All lettering and carving is done by skilled workmen of proven ability whose work cannot be surpassed in any city in the world. THEREFORE BUY AT HOME then you can see the work you are getting and know exactly what you have bought.

### HAS CELEBRATION

Last Thursday evening the men of Class number three of the Marion Methodist Sunday School hied themselves from their places of business and from dult care and betook themselves to "Rochester Woodland" to pay their respect to an affair long looked for by class no. three. The occasion for this seeming negligence of the routine of business was the annual "Get-together" of the men of the Methodist Sunday School. Hereto-fore the eats of the affair have been in the form of a banquet but this year it was decided to have an old fashioned barbecue. And a barbecue war sized slices of bread but a real barbecue prepared by cooks who knew how to do the thing to a "IT." Tom Sleamaker had charge of the thing and it goes without saying that it was put on in good shape.

About ninety "boya" were present and by acclamation voted that it was some barbecue.

### CITY COUNCIL MEETS

The city council met last Monday higher and passed a number of ordinances, mostly about driving automobiles, etc., though one thing of considerable moment that was taken care of was the licensing of the traveling shooting gallery.

Such unimportant things as ways and means of water works, a new bridge on Bellville Street, concrete side walks and the like of that received scant attention.

Some mention was made of securing water from the Lucile mines for fire prevention purposes.

The bride entered with her brother, by whom she was given in marriage, to Mary E. King who preceded him to the grave five years ago. To this union was born five children, two dy in infancy, two sons Marshall and Bryant of Missouri and daughter word as brides maid wore a crisp pink of relatives neighbors and friends survive and mourn the loss and absence of this great and good life which has been called higher.

Rev. J. A. West in his happy style officiated with the ring ceremoning water from the Lucile mines for fire prevention purposes.

The new ordinances will be posted some where around town by the chief of police. The Press has not been informed as to where and when the posting will take place so cannot pass the information on to its reader.

LAND MARK GONE George Cook.
The bride entered with her brother,

informed as to where and when the posting will take place so cannot pass the information on to its readers, who will of course be anxious to obey these new laws—as all the rest of them are obeyed to the letter, like cutting the weeds in front of their property for instance.

It was voted to place traffic posts in the center of the crossings at Carlisle and Bellville Streets and Main.

のできる。

of palms and potted plants, a floral setting was affected by means of a flower trinmed lattice overhung by a white wedding bell.

Preceding the ceremony Mrs. E. E. T. Williamson sang "Because." The wedding music was given by Mrs. George Cook.

Just at the close of day on June, 4, 1920 the Death Angel visited at the home of Mrs. Beatrice Nunn Enoch and claimed for its victim her aged father W. Otho Nunn. He was born July 22, 1852, thus making his services on earth 68 years.

mings left for Galveston, the bride wearing a going away suit of blue tricotine with hat in harmony. Upon their return they will be located at 221 West 13 st. Houston, Texas.

LAND MARK GONE

The old thorn tree that stood at the north west corner of "Jockey Lot" on Koon road fell one morning this week. In some way it caught fire and burned down and this incident marked the passing of one of Marion's "Land marks."

rion's "Land marks."

rion, there he lived a faithful and consistent member until death.

Mr. Nunn had been in fragile health for many years but had only been confined to his room and bed a few days before death, and although the last few weeks on earth were spent in a continuance of suffering never a complaint or murmur was heard escape the lips of the sufferer, he seemed to leave all with God and repeat "Thy will be done, not mine." Many times during his illness he expressed a willingness to die and rejoiced greatly in the hope of Christ. Mr. Nunn's greatest desire and ambition was to do something for the Mr. Nunn's greatest desire and ambition was to do something for the welfare of others and he was never lappier than when making glad the hearts of those around him. He was a strong worker in the church for Christ, and his religious influence will for ever dwell in the communities far and near and rejoice in the memory of of his life.

All medical skill and loving hands assisted him, but all that could be done by the weak here on earth was of no use, when the Great Maker whispered "Come up higher" the spirit made its flight for the bright beyond.

### THE COLYUM

I have seen Pikes Peak at sunrise.

And the famous high bridge try in Eastern Kentucky.

As well as practically all the well known beauty spots in the Appala-chian, Blue Ridge and Great Smoky mountains in the Carolinas.

Also many of the famous rocks, parks, and gardens that are pretty thick out west during the two years I spent in Colorado, Wyoming and New Mexico.

But for real beauty there was not a single bit of scenery that I laid eyes on that surpassed what I saw from the top of those bluffs.

Of course I could not look off into the distance and see any snow capped nountains.

Nor a balanced rock.

But the sight that greets your eyes there is of green fields in the distance.

same beauty spots around over the county that we ought to boast of.

And our mineral wealth

Not to mention the fact that we also have many thousands of acres of the finest land the sun ever looked at on its way across this broad land

of ours. Besides a lot more that could be

### CHAUTAUQUA OPENED WEDNESDAY

Wednesday afternoon with the Sibyl Sammis Singers for the opening attraction began the annual Redpath Chautauqua. The program rendered by these artists was a most pleasing one and a fair crowd for the first afternoon enjoyed it.

Last Sunday being the third Sunday it is hardly necessary to say that the 4d was headed towards Sugar Grove.

Last Sunday being the third Sunday it is hardly necessary to say that the 4d was headed towards Sugar Grove.

No there was no basket dinner this time.

But there was a mighty good substitute at the country home of Mr. and Mrs. J. N. Dean.

After the bunch had done more than justice to the fried chicken et al. a lot of us younger ones, including Mrs. W. P. went over to the Piney Bluffs or whatever their name isany how they are near Piney Creek, for some much needed exercise.

A lot of people very foolishly spend a considerable amount of money traveling around every year looking for some "scenery." Shame on 'em.

Some of us climbed to the top of those bluffs—yes I was able to—but SOME of the crowd was not.

And the beauty of the landscape that greeted our eyes!

Last Sunday necessary to say dered that were unusually well received a ferminine quartette and the novel of this company is sure to win the hearts of the nations Chautauqua goers. One of the afternoon numbers was repeated at the close of the evening performance by special request and was so thoroughly enjoyed that a lot of us wanted to hear more and started to get it by the usual started to get it by the usual that a lot of us wanted to hear more and started to get it by the usual that a lot of us wanted to hear more and started to get it by the usual that a lot of us wanted to hear more and started to get it by the usual that a lot of us wanted to hear more and started to get it by the usual that a lot of us wanted to hear more and started to get it by the usual that a lot of us wanted to hear more and started to get it by the usual that a lot of us wanted to hear more and started to get it by the usual that a lot of us wanted to hear the ladies sing agard.

The plainist, Miss Mary Cameron, not our Miss Mary, accompanied the quartette and played one beau

A beautiful wedding took place in the parlor of Esquire W. E. Todd, on last Saturday at 4:30 p. m., when his daughter, Miss Trume was united in marriage to Mr. William Seymour of Bowling Green, Ky.

The bride is a beautiful and highly accomplished hady of the Mt. Olivet neighborhood. She is a graduate of the High School of Springfield. Illinois and of the State Normal of Bowling Green Ky.

The groom was reared in the east-

Bowling Green Ky.

The groom was reared in the eastern part of Crittenden county and is
a young man of fine character.

Immediately after the ceremony
had been performed by the Rev. U.
G. Hughes in the presence of a number of relatives and friends the couple left for the home of the groom's
father. Mr. John Seymour near
Shady Grove, and on Senday left for
Bowling Green, where Mr. Seymour
is engaged in the insurance business,
where they will make their future

### MAN FALLS IN STREET

The entire organization in charge of the Chautauqua this year from the superintendent both ways is a bunch of fellows you will enjoy meeting. Measrs. Owen, Davis, Shepard and Kennedy are young men of very pleasing personality and together with Superintendent DeBoers are seemingly well equipped to help you enjoy yourself to the fullest extent this year.

Mr. DeBoers is doing a lot of bragging on the program that is to follow. He is especially strong on Opie Read, Ralph Parlette, Dr. Geisel and the two plays that come next week.

TODD-SEYMOUR

Tuesday morning a well dressed in front of the front of the front of the front of the from to front of the residence of Mr. Raymond Brown and Miss Naomi Holmes were united in the holy bonds of matrimony at the residence of Rev. V. L. Stone in the prosence of a number of friends and that he was given this discharge on June5 1920 and he was one of the first countingent of Canadian soldiers that entered the Worlds war and evidently ities.

He was on his way from Seattle Washington to his home near Savannah where his mother and two sisters reside. Louisville papers state that he was one of six men who escaped from a hospital there.

# WHY IS A DRUGSTORE?

Because life is too short and mankind is too modernized to go out out in the woods and gather roots and herbs for the cure of the multiplying ills of the day, as they did in ancient times.

It would take you hours, or days, or perhaps weeks to go to the woods and find what this drug store can sell you for a quarter or a half dollar. You can get many remedies here that you could never find in the woods, remedies that both cure and PREVENT sickness.

A Drug Store is the necessity of EVERY community. It is easier to keep well than it is to be cured after you get sick. We sell simple Preparations that KEEP YOU WELL

### CLIMB THAT REQUIRED NERVE

English Workman Went 450 Feet In Air to Make Repairs to Marconi Wireless Mast.

The Morning Post of London gives the description of a climb performed by a workman in the employ of the Marconi company at their works in Chelmsford. A short time ago the highest part of a wireless mast 450 higher than the the top of St. Paul's, was broken by a gale. How was it to be repaired? adders were out of the question. But the difficulties did not daunt one of the workmen, who noticed that the mest was made of quarter-sections olted together and then fitted one on top of the other. He asked, and was made himself a belt, at the two ends of which were rings that would slip ver the ends of the bolts. Thus the bolts being his only means of support. On the first day he swarmed up 200 feet, fitted the tackle, and descended to earth, for it was too cold to proceed farther. On the second day he was hoisted up the 200 feet, and then, hend over hand by means of his rings and bolts, he got to the top of "Sir Arnold Scabring?" gasped Tor the mast, where he effected the necessary repairs. The last 250 feet "The father of the Honorable Miss climbing was done in an hour. The

### **GOOD HIGHWAYS** ASSIST FARMER

Vast Road-Building Program Now Under Way Throughout Whole United States.

### POOR ROADS ADD BIG TOLL

Projects Have Been Approved Calling for Federal Aid to Amount of \$110.840,773-Important Factor in Buying and Selling.

(Prepared by the United States Depart The highway is coming into its own in America

Neglected, abused, undervalued, subjected to cheap remedies for decades. at last the country road is being ac corded the treatment it deserves. At a cost of hundreds of millions, the United States is rapidly overcoming the economic handleap which highway neglect has so long entailed.

This stupendous movement, the scope of which the public even now does not fully comprehend, is founded on roads pay. If they did not, the nation | duce the hauling cost 5 per cent a tonwould not now be constructing and mile, and if the average yield of planning them on an unprecedented wheat in the vicinity of these roads is cial life of the people, by helping re- for an average haul of five miles, an lieve the congestion that is making economimaelstroms of municipalities. But, acre or \$36 a quarter section. This is more important still, they pay in dol- 4 per cent on 8900. Calculations of lars and cents, for poor roads add a this sort have shown thousands of comheavy toll to the buying and selling of | munities the wisdom of borrowing mon-

cured by the department of agriculture from 2,800 correspondents indicated that the average cost of hauling on an unimproved country road was 22.7 cents a ton-mile. Today, with price levels much bigher, the cost would be even greater.

curately what the saving would be if all highways were improved in the dis-tricts represented by these replies, a specific instance makes the benefit plain. A farmer in a southern state had to haul a ton of barbed wire 23 miles, over unimproved roads. He found that with a two-horse team his maximum tood was 500 pounds, and that three days were required to make one round trip. To haul one ton, there fore, required 12 days to make one round trip. Allowing \$6 a day for man and team, the cost was \$72. After the roads in this region were improved, the ne team could draw a ton to the same team could draw a ton to the lond and make one round trip in two days, at a cost of \$12. The ton-mile war material among the state highcost under old conditions was \$3.18 and this cost was reduced to 52 cents by the improved road.

In the bu- ing saving in each of the other crops. reau of public roads, United States de-partment of agriculture, which administers the federal aid road act, is centered supervision of all highway construction which federal funds help carry on. At the close of last year, project statements had been approved calling for federal aid to the amount of \$110,840,773-a sum which indicates how fully the nation is convinced that better roads mean better business. The total federal funds available to aid the states in their road-building programs up to July 1, 1920, will be \$169,-750,000-and this total is exceeded by the combined expenditures of state, anty and municipalities.

### Better Roads. Better Business.

The business considerations back of these vest investments are not far to seek. Better roads mean cheaper and quicker hauling. It has been estimated, for example, that on a level, muddy earth road the amount which one horse

Waere Ton-Mile Costs Are Low

ries from nothing to a maximum of 800 pounds; on a smooth, dry earth road, from 1,000 to 2,000 pounds; on gravel road in bad condition, from 1,000 to 1,500 pounds; on a gravel road In good condition, about 3,300 pounds on a macadam road, from 2,000 to 5,000 nds; on a brick road, from 5,000 to 8,000 pounds.

If the speed of travel is the same on all of these surfaces, the horse will haul on a good macadam road from three to five times as many miles a day as upon a moderately muddy earth road. Assuming that one horse is capable of a certain fixed amount a day, then, with a given load, its effective radius of travel from that point on a macadam road is from three to five times the radius of travel from that grass.

### MAKING ROADS WITH BRAINS

Most of Heavy Work Incident to Highways Is Being Done by Machinery-

As help is scarce, and increasing traffic makes good roads a necessity, more and more of the heavy work in cident to highways is being done by machinery.

At one time the work of leveling and building had to be done largely with the pickax in the hands of work men, and with shovels and teams. Now gasoline engines, motor trucks, and huge power-propelled cranes do all of the heavy work. In the pew method the expense is less than by the old method, for machinery is always cheap er than human labor, in that a mate rial saving of time is effected.

Good roads are an economy to any section of the country, as they permit produce to be hauled to market just when it will bring the most, and property is always worth more which bor ders well-constructed highways, Try to buy a farm along a concrete road and you will find the location makes a big difference in the price asked.

### REDUCE COST OF MARKETING

It Can Be Brought About by Farmers Using More Trucks, Trailers Head lettuce does best in cool, moist and Automobiles.

The high cost of marketh g that is such a factor in the cost of riving will be reduced when the roads are improved and farmers use more trucks, trailers and automobiles in reaching city markets with their products,

### UNPAVED ROADS UNCERTAIN

When Weather is Good They May Be Passable If They Have Been Continuously Dragged.

Unpayed roads vary with the weather-payed roads are constant. When the weather is good, dirt roads may be passable if they have been continuousy dragged, but they are not roads for truck and automobile traffic, so characteristic of the highways today when properly constructed.

### Good Roads Are Needed

The need of good roads has been impressed on the entire country in such a manner that first cost has become a secondary consideration.

Mississippi Valley Roads. Of the 2,250,000 miles of rural high way in the Mississippi valley only a scant 100,000, or 7.8 per cent of the total, are hard surfaced.

### STOCK THRIVE ON ROUGHAGE

Feeding Value of Silage, Fodder and Stover in Dairy Ration Not Fully Appreciated.

The feeding value of corn silage, corn fodder and corn stover in the dairy ration is not sufficiently appreclated, especially in those regions where legumes do not thrive, says a specialist of the dairy division, Unit-ed States department of agriculture. A recent study of records from cowtesting associations points to the conclusion that the growing of more corn roughage and less non-leguminous hay would increase the profitableness of the ration.

In all sections where legumes thrive it is, of course, advisable to grow them, as their value is well recognized for feeding dairy cattle. In fact, from a study of cow-testing association reports it would seem that even grain does not fully take the place of good legume roughage. It is in these sections where legumes do not thrive, however, that dairymen may well consider the growing of more corn roughage and less non-legume hay.

Few plants apparently contain all the substances required to nourish properly the animal body, but in the light of present knowledge, the corn plant seems to be one of these. It is possible to balance a ration from orn products only that will enable the animals to thrive and reproduce with apparently no ill effects. This is

Filling Silo With Corn-More Corn Silage or Other Corn Roughage Is Needed, Especially in Regions Where Legumes Do Not Thrive.

not the case with many other crops. Corn, then, has unusual feeding prop-

ertles. Experimental work done at the South Carolina and Pennsylvania stations has shown that it is practical under some conditions to feed dairy cows on a ration of corn silage and grain without hay. Such a ration has been used successfully in feeding beef steers. Reports from one cow-testing association in a non-leguminous hay region having an unusually high income over cost of feed and large prothe dairymen have practically discontinued the feeding of hay, but instead feed sliage and corn fodder. In this association the grain ration is also

composed largely of corn by-products. No matter what other conclusions nay be drawn from the evidence available showing the value of corn fodder and corn silage as dairy feeds, it seems certain that the corn plant pro-

vides an excellent roughage. Hay is often damaged very much be ecoming overripe. Storms damage it seriously. The feeding value of corn is not damaged by its becoming ma-ture, and if it is properly shocked storms do little damage to it.

There are undoubtedly many dairynen who can well consider the wisdom of reducing the amount of nonleguminous feed, corn fodder, aud silage to feed their dairy cows.

are economically utilized by the dairy cow. Contagious abortion can be prevented by the use of an antiseptic

lution used on the sire after each

service. Through the dairy cow many unsalable roughages may be transformed nto products from which cash may

be realized. A jar of vaseline is almost a necestity around the dairy barn, especially on very cold days when chapped and

cracked teats are common. To keep the herd sire from getting too fat give him access to a sm field or paddock where he can get the

necessary exercise. Vermont experiments indicate that It takes about two and a half tons of pumpkins to equal in feeding value one ton of silage for milk cows.

Do not feed the calf a large amount of milk just because it is there to be fed. It is better fo feed the calf give the surplus to the pigs.

This shows the painstaking work done by the technical committee of the war claims board."

### Claims Big and Little

Some of the claims adjusted were distinctly of an extraordinary nature. They ranged from the adjustment of the great power contracts in the Pitts-burgh district, which involved 1,900,-000,000 horse power, to the re-arrange-ment of the rabbit ment industry which had sprung up in Kansas. In-cidentally, the casfor oil contractsthe oil to be used for Liberty motorshave come up before the technical committee. The fact that the entire amount of more than \$3,500,000,000 worth of war contracts was settled at 12 per cent of their total face value shows that real Americanism pervades the industries of this country.

"It is the biggest job of arbitration the world has ever known," is the way in which a prominent member of administration characterized the work of "unscrambling the war One of the most highly technical contracts, and one which required deep investigation, was that affecting the power supply of the Pittsburgh district. This district, the chief prod-

ucts of which were munitions and steel of every kind, was practically tied up in government work during the ployees were added, and as soon as of the Birmingham.

War Unscrambling Almost Fin- the contracts were well under way a serious power shortage developed. Only 40 per cent of the necessary power er was available and the munitions companies were forced to arrange their shops so that they could use the power in rotation.

This cut down the possible output practically 60 per cent and the gov ernment immediately undertook to pro vide the additional power needed. Con tracts were made with three compa nies to supply 1,900,000,000 kilowatt hours of electric power, which at the ordinary New York rate would be worth about \$165,000,000. This means ng the country several millions of dol- an increase of 1,900,000 horse, power and the government agreed to assist in

When the armistice came these cerned.

### Rabbit Meat Problem.

In contrast to the power contract was the settlement of the rabbit-ment these that the technical committee was claims. These arose from an excess organized. Many of the contracts in- of patriotism and were not covered by colved had been let on a basis of the contracts. When food conservation war lasting four or five years more; was being advertised as generally nec the great majority had been placed essary, a public-spirited citizen of during the last six months of the conflict. An idea of their scope is ob-tained when it is understood that there be glad to obtain a supply of rabbit meat for the men in training camps. who, in turn, had let sub-contracts to History does not state just where the more than 200,000 others. In fact, to Hutchinson man obtained this information, but he made all speed for this munitions and supplies of every concity and here obtained the financial

Shortly afterward there began meant the tying up of practically (9) wholesale slaughter of rabbits in the not more than I per cent of the \$3.500.per cent of the manufacturing revicinity of Hutchinson, Kan.. Three 000,000 worth of claims went through work of the investigations which were agreed to procure rabbits. A packing a score of cases. Among the experts

more than 300,000 rabbit carcasses in storage. These were finally sold as fertilizer to the farmers in the vinity of Hutchinson. The promoters of the rabbit meat "war baby appealthe war claims board and the technical committee passed on their claim. A settlement resulted which the claimant accepted as satisfactory, despite the fact that it represented only a small fraction of the amount claimed.

An interesting claim advised on by the technical committee was that arising from the unprecedented demand for castor oil which the Liberty motors developed. Castor oil was then the only oli these motors could use, and when it was decided to produce Liberty motors by the tens of thousands the government set out procuring an the castor oil beans in the world would not have made a sufficient quantity of

oll, even if the allied airplanes had not needed their supply. The governmeet sent out scouts all over the South to induce the farmers to plant custor oil beans, and more than 8,000 agriculturists put in crops,

Probably the greatest castor off acreage in the world was planted in od, the seed being supplied by the department of agriculture. Farmers plowed up other crops to put in castor did everything possible to insure a tremendous supply of castor oil. In some cases men were even exempted from military service to grow the beans, beause the need was so vital. However, there followed a sad awak

enlag. The bean vines grew luxurintly but there was less than one bean pod per plant, and there was practi that while the seed had been successfully imported, the small insect which the fence and the others perhaps gofertilizes the plant had been forgotten. Ing under the fence.

### THE SHEEP

"Ah." said Mother Sheep, "the summer is here and we are out where there is green grass and where there are nice meadows and where there are cooling streams, and where the sun shines.

"My beautiful baby Laura Lamb," she said, "you must follow the cander. We always follow the leader. We're gentle and we're quiet. We're rather timid, too. We don't think a

great deal for ourselves
"They say." Mother Sheep continned. "that when folks cannot sleep they make believe they are seeing sheep, and that they are counting them going through a gate. That is because sheep follow each other, and if one were going through a gate the others

would be going through, too. 'Oh, they get tired, you see, of counting the sheep they can make believe that they see! And so they go

"And you see what a beln we are to people when we do such things, so that they can see us in their minds coing through a gate-one after the other

"You see, my Laura Lamb, if sheep having to pay his wife's board when sould go different ways then people she visits her friends. should go different ways then people couldn't be helped toward sleep by

people to sleep, for we're gentle, kind

follow the leader. Don't go through Ins going through another and some other cousins through the opening in

"We must all go together, we sheep, And Laura Lamb bleated and said; "Ba-asa-bas-ass, Mother Sheep! I will For I would not feel no basis of settlement has been ar- would not want to be a leader, and I want to go off on my own account. I others. I would be afraid to go hurrying across the road the way I've seen

"No. I care more to do as the other sheep do, to enjoy the lovely summer ources of this country.

An outstanding feature of the great and was distributed to all those who tory settlement was reached in all but and to smile in a quiet, gentle way upon the people who look at me.
"I don't care to shriek at them and

> ple smile at me," said Laura Lamb,
> "Yes," said Mother Sheep, "and re member, too, that the children of the farmer who owns this farm and all of the animals upon ft, are very kind to us. They come and pet us and we need not be afraid of them. We can be very tame and you will become tame

as I am tame with them. "They come and pet us and kiss our heads and ears and we must bleat and bas and tell them we leve them, too and that we think they're so sweet to be gentle with us, for they know

that is what we like so much. "But always remember above all things, Laura Lamb, "that we must follow the leader, especially when the leader has us follow him through a gate, for we must remember what a help that is to people when they can't sleep. They can think of us. and if they thought of us all going in different directions it would be so confusing they couldn't sleep, as I told you be

"Remember that, dear Laura Lamb. Ah, my lovely lamb child, how I love

"Rieat, blent, b-l-e-g-t," said Laura Lamb. "I will do as you say about the following of our leader. Ah, there come some of the farmer's children." "Yes, there they come, they love the sheep and the lambs," said Mother

And as they came near they walked quietly and talked to the sheep and the lambs in soft, gentle voices, and the lambs and the sheep followed them about and said: b-l-e-a-t, we so love you, for you are so good and kind to us, and our little lamb bearts and our big sheep hearts are very grateful."

And their eyes, too, told how much they loved the children, who never frightened them, but who loved them, and who understood their gentle ways.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled. It may be used with perfect confidence by women who suffer from nervous prostration, displacements, inflammation, ulceration, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion and dizzness. Lydia E. Pinkham's Vegetable Compound is the standard remedy for female ills.

If there are any complications about which you need advice write in confidence to Lydia E. Pinkham Medicine Co., Lynn, Mass.

# **GET READY** FOR "FLU"

Keep Your Liver Active, Your System Purified and Free From Colds by Taking Calotabs, the Nausealess Calomel Tablets, that are Dolightful, Safe and Sure.

Physicians and Druggists are advising their friends to keep their systems purified and their organs in perfect working order as a protection against the return of influenza. They know that a clogged up system and a lazy liver favor colds, influenza and serious complications.

To cut short a cold overnight and to prevent serious complications take one Calotab at bedtime with a swallow of water—that's all. No salts, no nausea, water—that's all. No salts, no nausea, no griping, no sickening after effects. Next morning your cold has vanished, your liver is active, your system is purified and refreshed and you are feeling fine with a hearty appetite for breakfast. Eat what you please—no danger. Calotabs are sold only in original sealed packages, price thirty-five cents. Every druggist is authorized to refund your money if you are not perfectly delighted with Calotabs.—(Adv.)

# WILSON HILL FARM TUESDAY, JUNE 29th,

Mr. S. M. Jenkins, having decided to retire from active business life, has contracted with us to sell his Wilson Hill Farm, together with all his other holdings in and around Marion, at absolute auction, without any reserve whatsoever, on Tuesday, June 29th. Besides the Wilson Farm, we will sell the Electric Light and Water Plant, the magnificent residence in which he lives, the

Park-Wilsonia Apartments, and a few extra choice residence sites facing on Main, Depot and College St.

Also the following chattels; 10 head milch cows and heifers, 2 brood mares, one with mule colt at side, 1 pr. 2 year old mules, 1 wagon, 1 buggy, 1 mower, 1 wheat drill, plow harness and miscellaneous farming machinery.

OF GREAT IMPORTANCE TO YOU. This is a genuine sale. We have no other kind. We sell no properties privately, but do an exclusive auction business. No set price, no reserve, no puffing or by-bidding. YOU MAKE THE PRICE--WE MAKE THE DEED--that's all.

\$50.00

Fifty Dollars in Gold

Fifty dollars in gold and other attractive and valuable prizes will be given away during the sale. Tickets will be distributed to each and every white person on the ground, whether purchaser or not, entitling the holder to an equal chance on all free prizes. Drawing one prize will not bar you from an equal chance on others. The only condition required is you must be there.

\$50.00

Fifty Dollars in Gold

This well known farm joins the town of Marion and extends along the main road to Fredonia. It will be sub-divided into tracts of one acre up.

The improvements consist of a comfortable house of medium sizs, with stock barn, stable large silo, sheds etc.; there are some 30 acres in cultication, good cistern at house and fine well at barn. Various varieties of fruit, plenty of fire wood, a locust grove that will furnish fence posts for many years and a walnut grove that is today worth considerable money for veneering, and is growing more valuable are on the place.

The small tracts are desirably located; most of them face on the Fredonia road. They should be especially attractive to the retiring farmer or business man desiring more ground than a mere building lot.

Buy them now both for their value as home sites and for the speculative rise which is bound to come

With the constant increase in farm lands all over the country values are so high that the average man is fearful of his ability to ever own a piece of land. However, here is your opportunity to purchase just what you want AT YOUR OWN PRICE. If you make no bid, there will be no chance for you to buy; but the other fellow who bids will certainly have

Make up your mind now to attend the sale. . Go out and inspect the property, pick out your location, and Tuesday June 29, buy it at your price.

A man may buy or build a house but it takes a woman to make a home. We extend a cordial invitation to the ladies to attend the sale. These beautiful residences that will be sold at the bidders' price should interest them

There will be a band concert during the sale. The music and the presence of Col. H. L. Iglehart, an auctioneer of national reputation will make an enjoyable day for all.
