Wishes you and yours a
Merry Christmas
and a
Happy New Year

Interesting Letter from Former Editor of Press

Grand Junction, Colo.,
Oct. 28, 1919.

Rev. W. F. Hogard,
Marion, Ky.
Dear Brother Hogard:—

Receipt of yours of the 22nd is acknowledged. I appreciate very much your kindly sentiments. The fact is that nothing arouses my vanity (a laudable one, I persuade myself at times,) so much as any expression that indicates to me that I still have the regard, respect and sometimes affection of my old acquaintances and friends in Kentucky. Among those for whom I entertain a very warm feeling, is yourself and your father. While I have not been in contact with you in the flesh, I have watched your career with an abiding interest, and have felt, that somewhat like the old geometrical proposition, that two things that are equal to the same thing are equal to each other, so two spirits that have a common interest in one great spirit, have a common interest in each other.

I am glad that you and your son have taken over the old Press, and if the good wishes of an old friend—one I dare say, as much interested in its prosperity and usefulness as its owners—can cheer and nerve you for the fine work, keep in mind that you have these constantly from this old friend.

I watch all of the community movements of old Crittenden from time to time, and watch the fine general trend upward she is making; and whenever a step forward is made (and they are being made) an "Amen" goes up as heartily from both my heart and lips as ever went up from the "amen" corner of the old church in Marion when

a Hardison, or a Grumbaugh, or a Hogard, or a Cundiff uttered something that pleased Billy Joel Hill.

Your movement in the good road direction is the greatest thing in material movement that has happened since 1887 when an engine puffed up the tracks into Marion on the little old O. V. R. R., and when this highway proposition is consummated, other things will follow in your development just as other things followed the railroad. We didn't see the mining industry when the railroad came, but it was surely hitched on to that first engine. In my moments of musing, I sometimes "pat myself on the back," because the old Press did its humble share in helping to pull that little engine into town. And as I see that the Press is heartily supporting the good road movement, some of these days the boy, if not you, will smile at himself with unfeigned pleasure that he helped to start the pick and shovel on the great highway.

The thing that surprises me (and chagrins too) is that the merchants of Marion (and there are some mighty good ones there too) are not giving the paper more material support. I hope that you will get them interested with you.

Again assuring you that I appreciated your letter, and invitation to give you a line or two now and then. Some of these times I may take advantage of your invitation.

With best wishes I am
Sincerely yours,
R. C. WALKER.

EDITOR'S NOTE:—This is a personal letter but I take the liberty of publishing it.

George Dollar, who has been in Kansas for about three years, is home for Christmas.

The Christmas Message.

Here we are struggling along in a world of toil and strife and sordid desire. We are absorbed by the petty ends of daily life. So much money must be made in a certain time, we must all hold on to every little article of our own rights, without much regard to rights of others. We jostle and batter and crowd down each other as we grasp and gain and get. Passion and arrogance go so far that 10,000,000 men have just had to die, and half the property of the world has had to be sacrificed, to defend even the simplest and most basic conceptions of justice. Yet over all this scene of dark and selfish turmoil, the stars of God are shining. Their message of love and mercy and peace on earth is brought to man through the sacred Advent of Jesus.

Something deep in the heart of man has always answered to this call. He has responded to it with joy and confidence.

Every Christmas has brought forth its singing of carols which are the poet's and minstrel's prophecy of the new and better day when life's turmoil shall cease in the city of brotherly love. It has brought the lavish

offering of gifts, much of it foolish and mercenary, yet all prophetic the time when men shall be more anxious to give than to receive.

Let us then throw ourselves at this season into the joyous spirit of the carol singers and the gift makers, and do our share to help man arise from these lower levels of sordid life, into the kingdom of good will. There the Star of Bethlehem lights the world on its climbing path upward to the skies.

Two Spots.

In the country they are skinning muskrats and foxes, and in the cities they are skinning the public.

The people who are most eloquent in picking flaws in the way community work is carried on, are apt to be the same ones who will never serve on any committee for any public enterprise.

The old fashioned country school fitted the children to be clerks and book-keepers. Then the country people wondered why the country crowd went to the cities where the clerk and book-keeper jobs were to be had.

The Place For The Children.

Young married people who have gone to the cities write home that they are having the worst kind of a time to find boarding places or apartments where children are permitted. One landlady advertises "No bachelors or babies." One couple wrote home that they could not get board for themselves and little baby for less than \$60.00 a week. Under city conditions people get super-sensitive, and their lives are completely upset by a baby in the home.

When you make a home out in God's open country, there is always room enough. Some one has always heart and floor space enough to take in a couple with their little ones.

Notice Of Dissolution

Notice is hereby given that the Sanders Ore Separating Company, incorporated, is closing up its business, for the dissolution of the said Company.

Is a Good Time to Increase Your Insurance

NOT what your property cost but what it can be replaced for should determine the amount of your insurance. Higher prices have reduced the value of the dollar. Carry enough insurance so that in case of calamity you will get dollars enough to make good your loss.

Place your business with the agency where you are assured service at all times.

Census Enumerators Have Been Appointed

The fourteenth Decennial Census, to which President Wilson has called the attention of the nation in his proclamation made public today. It is to be the biggest, best and most complete census of the United States ever taken if the plans of the Census Bureau do not go awry.

Director of the Census, Sam L. Rogers has announced that everything is in readiness to begin the canvassing campaign that during the month of January, 1920, will cover every mansion, every cottage and every hut in the country. An army of more than 87,000 enumerators, under the direction of 372 census supervisors, will be engaged in making the count. Every person in the land will be enumerated, and the names, ages, birthplaces and occupations of all Uncle Sam's nieces and nephews will be set down and forwarded to Washington.

Many other questions concerning home tenure, citizenship, marital status, literacy, sex, color and race are continued in population schedule which the enumerators will fill out from the answers given them.

FARM QUESTIONS IMPORTANT

Farmers also will be asked the questions contained in the agriculture schedule relating to their farms. These questions cover farm tenure, farm products, values of farm lands, buildings, implements and improvements, field crops, garden products, farm expenses, live stock, poultry, bees, dairy products, improved and unimproved land, farm drainage and irrigation—in fact all phases of the farming industry are covered.

Even the family Ford will be counted, in fact will all automobiles and tractors on farms, questions as to telephones and electric light, gas and water plants also are included in the group of inquiries which fell under the general heading of "farm facilities," the purpose of the government in collecting in-

formation of this character being to show modern improvements installed on farms during the past decade.

INFORMATION CONFIDENTIAL

The census bureau desires to emphasize the fact that the information gathered in the census is for general statistical purposes only and that such information cannot be used as a basis for taxation. Nor can such information be used to harm any person in any way. This is pointed out in the President's proclamation.

As a matter of fact the identity of individuals is lost as soon as the filled-out schedules are received at Washington. For upon reaching there the information is transferred from the sheets to cards. This is done by machinery and names are discarded entirely. Moreover, every person connected with the taking of the Census is prohibited by Federal law from divulging any information given them in the performance of their duties.

The Bureau of the Census has always had the willing cooperation of the public in the past and confidential looks forward to that same spirit of cooperation for the Census of 1920.

Supervisor L. A. L. Langston for the First District of Kentucky with headquarters office at Murray, Ky., has given for publication the following named persons together with the districts in which they will work: Robt. C. Morris, Precinct No. 2, Marion. Wm. U. Howerton, Precinct No. 3. A. O. Woodside, Precinct's 4 and 5. Jas. B. Carter, Union, A. P. Shepherd, Tolu, Mrs. Ruth Strong, Fords Ferry, L. D. Nunn, Belle Mines, Chester C. Newman, Rosebud, W. L. Todd, Shady Grove, Jeff Z. Bantley, Piney.

To Our Friends

IT is the season of Christmas cheer in all the homes where subscribers to this paper dwell. Christmas also in the mind and hearts of you good friends of ours. Christmas, with all that term implies as to universal fellowship, bounteous unselfishness and renewed recognition of the fact that to give is actually better than to receive.

As you have put into anything, that much will you get out of it. Out of the interest you have taken in this paper during the past year we hope you have derived an equal personal pleasure. Your appreciation has made this paper's issuance a congenial work to us of the staff.

And likewise in that same spirit which makes Christmastime what it is, we take this opportunity of expressing our thanks to the business men of this community, and of the territory within which this paper circulates, for their cordial co-operation in practical ways which has made it possible for us regularly to present our best editorial efforts to the community in a creditable manner, and your bearing with us in our handicapped efforts since the fire.

May the kindly glow of this holiday season color life for you and yours throughout the coming year.

The Thief

THINK of the years of toil and saving it takes to get a home.

Isn't it worth protecting in every possible way? Fire is always on the alert to destroy. Be wise and insure to the limit. Also learn how to prevent a fire.

The Insurance Service of the Hartford Fire Insurance Company includes a fire prevention service. Let this agency tell you about this new combination.

THE CRITTENDEN PRESS

Marion, Ky., Dec. 26, 1919.

W. F. and W. P. HOGARD,
Editors and Publishers.

Entered as second-class matter February 9th, 1878, at the postoffice at Marion, Kentucky, under the Act of Congress of March 3rd, 1877.

SUBSCRIPTION RATES
\$1.50 per year cash in advance.

THE COLYUM

Uncle Billy Joel Hill has written an article for publication which will appear in this sheet before very long. Would have printed it sooner but wanted to wait till our campaign for new subscribers was over so a lot more people would get to see it. Everybody knows and loves Uncle Billy Joel.

And by the way this subscription campaign of ours is bringing home the berries. Our slogan "Everybody reads it" is getting to be nearer the truth every day. Of course every one in the county has been reading The Press but several hundred of them have been waiting till the neighbors got through with their copy and borrowed one.

This is mighty good for the supply of print paper but pretty hard on the publisher.

Simply can't write this colyum without saying something about advertising, and I have been accused of mentioning a word or two about an old pile of rotten lumber that some time long since past has probably served for a bridge across a gully. That of course that was so long ago that only a few of the old timers, Uncle Dave Woods for instance, could remember it. It is still used by some of Marion's bravest daredevils as a means of crossing a small stream out near the mill. It is located on Bellville street. Ever hear of it before?

About the only people who can cross it without a tremor of fear are Orville Lamb and Hollis Franklin. Orville says it brings back recollections of the good old days in France when you couldn't sleep if the artillery

was quiet and although Hollis hasn't stated how he can get away with it I happened to know that he was raised down near Ford's Ferry where they are not surprised at anything in the way of highways.

Demand Continues to Increase.

According to information from the Home Office of the Ford Motor Company, Detroit, Mich., their unfilled orders are continually increasing and have long since ceased to be reckoned by the thousands but are now a matter of hundreds of thousands, and the present demand is not being met.

Already Ford dealers in their states where winter brings a slight decline in the number of sales are advising prospective spring purchasers to buy now. Nothing but real orders will bring cars to their territory. Southern dealers and the foreign demand will otherwise consume the entire output.

BLACKFORD.

Realizing the important fact that yesterday is gone forever, tomorrow never comes, today only is ours in which to do our "little bit," therefore we shall chronicle a few of the things that are happening here.

There is being some repairing done and some preparation for new buildings. We are planning and hoping for a great improvement in the near future.

John Mark Dilbeck contemplates building a residence as soon as the weather permits.

Our old time friend Elmer M. Gahagen, of Rodney, was here last week looking after business affairs.

The revival meeting which has been in progress at the Presbyterian church recently, closed after a very successful meeting. The pastor, Rev. Byrd Loyd, was assisted by Rev. W. T. Oakley, of Marion.

Owing to inclement weather the protracted meeting which should have commenced at the Methodist church last week, has been postponed until a later date.

Mrs. Callie Cook, of East Prairie, Mo., a native of old Crittenden county, Ky., has returned to her "habitat" and is now with her sister, Mrs. Nonie McGreggor.

Walter Omer, son-in-law of G. W. Crowell, has moved to the Rev. C. I. Gooch farm near Sullivan and is arranging to farm extensively.

The reliable genius, William Thomas Fowler, has built a new ferry boat which is now under the supervision of John G. Simpson when you wish to cross Tradewater at this place.

J. L. D. Brantley (whistling Dow.) of near Repton, recently moved to this place and provided that the climate and society of this burg suits him, will soon be adopted a full-fledged "Black-forder."

The most noted characters observed at Blackford recently were Revs. W. F. Hogard and W. T. Oakley, of Marion; and J. A. Oakley and Malen Crowell, of Providence.

Among our girls who will spend Christmas vacation with home-folks are Misses Mina White and Ruby Horning. Miss Mina is a student at Lexington college and Miss Ruby a grade teacher at Clay. The young ladies are striving to equip themselves for usefulness and deserve praise as well as encouragement.

We are nearing the end of the memorable year 1919 and doubtless this epistle may be the last communication from us during this year, therefore wishing the inhabitants of the "Four corners of readerdom" unbound success in all laudable undertakings during the good year 1920, we quit with a clear conscience.

Ford Headlight Charms Rabbits.

Recounting his experience with his Ford Car, George Ambler, Detroit, Mich., tells the following: "It was in July this year. My wife and I were over in Canada. Traveling one morning at two o'clock on the road between Ridgeway and London, the glare from the headlights blinded two fat rabbits who remained in the direct path of the car. I promptly picked them up and, Oh Boy! how we enjoyed our rabbit dinner."

This is just one more achievement credited to the "Universal Car."

NEAR EAST RELIEF

POSTER BASED ON ACTUAL PHOTOGRAPH TAKEN AT ERIVAN, ARMENIA, BY DR. M. S. LITTLEFIELD

He is only one of 250,000 helpless child victims of Turkish cruelty and oppression in Western Asia. Clad just as he stands in the picture this forlorn little fellow, with hunger-stricken cheeks, hopeless mouth and frail, starved body, was found wandering in the streets of Igdir, Armenia, by Dr. Milton R. Littlefield of the Near East Relief. He was taken to a Near East Relief orphanage, where it was found that his only earthly possession was the single garment in which he stood—a worn, patched blanket made from a burlap sack. "I saw this ragged little fellow on one of the busiest business streets of Erivan, not far from the orphanage," said Dr. Littlefield. "He was wandering aimlessly about and no one was paying the slightest attention to him. I did not pose him; the picture shows just the way he stood when I backed him up against a nearby wall."

The photograph is the basis of a striking poster now being distributed by Near East Relief.

Program For The Week of Prayer.

The following program will be observed by the churches of the city Sunday morning, January 4th, in the various churches.

Subject:—"The Church Awakened by her new Opportunities." Union services during the week as follows:

Monday evening at the First Presbyterian church.—Subject: "The Church Awakened by Self Examination." Principal speaker, Rev. J. F. Price.

Tuesday evening at the Christian church.—Subject:—"The Church Awakened by a Vision of the World's Needs." Principal speaker, Rev. W. F. Hogard.

Wednesday evening at the First Cumberland Presbyterian church.—Subject: "The Church awakened the new call for cooperation." Principal speaker Rev. M. V. Escott.

Thursday evening at the Main Street Presbyterian Church. Subject: The Church awakened by a call for workers. Principal speaker, Rev. H. R. Short.

Friday evening at the M. E. Church. Subject: "The Church awakened by a revival of home religion." Principal speaker, Rev. T. C. Newman.

Sunday morning in all the churches by the pastors:

The church awakened by the rediscovery of the reality and power of prayer. These services will be conducted under the auspices of the Pastors Association of the city.

Rev. T. C. Newman Chm.
Rev. H. R. Short, Sec.

W. H. Hopper has moved from this place to near Curlew and is preparing to farm.

GERMANS TAKE TO THE LAW.

In spite of what the Frankfurter Zeitung calls "the desperate situation of the young lawyer" in Germany, the number of law students in the Prussian universities is steadily increasing. In the winter semester of 1914-15 they numbered 4,500, or 17 per cent of the students, while in 1918-19 they amounted to 7,938, or 22 per cent.

The Frankfurter Zeitung points out that on August 1, 1918, there were 5,456 referendaries (young lawyers who practice in courts without compensation for several years after graduation) in Prussia, and it says that their demand for a daily wage of at least as much as the unemployment allowances of six marks is certainly justified and should be granted.

ADVANCED COURTIERS.

"Are you expecting your boy to return home soon?"
"Yes," replied Mr. Glithery.
"Has he been mustered out of service?"

"Not yet, I believe, but he's in America, and about a dozen letters have already arrived from different parts of France, addressed to Henry in a feminine hand. I wouldn't be surprised if he turned up here at any moment now."

OLD SCORES.

"Why are you so overtearing and exacting with the ex-soldier you took on as clerk? I should think you would treat an army comrade better."

"Army comrade nothing! He used to be my sergeant."

BIG DEAL.

"What's the excitement in your neighborhood?"

"Going to pool our interests and buy a community watermelon."—Louisville Courier-Journal.

WHY SUFFER

With Headache or Nervousness?

Don't you know eye trouble causes these very things?

Dr. Gilchrist

UNDER STRAIT OF GIBRALTAR

Project for Tunnel is Believed by Engineers to Be Comparatively Simple Matter.

If it is feasible to tunnel the English channel, twenty miles in width, it is even more feasible to tunnel the Strait of Gibraltar, which is but eight miles wide at its narrowest part. I do not imagine that such a man as Samuel Rea of the Pennsylvania would hesitate at such a job, writes Edward Hungerford in the Saturday Evening Post.

This would mean that it would be an easy matter indeed to send a through train from London under the English channel, across France and Spain, the selfsame Strait of Gibraltar and straight to the wonderful new port of Dakar, which the French have been so quietly constructing these past few years in Senegal at almost the extreme westernmost point of Africa.

There the Atlantic is narrow indeed. An ordinary fast steamer can cross from Dakar to South America in four or five days, while the traffic experts in London figure out that, with such a through rail route, from Charing Cross or Victoria to Rio de Janeiro will be only eight days and Buenos Aires nine days distant from London; with Santiago de Chile, by means of the Trans-Andean railroad, only two days farther.

PROMPTLY SUPPRESSED

"Are you what they call a parlor socialist?" "No. I used to be one, but I came in with muddy feet and my wife forbade me the use of the parlor."

PAJAMAS AMONG SNAKES.

When Northern Pacific train No. 41 was derailed at dawn near Pasco, Ida., recently, five of the coaches were overturned and badly smashed, but none of the passengers was injured beyond slight bruises. Sixteen rattlesnakes which escaped from their crate caused more excitement than all the rest of the wreck.

About one hundred passengers, still attired in night robes, made a wild scramble for the tops of the coaches when the rattlers began to announce their presence, though the baggagemen stuck to their jobs and rounded up all but one of the reptiles, which belonged to a traveling carnival company. When the train reached Yakima the passengers received their baggage gingerly, because the viper was believed to be secreted in the baggage car, which had been attached to the relief train.

CLOSER QUARTERS.

"It's a shame the way people are packed into these trolley cars like sardines," exclaimed the fussy old gentleman. "There's hardly room to draw a long breath."

"I've traveled with much less comfort," said a husky young man as he gently but firmly removed a fellow passenger's elbow from the pit of his stomach.

"Where, sir? Where, sir?" "I was once headed for Germany in a tank."—Birmingham Age-Herald.

CONFUSED CALCULATION.

"How many wives had Solomon?" "What difference does that make?"

"I was just wonderin' how he could have been the richest man if he had to provide his family with shoes at \$25 a pair."

CHANGED CIRCUMSTANCES.

"I thought you said you wouldn't marry him if he were the last man on earth?"

"So I did, but I had no idea that he would strike it rich in business."

THE COLYUM

(continued from page 4)

There is one line of business in Marion that sure is in the hands of live ones though—Insurance. The insurance men are the best advertisers in Marion—and it pays 'em or they'd quit. For instance C. G. Thompson doesn't make much noise about it but he has advertised in the Press every week since it has been under the present management and he just quietly keeps on selling insurance. There are other good insurance agencies in Marion and no one will dispute it but C. G. is the only one who has been with us every week.

The students of the Marion High School are getting out a paper all by themselves, mechanical work and everything. They call it The Marionite, and the sheet is a credit to the boys and the school. Here's hoping they make a go of it—why not kick in with 75cts for a year and help the boys along—they are not in it for the money and the six bits won't be wasted.

No paper next week. We hope to be moving into our new building on Main street.

Here's a Merry Christmas to you and yours, and hoping that 1920 will bring waterworks to Marion, good roads and big barns, painted red too. Who ever saw a pretty barn painted any other color. Silo on every farm, electric light plants and water in the farm homes, blooded stock in the pastures and fine school houses and everything. I thank you, W. P. H.

SOCIETY

Mrs. Newton Moore entertained Monday evening with a Kitchen party for Miss Miriam Pierce, who is just home from Louisville Conservatory.

The young ladies were attractively attired in long kitchen aprons, and from the way they moved around in the kitchen, one would think they were all skilled cooks.

Those present were:—Misses Miriam Pierce, Gladys Gray, Virginia Flanary, and Nellie Stone. Messrs. Clifton Crawford, and Robert Hamilton.

William Edward Belt, the 13 months old baby of Enoch Belt and wife, has been quite ill for the past two weeks with erysipelas, but is somewhat improved now.

A. F. Driskill and wife are the proud parents of a new baby boy, born Monday night.

THERE TO SUIT.

"What I want to see is one big union," said the fat man. "You shall see that very thing," said the salesman. "What else do you want?"—Buffalo Express.

JUST AN OBSERVATION.

We can't understand why young folks want to go up in an airplane to get married. They can stay on earth and fall out quick enough.

SUPERABUNDANT TOPICS.

"Are you a socialist?" "No use of being a socialist now. Plenty of other things to keep the conversation going."

WOMEN WAR WORKERS. EAGER TO SERVE, GO TO AID ARMENIANS

Mary Vail Andrees, Only Woman to Receive Distinguished Service Medal, Heads Party.

Disatisfied with uneventful civilian life, after two years vivid experience as workers abroad in the world war, a party of young women, led by Miss Mary Vail Andrees, of New York City, have just gone to the Near East.

MISS MARY VAIL ANDREES, Distinguished Service Heroine Who New Goes to Near East.

where nearly a million people are suffering from disease and starvation. Miss Andrees had returned to this country after serving for the Red Cross, but when she read of the sad plight of the Armenians, she at once offered her services to Near East Relief, the former American Committee on Armenian and Syrian Relief, which already has saved thousands of lives in Western Asia. Miss Andrees is the only American woman war worker who was awarded the Distinguished Service Medal by Congress. Most of the other members of her party likewise served with honor for the Red Cross and other war service organizations.

Among the other members of the group are the Misses Frances and Betty Anderson of New Canaan, Conn., who were decorated with the Croix de Guerre by the French Government; Miss Margaret Milne of Washington, D. C., who was a member of the Hoover Relief Commission for its Manila, and Miss Alex Sidney, an English woman who served for three years with the British Relief Commission in Serbia. Miss Doris Nevin, another member of the party, is a daughter of the late Ethelbert Nevin, the composer.

Col. William N. Haskell, commissioner to the Near East for the Paris Peace Commission and official representative of the Near East Relief, has called that the relief workers now in the field are overwhelmed by the magnitude of their task. Col. Haskell says 800,000 Armenians will starve before the next harvest unless they are given aid and 120,000 orphan children face death from hunger and exposure. Thousands of refugees are daily being brought to the relief centers from the deserts.

WANTED:—One ton good peas. W. E. BELT.

ALLENBY STOPS CRAFT OF TURK

Persecution of Armenians and Confiscation of Property Prevented by English Officer.

The most arbitrary city boss in the world, it seems safe to say, as well as the most unscrupulous politician of modern times, has turned up in Antioch, Armenia, to judge from an official report recently made by Major Stephen Townbridge, under Gen. Edmund H. H. Allenby's orders.

He is a Turk named Bostan Bey. Until the Near East Relief agents stopped him, he practiced upon the terrified Armenians such forms of supercraft as might make every other corrupt politician in the world green with envy, and such cruelties as make all other heartless rulers from Nero down seem sweet and gentle characters. His office was that of Municipal Chief Accountant of Antioch, but, as all dishonest officeholders know, it isn't the job that matters, but the sugarplums that go with it. Bostan Bey plucked sugarplums with both hands, night and day.

Even inspired city bosses have their lay. Bostan Bey's came when the Near East Relief agents found that no thorough Armenian relief work could be done in that city while such conditions of terrorization existed. General MacAndrew ordered the arrest and removal of the six worst Turks in the city that night, and Bostan Bey's qualifications as a city boss were nullified.

PLEASURE IN THE FORBIDDEN.

Visitor (viewing explicable)—You have signs up "Keep Off the Grass," but I notice you don't enforce them.

Host—They are there so that the people will more thoroughly enjoy being on the grass.

GREETINGS FROM YOUR PASTOR

Greetings of the Season to the Citizens of Marion:

As we come to the close of the year 1919, we look with profound gratitude to the citizens of Marion for their loyal support of our churches and Sunday Schools. We congratulate ourselves on being the pastors of such a loyal Christian citizenship as is found in our prosperous little city. As we review the year that is about to pass, we realize you have labored under grave circumstances with these treacherous days of reconstruction upon you, yet you have found time to attend church and to give your support to Kingdom work in a great measure.

We have been conscious of your sympathy and prayers during the year and wish to acknowledge the genuine courage and joy that you have been to us. We are also mindful that you have greatly increased your financial support of our Lord's cause. We beg to assure you of our prayers and interest in your happiness and prosperity for the New Year.

We desire in this public way to extend our sincere thanks for all the support you have given us and promise to try according to our best judgment to promote the well-being of our Christian citizenship.

IN THE DINING ROOM.

"Of course some of the profits will manage to escape."

"Undoubtedly. I don't see the slightest sign of anxiety in the face of our head waiter."

A WONDER.

"He keeps himself well posted."

"That so?"

"Yes, the man understands all about the stock market."

Will Not be One Day Without

PE-RU-NA

This Lady TELLS Her FRIENDS

Mrs. Mary Fricke, 507 Bennett St., Belleville, Mo., has just one of the many thousands of letters throughout the country who, after an agony of years, have at last found health, strength and vigor in PE-RU-NA.

Her own words tell of her suffering and recovery better than we can do it. "I suffered with my stomach, had awful cramps and headaches so I often could not lay on a pillow. Saw your book, tried PE-RU-NA and got good results from the first bottle. To be sure of a cure I took twelve bottles. I have recommended PE-RU-NA to my friends and all are well pleased with results. I will not be one day without PE-RU-NA. Have not had a doctor since I started with PE-RU-NA, which was about 10 years ago. I am now sixty-three years old, hale, hearty and well. Can do as much work as my daughters. I feel strong and healthy and weigh more than I did before. Before, I weighed as little as one hundred. I hope lots of people use PE-RU-NA and get the results I did." An experience like that of Mrs. Fricke is an inspiration to every sick and suffering woman.

If you have catarrh, whether it be of the nose, throat, stomach, lungs or other organs, PE-RU-NA is the remedy. It is not new, it is not an experiment. PE-RU-NA has been tried. PE-RU-NA has been used by thousands who once were sick and are now well. To prevent coughs, colds, grip and influenza and to hasten recovery there is nothing better.

PE-RU-NA will improve the appetite and digestion, purify the blood, such the irritated mucous linings, eradicate the waste material and recondition the system. It will tone up the nerves, give you energy, vigor and the joy of life. In short, Mrs. Mary Fricke and thousands more have done it. PE-RU-NA. You will be sure, happy and content.

FURNISHED LIVING TO MANY

Extent of Antwerp Diamond Industry
Will Be Something of a Surprise
to the Uninitiated.

In the year 1914 there were about 20 diamond-cutting shops in Antwerp, employing about 16,000 cutters and 3,000 cementers, altogether about 20,000 highly skilled workmen, who earned \$20,000,000 a year. Besides there were between 3,000 and 4,000 manufacturers, merchants and brokers; what these men earned it is impossible to tell; it is certain that they dressed flashily and spent lots of money. If it is considered further that these 23,000 diamond men had families averaging three or four members, it will be found that the living of 100,000 people depended directly on the diamond trade. Add to this the large number of hotel and cafe owners who made huge sums on the diamond trade. The fact is these men acted as private bankers to the cutters, who lived almost exclusively in hotels and boarding houses and paid their accounts at long intervals. Finally there were hosts of tradesmen and retailers who supplied the "diamond people" with provisions, clothes and furniture. The diamond club of Antwerp, where the yearly business ran into millions of francs, had a membership of 12,000, all of them merchants, brokers or manufacturers.

ICE DODGING IN LITHUANIA

Dangerous Sport That is Indulged in
by Boys and Girls When
Spring Comes.

Lithuania is shut up tight in its many fire-warmed houses during the long ice-gathering winters.

Sport starts in the spring, when the rivers roar with hurtling ice floes that would have frightened even 'Liza into staying on the other shore.

But Lithuanian boys and girls are not frightened, an exchange says. They pull out their canoes and slip into the swirling floods, and go down the rapids dodging the huge blocks of ice that the warm weather has loosened. Parents and friends stand shouting on the shores. They shriek advice and encouragement, but the canoers can't hear them for the noise of the water and ice.

Far down the river they land on the soft mud banks and all are escorted to the home of the winner of the race, and fed with poppy cakes and home-brewed beer. The game is a dangerous one, but Lithuania has been trained through centuries of oppression to welcome danger. She is now asking the world to recognize her rights as an autonomous nation.

MARINES AS CAVALRYMEN.

Mounted marines were seen for the first time in the streets of Salt Lake City when members of the United States marine corps appeared as cavalrymen in a parade, given in honor of visiting Rotarians, who held a convention there recently. The sea soldiers explained that while "horse marines" are a novelty in this country, many of their comrades are serving as mounted infantry at Peking, China, and that several troops of mounted marines are now busy rounding up bandits in Hayti.

HIS SCRUPLES.

Mrs. Flatbush—So your husband didn't go to the war?
Mrs. Bensonhurst—No, he didn't.
"What was the matter? Was he afraid?"
"Yes; that was the trouble. If he went he was afraid he'd just make a slaughter house of the battlefield."
—Yonkers Statesman.

THE NEWER DIPLOMACY.

"I thought our engagement was to be a secret."
"Well?"
"You've told it all over town."
"I believe in open covenants openly arrived at."—Birmingham Age-Herald.

WISHED TO FORGET.

"Stop that!" cried old Growcher to his small nephew who was reciting about the cow jumping over the moon. "There's no use constantly reminding us how high beef and dairy products have gone."—Boston Evening Transcript.

MAY HAVE AERIAL HOSPITALS

Future Development of Giant Airships
Promises to Provide Ideal Germ-Free Atmosphere.

Although a permanent residence in the air is not yet feasible, the development of the giant airship provides possibilities of remaining at high altitudes for considerable periods at a stretch. Thus a germ-free atmosphere (superior in this respect to that for which the rich journey to Davos-Platz) can be obtained 5,000 feet above Oldham or Bradford for those with shallower purses; and the picture of aerial hospitals for early pulmonary tuberculosis, gliding gracefully over our cities, is drawn, not as the phantom of a dream, but as a realizable possibility.

The advantages and disadvantages of the altered atmospheric pressure are discussed by Captain E. Brown in the National Review. They are, of course, familiar, but the reader's attention is specially directed to the volume and movement of the air at high altitudes as possible factors of considerable importance, for the degree of motion and the immense volume present at high altitudes can rarely, if ever, be obtained on the earth. The author, who certainly writes with enthusiasm, foresees vast curative possibilities from the stimulating effect thus provided, and prophesies that we may in time go to aerial spas as we now go to Bath or Harrogate for certain diseases.

A month or two ago we received from Captain H. W. Bernard, R. A. M. C., a communication in which he worked out in some detail the requirements for fitting out a captive airship as a tuberculosis sanatorium. —British Medical Journal.

MOURN LOSS OF HEIRLOOMS

Beautiful Scarfs Treasured by Roumanian Women Made Spoils of War by Hun Invaders.

Millions of dollars' worth of beautiful and picturesque scarfs that formerly adorned the heads of Roumanian women have disappeared as a result of the war, many of them being carried off by invaders. American Red Cross workers report that replacing these treasured possessions is one of the few services they have been unable to render the stricken Roumanians, but they have promised the next best thing, encouragement for silk and textile makers to resume operations that will furnish the requisite materials.

When the war came to Roumania there were \$8,000,000 worth of these scarfs on the heads of its women. They were varicolored, of very fine texture and always attracted the traveler's attention, because they were heirlooms handed down from mother to daughter, and great care was taken to preserve them for generations. The invading troops soon began helping themselves to the scarfs, and women who tried to hide the precious adornments were usually found out and punished.

PAPER FROM COTTON HULLS.

As result of experiments conducted by the forest products laboratory, United States Department of Agriculture, a good grade of paper is being produced in commercial quantities from cotton-hull fiber. Pulp made from second-cut cotton linters and hull fiber, the forest specialists say, is well suited for the manufacture of book, writing printing, blotting, cover and other high grades of paper, and is equal in quality to the highest grades of paper stock.

COMPLICATED REASONING.

"The hired man says he's going to quit work," remarked Farmer Cornucopious.
"What's the trouble?"
"He says that he's tired of all this controversy about the cost of food. He seems to think the way to stop it is to decide that so far as his efforts are concerned there won't be any more food."

REFUSED THE RECIPES.

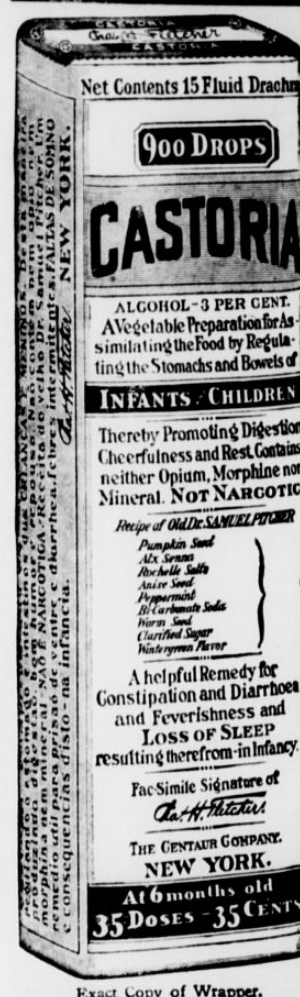

"The wife's against me."
"What's the matter?"
"I brought her home the stuff and a dandy recipe for making home-brewed beer and she wouldn't cook it up for me."

AMONG BUILDERS.

"What we want now is reconstruction."
"Yes; and not too much delay in drawing the plans and specifications."

Mr. and Mrs. E. B. Stribling and children left Friday of last week for Nashville, where they will spend the holidays with her parents.

Miss Elizabeth Cook arrived Saturday from University of Kentucky and Lexington to spend the holidays with her parents, Mr. and Mrs. Levi Cook.

Joint Use of Tools.

One of the principal reasons why farming has been unprofitable, is that a complete outfit of tools and machinery costs such a very large sum. It is a tremendous tax on an industry the size of the ordinary farm.

Many authorities say this situation should be met by farmers agreeing to exchange tools and machinery. Some farmers have always done that and have thereby saved a great deal of money and labor. Others always get into disputes, and the exchange agreement breaks up in a row.

People must learn to co-operate and put up with little inconveniences to accomplish co-operation. If they can learn this

lesson, they can greatly reduce their equipment charges and obtain the use of labor saving machinery.

Catarrh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a local disease, greatly influenced by constitutional conditions, and in order to cure it you must take an internal remedy. Hall's Catarrh Medicine is taken internally and acts through the blood on the mucous surfaces of the system. Hall's Catarrh Medicine was prescribed by one of the best physicians in this country for years. It is composed of some of the best tonics known, combined with some of the best blood purifiers. The perfect combination of the ingredients in Hall's Catarrh Medicine is what produces such wonderful results in catarrhal conditions. Send for testimonials, free.
