In the

Bank

Money accumulates interest—i.e. it is ever increasing. Your bank and your community can afford to do this so that you may get the most you can out of it. This is a good practice and it is well to make sure that you have for your protection.

Selling Under Disadvantages—

BUT SELLING!

Our features have not yet arrived. Therefore, we are not able to properly show you what we have, but we are already open for business and we do our best to serve you.

We do not propose to carry a general line, but we are going to concentrate ourselves mainly upon the clothing and furnishing rooms of men, women and boys, in doing this we can secure our customers the substitution of the best that is not made for the local market. We propose to please the most discerning customers.

We shall never be known as a "penny-at-a-time" store, as we have everything for all ages and we are always ready to help.

Watch for the announcement of our formal opening.

MARION BANK

Registration Day

Tuesday, October 5th, 1920

All voters, both men and women, who live inside the corporate boundary of the town of Marion, Ill., should register on Tuesday, October 5th, if it is a simple, easy matter to register.

It will not take more than a minute of your time.

All you have to do to register is go to the regular voting place in your precinct with your name, Poll Officer address, and what party you wish to vote with. The officer will then explain to you what day and what time you will vote, and what the registration will be.

As the registration is not a party registration, it does not affect your registration in your precinct. It is just a quick and easy one-off and will only take a few minutes. Then you will be given a voting card to fill out and a little time to vote.

Do Not Fail to Register, Tuesday October 5th 1920

The five registration places in Marion will be open from 9 o'clock A.M. until 5 o'clock P.M.}

REPUBLICAN CAMPAIGN COMMITTEE

Selling Under Disadvantages—BUT SELLING!

Our fortunes have not yet arrived. Therefore, we are not able to prosper when we try. We are open for business and will be open for you for twenty. Our line is almost complete—from a single button to a watch at a moment's notice for twenty.

A Word to the Good Steerers—

We have heard the Clipping, Hare, Cuba, Show, Collins, Too, Underwood, Betts. Betts, Responders, that you formerly had to go to the city to find.

We are not prepared to buy a general store. Your expected to receive returns, slowly open the door and furnish goods, men, women, and boys. By doing this we can save our customers the trouble of locating and getting goods, and then, later, they are getting everything that is needed for them.

We are prepared to pay the highest prices.

We shall deliver all sales in a "Door-stepping" store, as near as we can in the private home or near to the place of business. Watch for the announcement of our formal opening.

FORD
The Universal Car

Reduction in Prices of Ford Products

The war is over and war prices must go. Effective at once, Ford Cars, Trucks and Tractors will be sold f.o.b. Detroit at the following prices:

Touring, with starter ............ $510.00
Touring, without starter .......... $470.00
Runabout, with starter .......... $465.00
Runabout, without starter ....... $395.00
Coupe, with starter ............... $745.00
Sedan, with starter ............... $795.00
Truck, one ton worm drive with pneumatic tires .......... $545.00
Fordson Tractor ................. $790.00

The Ford Motor Company makes this reduction in the form of the fact that they have on hand immediate orders for our hundred forty-six thousand only five cars and tractors. The Company will suffer a temporary loss in being up the material bought at high prices. They are willing to make this sacrifice in order to bring business back to a healthy condition as quickly as possible and maintain the reputation of the building power of the country.

Will address the voters of this community on the issues of the campaign.

To the Patrons of the Marion Home Telephone Exchange

We feel that no apology is necessary for announcing an increase in rental rates for telephone service because it is a matter of common knowledge that prices for labor, material, and equipment used by the Telephone Company have increased in the same proportion that other materials and labor has increased.

We do feel, however, that a statement of conditions is due to our subscribers because of the increase in rates.

The Marion Home Telephone Exchange is operating under a franchise purchased in 1926, and under the provisions of the ordinance the proposed new schedule of rates would have been put in effect several years ago. It has always been the policy of the company to charge the lowest rates possible consistent with the proper operation of the property, and the new schedule of rates as has been made only after the closest study and comparison of other rates in the county have been made.

We have received many expressions of approval from our subscribers regarding the character of service rendered during the period of abnormal conditions and we desire to continue to render such approval. We therefore feel safe in making this notification of our interest in announcing the following rates which will be in effect October 1, 1930.

NOTE: A deposit of twenty-five cents per month will be allowed on the above rates when paid on or before the 15th of the month.

The above rates apply to subscribers located within five miles radius of our exchange. Rates for exchange located on the country beyond one and one half miles will be charged according to the mileage between the main telephone exchange and Central Office. Counter subscriptions will be notified at that time new rates effective as of and after October 1, 1930.

Illinois Central Proudly Calls
Attention to its Record

There is a good deal of talk among unfounded people in the effect that the Illinois Central has lost favorable sentiment in the last two or three years. This is far from the present time.

The railroads are facing the task of attempting to move not only increased volume of traffic, with an increased load of capital, but also of the railroads' needs to keep up the growth of the nation. This is a large enough problem for the railroads to face without having to worry about the effect that the exhibition has not been done their way, and are not even known for doing their work, with the facilities with which they have to work must be left to be completed at once.

Perhaps the best answer that I can make to the greatest estimates about the railroads is that their work is part of the grist for the mill of the nation's growth. The Illinois Central has already done a great deal of freight handled by the Illinois Central system, per year for the last two years, and the number of passengers carried one mile, and for the last two years, which I'd like to tell you:

BLACKFORD, KENTUCKY
REPORT OF COMMISSIONERS

Appointed to Change the Voting Precincts in Crittenden County, Kentucky.

In compliance with Section Four of Act No. 44 of the Acts of the General Assembly of Kentucky, 1901, a petition has been filed in Crittenden County Court, asking for the change of certain voting precincts in the said county. The Commissioners have examined the petition and find that the petitioners are the inhabitants of the said county, and that the proposed changes are necessary for the better administration of the elections.

Crittenden County Court, Regular Term, August 9, 1901.

J. E. HARRIS, President.

George T. H. Beal, Commissioner for the First District.

George T. H. Beal, Commissioner for the Second District.

The said Commissioners do hereby file their report as follows:

The petitioners state that they reside in the said county and are qualified voters. The Commissioners have examined the petition and find that the proposed changes are necessary for the better administration of the elections.

The Commissioners therefore report in favor of the changes as petitioned.

The report being read and approved, the following changes are hereby ordered to be made:

1. Meridian District No. 1, in which is included only the old voting place, known as Meridian No. 1. The old voting place is to be moved to a more convenient location.

2. Franklin District No. 1, in which is included only the old voting place, known as Franklin No. 1. The old voting place is to be moved to a more convenient location.

3. Floyd District No. 1, in which is included only the old voting place, known as Floyd No. 1. The old voting place is to be moved to a more convenient location.

4. Johnson District No. 1, in which is included only the old voting place, known as Johnson No. 1. The old voting place is to be moved to a more convenient location.

5. Louisa District No. 1, in which is included only the old voting place, known as Louisa No. 1. The old voting place is to be moved to a more convenient location.

6. Breckinridge District No. 1, in which is included only the old voting place, known as Breckinridge No. 1. The old voting place is to be moved to a more convenient location.

THE VALLEY of the GIANTS

By PETER B. KYNE

Author of "Cappy Ricks"

Illustrated by John R. Neill

Chapter 1: The Giants

There was a time, one said, when the earth was divided into two parts, a land of Giants and a land of Men. The Giants lived in a land of mountains and forests, where the sky was blue and the trees were tall. They were strong and powerful, and lived in peace with the animals of the forest.

The land of Men was a place of fields and rivers, where the sky was gray and the trees were short. They were weak and frail, and lived in fear of the Giants.

But one day a great rift appeared in the earth, and the land of Giants and the land of Men were separated. The Giants were divided into two parts, and the land of Men was left alone.

Chapter 2: The Valley

The land of Giants was divided into two parts, a land of mountains and a land of forests. The mountains were high and steep, and the forests were dense and dark. The Giants lived in the mountains, and the land of Men lived in the forests.

The valley between the mountains and the forests was a place of beauty and wonder. The sky was blue and the rivers were clear, and the animals of the forest came to the valley to drink.

Chapter 3: The Giants and the Men

The Giants and the Men were separated by a great rift in the earth, and they lived in peace with each other. The Giants were strong and powerful, and the Men were weak and frail.

But one day a great change came to the world. The land of Men was divided into two parts, and the Giants were left alone.

Chapter 4: The Valley of the Giants

The valley between the mountains and the forests was a place of beauty and wonder. The sky was blue and the rivers were clear, and the animals of the forest came to the valley to drink.

The Giants lived in the mountains, and the land of Men lived in the forests. The valley was a place of peace and harmony, and the Giants and the Men lived together in harmony.

Chapter 5: The Giants and the Men

The Giants and the Men were separated by a great rift in the earth, and they lived in peace with each other. The Giants were strong and powerful, and the Men were weak and frail.

But one day a great change came to the world. The land of Men was divided into two parts, and the Giants were left alone.

Chapter 6: The Valley of the Giants
