Weston, the head of the Economon, is responsible for the store's operations.

WHITE

White, the owner of the Farms, is responsible for the farm's activities.
For more than Forty Years
Cotton Growers have known that
POTASH PAYS

More than 11,000,000 tons of Potash Salt
had been imported and used in the United
States in the 20 years previous to January,
1912, when shipments ceased. Of this
4,000,000 tons consisted of

KAINIT

which the cotton grower knew was both a
plant food and a preventive of blight and
rodent pests—so that it was also little more
than 20 per cent MANURE SALT.

KAINIT—While many farmers are just
beginning to use Potash (Kainit) and salt
as a fertilizer, this industry has great
possibilities in the future. Farmers who are
using Potash should be encouraged to use
more of it. With the increase in the use of
potash, the demand for potassium will
increase, making it necessary for farmers
to use more of it. Farmers who are not
using Potash may not be aware of its
benefits. With the increase in the use of
potash, farmers will be more likely to use
more of it. Farmers who are not using
Potash may not be aware of its benefits.

Muriate of Potash

Muriate of Potash is a white crystalized
material that is used as a fertilizer. It is
high in potassium and is very helpful in
increasing crop yields. Farmers who are
using Muriate of Potash should be
encouraged to use more of it. With the
increase in the use of Muriate of Potash,
the demand for potassium will increase,
making it necessary for farmers to use
more of it. Farmers who are not using
Muriate of Potash may not be aware of its
benefits. With the increase in the use of
Muriate of Potash, farmers will be more
likely to use more of it. Farmers who are
not using Muriate of Potash may not be
aware of its benefits.

“The Little Shepherd of Kingdom Come”

By John Fox Jr.

STRAIGHT THEATRE
Thursday, June 10

No sir-ce, bob! No premiums with Camels—all quality!

Camel quality plus Camels set apart blend of choice Turkish and choice Domestic tobaccos pass out most wonderful cigarette smoke you ever drew into your mouth!

And, the way to prove that statement is to compare Camels puff-by-puff with any cigarette in the world!

Camels have a mild mellowness that is as new to you as it is delightful. Yet, that desirable "body" is all there! They are always refreshing—they never tire your taste.

Camels leave no unpleasant cigarette ash or nicotine on your peripherals! Your say-so about Camels will be: "My, but that's a great cigarette!"

Hayman's Tires

Take Your Vacation on the Redpath Chautauqua

The Whole Secret of A Better Tire Simply a Matter of the Maker's Policies

This you will realize—true you try a Brunswick—what a superior tire is possible only when the maker is following the highest standards.

The tire making is a chiefly a matter of standards and policies—cost plus profit. Any maker can build a good tire if he cares to pay per beclicad's price.

But man know Brunswick standards, for Brunswick products have been famous for 74 years.

Furnace, fabric and standards vary vastly in cost. Observance, plan and thickness are a matter of expense. And these varieties affect endurance. It rests with the maker how far he is to go—how much he can afford to give.

If there are no secrets her patients to hold one back.
