ILIOINOIS CENTRAL SYSTEM DISCUSSES SUBJECT OF FREIGHT RATE REDUCTION

The Illinois Central System has a policy of reducing rates on all freight traffic, and this policy is being carried out to the fullest extent possible. The system is convinced that lower freight rates are in the best interest of the consuming public, and it is the policy of the system to continue this policy in the future.

There are a number of factors that have contributed to the system's decision to reduce rates. Among these factors are: the need for economic stability, the desire to stimulate trade, and the belief that lower rates will make transportation more accessible to all classes of shippers.

The system is working with other railroads to ensure that the reduction of rates will not lead to a loss of revenue. It is the policy of the system to work closely with other railroads in order to maintain a level playing field for all carriers.

The Illinois Central System is committed to providing the best possible service to its customers, and this includes providing the lowest possible rates. The system will continue to work toward this goal in the future.

Do you know what
You're talking about?

This is the question which a fair-minded man asked a friend the other day when he mentioned that a Trust Company was the most expensive way to handle an estate. The man who said it was expensive to handle an estate through a Trust Company hadn't a clue as to what he knew, but he did know anything about what he was talking. When his friend asked him if he knew what he was talking about he confessed that he didn't know but was only quoting his OPINION. Questions are dangerous things to ask with when the welfare of some one depends on them. If at your death you leave your house over a thousand dollars or ten thousand dollars you want to know that that will be the best of what you leave them. You don't want someone else's OPINION as to what they THINK will be the best thing to do. You want somebody else's KNOWLEDGE.

The man who said that it costs more for a Trust Company to look after an estate or act as guardian doesn't know what he's talking about. The law sets the matter and the Trust Company MUST ACCOUNT FOR EVERY PENNY TAKEN and paid out. When you have THE FARMERS BANK and TRUST COMPANY to look after your affairs an administrator or guardian can never have more than an "OPINION." There is no "guaranteed work." There are no expensive "services." There will not be a risk of taking notes that are needed at some later time. It is our business to look after estates exactly according to law and a promptness that should convince any right-thinking man or woman that we can do it cheaper and better than any individual.

Just come in some day, regardless of whether you are classically interested or not and let us talk the matter over together.
