Statement of the City Coal & Transfer Company

There was released to the City Coal & Transfer Company by our railroad agent, during the late coal strike, a car of "mine-run" coal which was from the Fentress Coal Co., of Tennessee. When the coal was released we had no bill of rates or cost, either of the coal or the freight. Our Agent advised that we base our selling price on war time prices for "mine-run" coal F. O. B., which was \$2.35 per ton, and the freight at double the rate to Hopkinsville, which was \$1.50 per ton and war tax; and, by this estimate the freight was \$3.00 plus the war tax, 9 cents, making \$3.09 freight and war tax; but when the bill did come, and which we had to pay, it was \$3.91 freight, including war tax.

We gave to the Railroad Agent, at his request, a certified check for the coal, for \$110.04, which came in and was charged up to our banking account at Farmers Bank.

We have this check in our possession, with the various endorsements, and which shows it was given for this very same identical car of "mine run" coal. Nevertheless, the Fentress Coal Co., sends us another bill for this same car of coal, charging us \$2.53 F. O. B., amounting to \$119.54 more for the very same coal. But the Agent says we are sure to get back the amount of the check for \$110.04, which we gave to the railroad company. But, at the present we are out for above coal, first check for coal to the railroad \$110.04, and second check for same coal to the Fentress Coal Co., \$119.54, and check for freight on this coal was \$184.93, making the present amount out by us for this car of coal amount to a total of \$414.51. We have only realized \$295.00. We are, therefore, short \$119.51 on above car as it now stands.

We have filed claim for overcharges, and if we ever get anything to make refunds to our patrons, we will certainly do so.

Synopsia.—Hilary Askew, young American, comes into possession of the timber and other rights on a considerable section of wooded land in Quebecthe Rosny seignlory. Lamartine, his uncle's lawyer, tells him the property is of little value. He visits it, and finds Morris, the manager, away. From Lafe Connell, mill foreman, Askew learns his uncle has been systematically robbed. Askew and Connell reach an understanding, and Askew realizes the extent of the fraud practiced on his uncle. Askew learns that Morris, while manager of his (Askew's) property, is associated with the Ste. Marie company, a rival concern, of which Edouard Brousseau is the owner. Hilary discharges Morris and makes Connell manager. Askew discovers a gang of Brousseau's men cutting timber on his property. After an altercation he is compelled to engage in a fistic battle with "Black Pierre," the leader, and whips him. He also clashes with Leblanc, his boss jobber.

ANOTHER BARGAIN

I have for sale a farm containing 160 acres and situated 2 1-4 miles north of Marion.

The dwelling contains four rooms, two porches and a hall. It is in fine repair, and in fact it is one of the prettiest country homes in the county. Two good barns are near the dwelling.

Twenty-five acres are in timber which is in the center of the farm. There is running water in the woodland which affords water to any adjoining field.

Good school adjoining farm and church is within 1-2 mile. Can give possession on or before April 1st, 1920.

I also have farms under contract that are bargains and will make splendid homes.

PARENT-TEACHER ASSOCIATION MEETS

The bi-monthly meeting of the Parent-Teachers association was held at the school house on Friday afternoon, Jan. 9th. Even though the weather was inclement there was a good crowd present. A short crowd present. A short pro-gram was rendered by the first grade followed by a most interesting and enlightening lecture by Mrs. Gordon. Her subject was "Why, What and How of the P. T. A." and when she had finished her entire audience felt like turning militant, going forth and demanding, not women's but children's rights. A motion was made by Rev. Gordon and seconded, that a \$15 prize be offered for the best competitive essay on "The History of the Fly." Only High School pupils are eligible to enter this contest.

Ways and means for increasing the school library were discussed as well as other plans for bettering school conditions. A piano duet by Misses Pauline Blackwell and Mary Louis Truitt was another enjoyable feature of the program. The next meeting of the P. T. A. will be held on Friday afternoon Jan. 23 at the school house. A cordial invitation is extended to

Exhibit at Montana State Fair age run of tombstones. But, withal, there was something queer-even shocking. Then you discovered what it was. These were truthful tombstones. Consoling platitudes—"Too pure for earth," and that like—found no place. Instead, there were such epitaphs as these: "Mother—walked to death in her kitchen;" "Sacred to the memory of Jane-she scrubbed herself into eternity;" "Grandma— washed herself away;" "Susle—swept out of life with too heavy a broom.'

The people who saw that cemetery -and there were thousands of themmay have been shocked for the instant but they came away with the thought country cemetery, much like most lit-tle country cemeteries, yet there was such a cemetery. For, you see, it was square, and it was part of an exhibit at the Montana state fair. Such levity hedge was like most cemetery hedges, with the most solemn thing that mankind knows could not be justified merely on the theory that the things said were true—but those who saw it came away with the belief that it was justified by way of keeping just those things from being true. And that was the purpose of the exhibit, placed there by the agricultural extension department of the State Agricultural colege of Montana. It was meant to emphasize the need for home conveniences, for lack of which many a farm woman has gone to her grave before

Drive Truth Home. There were other exhibits designed to drive home the same hard truth One was a model showing a bleak farinhouse on a bare bill. At the bottom of the hill ran a little stream, and by the stream were barns and cattle. Struggling up the hill toward the house with two heavy pails of water was a hent old woman. And the legend was: "Convenient for the cattle-but not for mother." Then there was a farmhouse with the water supply as it should be. the woman in the yard sprinkling her flower beds with a hose. And the inscription rend: "Convenient for mother—and the cattle, too." Another showed a kitchen as it should be and another, a kitchen as it should not be. And there was the legend: "A long-distance kitchen shor ens life."

Trouble and Never Suspect It

Applicants for Insurance Often Rejected.

Judging from reports from druggists who are constantly in direct touch with the public, there is one preparation that has been very successful in overcoming these conditions. The mild and healing influence of Dr. Kilmer's Swamp-Root is soon realized. It stands the highest for its remarkable record of success.

An examining physician for one of the prominent Life Insurance Companies, in an interview on the subject, made the astonishing statement that one reason why so many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of those whose applications are declined do not even suspect that they have the disease. It is on sale at all drug stores in bottles of two sizes, medium and large.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Adv.

And so every Sunday one could witness the interesting spectacle of thousands of fathers of families, gent unwritten law, attired in their best clothes and high hats, carefully conveying the weekly joint, which was, as a rule, in a pie dish, with potatoes all around it, to and from the bakehouse, mindful on the return journey of the housewife's injunction "not to spill the gravy."-Losdon Chronicle.

RIVER WILL CLEAN ITSELF.

From this summer onward the Mississippi river will keep its own mouth clean of mud and silt and sand, so that ships can pass in and out and 100 miles up the river to New Orleans.

This has been achieved by merely narrowing the channel inside the jetties by means of timber breakwaters to 1,000 feet, with a mean depth of 35 feet, and then directing the main current of the Mississippi through this narrowed channel. Only one dredge will be required now for soundings and records, whereas three or four dredges were employed before to keep the channel clear. Now the current of the Mississippi scours its own bed.

THREE YEARS WITHOUT HOPE

A Story of Sickness and Suffering with Final Return to Health It will do you good to read it

No matter how long nor how much you have suffered, do not give up hope. Do not decide there is no help for you. There is. Make up your mind to get well. You can. There is a remedy in which you may place full reliance as did Mrs. Rozalia Kania of 39 Silver Street, New Britain, Conn. This is what she says: "I had cramps for three years and thought I would never be any better. I could not eat without distress. Slept with my mouth open and could hardly breathe. No medicine helped me. I had catarrh of the stomach. Now I have no cramps and am feeling well and healthy. I wish every suffering person would take PE-RU-NA."

Catarrh effects the mucous membranes in any organ or part. PE-RU-NA, by regulating the digestion and alding ellimination, sends a rich, pure supply and nourishment to the sick and inflamed membranes and returns.
