FORDSON
TRADE MARK
Farm Tractor
When Henry Ford set about building the first tractor to embody his genius, he was a pioneer in true form. The tractor he build was a marvel of modern, scientific craftsmanship. It was, in fact, the ancestor of all tractors of today. The Fordson has evolved from the same basic design, and the idea is to improve and develop. The Fordson tractor is the result of years of experience and research. It is always ready to perform its work.

To the Public:

We are now established in our new building, and shall be pleased in number among the early callers in order that we may impress upon you our superior facilities for serving you. This is one of the finest bank buildings in this part of the State—embodying the convenience, comfort and safety.

Our recently installed steel vaults are absolutely burglar-proof and fire-proof, and are equipped with the most modern appliances in security mechanism. We have a special room for the use of our patrons and their friends, where, without charge, stationery, pens and ink will always be found during banking hours.

We shall be glad to supply you with legal blanks, without cost to yourself. This room is convenient for either social or business appointments. You will find the general arrangement of this Bank suited to every need, and for the transaction of business without the loss of time.

Our own growth has been made possible by the prosperity of Crittenden county, the loyalty of our friends, and our correct dealings with the public.

Herefore, the receiving and paying teller have been one and the same official. You will now find that separate windows are provided for the receipt and payment of money.

Our new building will afford our customers, and in fact, all citizens of this community, convenient banking facilities, and as complete as can be found in the largest cities of the country.

The enlarging of our facilities is in keeping with the spirit of "American Service," which is to furnish our customers the best facilities with sympathetic and interested co-operation.

We shall be pleased to have you call and let us show you through this new home of OURS and YOURS.

Extending our thanks for the kind and liberal support you have given us in the past, and hoping to merit your continued confidence, we are,

Very truly yours,
