A WORD OF EXPLANATION.

This issue of The Press was gotten out under extreme difficulties. As our readers all know, we have just moved into our new quarters on Main street, second door north of the new Marion Bank building, and are really not in shape to print a paper at all this week. We were unable to get our power connected up until late Wednesday evening and this paper is made possible only because my brother and myself worked all night Wednesday night—as well as all day Thursday.

We trust that you will be charitable with us and not criticize us too severely for this poor excuse of a paper—but it is a mighty big job to tear down, move and erect a printing plant as large as the one we have.

We have plans under way for some big improvements in the paper which will be put into effect as soon as physically possible.

To those of our correspondents whose letters do not appear this week we want to say that we just didn't have the time to get them into type. The few we are printing was taken as we came to them, with no thought of favoritism. A number of you are in need of supplies which will be sent to you as soon as we can locate them among our things as we straighten up—not more than a few days at most.

And we thank you. W. P. HOGARD.

"Before and After" in the Near East

From misery to comfort and self-respect in five days' time, simply through the magic of an American ten dollar bill, is a transformation that is being wrought daily in Western Asia by the Near East Relief of 1 Madison Avenue, New York City. The group of five Armenian children shown in two pictures here have reason to bless the American donor of that ten dollar bill. With this money, the expert workers of Near East Relief in Armenia were able to rid the poor children of their lousy, ragged and to clothe them with new garments of alaba cloth, woven in a Near East Relief Industrial plant and sewed into garments by the mother of the children. The mother was also paid a small fee for her services in making the garments.

This was a lucky family. There are thousands of others not so lucky in the Near East, simply because of a lack of other ten dollar bills. Near East Relief is asking the American people to contribute funds to save the starving in the Bible lands. It is estimated that over 1,250,000 to save the starving in the Bible lands. It is estimated that over 1,250,000 are in desperate need, and 250,000 children are orphans and must be cared for. For the sum of \$180 a year Near East Relief can not only feed and clothe and shelter an orphan child, but can also give a course in education towards ultimate self-support and independence. Many of these orphans are being educated in America, where they are providing funds for the support of one or more over a given period.

Bankers Life Company

Des Moines, Iowa

Good Enough for Banker—Good Enough for You.

His old horse died and his mule went lame,
And he lost his cow in a poker game,
A cyclone came one summer day
And blew his house and barn away;
Then an earthquake followed to make it good
And swallowed the ground where his house had stood;
And then the mortgage man came around
And heartlessly claimed the hole in the ground.
This shock was so great that he up and died,
And his widow and children went and cried,
But something was left for the kids and wife,
For he had insurance in the BANKERS LIFE.

CITY ARRANGES FOR ELECTRICITY

The city council met Monday night at Police Court headquarters with a large attendance of citizens. A progressive attitude prevailed over every one present and some timely and important questions were settled to the satisfaction of every one present. The snow ordinance was the first under discussion, it was somewhat modified and left for the Clerk to draw up by the next meeting.

Then the light question was put under discussion. Mr. Cochran, representing the new franchise was the first to speak, he assured the people that the new firm was as anxious to see the city have lights as the other citizens. Mr. Jenkins stated that he could not operate his plant any longer under the old franchise, without losing money. Mr. Haynes \$250, monthly paid for street lights lacked \$62.50 per month of meeting this bill, and the town could not go ahead with a deficit on street lights. Mr. Blue then made the suggestion that the business men make up the deficit and Mr. Boston suggested that the contributions be made on a proportional basis and thirty two of the citizens guaranteed the town its deficiency and the lights were assured. After this was settled a vote was put before the council to issue bonds and put a vote before the people on the question of water works, the Attorney was notified to draw up bonds for same.

SAVED FROM HAREM

Armenian Girls Rescued from Turks Being Taken to Near East Relief Home.

The three pretty Armenian girls in the auto are taking a real "joy ride," joyful having another meaning from that generally associated with auto riding here. They have been rescued from the harem of a Turk after four years of shameful servitude and are being taken to one of the Near East Relief rescue homes. No wonder they are smiling for the first time since their captivity. The Near East Relief is caring for many thousands of these girls until they can find their relatives. Also it is working to save 250,000 orphans and over a million adults from starvation this winter. That is why it is making a nation wide appeal for funds to carry on its noble work.

How Chinese Use Peach Stones.

Women and children are to be seen in the markets of China picking up peach stones, which are put to several uses. Broken into pieces and dried in the sun, they furnish excellent material for fuel.

Another profitable use of the peach stone is made by artists and engravers, who carve them into different forms of animals. Some of the larger stones, if round enough, are carved into finger rings. During the season one may see in the interior of South China yards of poor people full of peach stones drying in the sun. After being cleaned, the small stones are used for fuel, groups of small boys picking out the larger ones.

The kernels are sometimes sold to chemists and druggists. They are preserved in bottles and used as cough medicine after the kernels are turned into white powder. This white powder is a very popular, convenient and cheap medicine for poor people in many villages as a remedy for coughs.

Desert Compensation.

For all the toll the desert takes of a man it gives compensations, deep breaths, deep sleep, and the communion of the stars. It comes upon one with new force in the pauses of the night that the Chaldeans were a desert-bred people. It is hard to escape the sense of mystery as the stars move in the wide, clear heavens to risings and settings unobscured. They look large and near and palpable as if they moved on some stately service, not needful to declare. Wheeling to their appointed stations in the sky, they make the poor world-fret of no account. Of no account who lie out there watching, nor the lean coyote that stands off in the scrub from you and howls and howls.—Mary Austin, in "The Land of Little Rain."

Seek to Overcome Indecision.

Oh, weakness and indecision of mind, if not yourself vices, to how much of exquisite misery do you not often pave the way!—Walter Scott, for coughs.

BELIEF IN "LUCKY PIECES"

Superstition That Seems More General Now Than in the Days Before the Great War.

"That is my luck piece," a veteran said, as he pulled a shapely little bit of metal out of his pocket with his regular small change. "That's a bullet that just grazed my ear and burrowed into a wall right behind me." "What sort of luck has it brought you?" He laughed. "Six months in hospital from another bullet the very next day. . . . But I married the nurse, and she's a bit of good luck, you bet! I got into the habit of carrying this about; most all the boys carry a pocket piece of some kind for luck whether they believe in luck or not." One man always carries a half-dollar in an inside pocket by itself, so that if his spending pocket happens to get empty he would not be altogether desolate. There is another who saves a \$10 bill in the fore pocket of every pair of trousers he buys. In that way he can never have the bad luck of forgetting to change his money when he changes his clothes. True, he might have the bad luck to forget to remove it when he sent the trousers to be pressed, but—as he philosophically expresses it—that would be good luck for the tailor.

"Movies" in Education. Prof. Giacomo Boni, noted Italian archeologist, has suggested to the government the use of moving pictures to promote the study of history in the schools and among all classes of the people.

He declared that moving pictures were better than books or lectures, and revealed that after the Roman peace the Emperor Augustus, wishing to induce the people to return to the land, called upon the poets to sing of agriculture, and Virgil wrote the "Georgics."

Moving pictures, according to Professor Boni, must be employed in a similar manner to educate the people to a knowledge and appreciation of Italian history.

The Deed Was Done. With our baskets full of goodies, a crowd of us enjoy going from house to house and having "picnic" dinners.

At our last meeting place our hostess was noted for making weak coffee. This worried my husband, who likes his strong. To please him I promised to go early and offer to make the coffee. Luck was against me, for when I arrived, she had already made it. My husband, thinking of course, that I had done the deed, looked across the table at me, and belittled before them all: "This coffee is simply rotten."—Exchange.

INDUSTRIAL BOARD COMPLETES WORK

SHOULD "GRAPPLE WITH THE PROBLEM IN THE INDUSTRIAL PLANT."

SUGGESTION OF CONFERENCE

Industrial Board Appointed By President Wilson Held Many Sessions and Adopted Plan to Be Made Public Soon.

Washington.—The proper place to grapple with the labor problems is in the industrial plant, the second industrial conference will tell President Wilson in its final report. The conference adjourned after having held 80 sessions since its first meeting, Dec. 1. Its report, adopted unanimously, will be made public within about 15 days.

Specific recommendations regarding hours of work, wages, women and children in industry, unemployment and similar problems have been made, the conference announced, and a definite stand on collective bargaining, the rock on which the first conference came to grief, has been taken.

In a preliminary report, made public Dec. 19, the conference proposed machinery for adjusting disputes between employers and employees and asked for criticisms and suggestions. A number of men prominent in public life, as well as representatives of capital and labor, appeared before the conference, while individuals and organizations, made suggestions in writing.

The final report, the conference announced, makes some modifications of the organization suggested in its preliminary statement, but leaves intact the national industrial board and the regional boards of inquiry and adjustment. The final report also deals broadly with the general field of industrial relations, and undertakes to prevent industrial disputes by recommending elimination of the causes of disagreement. Plans for shop organizations to facilitate voluntary adjustments between capital and labor are suggested.

While no attempt was made to deal comprehensively with the railway problem because of the recent enactment of the railroad law under which the carriers will operate under private control, suggestions were made regarding other public utilities.

The report, which contains about 17,000 words, will be printed for public distribution.

The conference was composed of 17 members, with Secretary of Labor Wilson as chairman, and Herbert Hoover as vice-chairman.

ALL TRAFFIC IS PARALYZED

Severest Storm of Winter in New England Ties Up All Transportation Lines.

Boston.—The effects of the successive rain, hail and snow of Sunday were felt to a disastrous extent by the railroads of New England. The situation was at its worst in Maine and New Hampshire, where traffic was tied up more seriously than at any previous time in this unusually severe winter.

The Boston & Maine and Maine Central railroads were unable to get a train through on their lines in Maine. In Maine and Northern New Hampshire traffic also was at a standstill.

TURK EMPIRE IS REDUCED

Supreme Council Reduces Frontiers So as To Embrace Territory With 6,000,000 Population.

London.—The once powerful Ottoman empire was finally reduced to dust by the allied supreme council through its decision to so restrict Turkey's future frontiers that they will contain a population of only 6,000,000, less than the population of Greater New York, as compared with Turkey's pre-war population of 30,000,000.

Territorially, the Turkish sway, formerly extending from the Danube to the Red Sea, is now limited to a small corner of Anatolia.

HAD CHRONIC BRONCHITIS FOR TWENTY-SIX YEARS NOW WELL AND HAPPY

THIS IS WORTH READING

The experience of Mr. E. J. Toppalik, 1438 Rose street, LaCrosse, Wisconsin, is chiefly remarkable on account of the length of time he was afflicted.

He writes: "I have been suffering with chronic bronchitis for twenty-six years and every winter I would catch cold and become so hoarse I could not speak for six or eight weeks. I could get only temporary relief.

"This winter I was taken with Grip and was in awful shape. A fellow workman advised me to take PE-RU-NA. By the time I had used three-fourths of a bottle, the hoarseness was gone, also that tired feeling. I am on my second bottle. Hereafter PE-RU-NA will be constantly in my house. It is the best medicine ever put up for the purpose."

For any disease due to catarrh or catarrhal conditions, PE-RU-NA is equally dependable. Coughs, colds, catarrh of the head, stomach trouble, constipation, rheumatism, pains in the back, side and loins, bloating, belching gas, indigestion, catarrh of the large and small intestines, are some of the troubles for which PE-RU-NA is especially recommended.

PE-RU-NA can be purchased anywhere in either tablet or liquid form.

Ouch! Such Pain!

If It Takes You in Back, Arm, Hip or Foot

It's all due to a catarrhal condition of that poison called uric acid. The kidneys are not able to get rid of it. Such conditions you can readily overcome, and prolong life by taking the advice of Dr. Pierce's, which is, "Sweep the kidneys in good order. Avoid too much meat, alcohol or tea. Drink plenty of pure water, preferably hot water, before meals, and drive the uric acid out of the system by taking Anuria." This can be obtained at almost any drug store, in tablet form, and will dissolve uric acid and hot colic dissolves sugar.

You know that before an insurance company will take a risk on your life the examining physician will test your water and report whether you are a good risk. You should send a bottle of water to the chemist at Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., and you will receive free medical advice as to whether the kidneys are affected. When your kidneys get sluggish and slow, you suffer from backache, sick-headache, dizzy spells, or twinges and pains of lumbago, rheumatism and gout, or sleep is disturbed two or three times a night. Get Dr. Pierce's Anuria (antacid) for it will put new life into your kidneys and entire system. You will feel full of vim, vigor and vitality, instead of tired, dragged-out and blue.

Lexington, Ky.—"Dr. Pierce's Anuria (antacid) is an excellent medicine for kidney trouble of any sort. I had been having kidney ailments for some little time; they would become congested and inactive, causing me to suffer with backache. I learned of 'Anuria' and by the use of this medicine all my kidney trouble has been eliminated; my kidneys are acting in a normal condition and all backache has left me."—B. F. HAMBRICK, 540 Parkersburg Ave.

Washington.—Counterfeiting has doubled in the last six months, due to the circulation of a greater number of government securities, including federal reserve notes, secret service men say.

Washington.—Herbert N. Shenton, of the social science department of Columbia University, became acting director of the council of national defense Monday.

Chicago.—Maj. A. V. Dalrymple, federal prohibition director of the central states, announced that forthcoming statement to be made by him would explain and justify his punitive trip to Iron River, Mich.

Washington.—A hand named Cacheton was found hanged on the morning of Feb. 28, near the place where Augustus Morrill, once American consul at Manzanillo, was killed.

MUST GIVE UP SIDE LINES

Court Decrees That Packers Can Only Handle Meat and Dairy Products in Future.

Washington.—Divorcement of the packers from all business not directly related to the packing of meat was made mandatory through signature by Chief Justice McCoey in the District of Columbia Supreme Court of a decree filed by Attorney General Palmer, with the concurrence of the packers.

The decree, which must be carried out within two years, affects 87 corporations and 49 individuals, of which Swift & Co., Armour & Co., Morris & Co., Wilson & Co., and the Cudahy Company are the major members.

New York.—"Plain Mary," despite her humble name, has officially humbled "Viva la France," capturing from that champion Jersey cow the world title as a milk and butter producer.

Census reports say United States has nearly five million mules. This does not include the United States State.

After getting out Sunday editions running from 50 to 100 pages, the wise metropolitan editors proceed to write editorials on saving paper.

When Sunday morning comes a lot of people have the influenza, but when the dances come along, they merely have a cold in the head and need to get out and have a little change.

After criticising everything that anyone tries to do, some people in Marion wonder why the place does not push ahead faster.

Formerly the farm hands worked according to the sun.

Now you have to fit their hours to the movie programs.

Since January 16 a large number of people have found that their health requires a sojourn in the climate of Cuba.

When a young lady begins to take vocal lessons, one of the first signs of her artistic improvement is that you can't understand any of the words of her songs.

Not many people remember anything about Washington's farewell address, but they know all about the cherry tree.

It is sincerely hoped that the national conventions will realize that the vice presidency is an important office, and should not be filled merely by snapping up a cent while the delegates are running for the trains.

The women demand equal pay, but they have long had equal say.

Some one has written a book picturing a husband and wife as living together in peace and harmony, but it will never become one of the six best sellers.

It is noted that the man who is always finding fault with his home town can do a lot to improve it by moving away.

It is the general opinion over in Europe that the dove of peace is no better than the old speckled hen.

Since so many of the girls take their breakfast in bed, Gladys feels pretty virtuous getting down at eight o'clock to get the staff mother has been cooking since 6:30.

Whatever kind of tariff they have, the junk business will always be prosperous as long as they publish the congressional Record.

A Canadian woodsman got lost in New York City the other day. It never occurred to him to climb some 55 story building and try to locate the sun.

MONTAGUE LIGHT OPERA SINGERS.

Light opera always popular with the masses, is featured in costume by the Montague Singers in each of their overtures.

Selections from such favorite light operas as "The Serenade," "Robin Hood," "The Pied Piper," "The Mikado," "The Red Mill" and "Madame Butterfly" are given in special costume.

Popular quartette selections are also rendered; also solos, duets, trios, read ins and character impersonations.

The Montague Light Opera Singers comprise one of the strongest mixed quartettes on the platform; their ensemble harmony showing the beautiful blending of voices only possible by finished artists.

John Eichenthauser and Altha Montague will be most favorably remembered by all who heard the "Kellogg-Haines Singing Party" on the Chattanooga.

Altha Montague, contralto and reader, is a charming singer, of very attractive personality, with wide experience in concert, oratorio and church solo work. As a reader, she is very effective, showing marked ability in interpretation of character.

Edna Reynolds, soprano, has appeared extensively as soloist with large choral societies. She has a voice of unusual sweetness, sympathy and flexibility.

Haydn Thomas, bass and accompanist, has sung leading roles with the Abner Opera Company, the "Hays Opera Company" and Joseph Shennel-English Opera Company. His voice has a pleasing timbre, it is powerful and even, and is well controlled.

John Eichenthauser, manager of the Montague and reader, has had extensive operatic and stage experience. He has a clear, strong voice of rare quality and his character songs in costume are one of the features of the program.

120,000 STAND

Death Is Message Brought by
Miss Dakesian.

Imagine a bread line of 120,000 famished people waiting for twenty-four hours a day for the dole of food that is the sole barrier between them and death from starvation. That is the situation in Alexandropol, a city in Russian Armenia, according to Miss Hermine Dakesian, a pretty Armenian girl, one of the survivors of four years

MISS HERMINE DAKESIAN.

of the horrors of Turkish massacres and deportations. Saved by an American woman, she has come to this country and entered Oberlin College.

With her came fourteen other Armenian girls in charge of Miss Adelaide S. Dwight, a Near East Relief worker who has been instrumental in helping to save hundreds of thousands of these people from death by starvation.

Miss Dwight, who is not given to exaggeration and has seen conditions at first hand, says more than a million people are facing death by starvation in Armenia and will perish unless America aids.

Herself an eyewitness to the slaughter of hundreds of helpless women and children by the Turks and a victim of the deportations, Miss Dakesian, an unusually pretty girl, says there is untold suffering in Armenia and Syria. She praises the efforts of the Near East Relief, formerly the American Committee for Armenian and Syrian Relief, to save as many of these people as possible. At E. van the capital of the Armenian republic one hot meal is given out daily, and to this relief alone the city's death rate has been cut from a thousand daily to an average of twenty. At Alexandropol, where the refugees from Turkish Armenia were driven by thousands, the situation is appalling, Miss Dakesian says. It is to avert these wholesale deaths that Near East Relief is making a nationwide appeal for funds.

BOY SCOUTS IN
YOUNG ARMENIA

Strangest Troop of All in Constantinople Being Made Into Good Citizens.

American Boy Scout training is aiding prominently in the rehabilitation of hundreds of little Armenian boy refugees from the Turkish massacres who have been organized into a scout troop in Constantinople as the solution of one of the most troublesome problems that confronted the Near East Relief workers in that city.

Hounded and driven for four years having seen their parents and relatives slaughtered or worse by Turks and Kurds and themselves forced to beg steal or do almost anything to eke out the barest existence, these boys had completely lost their moral sense when they finally found refuge in the Near East Relief orphanages.

The boys had been clad in rags for so long that they had forgotten how to take care of clothes. This was a tragedy when the Near East Relief had need of every pair of shoes and of every suit of clothes for new boys constantly coming in.

Then the boys were organized as Boy Scouts and given their uniforms. They began to be careful of their school clothes as well as of their uniforms.

They had been so often hungry they had come to steal without compunction. When they first entered the orphanages they continued to steal. One boy stole a purse from his American teacher. For two or three weeks after he became a Boy Scout he was obviously uneasy. One day he came to her with the purse in his hand.

"I don't want to give it back," he said reluctantly. "But I have to. I'm a Boy Scout now."

To form more scout troops to transform these little unfortunates into good citizens, is one of the reasons why the Near East Relief 1 Madison Avenue New York City, is making a appeal for funds.

Here is a one man single unit tractor that every farmer can use, not just 25 or 30 days a year but as many days as he now uses his

It plows with disc or mold board and does as much work as two good teams. And it cultivates row crops, pulls harrows, discs, drills, rollers, seeders, planters, potato diggers, orchard tools, binders, mowers—every implement you now have on the farm. mules or horses for field work. It costs about the same to buy as four large mules or horses and does more work than they do.

The Indiana weighs no more than a farm team. That's why there is no waste fuel used to drag it around, and no waste material used in its construction.

The Indiana does a year's work of four mules or horses at a gasoline and oil cost only a third as great as the cost of feeding four mules or horses for a year. It does light work economically.

Farmers who have big four wheeled tractors are buying the Indiana to cultivate and work their row crops and to plow, prepare the seed bed and put in the corn when the ground is too wet to use a heavy to use a heavy tractor.

Cardinal Gibbons Asks Aid For Starving Armenians

This is the message from James (Cardinal) Gibbons read at the big meeting in Washington in aid of the Near East Relief. The venerable primate of the Catholic Church in America is intensely interested in the

(© International) appeal which Cardinal Gibbons, which the Near East Relief will make to the country in February for funds to support its work among the starving peoples of that stricken land. To the Washington meeting he wrote:

"Advice and information coming from the Near East cannot be doubted. There is great actual suffering and famine. These people, recently become independent and released from bitter thralldom, cannot support themselves. And the common instincts of humanity which have prompted the people of the United States during the last two years to relieve the distress and needs, especially of the Near East, must not be allowed to grow cold and be diminished.

"I hope we shall all unite in this present emergency and be able to collect sufficient funds to enable these peoples to live and work until next summer brings them permanent relief and subsistence. I call upon all to respond generously to the appeal now being made and trust that the committee will be gratified with the results."

Ten thousand little victims of Turkish brutality are to be fostered by the big hearted women of Connecticut as the result of appeals by Near East Relief, the former Committee for Armenian and Syrian Relief of 1 Madison avenue, New York city. The women at a meeting voted to "adopt" that number as their share of the 250,000 homeless and starving boys and girls orphaned in the massacres and deportations.

Three hundred representatives of women's organizations attended the meeting at Hartford, at which Governor Marcus B. Holcomb presided and pleaded the cause of the stricken peoples. Another speaker was Henry Morgenthau, former U. S. Ambassador to Turkey.

Cardinal Gibbons Asks Aid For Starving Armenians

This is the message from James (Cardinal) Gibbons read at the big meeting in Washington in aid of the Near East Relief. The venerable primate of the Catholic Church in America is intensely interested in the

(An International) appeal which the Cardinal Gibbons, the Near East Relief will make to the country in February for funds to support its work among the starving peoples of that stricken land. To the Washington meeting he wrote:

"Advice and information coming from the Near East cannot be doubted. There is great actual suffering and famine. Those people, recently become independent and released from bitter thralldom, cannot support themselves. And the compassion and common instincts of humanity which have prompted the people of the United States during the last two years to relieve the distress and needs, especially of the Near East, must not be allowed to grow cold and be diminished.

"I hope we shall all unite in this present emergency and be able to collect sufficient funds to enable these peoples to live and work until next summer brings them permanent relief and sustenance. I call upon all to respond generously to the appeal now being made and trust that the committee will be gratified with the results."

TOO QUICK IN CONDEMNATION

Billy Grimes Might Have Been a Little Less Hasty in "Bawling Out" the Doctor.

"The opponents of strong drink," said a politician at a dinner in New York, "are too ready with their accusations—accusations of drunkenness and what not—against all who don't share their views."

"Sometimes I think they are as bad as Billy Grimes."

"Billy the doctor had bought a fine new pair of acetone lamps for his automobile, and one evening the water reservoirs of both lamps got empty, and so, of course, the lights went out."

"The doctor, halting in front of Billy's shack, shouted:

"'Hi, Billy, can you let me have some water for my lamps?'

"'Billy came forth, 'Water?' he said, 'I guess ye mean oil, don't ye, doc?'

"'No, I don't,' said the doctor; 'I mean water.'

SLEEP MALADY FOLLOWS "FLU"

Always Has Appeared in Wake of Epidemics of Influenza.

IS TRACED BACK TO 1730

Italian Scientists Study History of Disease—Best Way to Avoid the Sickness Is to Keep Resistance at High Point.

Rome.—Sleeping sickness, or sleeping headache, as the Italian scientists prefer to call the malady which has appeared in Rome and several other Italian cities, is believed by Prof. Giuseppe Sanarelli, the distinguished Italian bacteriologist, to be the same as that which followed other epidemics of influenza. Prof. Sanarelli died of influenza in 1919. The after effects of the epidemic at that time were so harmful that his successor, Benedict XIV, waived the fasting of churchmen during Lent, and similar action was taken by Pope Leo XII in 1890, when there was another wave of influenza, or in gripe.

Keep Up Resistance.

Professor Sanarelli, who has been studying the disease, says that the best

way to avoid sleeping sickness is to keep the powers of resistance up to the highest point, as it seems to attack chiefly persons who are in a run-down condition. He also warns the public not to be unduly alarmed about the disease, and says he is unwilling to concede it is highly communicable or contagious until the actual cause of the malady is determined. And he does not think the germ will be discovered until after extensive experimentation with the brains of monkeys, such an expensive work that it can be carried out only with the aid of the millions of some philanthropic millionaire like John D. Rockefeller.

Professor Sanarelli says because of the sporadic appearance of the disease it is reasonable to assume many persons carry the germs but are immune to the disease until there is some sudden let-down in their physical condition which overcomes their power of resistance.

As the malady always makes its appearance at the same season as influenza, paralysis and cerebrospinal meningitis, or spotted fever, and it persists in reappearing occasionally between epidemics, Professor Sanarelli

Fish, Given "Drink," Comes Back to Life

London.—The whole town of Yarmouth has crowded a small fish, a brown, and mottled. It has been named Jonah No. 2. Robert Watling, Coltham, Norfolk, caught a 20-pound pike on Barton Broad. Some time later, when the pike was cleaned, a breath was found inside it. When examined the breath's tail was seen to quiver. "Thereupon," said Watling, "I poured a drop of brandy down the fish's throat and placed it in a bath can, changing the water every 20 minutes. It soon began to revive, and in a short time was swimming around as full of life as ever."

MUST READ THE PSALMS

Used in Reading Test for Aliens at Ellis Island.

Required to Read From 30 to 40 Words in Any Language He Desires.

New York.—Uncle Sam will soon be conducting great classes in reading the Psalms almost at the feet of the Statue of Liberty. The pre-war practice of examining all immigrants who come by steamer at Ellis Island has been restored.

More than 1,000 men and women will read from the Psalms there daily, and Miss Liberty, who stands a stone's throw from the island slip, could hear if she were incarnate.

Reading from the Psalms is the literacy test for admission to this country, which went into effect in May, 1917, and is now receiving its first real trial.

MULES IN COASTING RECORD

Slide Five Hundred Feet Down an Ice Hill Road Near Chilli, Ohio.

Chilli, Ohio.—A record was made in local coasting animals when Jeff and Jerry, two draft mules owned by a local wholesale grocery firm, bobbed 500 feet down an icy hill road.

The Ross County Tuberculosis sanitarium on Bellevue Hill, west of Chilli, Ohio, was running short of provisions because delivery wagons were unable to make the trip up the ice covered road.

A driver for the firm said that Jeff and Jerry, the trusty mules, could make the ascent. Midway up the slope they began to slide, and to keep the wagon and its contents from going over the bank the driver unharnessed the mules.

Jeff and Jerry went down and slid to the bottom of the hill. A horse on the slope nearby decided to imitate the mules, but slid into a fence.

says it is not strange that it is frequently believed to be identical with them. However, he thinks it is quite a distinct disease, as it is confined chiefly to adults and does not leave the serious effects of cerebrospinal meningitis.

Diagnosed in Different Countries.

The malady has been diagnosed in widely scattered parts of the world in 1917, 1918 and 1919. At least one hundred cases were reported from English cities in 1918, but it died out in June. Until this year it had not been reported in Italy since 1880 and 1889, when it appeared in Mantua. Many persons died then after a few days, sometimes even hours of lethargic sleep which could not be overcome. Bulgaria also had an epidemic at that time and cases occurred in the United States.

The illness begins with mental depression, which is followed by sleepiness, which develops into complete prostration. Drooping of the eyelids and frequently a crossing of the eyes occur. Loud talk and even shaking will not arouse patients suffering acutely with the malady, who answer incoherently to all inquiries and fall immediately into sleep again. The face is generally colorless and devoid of expression.

Professor Sanarelli is a member of the faculty of the University of Bologna and was formerly professor of microbiology and public hygiene at the University of Montevideo. He was also formerly undersecretary of state for agriculture in Italy.

PREDICTS NEW ALASKA RUSH

Klondike Pioneer Expects to See Tent City in Spring at Hyder.

Seattle, Wash.—Hyder, Alaska, center of the Stewart river mining properties will become a tent city rivaling Nome and other famous "strike" towns, if the expected spring influx of prospectors is realized, according to James W. McDonald, pioneer of the Klondike, who is in Seattle recently. "The world is going to see another tent city in the spring," Mr. McDonald said. "Hyder's future is assured, and there is every indication that when the snow goes off thousands of people will flock to the little town."

Most of the newcomers will be disappointed, Mr. McDonald asserted. Hundreds of them are used only to placer mining, while the Stewart river properties are all hard rock. The district will not be fully developed for five years, he said.

Large Lemons.

Fresno, Cal.—A horticultural freak of more than usual interest has been discovered in Fresno county in a lemon tree whose fruit average 22 inches in length. The fruit is a cross between a lemon and a grapefruit, having the flavor of the latter.

LID IS NOW ON IN ALASKA

Dawson in the gold days, will be at Stewart next spring to see that things are within the law.

For a very brief period this winter Hyder was "wide open," according to reports.

"Whisky and beer were sold at many bars, girls were dancing, piano was thumped and roulette, blackjack and faro were being played," wrote one writer from the town.

Then John Roman, former territorial senator, was appointed United States marshal and he closed everything up. "Bang went the lid and hundreds could not get away from Hyder fast enough," the miner wrote. "Many went to Stewart. There everything seems to be wide open."

Hyder would have had a population of 20,000 in three months if the "lid" had been left off, the miner predicted. But the "lid" was clamped down and the population dwindled.

EX-DUKE WINS AGAINST STATE

Confiscation of Estate by People's Commissioners in Germany Held Illegal.

Berlin, Germany.—The former reigning duke of Gotha has won his suit against the free state, which peremptorily confiscated his property and incorporated it among the state's assets without offering the duke the slightest reimbursement. The duke immediately began suit to recover the estate and also claimed damages. In their defense the people's commissioners pleaded that they had acted within the letter of their prerogatives and were not answerable to the court. This plea has been rejected by the new tribunal, which has decided that the seizure of the duke's property was illegal. A special commission will now negotiate for a compromise.

FIND BRIDE'S BONES IN ROME

Disappearance of Artist's Wife May Be Solved in a Murder Trial.

Rome.—Two developments in the tangled and mysterious case in which Lucius Mesones, a Peruvian painter, is charged with the murder of his girl bride, came to light. The skeleton of a woman known as Maria Rotellini, who was supposed to have committed suicide here two years ago, was exhumed and positively identified as that of Senora Mesones, and Mesones admitted to the court that his wife had disappeared on December 27, 1917, instead of sailing for America, as he had insisted hitherto. He also expressed the belief that Senora Mesones and the Rotellini woman were the same person.

Mesones told the court that for the purpose of obtaining money from his wife's family he invented the story that Senora Mesones had gone to America. Investigation by authori-

But Doan's Effected a Complete Recovery After Other Remedies Failed. Now in Good Health.

Mrs. J. A. Stittworth, E. Bell Ave., Red Key, Ind., says: "Kidney trouble came on me suddenly and before I realized it I was in a critical condition. My body bloated and my feet and ankles swelled like toy balloons. The kidney secretions burned terribly in passage. My face pulled up and the flesh under my eyes and on my cheeks hung down in folds. I had another spasm, when I thought I would die. No much water had collected under my skin. I weighed 176 pounds, a gain of 45 pounds. My sight failed and little black spots passed before my eyes. I felt drowsy and was so nervous, I couldn't stand the least noise. Rheumatic pains darted all through me and it felt as if every nerve in my body was affected. Medicine didn't help me and I had little hope or strength left. Finally I used Doan's Kidney Pills and they restored me to health. I am now well and active."

"Which one of Shakespeare's plays do you regard as his masterpiece?"

"Macbeth," replied the man who is slightly bespeckled.

"Oh, I don't set myself up as a scholar or even a good judge of plays. I merely know that after seeing a performance of 'Macbeth' my wife says she feels little and afraid and in need of a protector."—Birmingham Age-Herald.

OUT O' LUCK

Never mind! Just take Cascarets if Bilious, Constipated

Everyone must occasionally give to the bowels some regular help or else suffer from constipation, bilious attacks, stomach disorders and sick headache. But do not whip the bowels into activity with harsh cathartics.

What the liver and bowels need is a gentle and natural tonic, one that can constantly be used without harm. The gentlest liver and bowel tonic is "Cascarets." They put the liver to work and cleanse the colon and bowels of all waste, toxins and poisons without griping—they never sicken or inconvenience you like Calomel, Salts, Oil or Purgatives.

Twenty-five million boxes of Cascarets are sold each year. They work while you sleep. Cascarets cost so little too.—Adv.

Whippets Beat Mules.

The whippet tank, which roared and leaped and charged its way to victory in the war against Germany, is putting horses and mules out of business in the great pine forests of northern Arizona. One big lumber concern at Flagstaff has just put two tanks to work, having bought them from the war department. Each tank has displaced thirty horses and fourteen men, according to company officials. Using horses it was impossible for the company to haul during the winter months. The tanks, however, take no account of weather conditions.

URIC ACID IN MEAT CLOGS THE KIDNEYS

Take a Glass of Salts if Your Back Hurts or Bladder Bothers.

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that most forms of uric acid which almost paralyze the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush out the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delicious effervescent lithia-water drink.—Adv.

"NOTHING BETTER AS A LAXATIVE"

Ashville Lady Finds Black-Draught An Effective Remedy in Her Family for Common Affections of the Digestive Organs.

Ashville, N. C.—Mrs. A. K. Jarvis, 41 Woodrow Avenue, this city, says: "I have used and heard of Theodor's Black-Draught for years, and I certainly have found it splendid for headache, sour stomach, indigestion and other ills that come from a deranged liver."

"My husband and I keep Black-Draught in the house and think it is splendid to keep off sickness. I have used it in small doses as a laxative, and there is nothing better."

"Black-Draught is a mild liver medicine . . . any child can take it. I have found it splendid with them for colds."

Theodor's Black-Draught has benefited thousands in relieving liver ailments. It helps to drive bile poisons and other unhealthy matters out of the system.

Black-Draught is a stand-by in thousands of family medicine chests. It should be in yours. Its use should help to keep the whole family well. Prompt treatment is often half the battle against many ailments.

THRACE TO GREECE UNDER LATE RULING

TURKS TO BE STRIPPED OF PRACTICALLY ALL TERRITORY IN EUROPE.

WILL RETAIN SACRED PLACES

No Conclusion Reached as to Recognition of Russia—Hapsburgs Will Not Be Permitted to Rule in Hungary.

London.—Turkey is stripped of virtually all her territory in Europe, but retains the sacred places, by the treaty now being completed by the conference of foreign ministers and ambassadors. Thrace has been awarded to Greece by the peace conference, but the present conference is charged with the task of working out plans whereby the Turks will keep control of the sacred places and Adrianople. Smyrna will be placed under Greek control.

Members of the supreme allied council are determined to adhere to that organization's refusal to allow a restoration of the Hapsburgs in either Austria or Hungary. It is stated in conference circles in answer to inquiries regarding the Roumanian fears that the appointment of Admiral North as Hungarian regent means the return of the former rulers of that country.

Recognition of the soviet government in Russia, it is stated in the same quarters, has been discussed in the course of the council's consideration of economic and financial problems, but no definite conclusion has been reached.

While nothing has as yet been decided as to the size of the army Turkey will be allowed to maintain, the council is believed to oppose any plan to maintain a force larger than 25,000, and may insist that the Turkish army be considerably less than this figure.

WILL PROBE WHEAT POOL

Washington.—Senator Reed, of Missouri, introduced a resolution calling upon the senate manufacturers committee to investigate the alleged "dealings, operations and speculations" of the United States Grain Corporation and the alleged wheat pool. The resolution which resulted from the recent report of the federal grand jury in Spokane, Wash., was referred to the auditing committee.

AIR AMBULANCES PLANNED

Army Will Equip Two Squadrons With Basket Lifts For Transportation of Injured.

Washington.—Four D.H.4 army airplanes have been ordered converted into airplane ambulances and A. V. Verville, aeronautical engineer at McCook Field, Dayton, Ohio, has completed a design for the model. Each machine will be equipped with two basket lifts for patients and accommodations for a pilot. The need of this type of plane, the department said, has been demonstrated by the Mexican border patrol work.

U. S. Consulate Bombed.

Zurich.—A bomb exploded under the porch of the American consulate here, seriously damaging the building, but injuring no one.

British Ships at Algiers.

Algiers.—A British squadron of four battleships, one cruiser and ten destroyers has arrived here.

Say Fired at Guards.

El Paso, Tex.—Two Mexican fiscal guards were fired upon from an American airplane near here Sunday, according to a statement made by Juan Marshall, consulate attached to the Mexican consular general at El Paso.

Mexicans Coming To U. S.

Mexico City.—Mexican workers are going to the United States in large numbers, and the exodus is becoming alarming, according to press advices from northern states.

To Preach on Thrift.

Springfield, Ill.—Clergymen in Illinois are urged by Gov. Lowden to preach sermons on March 21 against "the present orgy of extravagant buying and the importance of cultivating thrift."

Coal in Richmond.

Richmond, Va.—That a vein of coal amounting to billions of tons can be mined on the outskirts of the city was the report made by experts here who have completed an investigation.

JUGO-SLAVS FAVOR VIEWS OF WILSON

ALLIES' ULTIMATUM OF JAN. 14 IS REJECTED BY THE LITTLE NATION.

STANDS WITH UNITED STATES

Raises Many of Same Objections as Set Forth in President Wilson's Note Protesting Overthrow of Agreements.

Washington.—Strict adherence to the American, French and British agreement of December 9th on the Adriatic question characterizes the reply of Jan. 20 of the Jugo-Slav government to the French and British "ultimatum" of Jan. 14. The Jugo-Slav note, which was made public by the State Department, raises many of the same objections as set forth in President Wilson's note of Jan. 19 protesting against the overturning of the previously agreed solution of the problem.

The single insistent difference which distinguishes the point of view of the Jugo-Slav reply from that of the agreement signed by Secretary Polk on behalf of the United States Dec. 9 is over the cession to Italy of the Island of Dalmatia, according to the Jugo-Slav note, "is purely Slav and from an economic point of view indissolubly united with Dalmatia."

Concerning the readjustment of "the Wilson line" as proposed in the French and British proposals, the note declares such an "unjustifiable annexation of purely Jugo-Slav territories" would bring about a new and flagrant violation of the principles of nationalities, and would inevitably create a permanent hotbed of irredentism with in the frontiers of Italy of a nature precisely analogous to that which was held as a justification of the claims of "Italia Irredenta" in which its return to the mother country was demanded.

"The extraordinary complexity" which the description of the territory between the coast and the Fiume railroad line would create, according to President Wilson's memorandum, were likewise objected to on account of "unsurmountable obstacles" in the Jugo-Slav note.

The question of the division of the Austro-Hungarian war and commercial fleets the note declared to be a part of the Adriatic problem and a settlement on this point is demanded.

ROUT WETS IN CONGRESS

House Gives Heavy Vote Against Repeal, But Wets Say Will Continue the Fight.

Washington.—Sledge warfare against the prohibition enforcement act was inaugurated by "wet" members of the House.

Toughly repulsed 254 to 96 in the initial attack, made in the form of a straight-out repeal provision, offered by Representative Egan, Democrat, New Jersey, as a rider to the legislative, executive and judicial appropriation bill, the anti-prohibitionists told the House they planned to raise the issue again during the consideration of any bill that comes up appropriating funds for enforcement of the prohibition amendment.

Accept Mediation Offer.

Panama.—Leaders of striking Canal Zone maintenance of way workers accepted the offer of mediation made by Andrew Perry Bennett, British minister to Panama.

Want a Mere Billion.

Rochester, N. Y.—Discussion of plans for a five-year campaign to raise a billion dollars for church work and an address by John D. Rockefeller, Jr., featured sessions of the New York State Ministers' Conference of the Interchurch World Movement.

To Settle Wage Matter.

Washington.—Definite steps were taken toward settlement of the railroad wage controversy which has been pending since last August.

Osborne Vindicated.

Washington.—Charges of immorality and lax discipline among the inmates of the Portsmouth, N. H., naval prison were held to be without foundation in the report of the special board of investigation.

Manifesto By Reds.

Youngstown, Ohio.—In a third "manifesto" the 37 alleged radicals imprisoned here demand action on their cases and ask that they be either freed or deported.

"GLAD I DIDN'T TAKE CALOMEL"

You Never Wake Up Weak, Grippy or Sickened After Taking "Dodson's Liver Tone"—Listen!

Ugh! Calomel makes you sick. It's horrible! Take a dose of the dangerous drug tonight and tomorrow you lose a day.

Calomel is mercury! When it comes into contact with your bile, it crushes into it, breaking it up. Then is when you feel that awful nausea and cramping. If you are sluggish, if liver is torpid and bowels constipated or if you have headache, dizziness, coated tongue, if breath is bad or stomach

PNEUMONIA LEFT BOY WEAK AND SICKLY

Parents Were Almost Hopeless, But He Is Now Well and Strong.

"Our little boy's health was so poor we were almost giving up on him. He is ten years old, and has had weak lungs ever since he was eight months old, caused by pneumonia. We have been very careful with him and doctored him continually, but we had almost despair of ever having a strong, well boy."

"But since giving him Milks Emulsion all his troubles are gone and he is in perfect health."—Mrs. G. W. Smiley, 34 Maple St., Dayton, O.

OUT O' LUCK

Never mind! Just take Cascarets if Bilious, Constipated

Everyone must occasionally give to the bowels some regular help or else suffer from constipation, bilious attacks, stomach disorders and sick headaches. But do not whip the bowels into activity with harsh cathartics.

What the liver and bowels need is a gentle and natural tonic, one that can constantly be used without harm. The gentlest liver and bowel tonic is "Cascarets." They put the liver to work and cleanse the colon and bowels of all waste, toxins and poisons without griping—they never sicken or inconvenience you like Calomel, Salts, Oil or Purgatives.

Twenty-five million boxes of Cascarets are sold each year. They work while you sleep. Cascarets cost so little the too—Adv.

Augusta.—Joseph Schaefer broke a rib while attempting to crank an automobile.

Franklin.—Eighty mules were sold to foreign buyers at an average of \$255 per head, and fifty work mules bought locally, averaged \$235.

Danville.—An elaborate dinner prepared in secret, with eighteen unexpected guests, marked the 81st birthday of Mrs. Martha McDowell.

Harrodsburg.—Dr. William Goddard, who was an army surgeon in France, has gone to New York to accept a place on the staff of Christ's Hospital, the too—Adv.

Whippens Beat Mules. The whippet tank, which roared and lanked and clanked its way to victory in the war against Germany, is putting horses and mules out of business in the great pine forests of northern Arizona. One big lumber concern at Flagstaff has just put two tanks to work, having bought them from the war department. Each tank has displaced thirty horses and fourteen men, according to company officials. Using horses it was impossible for the company to haul during the winter months. The tanks, however, take no account of weather conditions.

URIC ACID IN MEAT CLOGS THE KIDNEYS

Take a Glass of Salts if Your Back Hurts or Bladder Bothers.

As you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that most forms of uric acid which almost paralyze the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush of the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink—Adv.

The Wise Agent. The agent for the useless things he was selling was a smart man. He rang the doorbell and a maid opened the door.

"Good morning," smiled the agent. "I am trying to find a married lady whose name I can't remember just now. I think this is her home. She is a woman easily described. Perhaps you know her. She is a handsome woman, with a perfect complexion, beautiful hair and teeth, lovely eyes and an ideal figure. I thought—"

"NOTHING BETTER AS A LAXATIVE"

Asheville Lady Finds Black-Draught An Effective Remedy in Her Family for Common Ailments of the Digestive Organs.

Asheville, N. C.—Mrs. A. K. Jarvis, 41 Woodrow Avenue, this city, says: "I have used and heard of Theodor's Black-Draught for years, and its efficacy have found it splendid for headache, sour stomach, indigestion and other ills that come from a deranged liver."

"My husband and I keep Black-Draught in the house and think it is splendid to keep off sickness. I have used it in small doses as a laxative, and there is nothing better."

"Black-Draught is a mild liver medicine. . . any child can take it. I have found it splendid with them for colds."

Theodor's Black-Draught has benefited thousands in relieving liver ailments. It helps to drive bile poisons and other unhealthful matters out of the system.

Black-Draught is a stand-by in thousands of family medicine chests. It should be in yours. Its use should help to keep the whole family well. Prompt treatment is often half the battle against many ailments.

THRACE TO GREECE UNDER LATE RULING

TURKS TO BE STRIPPED OF PRACTICALLY ALL TERRITORY IN EUROPE.

WILL RETAIN SACRED PLACES

No Conclusion Reached as to Recognition of Russia—Hapsburgs Will Not Be Permitted to Rule in Hungary.

London.—Turkey is stripped of virtually all her territory in Europe, but retains the sacred places, by the treaty now being completed by the conference of foreign ministers and ambassadors. Thrace has been awarded to Greece.

Thrace has been awarded to Greece by the peace conference, but the present conference is charged with the task of working out plans whereby the Turks will keep control of the sacred places and Adrianople. Smyrna will be placed under Greek control.

Members of the supreme allied council are determined to adhere to the organization's refusal to allow a restoration of the Hapsburgs in either Austria or Hungary. It is stated in conference circles in answer to inquiries regarding the Romanian front that the appointment of Admiral North as Hungarian agent means the return of the former rulers of that country.

Recognition of the soviet government in Russia, it is stated in the same quarters, has been discussed in the course of the council's consideration of economic and financial problems, but no definite conclusion has been reached.

While nothing has as yet been decided as to the size of the army Turkey will be allowed to maintain, the council is believed to oppose any plan to maintain a force larger than 25,000 and may insist that the Turkish army be considerably less than this figure.

WILL PROBE WHEAT POOL

Washington.—Senator Reed, of Missouri, introduced a resolution calling upon the senate manufacturers committee to investigate the alleged "dealings, operations and speculations" of the United States Grain Corporation and the alleged wheat pool. The resolution which resulted from the recent report of the federal grand jury in Spokane, Wash., was referred to the auditing committee.

JUGO-SLAVS FAVOR VIEWS OF WILSON

ALLIES' ULTIMATUM OF JAN. 14 IS REJECTED BY THE LITTLE NATION.

STANDS WITH UNITED STATES

Raises Many of Same Objections as Set Forth in President Wilson's Note Protesting Overthrow of Agreements.

Washington.—Strict adherence to the American, French and British agreement of December 9th on the Adriatic question characterizes the reply of Jan. 20 of the Jugo-Slav government to the French and British "ultimatum" of Jan. 14. The Jugo-Slav note, which was made public by the State Department, raises many of the same objections as set forth in President Wilson's note of Jan. 19 protesting against the overturning of the previously agreed solution of the problem.

The single insistent difference which distinguishes the point of view of the Jugo-Slav reply from that of the agreement signed by Secretary Polk on behalf of the United States Dec. 9 is over the cession to Italy of the island of Dalmatia, which, according to the Jugo-Slav note, "is purely Slav and from an economic point of view indissolubly united with Dalmatia."

Concerning the readjustment of "the Wilson line" as proposed in the French and British proposals, the note declares such an "unjustifiable annexation" of purely Jugo-Slav territories would bring about a new and flagrant violation of the principles of nationalities, and would inevitably create a permanent hotbed of irreconciliation with the frontiers of Italy of a nature precisely analogous to that which was held as a justification of the claims of "Italia Irredenta," in which its return to the mother country was demanded.

"The extraordinary complexity" which the description of the territory between the coast and the Fiume railroad line would create, according to President Wilson's memorandum, were likewise objected to on account of "unworkable obstacles" in the Jugo-Slav note.

The question of the division of the Austro-Hungarian war and commercial fleets the note declared to be a part of the Adriatic problem and a settlement on this point is demanded.

ROUT WETS IN CONGRESS

House Gives Heavy Vote Against Repeal, But Wets Say Will Continue the Fight.

Washington.—Sleaze warfare against the prohibition enforcement act was inaugurated by "wet" members of the House.

Though repulsed 254 to 86 in the initial attack, made in the form of a straight-out repeal provision, offered by Representative Egan, Democrat, New Jersey, as a rider in the legislative, executive and judicial appropriation bill, the anti-prohibitionists led the House here planned to raise the issue again during the consideration of every bill that comes up appropriating funds for enforcement of the prohibition amendment.

Accept Mediation Offer. Panama.—Leaders of striking Canal Zone maintenance of way workers accepted the offer of mediation made by Andrew Percy Bennett, British minister to Panama.

Want a Mere Billion. Rochester, N. Y.—Discussion of plans for a five-year campaign to raise a billion dollars for church work and an address by John D. Rockefeller, Jr., featured sessions of the New York State Ministers' Conference of the Interchurch World Movement.

To Settle Wage Matter. Washington.—Definite steps were taken toward settlement of the railroad wage controversy which has been pending since last August.

Osborne Vindicated. Washington.—Charges of immorality and lax discipline among the inmates of the Portsmouth, N. H., naval prison were held to be without foundation in the report of the special board of investigation.

Manifesto By Reds. Youngstown, Ohio.—In a third "manifesto" the 87 alleged radicals imprisoned here demanded action on their cases and asked that they be either freed or deported.

"GLAD I DIDN'T TAKE CALOMEL"

You Never Wake Up Weak, Gripy or Sickened After Taking "Dodson's Liver Tone"—Listen!

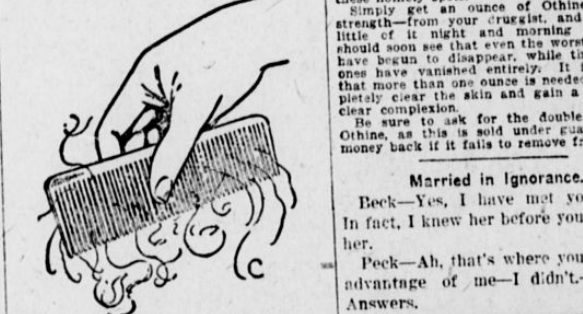

Ugh! Calomel makes you sick. It's horrible! Take a dose of the dangerous drug tonight and tomorrow you lose a day. Calomel is mercury! When it comes into contact with your bile, it crashes into it, breaking it up. Then is when you feel that awful nausea and cramping. If you are sluggish, if liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tone tonight. Here's my guarantee—Go to any drug store and get a bottle of Dodson's Liver Tone for a few cents. Take a spoonful and if it doesn't straighten you right up and make you feel fine and vigorous, go back to the store and get your money. Dodson's Liver Tone is destroying the sale of Calomel because it can not salivate or make you sick.—Adv.

"But since giving him Milks Emulsion all his trouble is gone, and he is in perfect health."—Mrs. G. W. Smiley, 25 Maple St., Dayton, O.

For restoring appetite, health and strength in sickly children, mothers will find Milks Emulsion the thing they have always sought. Most children like to take it, because unlike many emulsions and tonics, it really tastes good. Doctors say that more than 70 non-organic diseases can be traced to an Acid stomach. Biliousness is one of them. Indigestion, heartburn, belching, sour stomach, flat and gas are other signs of acid stomach. EATONIC, the marvelous mutter stomach remedy, brings quick relief from these stomach miseries which lead to a long chain of ailments that make life miserable if not corrected.

EATONIC literally absorbs and carries away the excess acid. Makes the stomach strong, cool and comfortable. Helps digestion, improves the appetite and thus the child gets full strength from your food. Thousands say that EATONIC is the most effective stomach remedy in the world. It is the help you need. Try it on our money-back-if-you-need-it plan. At all druggists.

NOTICE TO THE PUBLIC

In the Stud season of 1920 will be one registered saddle bred horse 5 years old, 16 hands high, will weigh around 1,000 pounds. A beautiful bay with white hind feet, very stylish with perfect form. This stallion was bred by W. E. Dowell out of a very fine registered saddle mare. He sent the mare away to one of the highest bred saddle horses in the state of Kentucky and this beautiful young stallion was the result. If you have a well bred mare it will pay you to see this horse before breeding elsewhere.

Also one good jack, being of the noted Black Spanish and Starlight breeding, has size and best of quality, good lengthy body with the best of head and ear, is a tried breeder. Sires the kind of mules we all like with size and best of quality.

The above horse and jack will make the season of 1920 at my farm north of Marion, Ky., at \$15.00 each to insure a living colt. Money due when mare is traded or transferred or bred to another horse or jack. Care taken to prevent accidents but will not be responsible if any occur.

Also have the registered Red Poll cattle, some young bulls for sale. The dual purpose cattle, very large and smooth, dark rich reds, very beautiful and excellent milkers.

Also the Mammoth Big Bone Poland China hogs of the leading strains in the north west hog region, being the real 600 to 800 pound sows and 1,000 to 1,200 pound boars. They are not quitters like the small type of hogs, get so big and quit growing, they make use of lots of grass as they are great grazers which helps greatly to cheapen the feed bill. Have a choice lot of gilts and boars for sale. Pedigrees furnished.

Also have the Rose Comb R. I. R. chickens, very large, true to color, very dark rich reds, good layers, hens excellent mothers. Eggs for sale for setting purposes at reasonable prices. B. H. EASLEY, Marion, Ky., Phone 78, 3 rings, Marion exchange.

NOTICE TO THE PUBLIC

In the Stud season of 1920 will be one registered saddle bred horse 5 years old, 16 hands high, will weigh around 1,000 pounds. A beautiful bay with white hind feet, very stylish with perfect form. This stallion was bred by W. E. Dowell out of a very fine registered saddle mare. He sent the mare away to one of the highest bred saddle horses in the state of Kentucky and this beautiful young stallion was the result. If you have a well bred mare it will pay you to see this horse before breeding elsewhere.

Also one good jack, being of the noted Black Spanish and Starlight breeding, has size and best of quality, good lengthy body with the best of head and ear, is a tried breeder. Sires the kind of mules we all like with size and best of quality.

The above horse and jack will make the season of 1920 at my farm north of Marion, Ky., at \$15.00 each to insure a living colt. Money due when mare is traded or transferred or bred to another horse or jack. Care taken to prevent accidents but will not be responsible if any occur.

Also have the registered Red Poll cattle, some young bulls for sale. The dual purpose cattle, very large and smooth, dark rich reds, very beautiful and excellent milkers.

Also the Mammoth Big Bone Poland China hogs of the leading strains in the north west hog region, being the real 600 to 800 pound sows and 1,000 to 1,200 pound boars. They are not quitters like the small type of hogs, get so big and quit growing, they make use of lots of grass as they are great grazers which helps greatly to cheapen the feed bill. Have a choice lot of gilts and boars for sale. Pedigrees furnished.

Also have the Rose Comb R. I. R. chickens, very large, true to color, very dark rich reds, good layers, hens excellent mothers. Eggs for sale for setting purposes at reasonable prices. B. H. EASLEY, Marion, Ky., Phone 78, 3 rings, Marion exchange.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts through the blood on the mucous surfaces of the system thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative power of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address P.
