Farm Bureau Notes

BOY BEANS AND CORN
GIVE EMB GAIN ON ACRES

That lagging off our beans and corn has
been a discouraging thing to the
farmer. Mr. James B. Burt has just
returned from the’second annual
field trials held at the University of
Iowa, where he was in charge of the
experiment. These trials were
conducted by the Department of
Agricultural Economics and
Statistics. The results of the trials
show that the yield of beans and
corn has increased 50% on the
average. The land on which the
experiments were conducted was
approximately 40 bushels of corn to
the acre. Mr. Burt planted the beans
on the same land on which he planted
the corn and the corn yielded about
the same. The beans were irrigated
and the corn was not. Mr. Burt
believes that the results show the
importance of proper soil manage-
ment and the necessity of proper
fertilization.

The Marion Chamber of Com-
mmerce and Industry has scheduled
weekly meetings at the FFA Build-
ing for the three months of April,
May, and June. The meetings will
begin on April 5th and will be held
from 7:30 to 8:30 p.m. on Thursday
nights. The purpose of the meet-
ings is to encourage community
involvement and to promote the
interests of the local businesses.

The Marion High School basketball
team is currently in the process of
preparing for the state tournament.
The team is practicing hard and is
expected to do well in the tourna-
ment. The first round of the tour-
ament will be held on March 20th
at 7:30 p.m. at the Marion High
School. The Marion fans are expec-
ted to come out and support the
team. The Marion Chamber of
Commerce and Industry will be
holding a mini-conference on April
5th at the FFA Building. The confer-
ence will focus on the state of the
economy and the challenges facing
local businesses. The conference
will feature a keynote address by
Mr. James B. Burt, followed by a
panel discussion with local busi-
ness owners. The conference will
begin at 7:30 p.m. at the FFA Build-
ing.
