Are You Preparing YOURSELF FOR OLD AGE?

STATISTICAL shows that a vast majority of the people of the United States are dependent upon the age of sixty or more.

This is because depression is a natural process—many people losing their income before meeting it. We advise you to consider your money for uninsured funds.

THE HOLE of this is that you are ready to avoid becoming dependent on others when you are old and living at least one-fourth of your years' expenses. Rather, by taking care of the minor matters now, you will be sure to have a place to keep your necessities—and in addition to your savings you have three per cent interest compounded every six months. ONE DOLLAR will start you as a depositor and you will be tripled so much every year on a one dollar deposit as if you had been in Heaven.

Protecting Your Interests

We believe that the first duty of a bank is to make it just as safe as it is formerly possible to make anything safe. The winds may blow, but the wall is safe. Did we not make it safe? Did we not, indeed, make it safe by improving the measures of its security, of its strength, and of its efficiency? Did we not make it safe by the best equipped and most modern electric display systems in the country? Did we not make it safe by the cement foundation of this all-blue and strong investment stands between them and your interests in this bank and protects YOU. Day and night, every day in the year this system will possess your interests. We want you to know that whatever can be done to make for greater safety, greater efficiency, and better backing, both in the matter of equipment and all other lines will be done by this bank. We are here to serve you. We pride the point to see when the question of safety-service-service is satisfied.

Last Carver of Totems

William Stevens Jennings, the "Carver of Totems," is the chief carver of the last permanent totem pole made by the Haida tribe in Alaska. He is known for his detailed and realistic carvings, which often depict animals and mythical creatures. His work is highly sought after and is considered a valuable contribution to the art world.

In addition to his artistic skills, Jennings is also known for his dedication to preserving the Haida culture. He has been involved in various projects aimed at preserving the language and traditions of the tribe. His work has been recognized and celebrated by both the Haida community and the wider world.

DODSON STOPS SALE OF CALOMEL

PRINCE ALBERT

The national joy smoke.

PUT A PIPE IN YOUR FACE that's filled cheerfully with Prince Albert. If you've ever had a pipe, you'll enjoy the mouthful of tobacco that comes with it. P. A. will bring you a song of tobacco joy that will make you wish your job was to see the world over, so you could get away with twenty-two hours.

You're in"putting" with Prince Albert. The same mild, gentle, and throaty smoke that comes from the pipe-mouth will make a smoke-mouth handsomely. Day out of every week, with no small element of manly smoke joy!

MRS. FIECHTL'S TYROLEAN YODLERS

A Troop of Six Alpine Singers and Players in Native Costumes. Winners of First Prize in Six Day Yodel and Song Contest in Frankfurt, Switzerland.

The Fiechtls made their first American tour at the time of the Chicago World's Fair and have been heard in practically every state in the Union. They have entertained nearly every king and emperor of Europe. They represent a distinct type of music that is both delightful and interesting. An evening program to them is like a glimpse of Switzerland.

The Most Novel and Unusual Entertainment Ever Brought to Marion

READ WHAT OTHERS SAY:

At the Union League Club there was an innumerable throng and chorus about the first concert last night of the Tyrolean Alpine Singers, from the mountains of those of the Tyrolean Alps. The stage, with its native costumes, looked like a transformation scene from the Alps, with the same piquancy of life and exuberance of song. It was surprising how much genuine music and real life, and beauty of costume and lyrics from the Tyrolean put into a beautifully directed program. The ensemble was so perfect that the most exacting critic might have been moved to tears. The shading was subtle, the somberness was comforting and the unaffectedness of the dancers seemed to pervade their every effort.—New York Star.

The Most Welcome Tire That Ever Came to Market

Men Who Appreciate Superlatives Prefer The Brunswick

In every great tire factory the chief question is "How much can we give for the money?" No product depends on the policy adopted.

Every man who has been acquainted with Brunswick Tires knows that Brunswick standards are again evident. This famous concern—routed as a leader in every line it entered since 1912—has once more proved that its policy is right. A perfect tire is simply a matter of knowledge and standards and skill. No series or pattern prevents making an ideal tire.

But standards come first. For in tire making there is vast room for skippering, for middle economics, for hidden shortcomings. Makers without the highest standards don't build high-quality tires. The Brunswick organization of men includes a host of men of technical expertise. But a man strong enough to have spent less than 25 years in handling rubber. Each is a master of his craft. And the new ideas they bring to the attention of Brunswick directors receive surest consideration. Every proved betterment is adopted immediately.

The Brunswick Tire is a combination of acknowledged features—plus Brunswick standards of manufacture. The result is a super-die, the like of which you have never known before. You will never lose a tire. You will never have to buy a new tire. You will glad\ly join in welcoming.

Vin Brunswickers cost no more than any other fine tire. Try ONE Brunswick. We promise a surprise. And we feel certain you will want ALL Brunswick.

Three good cars will have a new meaning to you.

KENTUCKY GIRL AT BOOTH HOSPITAL

Not long ago we received a postcard from a patient who had been a patient at the hospital and was one of those who had been cured of tuberculosis. He had written to thank us for the care he had received and to express his appreciation of the work done by the doctors and nurses. We were very pleased to receive this letter and felt that it was well worth while to have continued our efforts to improve the hospital facilities. We have always believed that our hospital should be a place where patients can receive the best possible treatment and where they can recover as quickly as possible.

A DISTINGUISHED MEMBER OF THE RED SPOT FAMILY

Gothic Furniture Polish

Use it on the pans or any other piece of expensive furniture. It preserves the beauty of the most costly finishes and wood, and not only improves the appearance of the interior of your home but gives longer life to the woodwork on which it is used. Like other Red Spot products, Gothic Furniture Polish is made from the choicest materials with the most painstaking care.

For more than Forty Years Cotton Growers have known that POTTASH PAYS

More than 15,651,000 Pounds of Potash salts had been imported and used in the United States in the 50 years preceding January, 1913, when statistics stopped. Of this 4,080,700 tons consisted of

KAINIT

which is the only great known base both a plant food and a preventive of blight and rust—thus saving 1,500,000,000,000,000 acres of cotton in the South.

20 per cent MANURE SALT

which has the same effect on cotton, but which must be used with care and skill to avoid the effects of some other salts. A mere 20 per cent Manure Salt has preserved cotton for 10 years.

1,400,000 Pounds of Kainit and Manure Salt have been used on the 3,000 acre farm of the F. W. M. Johnson, near Hot Springs, Arkansas. The results were as follows:

KAINIT

Muriate of Potash

Manure Salt

which is the only great known base both a plant food and a preventive of blight and rust—thus saving 1,500,000,000,000,000 acres of cotton in the South.

20 per cent MANURE SALT

which has the same effect on cotton, but which must be used with care and skill to avoid the effects of some other salts. A mere 20 per cent Manure Salt has preserved cotton for 10 years.
