WILL IT NEVER BE TRUE?

Marion is again in the forefront of the real estate market. Many homes are being sold and the prices are high. This is due to the fact that people are looking for a place to call home. The prices are not as high as they were a few years ago, but they are still very reasonable. The demand for homes is high and the supply is low, which is driving the prices up. People are moving to Marion to take advantage of the beautiful weather and the close proximity to the city of Indianapolis. It's a great place to live and work.
