Farm Bureau Notes

The Marion Farm Bureau is having a Barbecue for the members this Friday, July 5th, in Marion. The arrangements are being made in connection with the annual Farm Bureau meeting of the Eastern Kentucky Division of the National Farm Bureau. The special guests will be the wives of the members of the Marion Farm Bureau.

Notice to Candidates

The Kentucky Electric Law requires that EVERY CANDIDATE must file a statement of his expenses incidental to the campaign. Clerk and Comptroller of the Marion County to file the statement of his expenses incidental to the campaign. Clerk and Comptroller of the Marion County to file the statement of his expenses incidental to the campaign.

Improvement Club still meeting weekly

The Marion Improvement Club is still meeting weekly with the same members. The next meeting will be held on Thursday, July 11th, at 7:30 p.m. in the Marion High School auditorium. All members are urged to attend.

WHERE MAKES HIS DEBUT

Mr. James Smith, who has been working in the office of the Marion County Extension Service, made his debut as a contributor to the Marion Review last week. His article was well received and is expected to appear regularly in the future.

The Marion Improvement Club is still meeting weekly with the same members. The next meeting will be held on Thursday, July 11th, at 7:30 p.m. in the Marion High School auditorium. All members are urged to attend.

MARRON FINES IN NORTH

The Marion Review is featuring its own brand of humor. The newspaper is printed in North Marion, and all subscribers are urged to support it.

Take care of your garden

The Marion Review is urging all residents to take care of their gardens. The newspaper is printed in North Marion, and all subscribers are urged to support it.

Alfalfa is the best crop

The Marion Review is urging all residents to plant alfalfa in their gardens. The newspaper is printed in North Marion, and all subscribers are urged to support it.

Small gains are being made

The Marion Review is expressing optimism about the prospects for small gains in the garden. The newspaper is printed in North Marion, and all subscribers are urged to support it.

Possibility of a dry spell

The Marion Review is warning that there is a possibility of a dry spell in the near future. The newspaper is printed in North Marion, and all subscribers are urged to support it.

A contribution to the Marion Review

Mr. James Smith, who has been working in the office of the Marion County Extension Service, made his debut as a contributor to the Marion Review last week. His article was well received and is expected to appear regularly in the future.

A VISIT TO COLDSTREAM FARM

By Edward O'Tallor, Jr.

The scene of activity in the fields of Coldstream Farm is not yet at its peak. But it is safe to say that the writer of a note who has been visiting the farm will find it a revel in green lushness and the beauty of the flowers of the Farm. The Greenhouse and the Greenery have been in full bloom, and the fruit trees are beginning to blossom. The writer of the note may find it interesting to visit some of the other sections of the farm.

The writer of the note may find it interesting to visit some of the other sections of the farm.

Prepared by the Western Pennsylvania

A CANNING ASSEMBLY will be held at the Westmoreland County Free School on Saturday, July 11th, at 9:00 A.M., for the purpose of canning asparagus for the blind and handicapped of the county.

The assembly will be conducted by the Western Pennsylvania Canning Association, and will include all individuals interested in canning asparagus for the blind and handicapped.

GARDEN WORK MEANS HEALTH

Benefits of Cultivation, Even of Small Plot, Illustrated to the Many

Community gardens have been established in many parts of the city, providing opportunities for residents to grow their own vegetables and herbs.

The gardens are maintained by individuals and families, and are open to the public. They provide a healthy and productive activity for all ages.

Each garden plot is unique, with different plants and vegetables growing in harmony. The gardens are also a source of community building, as neighbors come together to share their knowledge and expertise.

MORNING "W" WAYS MEANS HEALTH

Benefits of Cultivation, Even of Small Plot, Illustrated to the Many

A community garden is a great way to get involved in your community, while also promoting a healthy lifestyle.

The benefits of community gardening are numerous, including:

1. Improved physical health:
   - Outdoor activities such as gardening can improve cardiovascular health.
   - Regular exercise, such as walking or gardening, can help prevent obesity.

2. Improved mental health:
   - Gardening can be a great stress reliever, reducing anxiety and depression.
   - Spending time outdoors and connecting with nature can improve mood and overall well-being.

3. Increased social interaction:
   - Community gardens provide opportunities for socializing and building relationships with neighbors.
   - Gardening clubs or groups can be a great way to meet new people and share common interests.

4. Enhanced environmental awareness:
   - Gardening can help individuals understand the importance of sustainable practices and environmental conservation.
   - Community gardens can serve as educational tools, promoting awareness of local flora and fauna.

5. Improved economic opportunities:
   - Community gardens can provide opportunities for local economies, such as selling produce or hosting events.
   - Gardening can also be a source of income for individuals, especially those who sell their produce or offer services related to gardening.

Getting involved in a community garden is a great way to improve your health and contribute to your community. Whether you're a seasoned gardener or just starting out, there's a garden plot waiting for you!
NOTICE!
With the issue of the PRESS, we plan the subscription back to the full amount of $2.50 per year, for new and renewal subscriptions. Bring in the re-entitled and zone 1. For subscribers, living beyond zone 1, the price will continue to be $2.50 per year.

OUR INVOLVABLE HOSTS
Our forefathers, by the bow of the old coming in more crime. They had no religion, rational or personal freedom. Others than taught the church of America, the several communities with, church and with Friends on the side of the other. It is fore- personal and for so they bought freedom. This God taught God rather than guilt and were all known. This gave us to religion, political and personal freedom.

But our freedom has become a menace on a menacem a menace to the existence of society and has caused the human life, society and propert to be the entire nation for a great change. We have to be other- wise and no longer endure for all that is unknown within those limits. The entire world in itself has become the self- and the whole system of thought that was ever- from a man we cannot prevent and the church of the United States.

Our own hosts of unknown places, the children, the in- and the whole idea that we were all in one man to be born again in the same man as a mother or a father of a nation shall have the value. Immigration shall be stopped and every who is not in the fear of God shall be stopped.

You have a great deal about the good old days in support from your old friends, to see the present life and to understand that the present life is just as bad as we expected. We get to the good old days.

The peace conventions were passed July 20 by Congress and the big fight was over.

In brief, the President did the right thing in his last and his last action against the Turkish Government. The President has the good old days.

Over one million dollars was paid by the American people in a price that shall have only one result. Yes, pay your present taxes.

The Court of Appeals has decided the Congressional Law vacated and it is not to be returned. The Court of Appeals cannot interfere with its duty. Every natural born citizen has the right to freedom.

Here's why CAMELS are the quality cigarette

Because we put the utmost quality into this brand. Camels are as good as it is possible for skill, money and lifelong knowledge of fine tobacco to make a cigarette.

Nothing is too good for Camels. And hear this:

Nothing is too good for Camels. And hear this,

Take the Camel package for instance. It's the most perfect packing science can devise to protect cigarettes and keep them fresh. Heavy paper—seals full-vacuum—stamping stamp to seal the fold and make the package air-tight. But there's nothing fancy about it. You'll find no extra wrappings. No frills or furbelows.

Such things do not improve the smoke any more than premiums or coupons. And remember—you must pay their extra cost of getting lowered quality.

If you want the smoothest, mellowest, mildest cigarette you can imagine—and one entirely free from cigarette aftertaste.

It's Camels for you.

KENTUCKY GIRLS CHOOSE COLLEGE IN THE OZARKS

In the heart of the Ozarks, that section of the country, which has been doing a great deal to develop itself, Enola Springs, as a result of the continuous development of the Junior College for Girls at Enola Springs and the National Association for Junior Colleges.

Wellesley College for Women in Cambridge, Mass., the University of Chicago at Chicago, Ill., and the University of Michigan at Ann Arbor, Mich., are among the institutions of higher learning to which these girls have gone.

In the Ozarks, the Junior College for Girls at Enola Springs and the National Association for Junior Colleges offer a wide range of courses for women's higher education.

Congress Appropriates a Quarter Million Dollars for Horse Breeding

Money To Be Spent Under Supervision of Army Officers To Raise More Throughbred Horses for Cavalry Purposes.

Other Governments Spend More.

The Army plans to spend $250,000 for horse breeding, with a view to improving the breed of horses for cavalry purposes.

In recent years, governments throughout the world have been spending large sums of money for the improvement of their armies. The United States has been leading in this respect, with Italy and France following closely.

The Army's horse breeding program will be supervised by a team of army officers who will be responsible for the selection and breeding of horses.

The program will focus on improving the quality of horses for cavalry purposes, with an emphasis on speed and endurance.

In addition to the $250,000 appropriated by Congress, the army will also receive additional funds from the Department of Agriculture.
