Good Banking is Good Business

The best business connection in the world is a good bank. And right now we are in the fortunate position of having the financial stability of this bank, but there are some who do not realize how much they can get out of it. They are just waiting for the money to come in. This Year of Grace—1935—will be filled with financial problems. Some of them are going to be very serious. These problems will be solved, as they are always solved, by sound banking and by good management. We are going to do our best to meet these problems, and we are going to do it in such a way that we will be able to meet them in the best possible manner.

Attention! To Tobacco Growers!

As the tobacco growers have not had a season for their tobacco to be stripped, I decided to extend the time which we will continue to keep open instead of closing on April 15th, I will keep open to April 29th, and will be ready to receive all the tobacco you will favor me to sell for you.

I am running at a loss, and my expense is great, but I am making this sacrifice to accommodate my patrons. Rush your tobacco to our market.
