

The Crittenden Press

Volume 42.

Marion, Crittenden County, Kentucky, Friday, Oct. 31, 1919.

Number 14.

COUNTY OFFICIALS BREAK INTO PRINT.

E. Jeffrey Travis and Grant Davidson, who are professional and scientific fox hunters, and who boast of the runningest dogs in Kentucky, have time and again assured the housewives of the city that their poultry was absolutely safe as they and their dogs were keeping the foxes and other "varmints" scared away, but last Monday evening about 7 o'clock as Circuit Clerk D. A. Lowry, who lives out on North Walker was sitting on his front veranda he saw a large gray fox come leisurely long the street from the direction of Robert Haynes', and after capering around a short time in the glare of the street light, turned and went from whence he came. It would be well for the aforesaid hunters to take due notice and govern themselves accordingly.

Mr. Lowry can't prove that he saw the fox but his reputation for truth and sobriety is unquestioned among his associates around the courthouse.

BIG VEIN OF SPAR DISCOVERED.

Mr. J. H. Pearson, who was in Marion Saturday reported he had struck a three foot vein of fine spar and he was greatly encouraged with the finding.

THIS WILL BE SOME MONUMENT.

Mr. S. W. Smith was in Marion last week to arrange for the hauling of the marble to the cemetery for the big Ollie James monument.

The monument when completed will be thirty-five feet high and make an imposing memorial for Crittenden's most famous statesman product.

The largest piece of marble weighs 34,000 pounds.

Going Some!

Evidently the people who perform marriage ceremonies in Shawneetown are good advertisers. Four couples from Kentucky were married there one morning last week by Judge Smyth in one ceremony.

HIGH SCHOOL TEAM TO PLAY MORGANFIELD

Marion's chance to see a real football game is here according to the way the local boys put it. They are to play Morganfield on November 1 and are confident that it will be a game that the people of the county cannot afford to miss.

The team's press agent gave the Press the following statement: "Marion's football team has been steadily improving until now we feel safe in saying everybody will get their quota of thrills at the Morganfield game. If you want to encourage the boys to do their utmost, come. If you are there and our boys see that you believe in them, the way the Yankees went through the Hindenburg line will be nothing compared to the way we will go through the Morganfield line."

The game will be played at Maxwell Park.

Girls to Play Also.

No, not football—basketball. They are not suffragettes but they sure can play this game according to the same press agent "as good as any male that ever trod the globe."

He also says: "If you want to see a bunch of good looking girls play one of the most interesting games ever devised, be sure and don't miss the one Saturday between the Marion High School Girls and the Morganfield High School girls. Our girls will win and we want you to be there and see it."

This game will be played in the school yard at 2:30 p. m. Admission tickets for both games can be purchased for only 35 cents.

To Drill for Oil.

A drilling machine was unloaded here this week to be taken to the George Foster farm in Livingston county where a test well will be bored in search of oil. W. S. Lowery, who is interested in this project was in Marion Wednesday to see that everything went well with the unloading process.

NOTICE

I Buy County Warrants!!

Beginning on Oct. 30th, 1919, I Will Buy Any or All County Warrants, or Will Trade You

Dry Goods, Shoes or Clothing for them.

Either Way You Want to Sell Your Claim—for Cash or Trade.

BAPTISTS PLAN VIGOROUS WARFARE UPON TUBERCULOSIS IN THE SOUTH

SANATORIUM AT EL PASO, ESTABLISHED FOR THIS PURPOSE, WILL GET FINANCIAL AID FROM 75 MILLION CAMPAIGN—EDUCATIONAL PROPAGANDA TO INFORM PEOPLE ON HOW TO COMBAT PLAGUE WILL BE CONDUCTED.

Administration building of Southern Baptist Sanatorium for treatment of tuberculosis patients, located 4500 feet above sea level.

Do you know that tuberculosis is more prevalent in the South than in any other part of the country?

That the death rate from tuberculosis here is 14.2 per cent greater than for the nation as a whole, and greater than in any civilized nation on the globe with the exception of China?

That more than 150 people a day, or 57,782 a year, die in the South and the Southwest from this dreaded disease?

That there are within the territory of the Southern Baptist Convention 275,000 persons actively infected with the great white plague and an equal number have inactive infection?

That the money loss to the South each year from tuberculosis is \$175,000,000?

These startling facts were brought to the attention of the Southern Baptist Convention at its session in 1916 and a resolution was at once adopted to try and check the spread of the disease and provide relief as far as possible for those already infected with it.

As a result of this movement there was established in the high, cool, rare atmosphere of El Paso, Texas, the Southern Baptist Sanatorium which aims to minister to as many patients as possible and to disseminate throughout the South and Southwest the information that will result in checking the further spread of the disease and enable those who have just contracted it to obtain immediate cures by proper methods of living.

With the active assistance of the business interests of El Paso a modern sanatorium, located upon a beautiful tract of 148 acres on the side of Mt. Franklin, at a height of 4,500 feet, was opened for the healing of the people, and through the Baptist

75 Million Campaign this institution will receive \$500,000 for the erection of additional buildings and \$500,000 for an endowment that will enable the sanatorium to minister to those indigent patients who are unable to pay for treatment.

That there is an imperative need for an institution of this character is shown in the fact that all institutions in the South and Southwest for the treatment of tuberculosis have a total capacity of only 8,757 beds, or one bed for only one person out of every sixty in this section who are afflicted.

Everything connected with the Baptist Sanatorium is modern and of the very best, but its present equipment is far too small to cope with the demands that are made upon it. Of the improvement fund that is to be provided, \$100,000 is available already and architects are already designing new buildings worth \$450,000. These will be constructed just as rapidly as possible.

While the sanatorium is being operated by the Baptists, it will be open to the people of all creeds and no creed. Due to the crowded conditions, however, it is necessary that arrangements be made in advance by communicating with Dr. H. F. Vermillion, superintendent, at El Paso.

The sanatorium is under the general supervision of the Home Mission Board of the Southern Baptist Convention, and in addition to treating patients who have already contracted tuberculosis, it will seek, through a campaign of publicity, to so inform the people of the South and Southwest on the nature and prevention of this disease that the alarming death rate from the white plague can be immediately lowered and finally reduced to the minimum.

WINDMILL NOW BACK NUMBER

Powerful Electric Pumps Are to Replace Them in Holland—Draining the Zuider Zee.

Amateur water-color painters who have been wont to draw pictures of Holland's windmills will soon have to seek other fields, because the modern electric pumps will soon make the contrivances that have helped to keep Holland dry for six centuries mere memories. The electric pumps can be placed on any dyke and can handle 1,000 cubic feet of water a minute, while the mills can only lift about 10 cubic feet in the same time.

These new motors will be used in draining the Zuider Zee, a task which will take 30 years, according to Hendrick Willem van Loon, writing in the Century. When this task is done Holland will have 400,000 more acres of the richest kind of new agricultural land.

Engineers will first of all build a gigantic dyke that will connect the eastern part of the province of Holland with the western coast of Friesland. This dyke will be 48 kilometers long and will cost 1,000,000 guilders a kilometer. It will provide a new and direct road between the northern part of the country and the capital, and will shorten the journey between Amsterdam and Leewarden, the Frisian capital, from 308 to 150 kilometers.

R. E. WILBORN

Republican Nominee
For Representative

Crittenden and Livingston Counties

Election, Tuesday, Nov. 4, 1919

YOUR SUPPORT WILL BE
SINCERELY APPRECIATED

Lower Taxes, Better Schools,
More Pay for Teachers, Abolish the
Useless Offices, and Stop the Waste
of the People's Tax Money.

1 FAVOR lower taxes, by a revision and correction of the present unfair tax laws, providing that all classes and kinds of property should bear its just burden of taxation.

1 FAVOR better schools, equal opportunities for city and rural pupils, longer terms for rural schools, and increased pay for teachers. I am opposed to frequent and needless changes in school books.

1 FAVOR the removal of the many useless public offices, thereby saving for the people thousands of dollars in salaries and expenses annually.

1 FAVOR the removal of the State's charitable and penal institutions and the public schools from the influence of politics.

If elected as your Representative I will do my part in bringing about these important reforms and other much needed legislation.

Go to the Polls, Nov. 4th, and Vote

FOR REPRESENTATIVE
R. E. WILBORN
of Marion, Ky.

POPULAR COUPLE QUIETLY MARRIED.

Last Tuesday at high noon, Mr. Grover C. Walker and Miss Jessie Dell Walker were united in Marriage by Rev. U. G. Hughes at his home on Poplar street in this city.

The groom is a well known young farmer of the Repton section and the bride is the beautiful daughter of Albert M. Walker of Marion R. F. D. 4. The couple are very popular and held in high esteem among their friends.

FRED RAMAGE DIED FRIDAY AT KUTTAWA.

Fred Ramage, about 60 years of age, died Friday at noon at his home in Kuttawa from strangulated hernia. He was employed at the heading mill as a fireman when the accident occurred which resulted in his death.

He is survived by a wife, three daughters and one son, as follows: Mrs. Lucian osier, Mrs. Amos Doom, Miss Georgia Ramage and Press Ramage.

His remains were laid to rest in the Kuttawa cemetery Saturday afternoon amidst a large concourse of sorrowing relatives and friends. Funeral services were conducted by Rev. J. D. Woodson.—Lyon County Herald.

SPEAKER FAVORS NEW AMENDMENT.

James H. Woertendyke of California made a most logical and eloquent address at the Methodist Church here last Friday evening. He spoke on the Constitutional amendment from a legal standpoint. He showed that unless the amendment carried that in all probability Prohibition would be defeated. His interested hearers were made to see plainly their duty to vote for the amendment.

Mr. Gip Watkins returned from a trip Saturday.

MARION BOY MARRIES CALDWELL GIRL.

Last Saturday morning Mr. Kelly Wigginton and Miss Elma VanHooser were united in marriage by the Rev. U. G. Hughes at his home in this city in the presence of a few friends and relatives.

The groom is the son of our townsman, James Wigginton, but is at present making his home in Caldwell county, where he is employed as a carpenter.

The bride is the attractive daughter of the late A. J. VanHooser, of Caldwell county.

GOOD MEETING CLOSES AT SUGAR GROVE.

The meeting closed Tuesday night of this week. There were 16 additions to the church with more to come in later. 23 professed faith in Christ, with a rising tide of religious life in the community. Said to be the greatest religious awakening for a number of years. Rev. F. A. Grundy, with the good pastor did the preaching.

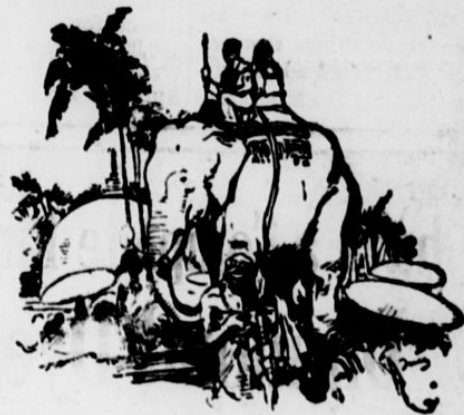

CASSADY THINKS IT PAYS TO ADVERTISE.

Manager Cassady of the Strand Theatre was host last Tuesday night to the women and children of this territory and to say that his party was a tremendous success would be putting it mildly indeed.

The house was filled before the advertised hour for the party to begin and it looked like an overflow meeting would have to be held for those who would not be able to get in the main tent.

The party was to celebrate the beginning of a very interesting and entertaining new serial picture that Mr. Cassady has booked for each Tuesday night. "The Tiger's Trail" is the title of the picture and it is a good one.

Messrs. Sullenger, Clements and Alley, stock dealers, shipped 50 head of fine steers last Saturday.

Give the world the once over

LISTEN, fellows, to some straight talk. Many a man when he gets to be 40, misses something. He may have lots of money, and a fine family but—

He never "got out and saw things". After he gets settled down, it's too late.

Every man wants to see the world. No man likes to stand still all his life. The best time to TRAVEL is when you're young and lively—right NOW!

Right NOW your Uncle Sam is calling, "Shove off!" He wants men for his Navy. He's inviting you! It's the biggest chance you'll ever get to give the world the once over!

The Navy goes all over the world—sails the Seven Seas—that's its business. You stand to see more odd sights, wonderful scenery and strange people than you ever dreamed of.

You'll work hard while you work. You'll play hard while you play. You'll earn and learn. You'll get in, in addition to "shore leave", a 30-day straight vacation—which is more than the average bank president can count on.

You can join for two years. When you get through you'll be physically and mentally "tuned up" for the rest of your life. You'll be ready through and through for SUCCESS.

There's a Recruiting Station right near you. If you don't know where it is, your Postmaster will be glad to tell you.

**Shove off! - Join the
U. S. Navy**

SUBSCRIPTION RATES

\$1.50 per year cash in advance.

LIGHT OR DARK.

There is a possibility that faces Marion at this time. Unless there can be an adjustment between the owner of the light plant and the city council or the company or party who purchased the new franchise, in all probability Marion will be without light for six or eight months. Think of such an added calamity to the destructive fire! It will be perilous to every interest of the town. Surely there can and will be an agreement reached whereby the present light system will be continued until the owners of the new franchise can install its new machinery.

Certainly no one man or set of men will be so selfish and puerile as to bring about such hurtful conditions. We can't and will not believe that Marion has citizens who will suffer such a hurtful thing to come to us.

YES OR NO!

The most important vote to be cast next Tuesday is the vote on the amendment to the Constitution on Prohibition.

If you fail to vote YES and the amendment does not carry in all probability Prohibition will be defeated. If you vote NO then your vote added sorrow to many helpless mothers and children and the blighting of thousands of young lives besides the multitude of other evils that the manufacture and sale of liquor entails.

The Press urges you to vote for the man you prefer for governor but do not fail to vote YES on the "dry" amendment.

LET'S TRY IT HERE.

A number of cities have organized what they are pleased to call a city beautiful society, the aim and object of which is to inspire an active interest in everything calculated to beautify the city. Not a bad idea. It is not necessary to spend immense sums of money to make your home town attractive and pleasing to the eye. There are so many little things that can be done that would add a hundred per cent to the appearance

of most homes individually and to the city collectively. The habit of "tidying up" is infectious or contagious. When you see your neighbor raking the leaves from his yard, picking up the old cans from the alley, mending a broken paling in the fence or adding a coat of fresh new paint to his barn or his residence, it is apt to make you realize your own shortcomings and you will probably go to work likewise. That is what a City Beautiful Society can do. By taking the initiative in these things it can lend an inspiration that will result in a general crusade for a common cause—a clean, attractive and beautiful place that we call home.—Fairbury, Nebr. News.

AGREED!

There is a great deal of tommy-rot in this eternal howling about the high cost of living. The laboring man is better off today under the high prices he is forced to pay for everything he buys than he ever was before at any time in the history of the country—or the world for that matter. Has it never occurred to those who complain that the only way to reduce the high cost of living is to reduce the cost of consumption? The trouble is that we are all strikingly selfish. We would like to see the price reduced on the other fellow's product, while we insist that our own should be held sacred. In other words if we are a producer we want high prices, and if we are a consumer only we want low prices. In our opinion it would be a wise idea to quit complaining about high prices and go to work to secure our share of the prosperity that is prevalent. The low prices will come soon enough if the traditions of history are not false; and when they do come a good many of us will be unprepared.—Fairbury, Nebr. News.

Reason for selling, bad health. \$40.00 per acre for quick sale. Write me. Proctor Hollowell, Kuttawa, Ky. 13-2

CALLS FOR HIGHEST SKILL

Men Who Do the Work of Engraving on Bank Notes Must Be Real Specialists.

Bank note engraving is one of the highest specialized branches of the art, and there are no more skilled experts than those employed at Washington. They are constantly designing "stock" for future bills that may be ordered by the government. They keep their supply in such condition that if a new bill were ordered the design could be chosen from the stock on hand.

Some of the engravers specialize in vignette work, which consists of the drawings of figures on the bills, such as "The Landing of Columbus," etc. Particular care is taken in this because the slightest change in a line on a forged bill makes the counterfeit apparent.

The making of the small square letters is one of the most difficult branches, and for this work a man must have a particular aptitude. The engraving of bills is done piecemeal, with all the portraits, figures, corners, etc., assembled after all is completed.

The engravers are constantly planning on beating the counterfeit. The cleverest counterfeiter in American history was a man in the employ of a New York concern which formerly printed money for the United States, who spent his evenings making duplicates for his gang.

NOT SATISFIED

"Brown is going to get married again."

"Yes, so I hear. He's the kind of a chap who would go to war a second time."

EARLY INFERNAL MACHINE.

A powder plot, which sent the limited constabulary of the country searching far and wide for the perpetrator, but without success, was disclosed in the late summer of 1883 by Governor Wilcox of Rhode Island. He had incurred the enmity of some one who sent him an infernal machine that would have blown the executive mansion into fragments if it had not been discovered.

This was a trunk, containing 25 pounds of powder, into which a pair of pistols were so fastened that when the lid was raised they would be discharged and the contents of the trunk exploded. Suspicion was excited, however, and the trunk cautiously opened; the strings were cut and the plot was revealed.

This item of news was copied into the newspapers generally, with this addendum: "The infamous wretch who contrived this hellish plot is unknown," and there the matter rested.—Newark News.

HUMAN SELFISHNESS.

"Of course," said Mr. Crosslot, "you couldn't undertake to give too many individuals a say in running the railroads."

"Why not?"

"Everyone would want to delay business meetings while he put up an argument to have express trains stop at his particular street crossing."

THE SUBSTITUTE.

"What are people going to do for the popular jokes on the liquor question?"

"They will have to be contented with jokes of dry humor."

MATCHING THE OCCASION.

"So you are going to invite Mrs. Fluffy to your lawn party."

"Sure I am. Do you know of a more appropriate guest for a lawn party than a grass widow?"

TRIBUTE OF AFFECTION.

"They must think a lot of us."

"Why?"

"To invite us out to dinner with food at the present prices."

SO FOOLISH.

"John," she said to her husband, "tell me about this Irish matter. It seems awfully foolish to me."

"What's foolish about it?"

"Why, I overheard a man on the car say the trouble was about an ulcer—fancy quarreling about an old ulcer in all this hot weather."—Boston Transcript.

MAX FREEDBERG - CLAY, KY.

AIRPLANES IN MAIL SERVICE

Idea That They Might Be Employed at Both Ends of Voyage of Ocean Liner.

One of the contemplated uses of the airplane in peace time is that of overtaking steamers at sea for the purpose of placing delayed mail aboard. Obviously, says the Scientific American, the speed of the average airplane makes it possible to overtake a steamer several hours after it has left the port, thereby extending the mail service time that many hours.

An experiment is being made by Zimmerman, a skilled pilot, who will follow a steamer two or three hours after she sailed for England, and, overtaking her, will drop a mail pouch with a wooden float attachment into the sea just ahead of her bow. This experiment will be closely followed by the postoffice authorities and the steamship men in order to determine the practicability of the scheme.

It has also been suggested that steamers might carry small airplanes which, when the steamer neared port, might fly with bags of mail. If airplanes were employed to overtake the steamer, and one or more airplanes employed to make port some hours before the steamer, perhaps eight hours or more might be saved in transatlantic mail service.

OIL SHALE DEPOSITS.

The possibility of using the oil shale deposits of the United States as a source of liquid fuels is under consideration. These are found in several portions of the country but those in Utah and Colorado are the most extensive. At first glance this material shows no signs of oil, but when it is heated the organic materials in its composition are broken up and among other things oil and gas are obtained. The yield varies from 6 to 90 gallons of crude oil per ton of shale, which will yield 7 to 12 per cent gasoline, 28 to 44 per cent kerosene and other valuable products. Considerable use is made of shale oil in England and Scotland.—Scientific American.

GREWSOME ECONOMIES.

"At last," said the missionary, "we have made the cannibals quit eating one another."

"You did the proper thing; only it's going to reduce a food supply in their regions which will probably be mentioned as an excuse for the high cost of living."

THOSE PROFITEERING BARBERS.

Mrs. Subbube (in 1921)—Good-nose, Tom, but your hair is scraggly. Subbube—Well, I can't afford both and don't know whether to get my hair or the barn shingled.—Boston Evening Transcript.

AUTOS IN LATIN-AMERICA.

Latin-America bought \$24,618,638 worth of American automobiles last year, a gain of more than \$21,000,000 over the importations from this country in 1918.

SAYS EFFORTS LIKE THOSE OF DROWNING MAN

Took Medicine as Victim Grabs at Straw, Cromwell Says

—Trutona Brings Needed Aid.

Paducah, Ky., Oct. 30.—"Just as adrowning man grabs at a straw, so have I been trying every new medicine I heard of in an effort to get relief from long standing troubles; and the search has not been in vain, for I have found simply marvelous relief in Trutona," J. S. Cromwell, a prominent Paducah business man of 312 Jackson street said recently.

"I've had liver trouble for a long time," he continued, "and last March I had an infection which left me in a terrible condition. I had a bad cough. Constipation bothered me almost continually and I usually felt tired and worn out. If I leaned over for any length of time I would become dizzy when I'd raise up."

"I simply feel like a man made over again, since taking Trutona. My bowels act with clock-like regularity now, the dizzy spells have ceased to occur and the former terrible cough is 100 per cent improved. And Trutona has restored my old time 'pep' too. I can't say too much in favor of Trutona and I feel it my duty to tell the public as it may be the means of some other sufferer gaining relief. Trutona has helped me where other medicines failed and I'm glad to recommend it."

Trutona is now being explained and introduced in Marion at J. H. Orme's drug store.—Adv.

A Timely Help

The face is often the first to betray a decline in strength. When you feel rundown and your face is colorless, the need for

SCOTT'S EMULSION

is plainly evident. Those who have tried Scott's know its power to strengthen the body, enrich the blood and put the color back in the face. *Don't be pale-faced—take Scott's Emulsion.*

The Norwegian cod liver oil used in Scott's Emulsion is super-refined in our own American Laboratories. Its purity and quality is unsurpassed. Scott & Bowne, Bloomfield, N. J. 19-25

DRUGGIST

"All that the Names Implies."

WILL ANSWER CALL OF WHOLE WORLD

THIS IS AIM OF SOUTHERN BAPTISTS IN THEIR PRESENT DRIVE FOR \$75,000,000.

ENLARGE PRESENT WORK

Forces in Field Today Are Far From Sufficient To Meet Needs of Situation, Leaders Declare—Europe Included On Program.

Now that the larger liberties enjoyed by peoples everywhere, following the close of the world war, have revealed as never before the need and the opportunity for the spread of the gospel to all the ends of the earth, the Baptists of the South have launched their program for \$75,000,000 to be raised in cash and five-year subscriptions between now and December 31, in the hope of making a worthy beginning toward supplying this need.

Of the total sum sought in this campaign, the actual drive for the funds

DR. J. F. LOVE, Secretary of Foreign Missions for the Southern Baptist Convention.

to be made during Victory Week, November 6-10, 1919, will be devoted to missions, and \$25,000,000 of this sum will be devoted to enlarging the work in the ten foreign fields occupied already and to opening up new fields where millions of people have not yet heard the story of Jesus Christ.

Asia, Africa, Latin America (including Mexico and Central America), and Europe are the four continents in which the missionaries of Southern Baptists are operating today. In all of these ten countries of these continents, Southern Baptists have only 2,460 missionaries, 157 foreign workers, 192 of whom are ordained, 15 foreign physicians & foreign trained nurses, 21 native physicians and 25 native nurses. For successful results in the field, the work must be enlarged. The plan is to increase the number of missionaries to 10,000, to increase the number of native workers to 10,000, to increase the number of native physicians to 1,000, and to increase the number of native nurses to 1,000.

Dr. Love declared that at home we are not supported there as we ought with the aid of all kinds and with schools, hospitals and other agencies to enable them to do a larger work in every way. The smallness of the work we have done already can be realized when we look at the vast number of people who have not been reached in the foreign fields we are occupying today. China, for instance, has a population four times that of the United States, or one-fourth the population of the entire world, and our force there consists of only 67 men, 62 married women, 49 unmarried women, 54 ordained natives and 429 unordained native helpers. Japan, which has half as many people as the United States, is being served by 9 men, 8 married women, 3 unmarried women, 11 ordained natives and 6 unordained native helpers. In Italy there are a third as many people as there are in the United States, yet we have there only 2 men, 2 married women, 35 ordained natives, and 3 unordained native helpers. Mexico has 15,000,000 people, and we have in that country and on the border a missionary force consisting of 11 men, 11 married women, 3 unmarried women, 24 ordained natives and 15 unordained native helpers. Argentina has a population of 8,000,000, and our missionary force there consists of 7 men, 7 married women, 14 ordained natives, and 7 unordained native helpers. In Africa, we have entered only one state, that of Nigeria, but this state has a population of 20,000,000, and to serve those people we have only 7 men, 7 married women, 6 married women, 3 unordained women, 3 ordained natives and 52 unordained native helpers. Brazil has a territory larger than all the United States and a population of 50,000,000. Serving those people we have a force of 54 men, 33 married women, 2 unmarried women, 69 ordained natives, and 52 unordained native helpers. Our work in Chile, where there are 2,000,000 people, is only two years old, but we have 12 churches, and 15 outstations, in which last year there were 122 baptisms. We need at least 200 more missionaries now and from the proceeds of this campaign we hope to employ men and equip them and then to the field already for doing the largest work for the Master.

TO THE PUBLIC.

I have opened up a SHOE REPAIR SHOP UP STAIRS first door west of the Farmers Bank. Halfsoles 75cts and \$1.00 Rubber Heels 40cts and .50 Shoes are always at hand and repaired.

Will appreciate your patronage. Respectfully, 124 DAN GREEN

BROUGHT TO RUIN BY WAR

Industry by Which People of St. Thomas, One of the Virgin Islands, Lived, Is Gone.

Although there are 50 islands in the group of Virgin islands, in the Caribbean sea, only three are large enough to be shown on the maps. They are St. Thomas, St. John and St. Croix. The latter is the largest of the group, having an area of 84 square miles, but St. Thomas, with an area of only 28 square miles, is the most important.

The World war robbed the residents of St. Thomas of their one and only industry, and reduced them to poverty. From the days of the buccanniers the harbor of Charlotte Amalie was in high favor. It screened the pirates from view until they were ready to pounce upon passing ships. In more recent times it was a safe harbor for thousands of vessels bound from Europe to Panama. As commerce increased the natives saw their chance to make a real industry of their harbor and gave up farming to work there. The harbor on the south side of the island became the finest in tropical America. In addition to the coaling station, there is a floating dry dock and a marine ship, where splendid repair facilities are provided. The natives carried coal to and from the ships and made a good living. When the war came the German ships, the chief patrons of the port, were swept from the seas. The absence of the usual ships, that discontinued sailings to the port, completed the wreck of the industry.

REPAIRED GREAT KING'S TOMB

British Army in Persia Replaced Masonry Over Ruined Place of Cyrus the Great.

The British army turns its hand to all sorts of jobs, and when our soldiers in Persia repaired the tomb of Cyrus the Great they were following a very distinguished military tradition. When Alexander visited the spot in 324 B. C., he found that both the tomb and the edifice had been broken open, and he set to work to repair and seal up the edifice. The change that our own men repaired had been caused by a tree growing into the roof and displacing the slabs of masonry with its roots.

In Lord Curzon's book on Persia there is an illustration of the tomb which shows a small shrub growing into the top of the stone-work—perhaps the beginnings of this latter day violator of the monument. For a long time the tomb had nothing but military associations. The natives had for centuries regarded it as the tomb of the mother of Solomon, and as such it was reserved exclusively for women worshippers.

BEAR PROTECTION.

Pennsylvania has followed the example of the province of Quebec, in protecting bear as game. It has gone further, for whereas the Canadian law protects bruin for a few weeks, under this new law the open season for bear is only from October 15 to December 15, with a penalty of \$50 for killing bear out of season. But authority is given the state game commission to declare an open game season in any county on bears on petition by residents of a county to the game commission that bruin has become a nuisance. In this case, however, the law states the case must be thoroughly investigated before acting.

LACK OF JUDGMENT.

"A romantic, impractical girl." "In what particular?" "At the seashore she was unable to choose between an impecunious life guard with a figure like Apollo and an anaemic young man worth \$10,000,000." — Birmingham Age-Herald.

THE WAY OF IT.

"After trying Jaggs' new drink with a kick in it, I began to fancy myself at a banquet, with fried chicken, steak, all the eggs I could eat and oysters in every style." "Did you pinch yourself to see if you were awake?" "No, but the cop did."

GIRL CAPTURES WOLF.

Miss Rose May Bowers, aged 16, of Richmond, Me., recently earned \$18 in an unusual way. While out walking she saw a young wolf at the entrance of a den, crawled inside and captured him.

—NOTICE—I take subscriptions for nearly all newspapers and magazines in the U. S. and can save you money. See me before subscribing elsewhere. Freda Belt, Phone 59-2. 12-3*

—FOR SALE—One thoroughbred white Chester hog, weight 300 lbs., 1 year old. W. D. James, Marion, Ky. 12-3*

UNUSUAL MISSIVES OF LOVE

Proof That There Is No End to the Ingenuity of the Victims of the Blind God.

There is no limit to the ingenuity of lovers.

One bashful wooer recently hit on the idea of sending the girl he loved a basket of apples, on the skin of each of which was pricked her name and the message "I love you," while a Canadian soldier proposed to the girl of his choice in a love-letter spelled out in mustard and cross.

But the palm must certainly be awarded to a swain who made a vegetable marrow do his courting for him. The plan he adopted was to trace with a quill his written proposal of marriage on the outer green skin of a young marrow growing in his beloved one's allotment.

At first the writing was practically invisible, but as the vegetable grew, so the traced words stood out more and more clearly, until at length they could scarcely fail to catch the eye of even the least observant of damsels.

Among other unique proposals might be mentioned that of Cyrus Findlay, the American millionaire, who harnessed the famous Bridal Veil fall in California, causing it to "spell out" a love-letter in the Morse code.

COMPLETE MYSTERY.

"Half the world doesn't know how the other half lives."

"I don't know how anybody lives with these prices." —Louisville Courier-Journal.

X-RAY FINDS HIDDEN FAULTS.

The X-ray has been working its way to a position of indispensability in the surgical field for some twenty-four years, its great value to industry is just beginning to be appreciated. An outstanding example of its usefulness as an inspector of superhuman powers was afforded recently in England, during an examination of new air craft, as related in Popular Mechanics magazine. Radiographs in this case revealed serious defects of material and workmanship that no amount of visual study would have found. In a wooden spar of three laminations, the middle, and hidden, section was shown to contain two knots and a grub hole. When the hollow box strut was X-rayed, the strengthening block in the end was plainly seen to be not only badly fitted, but actually split by its fastening screws. It was also made obvious that a wood skid had been cut too short for its socket, and the resulting empty space had been filled with packing. Even the faulty riveting along the seam of a steel gasoline tank "came to light" in the photograph, as well as a defect in a working carburetor.

HIS TEARS OUT OF SIGHT.

Robbie, an active little fellow of 3 years, came running in from play one very warm day, saying: "Mother, I don't think I'll play any more for a while, 'cause it is so hot it makes me cry." Mother, glancing up from her work, said: "Why, I don't see any tears." Robbie quickly replied: "Oh, no, you can't see them, 'cause they are all running down my back."

HALF THE CHILDREN.

Statistics show that in the old days every wife reared an average of two children, while now this average has been cut in half. So now we find that women bring up only half the children her grandmother did and fewer have household duties.

NATURAL DEVELOPMENT.

"I see where the prince of Wales has to use his left arm now to shake hands. Suppose that becomes too swollen to use?" "Then I guess he'll have a kick coming."

SMALL FARM FOR SALE.

House with 2 verandas, hall and 7 rooms in good condition, 8 acres of land. Plenty of water. Within one-half mile of courthouse, just outside city limits. Bargain if sold at once. A. H. Travis, Phone 285-Box 245, Marion, Ky. 13-4†

Red Cross Peace Program Detailed

National Leader to Address Chapter Delegates at the Stat. Meeting

DOCTOR LIVINGSTON FARRAND, Chairman of the Central Committee of the American Red Cross, will visit Lexington, Ky., Indianapolis, Ind., and Cleveland, Ohio, the three states of the Lake Division, on October 20, 21 and 22. Chapter chairmen and delegates have been invited by division headquarters to attend these meetings and hear, at first hand, the far-reaching plan for Red Cross peace-time service.

With its wartime task not fully performed, the Red Cross is concentrating overseas on relieving after-war conditions, and in caring for men still in service.

The traditional responsibility of preparedness to offer relief in times of famine, fire and floods, will be part of the new peace-time service. In addition, the Red Cross chapters are continuing their organization to include the Public Health, Nursing, Educational Classes in Dietetics, Home Care of the Sick and First Aid.

Home Service to civilian families and community work through the Junior Red Cross organization. The development of Community Health Centers, completely organized, where the official and volunteer agencies can be coordinated and brought into harmonious relations for protecting and promoting community health efficiency, is the big offering of the Red Cross to the people in American communities in carrying out its plan for peace-time service. Chapters are to supplement and not supplant the efforts of established and effective agencies.

In Ohio, Indiana and Kentucky, the details of the health center plan will be given to chapter delegates and the public by Doctor Farrand and other National Headquarters officials, at the state meeting just announced.

Red Cross Helps Returned Soldiers In Compensation

MANY returned soldiers do not yet understand that the government furnishes compensation for mental disabilities as well as for physical. The Lake Division headquarters of the Red Cross, Cleveland, reports that 3,999 men in Ohio, Indiana and Kentucky are being treated for mental disabilities—shell shock and other ailments—either incurred during the period of service or resulting from military service.

In any part of the country a properly established claim for help of this sort will be met promptly. The simplest way of getting such a claim established is through the Home Service department of the Red Cross. Application may be made at any Red Cross office, chapter or branch, and it will be referred to the proper bureau.

Disaster Relief Work

Traditional Red Cross Service To Be Continued

PREPAREDNESS for disaster relief on a scale never before possible is being undertaken by the American Red Cross as one of the important features of its peace program. Support of this program will be asked in the Third Red Cross Roll Call, November 2-11.

Statistics show that since 1900 disasters of peace-time have brought personal injury to 1,500,000 persons, at the same time destroying property valued at over \$1,000,000. During 1917 alone, eighty disasters were aided by the Red Cross.

This situation demands a preparedness for emergency relief and that is what the Red Cross is to supply. Red Cross chapters everywhere will create disaster preparedness committees that will make surveys locating food, hospital supplies, clothing, buildings for housing refugees, and will also canvass for physicians, nurses and social workers prepared to respond instantly to emergency calls.

In the case of great disasters where the resources of the division in which it occurs is overtaxed, the entire relief strength of the Red Cross in the country may be mobilized through national headquarters. Red Cross chapters, division offices and the national office are planning to put disaster relief on such a sound basis that it will become nationwide in scope, and will assure for all emergencies a swift mobilization and application of whatever funds, supplies and experienced workers may be needed.

RED CROSS MEMBERSHIP MEANS

The spirit of service expressed in action.

Homes made wreathed by war, need help. Communities at home need Red Cross Service.

The Red Cross in 1920 aims to complete its war work and to serve American communities.

PRINCE ALBERT

the national joy smoke makes a whale of a cigarette!

YOU certainly get yours when you lay your smokecards on the table, call for a tidy red tin or a toppy red bag of Prince Albert and roll a makin's cigarette! You'll want to hire a statistical bureau to keep count of your smokestunts! Why, you never dreamed of the sport that lies awaiting your call in a home rolled cigarette when it's P. A. for the packing!

Talk about flavor! Man, man, you haven't got the listen of half your smokecareer until you know what rolling 'em with P. A. can do for your contentment! And, back of P. A.'s flavor, and rare fragrance—proofs of Prince Albert's quality—stands our exclusive patented process that cuts out bite and parch! With P. A. your smokesong in a makin's cigarette will outlast any phonograph record you ever heard! Prince Albert is a cinch to roll. It's crimp cut and stays put like a regular pal!

Prince Albert upsets any notion you ever had as to how delightful a jummy pipe can be! It is the tobacco that has made three men smoke pipes where one was smoked before. It has won men all over the nation to the joys of smoking.

Division Officials Answer Questions About The Peace-Time Red Cross

"Motor Corps, canteens and base hospital units operating under the Department of Military Relief are being reorganized for peace time. First Aid is being promoted in an effort to save lives. Soldiers in camps at home and abroad still have the Red Cross with them."

W. E. Kellogg, Director,
Department of Military Relief.

"Red Cross courses in Home Hygiene and Care of the Sick and Dietetics, training and enrollment of nurses for public health service and preparation for community emergencies are making the Red Cross nurse a vital factor in raising health standards at home."

Miss V. Lota Lorimer, R. N.,
Director, Department of Nursing.

"Disaster and Emergency Relief has been organized. Information Service established and Home Service will, in many cases, be extended to meet the needs of civilian families as needs of soldiers, and their families were met during the war."

Starr Cadwallader, Director,
Department of Civilian Relief.

"The Junior Red Cross in American schools is giving a new inspiration in work and play to teachers and pupils alike. It establishes a link with the world and trains the children in the ideal of international neighborliness."

Mrs. Harrison W. Ewing,
Director, Department of Junior Membership.

Every Dollar Membership A Vote of Confidence in The American Red Cross

Third Roll Call
November 2-11

CAMPAIGN MANAGER ANNOUNCES DIVISION ROLL CALL QUOTA

THE Red Cross Third Roll Call aims to sign up 2,490,000 Red Cross members for Red Cross service in 1920, according to an announcement made at Lake Division Headquarters today by MacKenzie R. Todd, campaign manager for Ohio, Indiana and Kentucky.

Chapters in Ohio, Indiana and Kentucky, which number 387, have been supplied with campaign material from division headquarters in preparation for the November 2-11 drive for Universal Membership.

Cincinnati chapter has sent an order for 70,000 buttons over the number assigned the chapter by division headquarters. Toledo has promised 90,000 at least and Dayton is counting on enrolling at least 53,000 members. Ashtabula has written Mr. Todd asking for double last year's quota.

To date 86 of the 108 Ohio chapters—40 of the 144 Kentucky chapters and 69 of the 106 Indiana chapters have appointed special Roll Call chairmen to conduct local campaigns for members. Red Cross peace service to humanity is as important as the organization's war service, in far-reaching effects for the betterment of humanity.

MADE BY SCOTT & BOWNE
MAKERS OF SCOTT'S EMULSION

KNOW LITTLE ABOUT HORSES

Montenegrins, Long Used to Oxen as
Beasts of Burden, Fear More
Spirited Animal.

Austrians left many ponies behind in Montenegro. They can be seen on the roads either carrying packs or harnessed to the light carts familiar to travelers in Austria and Poland. Each of these was an Austrian transport wagon, and each bears the name of the farmer from whom it was requisitioned for military use.

To one who knows the Balkans it is very strange to see these ponies and carts in place of the stoic oxen and ponderous two-wheeled carts of pre-war days.

It will not last long, for the Montenegrin does not understand horses, and none are being bred. When a motor approaches, a rider immediately dismounts, seizes the reins far from the horse's mouth and leads him straight into the bank, crosswise to the road. The horse, terrified at his rider's fear more than by the machine, pulls back in front of it, blocking the way completely.

Methods that do for an ox fail when applied to the more spirited animal, and the fear of the rider for his mount increases the misunderstanding. This fear indeed is part of the curious timidity of the Balkan Slavs, which is strikingly at variance with their splendid quality as soldiers.

SUSPICIOUS.

"She asked me to meet her by the garden wall."
"Yet you seem apprehensive."
"Yes! I'm afraid she intends to throw me over."—Awgwan.

VOLCANO'S TERRIBLE WORK.

The volcanic eruption of Mount Klot, in Java, some weeks ago, was caused by a lake on the mountain side overflowing into the crater. The eruption lasted for 40 minutes. Pitch darkness prevailed for ten hours, owing to volcanic ash. Three streams of mud, boiling water, and sand swept down Mount Klot, which is 5,000 ft. high. One stream was three miles wide, and in the center was 75 ft. deep. The flood struck the town of Bitta, 30 miles away, in an incredibly short time, destroying the Chinese quarter, and burying thousands of people for ever. One large estate lost 16,000 coolies, and sustained damage to the extent of \$2,000,000. It is estimated that fully 50,000 people, including a few whites, perished in the streams, which covered 40,000 acres of land.

HOBBLED.

D. R. reports having overheard this bit of conversation on the street:

"Dearie, do you think it would be fun if you had both your limbs inside one trouser leg and you were trying to walk?"

"Certainly not!"
"Well, please wait for me; I can't keep up with you with this skirt on."—Boston Transcript.

SERIOUS OFFENSE.

"I hope my kid didn't try to play the pranks I did as a boy."

"For instance?"
"Hooking watermelons. What passed for a peccadillo in those days would be grand larceny now."—Louisville Courier-Journal.

SURE SIGN OF MADNESS.

"What's the matter with that chap? Crazy?"

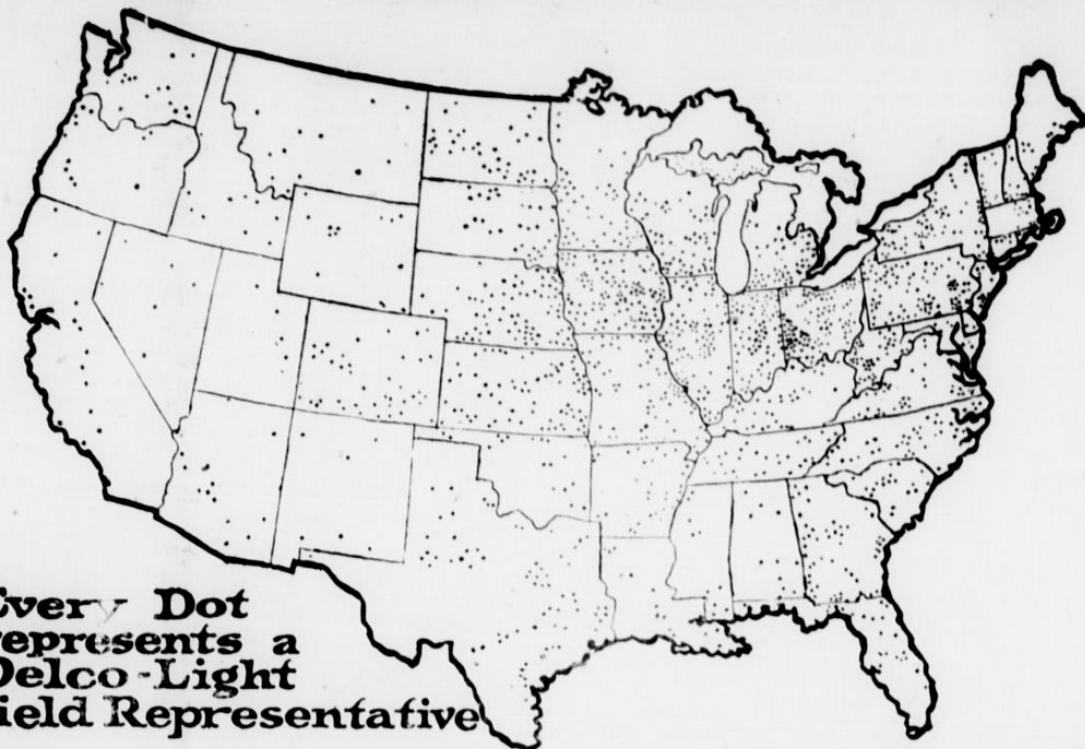

"Worse than that. He's so looney he'd counterfeit Russian money."—Judge.

COMPENSATION.

"We are going to lose the daylight saving."
"Yes, but think how much more you can now get out of the morning after."

NOTICE.

There Is a Delco-Light Man Near You

No matter where you live, there is a Delco-Light man within easy reach of you.

This means much more to you than mere convenience in the purchase of a Delco-Light plant.

These men are trained men—they KNOW electricity as applied to farm use. They can advise you as to the size of plant you should have.

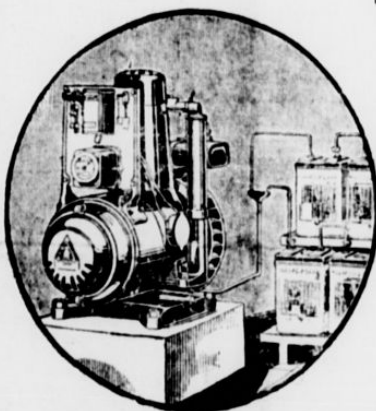

They can see that your house and barn are properly wired—

They can superintend the installation of the plant so that it will give you the most efficient and economical service.

They can give you intelligent advice as to the purchase and use of water system, washing machine, churn, separator, milking machine and other appliances that you can operate with the electricity furnished by Delco-Light.

And—after the plant is installed they are always near-by to advise with you and see that you get one hundred per cent satisfaction out of its operation—

Delco-Light is a complete electric light and power plant for farms and country homes. self-cranking—air-cooled—ball bearings—no belts—only one place to oil—Thick Plates, long-lived Storage Battery—RUNS ON KEROSENE.

Recreation in Hospitals.

The American Red Cross conducts its recreational work in hospitals through trained men and women, introducing a multitude of recreations suited to the handicaps of the men. The accompanying view of a hospital ward shows in operation a moving picture projecting machine, developed by a Red Cross recreational director, which throws the pictures on the wall so that the men do not have to stir from their cots.

Camel Cigarettes

10 cents a package

They Win You On Quality!

Your enjoyment of Camels will be very great because their refreshing flavor and fragrance and mellowness is so enticingly different. You never tasted such a cigarette! Bite is eliminated and there is a cheerful absence of any unpleasant cigarette after-taste or any unpleasant cigarette odor!

Camels are made of an expert blend of choice Turkish and choice Domestic tobaccos and are smooth and mild, but have that desirable full-body and certainly hand out satisfaction in generous measure. You will prefer this Camel blend to either kind of tobacco smoked straight!

Give Camels the stiffest tryout, then compare them with any cigarette in the world at any price for quality, flavor, satisfaction. No matter how liberally you smoke Camels they will not tire your taste!

The Housewives League of New York begins a nation wide campaign to force down the price of eggs, butter and coffee by decreasing consumption.

The Dry law wins over the President's veto. War time prohibition enforcement becomes effective at once. Amen!

W. C. Tyner and wife were in Marion Wednesday. They live in the western part of the county, and are among the best citizens the county can boast of. They were staunch friends of my good father in other years.

Mr. S. A. Nunn of Rosebud section was in Marion one day last week.

Al Dean was seen on the streets of Marion one day last week.

Denny Hubbard, Dick Tudor, John Mayes and Lee Wood of the Shady Grove section, were in Marion one day last week to give in their tax schedules.

In a letter from J. M. Freeman of Los Angeles, Cal., says "I can't get along without my home paper."

Jasper McDowell is quite ill.

W. B. Yates returned Tuesday from Richmond, Va., where he was engaged in a great meeting.

Our townsman and good Dr. C. G. Moreland was honored by the Masonic Grand Lodge last week by being elected Captain of the Guard.

Mr. Thomas Biggers of Glasgow, and Mr. Herman Richards of Cave City, Soldier friends of Sergeant Ellis Baker spent the week-end at the hospitable home of A. L. Baker.

Dan Boyster, a prosperous farmer of Crayne made us a social call last week. We were school boys together back in the seventies. Dan was a good student and has made a good churchman.

J. W. Gahagan and D. W. Walker, two alert farmers of the Weston section were in Marion Wednesday.

Mr. G. W. Davis, formerly of Marion, but now of Nebo was among his many friends in Marion this week. He reads the Press.

Mr. Jim Lawson was seriously hurt at the sawmill here Thursday forenoon.

Mr. John Congers infant was found dead in bed Tuesday evening about dusk, and buried at Pleasant Hill Wednesday.

Mrs. R. F. Haynes daughter, Winlin, and little grand daughter Miss Winnie Pike went to Evansville Tuesday to see Mrs. Anna Haynes Pike, daughter and mother, who is engaged to sing in Evansville this week. Mrs. Pike filled engagements at Chicago last week.

Della Terry, a highly respected colored boy came in Thursday from his adopted state, Arkansas.

Mr. H. O. Howard of Salem section was in Marion Monday.

Mr. J. N. Boston & Sons are bidding on a \$1,000.00 contract at DeKoven to build residences.

Salem street is a busy section just now with many improvements.

Mr. George Foster, of Arizona, reports he planted his garden before leaving for Marion. George is one hustler we regretted to see leave. Our loss will be Arizona's gain. He and his family are fine folks.

Rev. J. B. Trotter is in Pinckneyville conducting a revival.

Mr. S. L. Carnahan and little Louise went to Blackford Wednesday to visit Miss Louise's grandparents, Mr. and Mrs. J. A. White.

Mr. Gip Watkins, of the Dixie Ore Mining Company, returned Thursday from Hopkinsville, where he had been on business.

The remains of Mrs. Ed Edwards were buried Wednesday in the Prowell graveyard. W. F. H.

THE COLYUM

Some one has told me that there is some complaint about me saying so much about that decrepit old bridge on Bellville street. Not the least doubt but that the distillers and brewers of this country kicking about the bone dry laws either but a lot of people think that the country is better off without its booze.

A LAZY MAN IS NO WORSE THAN A DEAD ONE—BUT HE TAKES UP SO MUCH MORE ROOM.

If I were to be asked what the biggest thing in Marion was I would say "The need for waterworks."

WILL ANYBODY DENY THIS?

The Press carries the advertising of people with goods to sell from everywhere between Timbucto and Singapore—except right here in Marion. If an outsider were to take a look at the Press he would think we had a yellow fever sign on the door and only took orders by mail.

There are a few notable exceptions though—the live ones know a good thing when they see it—especially an advertising medium. For instance: The Farmers Bank and Trust Company.

The Strand Theatre. Givens Restaurant. D. O. Carnahan. Chandler & Andrews. Jas. H. Orme, the Druggist. W. E. Belt. Levi Cook. Wheeler's Grocery.

Advertising rates the same to every one. Twenty-five cents per inch. Don't crowd.

Henry & Henry are plastering and papering 5 rooms in the second story of their concrete building for offices.

YOU would not buy a Pullman ticket and then ride in the day coach.

Then why buy Hartford Fire Insurance and ignore the fire prevention service that goes with it?

Better let us explain this service. It's a safeguard that every property owner should have.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over thirty years, has borne the signature of and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its sweet taste makes it the most reliable of all remedies for Infants. It is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. Mothers' Comfort—The Mother's Friend.

THE CASTORIA ALWAYS

Bears the Signature of

SALVATION ARMY CAMPAIGN QUOTA NOT YET RAISED.

The county has not yet subscribed its full quota of \$700 to the Salvation Army Home Service Fund. After all that this organization did for our own boys in France, it would be a shame that we should fail to come up with our part of this fund. Let the citizens remember that this fund can only be raised if each one does a part, no matter how small.

The following school districts have reported so far:

Hebron	\$ 8.00
Tolu	5.00
Barnett	5.00
Post Oak	5.00
Dempsey	5.00
Browns	5.00
Caney Fork	3.75
Gladstone	2.25
Hoods	1.50

Will the others please report to Mr. Franklin as promptly as possible, so that the committee can make their report to headquarters?

A list of individual contributions will be published next week. The committee is still after the full quota—let's raise it.

SMALL FARM FOR SALE.

House with 2 verandas, hall and 7 rooms in good condition, 8 acres of land. Plenty of water. Within one-half mile of courthouse, just outside city limits. Bargain if sold at once. A. H. Travis, Phone 285. Box 245, Marion, Ky. 13-1f

—NOTICE—I take subscriptions for nearly all newspapers and magazines in the U. S. and can save you money. See me before subscribing elsewhere. Freda Belt, Phone 59-2. 12-3*

If You Had A Million Dollars

You would want a safe place to keep it. We beg to call your attention to the fact that THE FARMERS BANK & TRUST COMPANY is equipped for handling large accounts.

You May Not Have a Million Dollars,

yet let us call your attention to the fact that we shall be glad to look after your account regardless of how large or how small that account may be.

Our business is to SERVE; we pride ourselves on our ability to serve well.

RED CROSS GIVES FULL ACCOUNTING

War Council Tells How Millions Contributed by Public Were Used For Relief.

BIG TASK IS DESCRIBED

In Twenty Months \$154,000,000 Was Spent Overseas and \$119,000,000 in the United States.

Washington, (Special).—Through a complete report of the work of the American Red Cross in the war by Chairman Henry A. Davison, on behalf of the war council, the organization on the eve of its annual enrollment of members during the Third Red Cross Roll Call, November 2 to 11, has rendered an accounting of the many millions given it by the American people to help our fighting men and our allies. The statement is, in part, as follows:

"The war council of the American Red Cross is now prepared to make a complete accounting to the American people of money contributed and expended, as well as the work done by the American Red Cross during the period in which the war council was in control of its affairs. The war council was appointed May 19, 1919, and went out of existence February 28, 1919.

"It was the practice of the war council to give complete publicity to its policies and finances, but it is only now that a picture of the war period as a whole can be presented. It is the feeling of the war council that a report in this summarized form should be made directly to the public which provided the money and gave the effort which made the American Red Cross a success.

"A statement of the American Red Cross effort and finance since the war council relinquished its control will be made to the public through the executive committee, and it is important, therefore, that the fact that this report covers the period only until March 1, should be carefully noted."

Following are certain round figures covering American Red Cross participation in the war, as revealed by the war council's report:

Some Outstanding Figures.

Contributions received (material and money). \$400,000,000

Red Cross members: Adults, 20,000,000

Children, 11,000,000 ... 31,000,000

Red Cross workers, 5,100,000

Relief articles produced by volunteer workers, 371,577,000

Families of soldiers aided by Home Service in U.S., 500,000

Refreshments served by canteen workers in U.S., 40,000,000

Nurses enrolled for service with army, navy or Red Cross, 28,822

Kinds of comfort articles distributed to soldiers and sailors in U.S., 2,700

Enlisted articles given to soldiers and sailors in U.S., 10,000,000

Tons of relief supplies shipped overseas, 101,000

Foreign countries in which Red Cross operated, 25

Patient days in Red Cross hospital in France, 1,155,000

French hospitals given material aid, 3,780

Splints supplied for American soldiers, 294,000

Gallons of nitrous oxide and oxygen furnished French hospitals, 4,340,000

Men served by Red Cross canteens in France, 15,378,000

Refugees aided in France, 1,728,000

American convalescent soldiers attending Red Cross movies in France, 3,110,000

Soldiers carried by Red Cross ambulances in Italy, 148,000

Children cared for by Red Cross in Italy, 135,000

Of the \$400,000,000 in money and supplies, contributed to the American Red Cross during the twenty months the war council was in existence, \$293,000,000 was allotted to national headquarters, while \$107,000,000 went to the chapters to finance their activities. Expenditures in the twenty months totalled \$273,000,000, divided as follows: By national headquarters in France, \$57,000,000; elsewhere overseas, \$81,000,000; in the United States, \$45,000,000; by chapters in the United States, \$43,000,000; cost of chapter-produced articles distributed in France, \$25,000,000; elsewhere overseas, \$8,000,000; in the United States, \$25,000,000, making total expenditures in France, \$82,000,000; elsewhere overseas, \$72,000,000; in the United States, \$119,000,000.

Elect Gov. Black Tuesday

Kentuckians! The issues are clear! On its record in State and Nation, a united Democracy asks you to answer these questions by your votes on Tuesday, November 4th.

Will a Ringing Message of Cheer go to that sick chamber in Washington, or will Kentucky go under the cloud of support of those men who are seeking to discredit America's Greatest Statesman, purely for partisan Reasons?

Will Kentucky go forward to four years of progress under the able leadership of Governor James D. Black, or will it become a pawn in the hands of A. T. Hert, whose sole use for our State is the furtherance of personal ambition?

Ballard Self-Confessed Profiteer

Thurston Ballard, the multi-millionaire president of Ballard Mills, of Louisville, was the man chosen by A. T. Hert for his hand-picked Republican ticket as the candidate for Lieutenant Governor. A close personal and business friend of Mr. Hert's, with ample funds at his disposal for campaign purposes, it is easy to see why he was chosen for as the nominee for this office.

Admits Selling His Flour at \$1.10 Less in New Orleans Than in His Own State.

This is the man who is running with Mouth-Piece Morrow at the head of the Republican ticket—the man who, by his own admission, pleaded guilty to being a profiteer. Not satisfied with profiteering, the defense he made of his action is a slap at the people of Kentucky. The reason he gave is that he sells his flour for cash in New Orleans—as though Kentuckians could not pay cash!

Black Fights For the League of Nations But Morrow Only Equivocates!

The Republican nominee is already listening to "His Master's Voice." To Gov. Black's repeated challenges as to his stand for or against the League of Nations, he has given only evasive answers. He dare not face the issue fairly and squarely.

Yet is there anyone who doubts that the election of Morrow will be hailed by Republicans as a victory in their fight in opposition to the League of Nations.

Elect Morrow governor and they will come out from under cover and in glaring headlines announce that Woodrow Wilson's stand for civilization has been repudiated.

By their evasion they stand against it—they make it an issue.

Kentucky gave nearly three thousand of her sons to make the world safe for democracy. Will their lives have been given in vain? Will Kentucky continue to uphold the hands of Woodrow Wilson, to whom the peoples of the world are looking for leadership? Your votes Tuesday will decide.

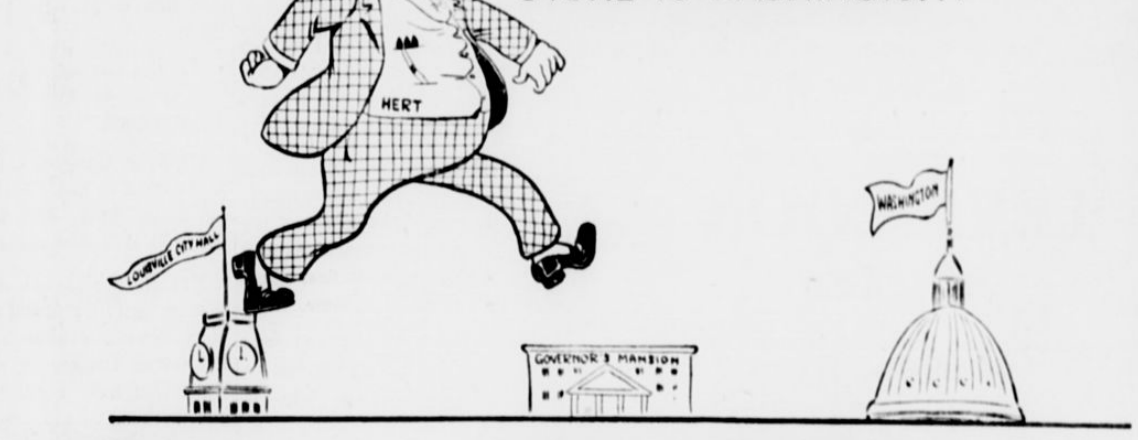

Shall A. T. Hert Rule Kentucky?

Hark to What Chairman Rhea Said of A. T. Hert, the Republican "Boss" of Louisville, in His Speech at the Opening of the Democratic State Campaign at Hopkinsville.

"Shall A. T. Hert, lately of Indiana, now of Kentucky, be allowed to name the members of the State Tax Commission? Shall he and his millions dominate the politics of this state for the next four years? This is the most vital issue facing the people of the State today.

"Shall Mr. Hert, with the aid of Thurston Ballard, the profiteer, and the other millionaire candidates on the Republican ticket, be allowed to take over the State government outright? Behind Mr. Morrow's booming voice is the cunning hand of Hert. Morrow is the mere mouth-piece for Hert. The voice is that of Jacob, but the hand that of Esau. Shall Hert build a bridge from the Louisville City Hall to the State Capitol? Shall the Louisville Republican machine extend its sway to Frankfort?"

DO KENTUCKIANS WANT TO SEE HIM USE THE GOVERNOR'S MANSION AS A STEPPING-STONE TO WASHINGTON?

Vote The Democratic Ticket and Vote It Straight

LEVIAS

(Too Late for Last Week.)

Those who visited at the Price home Sunday were Misses Leola LaRue, Grace Franks, Gladys Enoch, Lemah Franklin, Charlotte Patmore and Mary Lucile Franks. Their escorts were there in the afternoon.

Homer and Mildred Settles are visiting their parents, Mr. and Mrs. Lafayette Settles.

Mrs. Lelia Moore and daughter, Catherine, spent the week-end with her parents, Mr. and Mrs. J. B. Carter.

Percy Taylor and Mack Parker were at Mrs. Price's for dinner Sunday.

Miss Gladys Enoch, of near Marion, spent several days last week visiting Miss Lemah Franklin and attended services at Union.

Thomas Burklow moved to his home here Saturday.

Mrs. Minnie Cooper and Miss Georgia Mae Whitecotton, teacher of the Siloam school, passed through Levias Wednesday.

Mrs. Glenn Hayden, of Salem, spent the week-end with her

parents, Mr. and Mrs. J. B. Carter.

Herman Clark, wife and children visited Saturday and Sunday with her father, J. H. Price. They attended services at Union while here.

Clark Wayland moved to Bud Sullenger's farm below Sheridan Friday.

Miss Charlotte Patmore was the guest Wednesday night of Miss Sallie Sullenger.

Rudell Price went to Marion Friday on business.

Mrs. Martha Franks spent the week-end with her daughter, Mrs. Ada Perryman.

Revs. Carter and Chick; Cloyd Gilles and wife, Mrs. Lena Franklin and Ethylene Price ate dinner with J. H. Price at his home Tuesday, Oct. 14th, that being his birthday.

Letter From Former Citizen.

You are getting out a neat, clean and newsy paper and it is

certainly a welcome visitor at my house. I want to congratulate you on your enterprising spirit and hope that you will have the hearty co-operation of the people of Marion, and that you may be successful in pounding it into the heads of the city authorities the necessity of fire protection. You can't afford to be without it. While I don't suppose that I will make Marion my home again, I will always think of it as home and feel deeply interested in the welfare of the people of both Marion and Crittenden county.

I have been away from Marion for 16 long years but I still think of the people there as they were when I left them and I can't realize that so many of my old friends have passed to the great beyond.

Please place me on your book and let me have the Press regularly at 630 Clarkson St.

With my very best wishes for your success, I am

Yours truly,

JNO. T. FRANKS.

Thank you Mr. Franks.—Ed.

Real Estate Bargains
