No. 2

## CHAUTAUQUA WEEK

HERE JUNE 18-25

The Redpath Chautauqua will begin their season of entertainment in Marion on June 18th. This means a week of delightful, educational entertainment for the citizens of our town and county. Music, drama and lectures will blend to make the greatest Chautauqua Marion has ever seen.

The famous Ben Greet Players, who are liked by everyone will present Shakespeare's comedy, "As You Like It."

Some of the world's best educators and humorists will speak from the Chautauqua platform. A special story hour will be conducted every morning for the children.

The local committee will soon be busy with plans for the success of the Chautauqua and everyone is expected to co-operate with them. Farmers should arrange their work, if possible, to be able to get off the week of June 18 to 25th and come to Marion.

Complete program to be published at a later date.

## MARION WINS FIRST GAME

The first game of the season, played at Cook's Park Monday afternoon was an easy victory for the home boys. The defeated team was the Western Bloomer Girls, who had received by past records quite a good name as a ball club. However the girls did not play up to standard and the Marion boys were above their class.

The riot started in the first inning, the boys scoring whenever they wished. The total score being 16 to 6. "Slick" Frazer showed some great pitching in the first inning for the locals but loosened up after that. Just to provide a little excitement Homer McConnell was sent to the box in the sixth inning to replace Frazer. Homer said he thought the inning would never end. Wheeler and Kinsey were sent to McConnell's rescue in the following innings.

The girls team played four men and five girls. Miss Maud Nelson pitched one inning. All the Marion boys did some rare hitting, Brad Wheeler getting three triples. The final score would have been greater had Claud Guess been able to find home plate.

M. H. Cannon umpired the game and not a dispute was made by either side.

## TUBERCULIN TESTING OF CATTLE

The County Agent and Dr. T. P. Fink, Extension Veterinarian of the University of Kentucky have recently made a canvass of a number of the dairymen of the county regarding tuberculosis eradication in cattle. If a sufficient interest is shown by the dairymen in having their cattle tested, arrangements can be made with State Veterinarian Simmons to send of his force to Crittenden county to apply the tuberculin test.

It is a well known fact that tuberculosis can be transmitted from one animal to another and cause a great economic loss.

It is also a well known fact that tuberculosis can be transmitted to the human family from cattle infected with this disease.

The County Agent is bending every effort to render the farmers service by ascertaining whether their animals are healthy or not and thus insure through these agencies of investigation. The dairy men of the county that have been interviewed thus far have all expressed a wish to co-operate and have their herds tested.

Everyone who is interested in progressive farming and has a desire to have their herds tested is urged to get in touch with the County Agent.

## FAMILY REUNION

On last Sunday in the beautiful home of Gus Taylor, Mr. and Mrs. E. K. Pickens had a family reunion, the first time for 21 years.

Those present were: Mr. and Mrs. O. L. Pickens, of Mesa Ariz.; R. E. Jr., and Curtis of Henderson; Mr. and Mrs. Maurie Boston and Mr. and Mrs. Gus Taylor composed the grown ups, three sons and their two sisters. A gala day for Mr. and Mrs. Pickens.

## BIG DAY AT FREEDOM

Last Sunday was a big day for Freedom church and for those who were fortunate enough to be present on that occasion. It was a big day in many respects—big from the fact that one of the largest and most wide awake country Sunday Schools of the county meets there every Sunday and last Sunday the school out did itself in point of attendance and interest. It was a big day from the standpoint of attendance as one of the largest crowds ever assembled at that well known meeting place was present to enjoy the day. It was a big day from the standpoint of hospitality and never were there more gracious hosts at a day of the kind than were the good people of Freedom that day.

The morning was given to the Sunday School and regular preaching service and then at noon a banquet was spread in the form of a good old fashioned basket dinner. It was not a "pickle and sandwich" affair but a real basket dinner with the finest of meats and countless numbers of good cakes and pies.

Shortly after the noon hour, the Rev. G. P. Dillon, who by the way was present at dinner and who has a record as one who "shines" at basket dinners, talked for a short time and then the quartet consisting of Rev. and Mrs. W. B. Yates, Mrs. G. P. Dillon and George Yates sang several numbers.

At two o'clock the Woodmen of the World had their usual decoration day service at the Freedom cemetery and decorated the grave of their deceased Sovereign Bud Wing. At the decoration service a short program was given by the pupils of the Freedom Sunday School.

Several from Marion attended the services and all of them are loud in their praises of the hospitality of the Freedom neighborhood.

## WHEELER PITCHING GREAT BALL

According to reports in the London, Ontario, Free Press, Floyd Wheeler, who left here recently is pitching some great games for the London Club. In a game on Friday May 13, Wheeler's pitching defeated the Bay City, Michigan club with a score of 5 to 1. Floyd ran in two of the five scores.

In the first game of the season Wheeler was sent in to take the place of the league's most effective pitcher when the score was tied. Wheeler stopped the avalanche of hits and to top it off, knocked out a triple which won the game in the eleventh inning.

Floyd has always been a great pitcher and Marion people are proud of his success.

## IMPROVEMENTS IN CHAPEL

The School Improvement Club has recently succeeded in getting the chapel in the High School building painted and repaired.

The chapel has been painted inside and two dressing rooms have been built for the use of amateur theatricals and the like. The stage has been enlarged and curtains have been added.

The windows have been painted on the lower sashes which will serve to keep the children's attention inside during chapel hour.

## POSTMASTER EXAMINATION

Postmaster competitive examination for vacancy at Salem will be held June 22. Men, women, 21 to 65 eligible. Appointment to one of three highest in examination. For course of instruction, specimen questions, etc. write U. S. School of Civil Service, Equitable Bldg., Washington D. C.

## KILLED AT CARSVILLE

Mr. Lige Curry of Fords Ferry, while rafting at Carville last Friday morning, let a log roll over him and killed him instantly.

The funeral and burial took place at Hebron Saturday.

Mr. Curry was a man of family and a splendid citizen. He will be sadly missed by his family and community.

Ab Henry, Revs. U. G. Hughes, Hosea Paris, W. P. Maroney returned from Chattanooga, Tenn., this week after attending the Southern Baptist Convention.

## WINS DISTINCTION AT UNIVERSITY OF KENTUCKY

LEXINGTON, Ky., May, 18—Miss Mildred Summerville, Marion, Kentucky, a senior in the College of Arts and Science at the University of Kentucky has won especial distinction in her work in English and Education which are her major subjects. Recently she was elected treasurer of the Philosophian Literary Society, in which organization she has shown much interest and has encouraged all of its enterprises and undertakings.

Miss Summerville is an active worker in the University Y. M. C. A., is doing practice teaching in Model High School beside various other activities on the campus.

Miss Summerville is a graduate of Marion High School and will be remembered there for unusual brilliance in her classes, her interest in High School activities, and her untiring energy in her work. She will graduate in June from the University and stands as one of the highest students enrolled.

## MARION GIRL POPULAR AT UNIVERSITY OF KENTUCKY

LEXINGTON, KY., May 18—Katherine Reed, daughter of A. H. Reed, Marion, Kentucky is majoring in English in the University of Kentucky, being matriculated in the College of Arts and Science. She graduated from Marion High School and won the medal in the declamatory contest. She went out for basketball and held the office of treasurer in her Senior year.

Now a Junior at the University, she has won many honors. She is a Y. W. C. A. Cabinet Member, on the Woman's Student Government Council, a member of the Philosophian Literary Society and of the English Club and Vice President of the Psychology Club. Last year she sang first soprano in the operetta "The Feast of the Little Lanterns" given by the Glee Club, and this year she took part in the delightful operetta "Robin Hood" given a few months ago.

The latest, and it might be said, the greatest, honor which has come to Miss Reed is her election to Morris Board. This organization not only requires a high scholastic standing but activity in all University affairs. Miss Reed is minoring in Romance Languages and needless to say, the University will be proud to claim her when she graduates next year.

## ANOTHER IMPROVEMENT

The firm of Henry & Henry, Monument dealers have completed the improvements in their building and have added a show room. The show room is said to be one of the most modern and well arranged in the state and Marion has right to be proud of her thriving monument industry.

## DIED MONDAY

Walter Hunt, son of Mr. and Mrs. George Hunt passed away at the home of J. D. Hunt on E. Depot Street Monday morning, after an illness of a month. The burial and funeral was conducted at Sugar Grove Tuesday by Rev. W. T. Oakley.

## FOR SALE

Two one-ton Model F International trucks with express bodies. In good running order. Price \$500 each. Rosicare Lead & Fluor Spar Mining Co., Rosicare, Illinois.

## ALUMNI GIVE PLAY

The Alumni Association of the Marion High School gave a play last Friday evening, which was a pronounced success from every standpoint. A good crowd was in attendance and the Association had about \$75 left in the treasury after some old debts were paid.

The entertainment was full of pep from start to finish. The Alumni Orchestra furnished music before the play and between acts.

It can be truly said that the play was one of the best that local talent has put on in Marion. The play "The Average Man", was excellent. The acting can only be described as superb.

The production was directed by Miss Lena Holtzclaw.

## Farm Bureau Notes

May 12 the Forest Grove Community Club held a very interesting meeting at the school house. A crowd of approximately 50 attended and listened to the talks given. The second Thursday in the month is the regular meeting date. You will find something very interesting to farmers under discussion each time.

How about having your dairy animals tested for tuberculosis, Christian county plans on testing every herd and in McCracken county, Co. Agent Bird says they have tested over 1000 head to date and have many more on the waiting list.

Every one interested in a wool pool in Crittenden county is urged to get in touch with the County Agent.

Has every cream producer in the county who is interested in a co-operative shipping association gotten in touch with some member of the committee? This will be a big thing for Crittenden county but the committee believes in making haste slowly and is looking over the ground carefully at the start. In the next weeks paper there will be an article on dairying showing the profit that comes with keeping four fairly good cows to say nothing of the increased fertility. The dairy business is one of the surest in farming as regards income and stability.

Meetings next week are as follows:

Monday May, 23, Owen School  
May 24th Chapel Hill  
May 25 Dempsey  
May 27 Sisco Chapel

Saturday morning the Farmers and Merchants Bank of Tolu will distribute the pigs to their pig club members. Let everyone who is in the Bank's Club be there Saturday morning so there will be no delay in getting the pig.

The County Agent will not be in his office Saturday due to the pig distribution at Tolu.

## JUNIOR-SENIOR BANQUET

The Junior Class of the Marion High School entertained the Senior Class with a banquet at the Methodist church last Thursday night. Freda Belt was toast master.

An interesting program of addresses and musical numbers was rendered by members of the Junior Class. The menu consisted of several courses and was excellent. Everyone present reported a good time.

—Big Sale on all hats, Saturday, May 21. Every hat half price. 1<sup>st</sup> MRS. H. C. LAMB

## CANDIDATE FOR RE-ELECTION FOR CIRCUIT JUDGE

I hereby announce myself a candidate for re-election to the office of Circuit Judge for the Fourth Judicial District of Kentucky.

I make no partisan appeal for support, but shall ask and expect the support of all good men and women of all political parties who favor law enforcement, peace and good order. I have no promises to make to any one, except the faithful performance of all the duties of this important office, and, if re-elected, I will endeavor in the future, as I have done in the past, to expedite all matters in Court thereby saving to the people as much time and money as possible consistent with fair trials and even handed justice to all—to the poor and to the rich alike.

CARL HENDERSON

Political Advertisement.

## DO NOT TIE YOUR WOOL WITH BINDER TWINE

In spite of all that has been said some wool growers insist on tying the fleeces with binder twine. The pieces of fiber stick in the wool. They will not take dye and wool containing the pieces cannot be woven into good grade cloth. The only way to remove it is to pick out the pieces by hand. This costs 5 or 6c per pound and it comes out of the pocket of the man who uses binder twine to tie wool.

Tags and very dirty wool should be bagged and sold separately.

Have the sheep dry when you shear them. Tie the fleeces with a paper string, one string 7 feet long to each fleece. Tie loosely. Place the fleeces in a wool sack and store in a clean place until shipped. Never store in a basement or other damp place your wool will shrink and the fibre will be damaged.

A little extra care in keeping the sheep out of burrs and hay seed off their backs pays big dividends in the increased price of wool. Let's improve the county output this year.

—Henry Co. Farm Bureau

## NOTICE

Those interested in the Chapel Hill Cemetery will meet the 30th day of May, "Decoration Day" to clean off the grounds and decorate the graves. Services at 11 o'clock. Bring your dinner and spend the day.

## LEVIAS.

Mr. Bailey Jennings and family and Mrs. Moore went to Siloam Sunday.

Herman and Robbie McClure drove to Salem Saturday for medical treatment.

Poster Babb of Texas visited Thursday night with his sister Florence Price.

Miss Sallie Sullenger spent Saturday night with Miss Mary Watson.

O. G. Threlkeld and wife and son of Marion were the week end guests of her brother J. H. Price and Mrs. L. L. Price.

Aunt Mary Franklin was the guest Sunday of her daughter Mrs. Ada Watson.

Mr. Nathan Perryman wife and children were guests last week of Mrs. Perryman's mother Mrs. Martha Franks.

Rudell Price and Elmo Watson went to Salem Sunday.

J. H. Price and wife accompanied by their guest R. F. Babb of Texas; visited Friday with their cousins Raymond Babb and family near Salem.

Mr. Ed Summers and wife and son spent last Sunday with Mr. and Mrs. Little near Pleasant Grove.

Rev. T. C. Carter and Aunt Mary Franklin were visitors Sunday at the home of H. B. Watson.

Grady Sisco and Orene Turner visited Sunday at the home of H. B. Watson.

Fred Love wife and sons attended services at Siloam Sunday.

Elmo Watson returned from Evansville last week.

Lawson Franklin visited Sunday with his brother Cal near Salem.

## LETTER FROM ELKTON

Dear Editor:

Knowing that you and the rest of the home folks are always glad to hear of the success of any member of our Crittenden county family, I am writing to you concerning one of the boys whom you were kind enough to allow to come to the John Locke School two years ago. The story of all Crittenden's worthy sons has not yet been told; nor do we need look past to read their glories. As long as they continue to gather about their firesides to listen to the reading of the word, as long as they can build like the home from which the Hughes boys have come, so long shall they send forth sons to bless the world.

I am writing this letter for the benefit of the boys and girls of Crittenden county, and as I write it I stop frequently to look with admiration at the four medals that are lying on the table before me. Before me also are two columns of the Lexington Herald and Leader telling of the success of Charles Hughes of Weston Ky., in the Interscholastic Track-Field meet held in Lexington on May 6th and 7th. As I sit here I am wondering how it is that a boy reared on the hills of Crittenden and educated in one of her country school houses can come here in competition with boys from the towns and cities who have been in the best of schools from infancy and not only carry off highest honors in the class room, but also the highest honors in athletics. By the end of the year Charles will be the owner of eight medals, five gold, two silver and one bronze. Four of these have been awarded by the alumni and friends of the school for his excellence in class work and athletics and four others were given to him last week by the University of Kentucky.

Out of the seventeen schools competing, Charles won for our school the fourth place in total number of points won, and he was our only representative at the Meet. Some schools had as many as ten representatives. In one event Charles had 38 competitors and won second place, the 100 yard dash. In another there were 30 competitors and he won first place and tied the state record, the high jump 5½ feet. In the running broad jump there were 26 entered and he came out second. There were 29 entered in the discus throw and Charles got third place. It was the first time he had ever thrown this kind of discus, but he had had quite a bit of practice trying to throw Crittenden county rocks across the Ohio River.

Charles won more medals at the Track-meet than any other one man and he lacked only one point winning the loving cup for himself and for his school.

The mystery of it all is that he never trained any to speak of for the events but when we remember that he is in athletic trim 365 days in a year it is not so much a mystery.

Charles is an example of sterling manhood for all the boys in school here. If he has a single bad habit I do not know what it is, and his good clean ones are legion. If any boy had a right to be puffed up, Charles would surely have the right, but one could never tell from his words that he ever won a victory. As I commended him as an example to the boys in school here, I also commend him to the boys of Crittenden County. If more boys would throw away their cigarettes and copy his clean and manly habits our state and country would deserve still greater praise.

The colleges and Universities are looking for such men. Centre sent a special representative down to ask about such men. She wanted a chance at Charles. The University of Kentucky and Kentucky Wesleyan are both very anxious for him to come to them for his college course and have written letters about him. His way will be made easy, he need never worry about his future so long as he keeps his present faith, integrity and industry. R. A. FOSTER, Principal, John Locke School.

## PARIS-KIRK

Miss Isabelle Kirk and Gifford Paris of this county were united in marriage Monday evening in the parlor of W. T. Oakley at 8:00 o'clock. The ceremony was pronounced by Rev. W. T. Oakley. Their host of friends wish for them a successful and happy life.

## ROOSTERS CAUSE LOSSES IN SUMMER MONTHS

LEXINGTON, Ky., May, 18—  
Roosters are to have a special price  
placed on their heads during "Rooster  
Week" May 23 to 28, according to  
J. Holmes Martin, in charge of the  
poultry work of the College of Agri-  
culture, who today announced that  
a number of produce houses in the

state have agreed to cooperate in ex-  
terminating roosters during the sum-  
mer months by offering two or three  
cent premium per pound on those  
marketed during that week.

Roosters running in the poultry  
flock during the summer months  
cause farmers heavy losses each  
poultry specialists state, by produc-  
ing fertile eggs which spoil rapidly  
during warm weather and are dis-  
criminated against on the market.

The object of "Rooster Week" is  
to show farmers the need for kill-  
ing, confining or selling all male birds  
during the warm months.

## SEVEN SPRINGS.

Mrs. Fannie Travis and Miss Daisy  
Stubblefield of Emmaus spent last  
week here the guests of M. L. Pat-  
ton and family.

Rev. J. C. Kinsolving of Emmaus  
was a pleasant caller here last week.

Mr. and Mrs. T. J. Wring of Ma-  
rion were the guests of M. L. Pat-  
ton and family Saturday.

Miss Auda Duvall spent part of  
last week visiting her uncle Jessie  
Guess near Emmaus.

Raymond Kirk and wife of near  
Tyner's Chapel were visiting M. L.  
Patton and family Saturday.

Ed Henry and family of Dycus-  
burg were guests of O. E. Duncan  
and family the second Sunday.

Mrs. M. L. Patton was quite ill  
last week and is still confined to her  
room.

Phil Travis and wife and Mrs. Et-  
ta Stubblefield of Emmaus were here  
last week to see Mrs. M. L. Patton.  
John Polk of near Emmaus was  
visiting M. L. Patton recently.

Al Kirk and son of near New Sa-  
lem were calling in this vicinity last  
Wednesday.

Will Shewcraft has purchased a  
new buggy.

Charlie Holoman of Rosiclare was  
visiting his parents in this vicinity  
Saturday and Sunday.

Mrs. Kizzie Hodge took her little  
daughter Lena to Paducah a few days  
ago to a specialist for treatment.

Uncle John Crouch was in Marion  
Sunday.

Misses Beulah and Ethel Green  
and brother of near Fredonia were  
visiting Billie Guess and family last  
week.

Mrs. Laura Campbell was in Fre-  
donia shopping last week.

## TOLU

Mr. Ollie Croft spent the week  
end in Marion.

Mr. and Mrs. Mark Foley and  
children spent Sunday in Lola.

Miss Margarite Dowell visited last  
week in Marion.

daughter, Mrs. Robert Belt.

Mrs. M. Stallions of Missouri was  
the week end guest of Robert Thom-  
as and family.

Misses Marie Franks and Clement  
Lynn, Herman McKinney and Cavitt  
Carter of Siloam attended services  
here Sunday night.

## Ancestors Were All Black!

The fairness of the European skin  
is attributed to some virtue in the  
suprarenal glands, and all the knowl-  
edge we have since gained supports  
the conclusion formed by John Hunter  
150 years ago that the original color  
of man's skin was black.

## DEANWOOD.

Mr. Nathan Horning of Webster  
county was the guest of his son Mr.  
James Horning the week end.

Mr. C. C. Walker has returned  
home from Princeton.

Misses Bigham and Atkins of Ma-  
rion were visitors at the home of  
T. M. Dean Saturday.

SHE'S REAL "SOURDOUGH"

This is Miss Nellie Cashman, the well-known woman "sourdough" in Alaska, who is visiting her former home in San Francisco for the first time in 45 years. In 1873 she and an older girl crossed a cabin to determine whether they should go to South Africa or Alaska. The northern route was chosen and she has been there ever since.

#### THE MEN WANTED TODAY

- Men who cannot be bought.
- Men whose word is their bond.
- Men who see the divine in the common.
- Men who put character above wealth.
- Men who would rather be right than be president.
- Men who possess opinions and will be voice them.
- Men who will not lose their individuality in a crowd.
- Men who will make no compromise with questionable things.
- Men who will not think anything probable that is dishonest.
- Men who will be honest in small things as well as in great things.
- Men of courage, who are not cowards in any part of their nature.
- Men whose ambitions are not confined to their own selfish desires.
- Men who are larger than their busts, who outstep their vocation.
- Men who are willing to sacrifice private interests for the public good.
- Men who are not afraid to take chances; who are not afraid of failure.
- Men who will give thirty-two quarts for a bushel—Exchange.

#### ODD FACTS

- Switzerland has two women judges.
- The ferret is a domestic variety of the polecat.
- There are seven varieties of the African lion.
- Herring stand absolutely motionless when awaiting their prey.
- The first bicycle driven by pedals was built in Paris in 1860.
- The boots worn by the Life Guards of the British army cost \$60 a pair.
- The physically defective child, says an expert, always forgets his deformity in his dreams.
- It is the habit of bees to place their honey in the coolest place in the hive and the young insects in the warmest.

### Something to Think About THE JOB AND THE MAN By F. A. Walker

#### TELLING IS SELLING

IN THESE days of time-saving devices, money-saving inventions and effort-saving ideas the thinking man finds much to interest him when he hears another thinking man compress a big thought into the fewest possible words.

The literary man has a name for these examples of condensed wisdom. He calls them "epigrams."

"Epigram" is an interesting word. You can spend a useful fifteen minutes studying out in some good dictionary just what it meant in the original Greek and how it came to have an entirely different meaning in English.

One of the most condensed and meaningful phrases I have ever seen written or heard spoken was used by a great editorial writer who boiled down a whole sermon into three words when he said "Repetition is reputation." That is sound, unassailable truth in the fewest possible words.

Alongside that condensation of wisdom I have filed away in my memory the three-word statement that I heard an advertising solicitor use the other day in convincing a prospective buyer of publicity that advertising would be the best possible investment that he could make.

These were the three words he used: "Telling is selling."

That comes pretty near reducing the statement of what advertising is to the fewest possible words and stating it in the simplest possible way.

To a greater or less degree every human being is an advertiser.

The man or woman who dresses well advertises prosperity.

The man or woman who uses the proper words in the proper places and shows a broad acquaintance with facts advertises education.

The man with the light step, quick movement, unceasing activity, advertises energy, probably ambition.

You say "I am a good judge of human nature." That is only another way of stating that you are an accurate reader of the personal advertising of individuals.

Every day we unconsciously "tell" ourselves—advertise ourselves—by our actions, by our habits, by our conversation. Everyday we unknowingly succeed in or fail in "selling" ourselves.

If "telling is selling" it is equally true that "over-telling is under-selling." Nobody ever permanently gained anything by wandering from the truth.

Boasting is only a polite name for lying.

Any buyer of men or merchandise would rather be surprised by finding his purchase better than he thought it was than to discover that it failed to come up to what he had a reasonable right to expect.

If you have occasion to talk about yourself tell just what you are.

If you find it necessary to sell yourself do not bargain for more than you can deliver.

"Telling is selling," but the telling must be the truth and the selling must be on the basis of turning over just what you have agreed to—of having the goods test 100 per cent of what they were represented to be.

How to Succeed—How to Get Ahead—How to Make Good

By JESSIE ROBERTS

#### THE RENT COLLECTOR

RENT collecting is a branch of the real estate work that appeals to many young women who are interested in housing problems, and several such have entered it from settlement work. The landlords find that women make better rent collectors than men, that they get closer to the tenants, and that they promote a better understanding between the parties to the renting business.

Rent collecting is not a mere turning up at the first of the month with the demand for the rent. It is to the interest of the landlord that the houses he owns be properly run and kept up, that undesirable tenants be evicted, and that the right kind get right treatment. Women are good at getting results in these directions. It is usually the woman of the apartment who pays the rent; it is she who has complaints to make or alterations to demand. And she speaks more freely to another woman, and the other woman understands better the usual problems of housekeeping. It works well both ways.

A rent collector is in a position to know more than most persons about vacant apartments, various types of renters, possibilities of development, bargains. There are really fine business opportunities in this line, and women should study them.

After all, it is women who live in the home and who manage the home. When it comes to homes, women make the better agents and better rent collectors, and women are entering the new field with enthusiasm.

Mr. Dan Babb of Marion is visiting his children at Fish Trap.

Miss Katherine Morrow is visiting her sister Mrs. Sarah Woods this week.

Miss Linnie Little left for school Sunday.

## FARM POULTRY

### LICE INJURE LITTLE POULTS

Supposedly Mysterious Trouble Often Proves to Be Nothing More or Less Than Vermin.

(Prepared by the United States Department of Agriculture.)

Lice are very destructive to turkey poulters both when very small and when partly grown. Frequently turkey poulters die off from some supposedly mysterious trouble, which when properly investigated proves to be nothing more nor less than lice. Keep the newly-hatched poulters free from lice, if possible, by properly dusting the hen used to hatch the eggs. Then watch the poulters for head lice. These will be found burrowing into the skin on top of the head above and in front of the eyes and under the

Keep Newly-Hatched Poulters Free From Lice, If Possible.

throat. If any are discovered, grease these places carefully with plain lard, lard to which a few drops of kerosene have been added or by using a drop of olive oil. Too much grease may prove fatal to the poult.

As the poult grows, lice will sometimes be present in harmful numbers and yet escape the notice of the person who does not know where to look for them. If one looks in the hollows or creases on the upper side of the wing between the quills of the main wing feathers, they may find hiding places there literally swarming with lice. Grease applied to these places will prove effective in getting rid of the lice.

Lice may also occur on other parts of the body and must be combated.

If your young turkeys are droopy and unthrifty and you have examined them without finding any lice, do not be too sure that none are present until you have tried the following: Submerge the little turkey in warm water, holding it with just its bill sticking out, so that it can breathe, until the entire plumage is wet. Then remove it from the water and wrap in a light-colored cloth which has previously been warmed, and hold it in this manner for several minutes. Then take the cloth off. If there are no lice, on it, the turkey is free from them, and some other explanation than lice must be sought for its condition. Usually, however, a surprisingly large number of lice will be found on the cloth, even in cases where a cursory examination had convinced the owner that it was absolutely free.

### HANDY DUST BOX FOR FOWLS

Confined Hens Should Be Given Opportunity for Bathing—It Discourages Vermin.

When the flock is confined in laying houses the hens miss the opportunity afforded when they are on range to pick out a likely spot and take a dust bath. It is just as important to a hen's well-being that she be able to take a dust bath when cooped up as well as when on range. Besides, it provides her with the sort of ammunition which nature intended she should use in combating vermin and natural parasites. Hens that have ample facilities for dust baths will not be "carried off" by lice.

### FEEDING PIGEONS IN WINTER

Failure to Provide Proper Kind and Quantity of Grain in Winter Causes Falling Off.

Neglect in feeding the right kind and amount of grain to pigeons in cold weather is often the cause of the marked falling off in the production of squabs in winter. More time and effort is required to feed and manage pigeons at this time of the year, but the owner is well paid for the extra work.

### DEFECTIVE TREES FOR FUEL

Specimens Not Suitable for Good Timber Should Be Removed and Used to Cut Fuel.

It is just as possible to remove weed trees from the wood lot as it is to weed the garden; besides, the wood from the crooked, defective trees, and those that are not good timber species will make good fuel.

## LEST WE FORGET

THE country's oldest course in point of consecutive years of racing, Churchill Downs, opens for 1921 with the assurance of a memorable season.

Never before have there been so many horses of high class quartered at Louisville's historic course; seldom has interest in thoroughbred racing been so keen, and never, perhaps, has it been so wide-spread.

Come and enjoy some of this greatest of sports. In the programs and the arrangements for the comfort of patrons, you will find that the management has done its utmost to make everybody happy.

## Kentucky Jockey Club Churchill Downs Course

Incorporated

You'll enjoy the sport of rolling 'em with P. A.!

FIRST thing you do next—go get some makin's papers and some Prince Albert tobacco and puff away on a home made cigarette that will hit on all your smoke cylinders!

No use sitting-by and saying maybe you'll cash this hunch tomorrow. Do it while the going's good, for man-o-man, you can't figure out what you're passing by! Such flavor, such coolness, such more-ish-ness—well, the only way to get the words emphatic enough is to go to it and know yourself!

And, besides Prince Albert's delightful flavor, there's its freedom from bite and parch which is cut out by our exclusive patented process! Certainly—you smoke P. A. from sun up till you slip between the sheets without a comeback.

Prince Albert is the tobacco that revolutionized pipe smoking. If you never could smoke a pipe—forget it! You can—AND YOU WILL—if you use Prince Albert for packing! It's a smoke revelation in a jimmy pipe or a cigarette!

### CASAD.

Eli Flanary of Chicago was in Marion Wednesday.

Misses Edwina Rankin, Ivy Clement and Mr. Gilliam Bracy and J. Carter attended prayer meeting at Hebron Thursday night.

John Vaughn and family were in Marion shopping Wednesday.

Mr. and Mrs. H. O. Franklin entertained a part of the 1st Senior Class Friday night.

Mr. Bob Paris and son of Lola attended the funeral of W. E. Curry.

W. B. Yates and wife and Mrs. Lerener Guess attended the funeral of Mr. Curry.

Burnett Moore and wife and Mrs. Tom Rankin were at Hebron Saturday afternoon.

Charles Daughtrey and wife and Miss Amy Wathen were at Hebron Saturday.

Mr. Henry Threlkeld and wife were at Hebron Saturday.

Miss Ethelyn Flanary of Chicago is visiting her cousin Mrs. James Daughtrey.

Vernon Paris and family visited his father J. O. Paris Saturday.

Mr. and Mrs. E. N. Cook and little daughter spent Sunday at Chapel Hill.

Misses Ruth Flanary and Virginia Blue and Mr. Neil Guess spent Sunday at the home of Mr. Paul Adams.

A. G. Lofton and family visited Mr. Hughes and family Sunday.

Mr. and Mrs. Tobe James and little daughter spent Sunday at the home of Claud Springs.

Prof. H. O. Franklin and wife spent Sunday at the home of J. O. Paris.

### CRAYNE

Several from this place attended the show in Marion Monday night.

Mr. and Mrs. Andrew Holeman and daughter visited her father Sunday.

There will be Prayer meeting at this place Saturday night.

Mr. Cook Fletcher returned from Clay Monday to visit his mother.

Mrs. Lucy Fletcher and daughter returned home Monday from Fredonia.

Mr. R. H. Faidley and Mrs. Ira Crayne passed through Sunday to visit Mr. Edd Terr and family of Mexico.

Mrs. Hobert Roberts returned home Saturday.

Mr. and Mrs. Pressly Woodall of Piney Fork visited Mr. and Mrs. Leslie Woodall Sunday.

Mr. and Mrs. Murie Hodge of Salem visited her mother last week.

Mr. and Mrs. W. B. Binkley visited Mr. and Mrs. Press Hill Sunday.

Several from this place attended meeting at Fredonia Sunday.

Mr. and Mrs. D. J. Green and Mrs. John Asher visited Mr. and Mrs. J. M. McCaslin Sunday.

### CROSS ROADS

Lacie Canada left for Florida to spend the summer.

Corbett Traylor and Bobbie Brown attended church at Sugar Grove Sunday.

Clara Cannan and Bertha Graves were guests of Leta and Merea Blackburn Sunday.

Blanch Johnson is visiting friends at Princeton.

Imogene Hill and Elizabeth Stevens and Ruby Hill attended church at Fredonia Sunday.

Will Guess and Beulah McMican attended church at Walnut Grove Sunday.

Herbert and Corbett Traylor went to Fredonia Saturday.

Mrs. Tom Jones is on the sick list.

Claud Stevens was the guest of Corbie Woodall Sunday.

Jewell Traylor was the guest of Miss Mary Egbert Sunday.

Lola Beaver visited the home of Mr. Tom Moore Saturday.

Letha Traylor visited the home of Ruth Sherrell Sunday.

Rev. John King filled his regular appointment at Good Springs Saturday and Sunday.

H. Koltinsky went to Evansville Tuesday.

## NEEDS OF CHILD IN WAY OF FOOD

**Basket Lunches Require Thought  
and Care in Preparing to  
Prevent Sameness.**

### BREAD IS QUITE IMPORTANT

**Simplest Contrivances Are Often Better  
Than Boxes With Compartments—Heavy Napkins Are  
Very Convenient in Packing.**

(Prepared by the United States Department of Agriculture.)

What went into Jane's and Jack's lunch boxes at your house this morning? Were they filled the last minute with what remained on the table after breakfast, supplemented by some of last night's meat and pie, or were the boxes filled with dainty, appetizing lunches, carefully planned and packed?

Growing children have certain special needs in the way of food. Like grown people, they must be supplied with what is necessary for health and strength, but in addition, they must be given, also, what is necessary for growth.

Even when children eat all their meals at home, it is no easy matter to see that they are properly fed; but when they eat part of their meals at school, the difficulty is much greater. It is not easy to make food attractive and to keep it clean when it must be packed and carried in a lunch basket.

#### Filling Lunch Basket.

The lunch basket is harder to plan and to prepare than the lunch at home. To begin with, many foods cannot be included in it, either because they are not good cold or because they cannot be conveniently packed or easily carried. This leaves fewer foods to choose from, and extra care is necessary to prevent sameness.

Paraffin paper, parchment paper, jelly glasses, and the paper cups and containers for moist foods are a great help in packing lunches. With these helps, foods can be kept from sticking to each other, and such half-solid foods as sliced raw fruits, stewed fruits, custards, and cottage cheese, can be carried in perfect condition.

#### Good Bread Important.

The quality of the bread used in the lunch basket is especially important because it is commonly served in the form of sandwiches and is, therefore,

Off to School, Lunch Box in Hand.

to be considered, not only as a food in itself, but also as a means of keeping other much needed foods in appetizing and attractive condition.

Variety in breads, too, is more important at this than at other meals, because of the danger of monotony. Wheat bread, whole-wheat bread, corn, rye, or oatmeal breads; nut, raisin, and date breads; beaten biscuit, rolls, crisp baking powder or soda biscuit, toast, zwieback, and crackers may be used in turn to give variety. Rolls hollowed out can be made to hold a large amount of sandwich fillings, which is an advantage at times.

#### Packing the Lunch.

Many kinds of lunch boxes, pails and baskets are now on the market. Because they can be washed and scalded easily, the simplest boxes and baskets are often better than the more elaborate ones with compartments in which to keep dishes, knives, forks and spoons. With the increase in automobile travel, well-constructed boxes and baskets which can be easily cleaned have come on the market with compartments for keeping food hot or cold and for holding liquids. These are, of course, suitable only for children who ride back and forth, and particularly suitable where several lunches are put up in one household.

The precautions which must be taken to keep the foods clean and safe differ with circumstances. In dusty seasons they should be wrapped particularly well. In hot weather, the use of soft, moist foods in which molds and bacteria are most likely to grow rapidly, should be avoided. Although chopped meat moistened with a dressing of some kind makes a good sandwich filling, such foods are less desirable in hot weather than slices of meat, peanut butter, or other foods less liable to spoil.

Paper napkins or the somewhat

heavier paper towels of much the same size are very useful for packing lunches, and, like paraffin and parchment paper, may now be obtained at a low price, particularly if bought in rather large quantities. If no provision is made in the school for serving lunches, an extra napkin, either of paper or cloth, should be put in the basket, to be spread over the school desk when the lunch is eaten. Napkins can be made out of cotton crepe at a cost of a very few cents each. The crepe may be bought by the yard, and should be cut into squares and fringed. Such napkins have the advantage of not needing to be ironed.

In packing the lunch basket, put at the bottom the things least likely to crush, and wrap the sandwiches, etc., into neat parcels, not all in one.

### OLD DRY-GOODS BOX AIDS BREAD MAKING

**Contrivance Holds Dough at  
Right Temperature.**

**Kerosene Lamp or 16-Candlepower  
Light May Be Used for Heating—  
Shallow Pan of Water on Lower  
Shelf Keeps Air Moist.**

(Prepared by the United States Department of Agriculture.)

In making bread, the housekeeper often finds it difficult, particularly in the winter months, to hold her sponge or dough at the right temperature so that it will rise in a shorter period of time. She will find a sponge box or bread raiser a great help in keeping the proper temperature. Such a box can be made from an ordinary dry-goods packing box. The following directions for making one are given by the United States Department of Agriculture in Farmers' Bulletin 927, "Farm Home Conveniences."

A box 26 by 20 by 20 inches is a convenient size. About 10 inches from the bottom of the box a shelf made of slats or strips of wood rests on cleats fastened to the sides of the box. A second shelf is placed 4 inches above the lower one. The shelves can be removed when cleaning the box. Below the lower shelf a sheet of galvanized iron, slightly wider than the shelf, is inserted. It is curved in order to make it slip in and stay in place securely. This prevents scorching of the lower shelf when a lamp is placed below and also helps to distribute the heat more evenly. The door is hinged and fastened with a thumb latch or hook and staple.

Several small holes are bored in the lower and upper parts of the sides and in the top of the box to promote circulation of air. A cork, bored through the center to admit a straight thermometer, is inserted in one of the holes in the top of the box. A Fahrenheit chemical thermometer that registers as high as 100 degrees can be used. Such a thermometer may be ordered through a hardware dealer or directly from an instrument dealer.

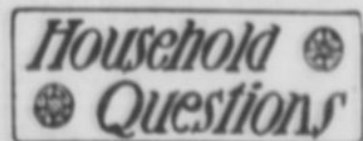

To avoid all danger of fire, the box should be lined with asbestos or tin when a kerosene lamp is used for heating. A 16-candlepower light will heat the box well, or a small, inexpensive night lamp may be placed in the bottom. A shallow pan of water should be put on the lower shelf so that the air will be kept moist.

The bowl of sponge or pans of dough are placed on the upper shelf. The temperature of the box should be kept as near 90 degrees F. as possible (80 to 88 degrees F.) when bread is made in the quick way. If a sponge is set overnight, 65 to 70 degrees F. is the better temperature until the dough is made in the morning, after which the temperature may be increased to 86 degrees F. The temperature in the box may be varied by raising or lowering the flame of the lamp or by using warm or cold water in the shallow pan.

### GOOD TEST OF CHILD'S DIET

**If Children Are Strong, Well Developed and Free From Ailments,  
Food Is Suitable.**

The health and appearance of children are a good test of the wholesomeness of their diet. If they are strong, well developed for their ages, free from ailments and full of energy and ambition, one may safely say their food agrees with them. But if they are listless and ailing, or not so well developed either physically or mentally as they should be, and if a competent physician finds that there is no special disease to account for these bad symptoms, a mother may well ask herself if the food is right, and if not, how she can make it so.

Prunes are richer and more nourishing cooked in the oven.

A teaspoonful of baking powder will make fudge more creamy.

One of the nicest ways to cook onions, from every point of view, is to bake them in the skin.

A good aluminum polish is a mixture of borax, ammonia, and water. Apply with a soft brush.

To bake potatoes quickly, let them stand in boiling water for a few minutes before putting them in the oven.

### Home Town Helps

**MAKES USE OF DEAD TREE**

**Ornamental Flowering Vine May Be  
Traced Over the Top, With Remarkably Good Effect.**

The idea of growing an ornamental flowering vine over the dead trunk of a tree suggested a pergola top. After the tree had been sawed off to the height desired, the bark and sapwood were peeled off with a drawknife, and a smooth, even surface thus secured.

The Trunk of a Dead Tree Is Converted Into an Attractive Pergola, Over Which an Ornamental Vine Is Trained.

writes C. L. Meller of Fargo, N. D., in Popular Mechanics Magazine. A straight board and a level made it easy to bring the two branches of the crotch to the same height; trial determining the height that would appear best—in this case about 11 feet. The top is made of two 2 by 4-inch pieces resting in recesses on the sides of the trunk and having their tops flush. These pieces are each 12 feet long and the ends were curved, as shown. The 4-inch sides were nailed to the trunk, while the 2½-foot crosspieces, of the same stock, were nailed, broad side down; these were spaced about 8 inches apart and had their ends beveled on the underside. Two coats of oil, into which burnt umber had been stirred, gave the pergola a neutral brown color and, of course, helped to preserve the wood.

### NO ROOM FOR THE "KNOCKER"

**Indianapolis Newspaper Tells a Few  
Plain Truths, Straight Out From  
the Shoulder.**

Indianapolis is fortunate in the quality of its citizenship. We are the most American of the great centers in the United States. We have few of the problems brought to other municipalities by alien elements. The city showed front-rank progress in the recent census report. It is leading in building construction and industrial progress. It is not perfection, but is much nearer to that goal than most cities and should not be libeled and slandered even by a few lightweights of little or no influence.

The residents of Indianapolis know the truth and are not deceived by the city's traducers, but the effect on strangers may be serious and in any case cannot be of advantage to anyone. Those whose stock in trade is destruction instead of construction, hurtfulness instead of helpfulness, are pests who should be made aware of that fact by the loyal, public-spirited citizens. They may have to be endured, but it should be in the contempt they deserve and that will ignore them to the point of ostracism.—Indianapolis Star.

#### Grow a Rain Tree, Get Water.

It is estimated that one of the Peruvian rain trees will on the average yield nine gallons of water "per diem." In a field of an acre of one kilometer square, that is 3,250 feet each way, can be grown 10,000 trees separated from each other by 25 meters. This plantation produces daily 900,000 liters of water. If we allow for evaporation and infiltration, we have 135,000 liters, or 28,531 gallons, of rain for distribution daily. The rain tree can be cultivated with very little trouble, for it seems indifferent as to the soil in which it grows.

#### Pillow Effective Weapon.

With her pillow as her only weapon, a woman of Pensacola, Fla., put to flight a robber who entered her home. The woman was awakened by a creaking on the stairway, and saw a man creeping up. She snatched up a pillow from her bed and, running to the stairway, she heaved the pillow with all her strength, catching the burglar full in the face as he stood up. At the same time she screamed. The impact of the pillow hurled the bandit down the stairway. He jumped through a window and escaped.

#### Plan Early for Beauty.

All healthy cities desire beauty. Not all have the chance to get it. Many achieve their greatness with such stupendous expense of fortune that beauty is wiped out before the city has time to lift its eyes from its labor to its landscape. The best time to plan for beauty is when the city is starting its growth.

## POLITICAL ANNOUNCEMENTS

We are authorized to announce the following Candidates, subject to the Action of the Republican Primary, Saturday, August 6th 1921.

### FOR REPRESENTATIVE.

LESLIE McDONALD  
R. E. WILBORN

### FOR COUNTY JUDGE

Press Bldg. Marion Ky.  
Main Street  
Hours 8-12 A. M.; 1-5 P. M.

Practice limited to the eyes and the nervous system through them.

## Saved My Life With Eatonic

**Says New Jersey Woman**

"I was nearly dead until I found Eatonic and I can truly say it saved my life. It is the best stomach medicine ever made," writes Mrs. Ella Smith.

"Acid stomach causes awful misery which Eatonic quickly gets rid of by taking up and carrying out the acidity and gases which prevent good digestion. A tablet taken after meals brings quick relief. Keeps the stomach healthy and helps to prevent the many ills so liable to arise from excess acid. Don't suffer from stomach miseries when you can get a big box of Eatonic for a trifle with your druggist's guarantee."

HAYNES & TAYLOR, MARION, KY

## Southern Indiana's Great- est Straw Hat Store

The Straw Hat season is on and Strouse & Bros. will be known as the Greatest Straw Hat Store in Southern Indiana—because of the vast variety of styles and the fine values of the straws.

60 different Styles—15 new weaves

**\$2.50 to \$10**

Panamas, Hopkins Straws, Knox Straws

**Strouse & Bros.**  
Evansville, Ind.

Parcel Post  
repaid on  
Mail Orders.

Dependable Since 1865

According to  
M.R.A. Plan

**I will sell you a good heavy  
blue work shirt for—**

**75c**

**All wool blue serge pants—**

**\$5.00**

**Hundreds of other things in dry  
goods, groceries and hardware at  
ROCK BOTTOM prices.**

**H. L. LAMB**

BLACKFORD,

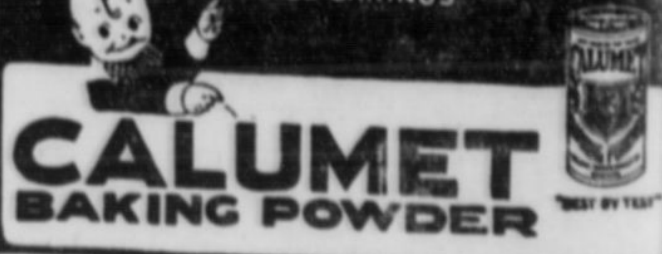

KENTUCKY

**YOU** certainly want to save money, and you would like to have better bakings. Then use Calumet. It's the biggest thing you can do to improve the quality of your bakings—and lower baking costs.

Calumet is made in the largest, most sanitary Baking Powder Factories in the World. No Baking Powder is made under better conditions—none can be better in quality.

It contains only such ingredients as have been officially endorsed by the U. S. Pure Food Authorities. An absolute guarantee that it is pure.

**RAISES THE QUALITY—LOWERS THE COST  
OF ALL BAKINGS**

It received highest Awards, World's Pure Food Exposition, Chicago—Paris Exposition, Paris, France—positive proof of its superior merit.

It is used by more housewives and domestic scientists than any other brand.

It is sold at a moderate price. All you have to do is to compare costs to determine how much you can save by buying Calumet.

Gluten is the muscle building part of flour which is of great importance. To be sure you get it in your bakings use plain flour and good baking powder, (not self-rising flour).

Calumet Crecipe  
Cakes  
Recipe  
—3 cups pastry flour, 3 level teaspoons Calumet Baking Powder, ¼ cup butter, ¼ cup granulated sugar, Yolk of 3 eggs, ¼ cup cold water. Whites of 3 eggs. 1 teaspoon vanilla extract. Then mix in the regular way.

#### Wheeler's Progression.

The use of the wheel goes back to the dark ages. The first wheels were made of solid blocks of wood cut from the trunks of trees. Many changes were made before the modern wheel was evolved.

#### Merely a Memory.

What's become of the amateur social scientists who used to prove beyond the shadow of a question that thieves are the product of an economic system which fails to provide work for all?—Indianapolis News.

**ADVERTISE IN THE CRITTENDEN PRESS**
