and many of the cottonseed products are all good.

Potato Patties.—Select potatoes of uniform size, pare, cut off a slice then hollow out to make cups. Let stand in cold water till time to prepare, then wipe dry and fry in deep fat. The shell should cook tender in eight to ten minutes. Drain on tissue paper in the oven door; sprinkle inside with salt. Use these shells to hold creamed peas, sweetbreads or any other desired creamed dish. Creamed fish or chicken are especially good and the shell is eaten with its contents.

Yellowstone Potatoes.—Select large, smooth potatoes; scrub well and bake until done. Make two cuts in the form of a cross on the top of each; take up with a towel and crush to loosen the potato and let out the steam. Set on a hot napkin on a hot plate. Place a generous piece of butter in the opening and flick with paprika.

Oak Hill Potatoes.—Cut five hard-boiled eggs and five cooked potatoes into slices a quarter of an inch in thickness. Make a sauce of four tablespoons each of sweet fat and butter, half a teaspoonful of salt, a fourth of a teaspoonful of paprika, and two cupfuls of good milk. In the bottom put a layer of potatoes and cover each layer until all are used with a layer of the sauce. Cover the top with the sauce and finish the top with a cupful of buttered crumbs. Set in the oven to brown. Serve very hot.

The summer bath so many want. That set my heart a singing, Such gladness to her reign between, For me joy-bells are ringing. When robes are cool and gay, When brooklets dance along the way, It's good to live—just live, I say, With summer over the land. —L. Mitchell.

GOOD THINGS FOR THE FAMILY.

A most satisfactory griddle cake may be prepared by using sour milk, soda, a beaten egg and corn flour to thicken. Add the soda, a half teaspoonful, to a cupful of sour milk, then add a beaten egg, a little salt and corn flour to make the batter of the consistency

liked. A little baking powder sifted into the corn flour will improve the cakes. **Buttermilk Drops.**—With a pint of buttermilk, add three eggs, a tablespoonful of fat, a teaspoonful of salt, and corn flour enough to make a batter, stirring a teaspoonful of baking powder to each cup, adding a small amount of soda if the buttermilk is at all sour. Bake in a hot oven.

Best Piquante.—Take two cupfuls of boiled beets cut into cubes; two tablespoonfuls of butter, two of flour (barley) and one-half cupful of water in which the beets have been cooked, one-fourth cupful of vinegar, one-fourth cupful of cream, one teaspoonful of sugar, a half teaspoonful of salt. Melt the butter, add the flour, and when well mixed add the best liquor and cream. Then add the vinegar slowly and cook until the flour tastes cooked. Add salt and pepper and then the beets. Serve hot.

Baked Bananas Belgium Style.—Remove the peel from six or eight small bananas, scrape each banana to remove all coarse fibers and lay them side by side in a baking dish suitable to serve them. Grate over them the rind of an orange and half a lemon; mix the juice of the half lemon, the orange and three-fourths of a cupful of sugar, pour this over the bananas and bake in a quick oven until soft throughout. Serve from the baking dish, one banana being a portion. This is a nice dish to serve with game or lamb, veal or fowl.

Use junket tablets for dessert. They are simple to use, make good, wholesome desserts, especially for the little people. When topped with sweetened whipped cream they are still more nutritious. **Nellie Maxwell**

Foresight.

"You don't seem deeply interested in investigation," "I am interested," replied Senator Sorghum. "But I can't help regretting that the time and trouble used in the average investigation could not have been applied to averting the trouble in the first place."

Home Town Helps

IS NO LONGER EXPERIMENT

Garden City Has Been Proved to Be Complete Success by Its Development in England.

While the community idea in this country should not exactly be called a negative expression, its development to date hardly warrants terming it a positive enterprise.

Concerning this movement Noble Post Hagen says:

"The garden city and town-planning movement has reached the highest point of effectiveness in England and has proved something more than a successful experiment."

"The model villages of Letchworth, Port Sunlight, Bournville, which provide homes, real homes, for working people, are artistic creations of men possessed of splendid imagination and sympathetic understanding. Add to these Hemstead Garden suburbs, the Garden village near Cardiff, with their picturesque winding roads and vine-covered dwellings, and one may look in vain for their counterparts in America. They are something less than fairy garden spots."

"The difference between the garden city and the garden suburb is that the first is a separate entity, a self-sustaining unit; the latter lies on the outskirts of large cities and becomes a part thereof."

"There is no distinct and overwhelming element of philanthropy as a basis for the creation of these model towns. They are paying investments from the practical point of view. The plan has been for a number of manufacturers to give serious thought to the furthering of the garden city movement. The congestion in our large cities, contrary to all natural laws, has not reached its limit. We can no longer excuse ourselves for past errors in town planning on the theory that this is a young country. New towns are being laid out today with the same pitiful lack of constructive imagination as heretofore; paralleled streets, giving the aspect of a great, ugly checkerboard; no civic centers, no playgrounds, insufficient parks."

"The garden cities that are destined to bloom in America and that are to be the result of a movement fostered by American industrial institutions, should be equal, if not superior, to any like developments anywhere in the world."

REASON FOR CITY PLANNING

Allows for That Development Sure to Be the Lot of a Town That Has Live People.

City planning is the economy of action today that insures possession to-morrow.

The average American city doubles every twenty-five years. This means that it quadruples every fifty years. The growth of Minneapolis is more rapid. It doubles in somewhat less than seventeen years. It will, at its present rate of growth, reach a million and a quarter in a third of a century. Even this rate of growth may be exceeded.

Transportation is the essence of city planning. Rapid, frequent and cheap means of communication between home and workshop, one workshop and another, and workshop and homes, are indispensable to community efficiency. The chief agency of transportation is the street system. Every other agency depends upon it, foot travel, vehicular travel, surface, subway and elevated service, the telephones and the telegraph, sewers and conduits—all are controlled, determined, dictated by the street system.

City planning is the provision of the imminent population and of its transportation needs.

When Planning Brick Building. The choice of brick is a difficult matter to advise. Avoid brick likely to discoloration through presence of salts in the clay. Brick should be hard burned, impervious to water and non-absorbent. Do not judge of the effect of brick from a sample held in the hand. Go and see some building in which the brick in question has been used. In purchasing brick make sure that the same size and color are likely to be in stock for some time. This may prevent trouble in case of later alterations.

All Should Have Gardens. It is always well to have all plans made and things ready so as to be able to take advantage of the first opportunity for getting hardy seeds into the ground. If one did not have entire success with one's garden last year, one can now study ways to profit by mistakes made then.

Let us appreciate the beauty and the worth of our gardens. The need of them this year will be more evident than ever. Indeed, patriotism demands that all who can possibly do so plan for a garden this summer.

Excellent Garden Plan.

A good garden plan is an inspiration. Have every part of the plan labeled with the first crop and the second crop to follow when the first one comes off. Study and rearrange the plan until it is just right, and you can in imagination see it planted. If you have had some experience, you can set down the approximate dates when the different seeds are to be planted.

SHARP PRACTICE

By EVELYN LEE.

(Copyright, 1918, Western Newspaper Union.)

A classical victim of the keen wiles of Abner Wise, money lender and real estate shark, had once enunciated the sentiment.

"He is a reincarnation of Nero, an astral survivor of Attila, with a dash of Caligula and a portion of Zamboni of Thanet in his blood."

Money had been the god of the crafty knave all his life and he had become the richest man in Brighton. When the railroad came through the town it was found that, getting an advance tip, he had bought up most of the ground in the vicinity of the new depot. As the town began to grow he got high prices for the lots. Then the ambition grew to purchase the main business square.

Wise schemed and bribed and coaxed until he had secured every piece of property in the block except two. One was a one-story old frame building occupied by a widow named Mrs. Roberts and her daughter, Mabel.

He offered a ridiculously low price for the property. Mrs. Roberts refused to consider it. Then Abner Wise set to work with all his inherent craft to destroy the widow's business.

The other piece of property that Wise craved was a square area of two hundred feet, directly in the center of the block and completely shut in, with no alley or passage way leading to it. This had been purchased by a Mr. Vance, once a resident of the town, when it was supposed that the tract would face the street.

Wise wished to secure it to build a rear addition to a growing department store. He had written to the Vance family to learn that Mr. Vance had died, directing no partition of any of his property until his youngest son, Allison, was of age. For that culmination the wary, wily old money grabber was patiently waiting.

He was not aware of it, but one day, having just attained his majority, Allison Vance arrived at Brighton to look after the piece of property in question. He put up at a hotel and essayed to get a glimpse of the lot with no access to the street. Finally, glancing through the little stationery store he had a view of the open space behind it. He entered the place.

A sweet-faced young girl stood behind the store counter and he could not help but note her beauty and grace. Allison purchased a pencil and a magazine.

"Would you mind allowing me to go through the house to the rear?" he asked. "I am the owner of the property just abutting the store and would like to look at it."

"Why, certainly," replied Mabel Roberts. "Mamma," and she called to her mother who came from a rear living room repeating the request of their visitor.

"Why, you must belong to the Vances!" spoke Mrs. Roberts. "I am Allison Vance."

"And I knew your father when he lived here," declared Mrs. Roberts animatedly and Allison was made to feel that he was among friends. For nearly an hour he lingered, listening to the widow's story of her little reality holding, and so near to Mabel that the impression of her modest, cheerful nature attracted him increasingly.

That afternoon a guest at the hotel became engaged in conversation with Allison. The latter chanced to mention that property interests had brought him to Brighton.

"Quite a coincidence," remarked the other. "I am agent for an amusement syndicate who are starting a chain of play houses. We intend to build a theater here and of course it has to be in the principal business square. All the lots in the main square are narrow and the only big one that will do is owned by an old schemer named Wise. He knows I've got to take it and he is squeezing me for about eight times its value."

"I have heard of the gentleman in question," said Allison. "Is a large frontage an absolute essential in your plans?"

"Not at all, so enough land at the rear can be secured to build an eighty-foot auditorium."

"Why, perhaps I can offer something of interest to you," proceeded Allison. "I have quite a big tract off from the street, and I think I can arrange for a twenty-five-foot shallow front lot in front."

"You can?" exclaimed the syndicate man. "Why, that would be just the thing. It would provide a pretty entrance, and the further the auditorium is from the street the better always, on account of the noise of traffic."

At once Allison revisited Mrs. Roberts and saw Mabel again. The syndicate man cemented a bargain for the two pieces of property at a price that meant a small fortune for the widow.

A few days later Abner Wise hit his nails in fury and snarled like the human hyena that he was, as he read in the local paper of the sale of the two pieces of property he had so coveted.

And a month later, when he read the announcement of the engagement of Miss Mabel Roberts and Mr. Allison Vance, he nearly had a fit.

"A cruel, wicked plot!" he growled out. "What else, combining to cheat me out of a sale?" And in fancied high moral indignation he almost wept at the perfidy and unrighteousness of those whom he had hoped to devour.

BOY SCOUTS

(Conducted by National Council of the Boy Scouts of America.)

WHAT'S IN A SCOUT'S HEAD

Among the ten things that even a second class scout must perfect himself in are these: Use properly a knife or hatchet. (This means that he knows how to cut and prepare firewood.) Prove ability to build a fire in the open, using not more than two matches. (If he can do this, he certainly can build one in the kitchen stove with ease.) Cook a quarter of a pound of meat and two potatoes in the open without any cooking utensils. (When he has got this far in his cooking training, he can certainly help mother out with a meal, and can even get the dinner for dad and the children when mother is away.)

To become a first class scout, among the 12 things that he must know are the following: Prepare and cook satisfactorily, in the open, using camp cooking utensils, two of the following articles as may be directed: Eggs, bacon, hunter's stew, fish, fowl, game, pancakes, hockeys, biscuit, hardtack or a "twist" baked on a stick, and explain to another boy the methods followed.

After he has become a first class scout it is up to him to get a merit badge for cooking. To be able to obtain this, a scout must: Prove his ability to build a fireplace out of stones or sod or logs; build a fire in the fireplace, and cook the following dishes: Camp stew, two vegetables, omelette and rice pudding. Demonstrate ability to mix dough and bake bread in an oven; and also to make tea, coffee and cocoa. Carry properly and serve correctly to people at the table.

The scout is taught to take care of himself and his fellows in the open.

SCOUTS W. S. S. CAMPAIGN.

The year-long War Savings stamp campaign of the Boy Scouts of America is going along very merrily. Indeed the local War Savings stamp committees throughout the country are enthusiastic in reporting on the splendid spirit and effective co-operative work of the Boy Scouts of America.

Many scouts have already earned the Achievement button given by the treasury department when 25 sales are made to different people, and quite a few have the Ace medal for \$250 in sales.

Already 12,000,000 red post cards have been printed by the government printing office and distributed, and 8,000,000 more are now being printed, and if the demand keeps up as at present it will require at least 20,000,000 additional cards to take care of the needs of the scouts for the first four months.

The cards are now coming in to national headquarters at the rate of 12,000 a day.

SCOUT IS NOW AN AIRMAN.

A scout with nerve can accomplish anything he goes out for. This is proven by Clifton Penn Oleson, the youngest birdman in the service and one of the nerviest.

Oleson is scarce eighteen years old, but he has gone through the rigorous training in aeronautics at the Curtiss school at Miami, Fla., and has been granted a commission by the war department at Fort Sam Houston, Tex., training other boys.

When he was twelve years old, he saw the great Benches make his sensational flight at Dubuque. As Benches' plane at length swooped down to earth, Scout Oleson dodged policemen, jumped the ropes and reached Benches.

"I, too, am going to fly some day," he cried. A group of policemen made a rush for the boy. "Leave him alone," the airman said; "that kid has nerve, and that is what makes an aviator."

SCOUTS IN RUBBISH DRIVE.

A sanitary survey was conducted by the scouts of Portsmouth, O., at the request of the mayor.

Deputized for this special work, 212 scouts took one city block each, being excused from school for this service.

They assembled at the city hall, where they received instructions. Then they scattered to their assigned blocks, made the inspection and returned with their reports to their troop headquarters.

The reports covered the condition of alleys, back yards and garbage. The boys also took a census of gardens being planted. The survey was followed by general cleanup campaigns in which the bad conditions were discovered and remedied.

GOOD TURNS BY SCOUTS.

During the progress of a fair at Canton, O., several lost children were picked up and restored to their parents, and during a fair at Atlanta, Ga., 50 children who had become lost at the grounds were similarly found and restored.

Scouts of Omaha, Neb., have started a class in cobbling, taking instruction from an expert cobbler, and are repairing discarded shoes and selling them for a nominal price to those in need.

Harmony in Paint Colors

In buying Hanna's Green Seal Paint you get more than just so much paint—you also get service. This service consists in the thorough protection and improved appearance Hanna's Green Seal brings to your property.

Do you have trouble selecting just the right paint colors for your house? Then get a Green Seal color card from our dealer below. It contains many helpful suggestions.

SHADY GROVE

R. R. and H. F. Tudor, E. F. Waide and Ewell Wade were in Princeton Wednesday.

Shady Grove went over the top in the Second Red Cross drive.

Glenn Eskew, of Camp Zachary Taylor, was at home on a short furlough Monday.

Dewey Sigler and Raymond Holwell motored to Princeton Wednesday in Mr. Sigler's Overland.

Sam Morrow and Miss Ruth Stephens went to Marion Wednesday and were united in the bonds of matrimony.

Robert Hardwick and wife are rejoicing over the arrival of a 10-pound boy who has been christened Cecil Mayes.

Prayermeeting every Sunday night at the Methodist church.

Roy Joyce has returned home from Norfolk, Va.

Frank Easley and daughter, were in Providence Thursday.

Finnie Boyd went to Henderson Saturday.

WHAT CATARRH IS

Science has shown that nasal catarrh often indicates a general weakness of the body and local treatments in the form of snuffs and vapors only irritate and do little if any good.

To correct catarrh you should treat its cause by enriching your blood with the oil-food in Scott's Emulsion which is a medicinal food and a building tonic, free from any harmful drugs. It is helping thousands. Try it.

Scott & Bowne, Bloomfield, N. J.

TOLU

Mrs. T. F. Harris has returned from Florida, accompanied by her nieces, Mary Elizabeth and Mildred Bennett, who spent the winter with their grandparents, Mr. and Mrs. Harry Haynes.

Eugene Clark, wife and daughters, Opal and Mrs. Tom Shoemaker, went to Evansville Sunday.

Miss Susie Boston, of Marion, was the guest of Mr. and Mrs. Nunn last week.

Mrs. F. W. Denton has returned home after spending several days with her mother and sisters at Henderson.

T. L. Harris, Rudy Brazil and Forest Kimsey registered Saturday the 5th.

Dr. O. T. Lowery left Saturday for

BRISCOE 1918 CAR

This new 1918 model BRISCOE touring car is a beauty and has a record of 25 to 30 miles per gallon of gasoline in ordinary use.

But the biggest economy is in the first cost of the BRISCOE which is \$825.00 F. O. B. Jackson, Mich., and embodying as it does the "half million dollar motor" and a proved chassis is less than the price of any car of equal strength, and good looks. We have been fortunate in receiving the agency of the BRISCOE for Caldwell, Lyon and Crittenden counties. Let us show you this wonderful car.

S. C. BENNETT & SON, Fredonia, Ky.

WHO HAS BEEN THIS COUNTY'S MOST PROMINENT CITIZEN DURING THE PAST HALF CENTURY?

HAS OUR COUNTY A BUILDING OVER FIFTY YEARS OLD WORTH A PLACE IN HISTORY?

Kentucky is to have a Hall of Fame—limited to the most prominent citizen, of our county's most prominent citizen, in each of the 120 counties.

We have been asked by the Courier-Journal at Louisville, which is celebrating its semi-centenary by publishing interesting historical facts about every section of the State, to give our people an opportunity to select by voting this county's representative in this Hall of Fame.

The Courier-Journal will print pictures and brief life sketches of those chosen by the different counties. These will appear daily during this summer and fall, in a series of 120 articles—one to each county—entitled, "What Kentucky Has Done in the Past Fifty Years," concluding with the issue of November 8, which is the Courier-Journal's Golden Jubilee day, having on November 8, 1868, succeeded the Louisville Daily Journal, which was started in 1830, the Louisville Daily Democrat, begun in 1843, and the Morning Courier, first issued in 1844.

In addition to the picture and sketch of our county's most prominent citizen, the Courier-Journal wants for the article on our county a picture of and brief story about the oldest building in our county—church, school, home, business or Government structure.

Use the coupon below. Fill it out, write plainly with pen or pencil, and bring or mail to our office on or before June 15.

We will announce in our paper, as soon as the coupons have been canvassed, the name of the prominent citizen receiving the largest number of votes, and the building found to be the oldest in this county. The Courier-Journal will furnish us with half-tone illustrations of both, together with the article to appear on our county, and we will reproduce these immediately following their appearance in the Courier-Journal.

Three leading citizens of our county will be asked by us to canvass the coupons when all are in. In case of a tie, this committee will make a choice and the decision will be final.

Hall of Fame And Oldest Building Coupon.

Crittenden county.

Editor RECORD-PRESS,

Marion, Ky.

I vote for (write very plainly)

as having attained the greatest prominence in our county during the past fifty years—1868 to 1918.

Remarks

Conditions:—No one now living is to be voted for. Person voted for need not have been born in this county, birth may have ante-dated 1863, but prominence must have been attained while a citizen of this county.

I believe the oldest building in our county and is entitled to a place in history. It is located as follows (please give location in a way to make identification easy)

I understand this building was erected in (give year)

Remarks

Signed

Address

It is not necessary to vote on the most prominent citizen and also express belief in the oldest building. You may do either or both as you prefer.

You are limited to one vote on the most prominent citizen and one expression of belief as to the oldest building.

Bring this coupon to our office or mail to us not later than June 15. This coupon will not appear in subsequent issues. If you are interested p it now and bring or send it in to us.

Columbia, S. C., where he was to report for duty. We regret to lose him, not only as our physician, but he took an active part in all church, Sunday school, social and educational interests.

A number of our people attended services at Tyner's Chapel Saturday.

Mrs. Sarah Patton and daughter Miss Julia, visited Jim Patton and family Sunday.

Henry Guess was in Fredonia last Friday.

Everybody should attend the national prayer meeting Thursday.

FOR SALE.—I have two good milk cows with young calves for sale, priced to sell.—Harry Harpending, Salem road.

I have several Jersey cows for sale. F. W. Nunn.

Stomach Trouble

Mrs. Sophie Bauer, 521 First Ave., North, Fairbault, Minnesota, writes:

"I cannot praise your wonderful medicine, Peruna, enough. It has done much for me during the past ten years and I keep it in the house continually. I was in such a condition that I could eat nothing but bread and milk, and even that was too heavy for me at times. Now, I can eat anything. I will recommend Peruna to all my friends."

Those who object to liquid medicines can procure Peruna Tablets.

I cannot Praise Your Wonderful Medicine

Peruna Enough

FOR LEASE. FLUOR SPAR PROPERTIES

On producing veins in proven territory to miners, operators, producers or prospectors.

1600 lineal feet of John Hodge vein, crossing Linford Kirk's farm near Mexico R. R. station.

1650 lineal feet of the Marion Breaks, crossing Jake Kirk's farm near Crayne R. R. station.
