NONO-GENARIAN CALLED HENCE

Mrs. Mary Jenkins Died In Louisville Tuesday August 1st

Mr. Marshall Jenkins was called to Louisville Tuesday night by a telegram announcing the death at one o'clock of that day of his step mother who had resided there for several years at the "Sacred Heart Home." Mrs. Jenkins had been in declining health for several months and under the care of a trained nurse who devoted her time to her aged charge exclusively. She was in her 91st year and was born at Eddyville, Ky., December 25, 1831. Her only child, a son, Edmund Sanborn, now resides in Houston Texas. Mrs. Jenkins was well known to many Marion people having visited here frequently in her younger life.

Her first husband, Charles W. Wood, a cotton planter in Mississippi was drowned in the Mississippi river at Cairo soon after the close of the Civil War. Her second husband, A. M. Jenkins died at Eddyville 20 years ago.

Mrs. Jenkins retained her faculties to the last, was a most interesting conversationalist and her fund of information covered three quarters of a century of important American history. One of her husbands was captain of the U. S. S. Legare in the Mexican war, the other a member of "Cobb's Battery" in the war between the states, her only grand son, Lt. Forest Wood a commander of artillery in the world war and her nephew headed a company of brave Tennesseans who went to the Philippines and covered themselves with glory, along with Admiral Dewey.

Altho born in a Protestant family in which faith she spent much of her life, she embraced the Catholic religion in her later years and died a full communicant of the church of Rome.

Her remains, at her request, were laid to rest in Louisville.

BARBECUE AT SPRING GROVE

Judge J. W. Blue entertained a number of his friends at a barbecue given last Friday week at his home near Spring Grove, in Union county. Those attending from Marion were: Mr. and Mrs. W. R. Boston, S. M. Jenkins, Mr. and Mrs. H. K. Woods, Mr. and Mrs. J. H. Becque, Mr. and Mrs. Neil Guess, Mr. and Mrs. J. W. Blue and William Blue.

A large number of friends from Union county also attended the barbecue and enjoyed Judge Blue's hospitality.

MORE BIG APPLES

Mr. Elmer Bebout brought to this office Monday three apples as samples from his orchard that surpass any heretofore brought in both in size and weight. One measured 14 3/4 inches around and weighed one and a half pounds. The others were nearly the same size. Mr. Bebout resides twelve miles west of town in the Pleasant Grove section.

FOOT INJURED

Mr. T. H. Farmer while at work on the Cameron building on South Main Street suffered a severe injury to his foot. The carpenters were putting up the iron cross piece, when it slipped and fell on his right foot, painfully, though not seriously, injuring the toes of that foot.

CONCERNING OUR NEW BRIDGE

To the Editor and the Readers of the Crittenden Press:

You probably noticed as I did in an issue of the Press a letter from Ed Cook of Casad, concerning a bridge across Tradewater at mouth of Cypress. To me the letter was of special interest as Bells Mines used to be my home community. The people of this community are farmers and tax payers and they feel like they pay enough tax so as to receive some benefit of it.

It is not necessary for me to point out the many benefits of this bridge to Crittenden county. It probably would not bring any money to Marion but I hardly see how it could take any away. Besides are we people around Marion the only ones to be considered in the good things of life? If you had lived where I did last summer and winter and where my mother and father had lived all their lives, where you had to cross the "creek" as we termed it, you would certainly see the need of a bridge across this stream. Every time I went for groceries or do shopping of any kind I had to cross the muddy old creek. Some of the times it was fordable, most of the time we had to ferry, and no difference how much or how little your spending money was we had to hold back twenty-five or fifty cents—a tax that had to come as surely as any that anyone has to pay—to pay the ferryman. I remember one time in particular a lady friend of mine and I went to town the morning and forded the creek in going over but when we got back in the afternoon the water had risen so that we were afraid to try to ford. The ferryman had to be sent for and after trying for two hours to get the boat out of the mud he found that it was impossible to ferry on account of the swift current. While we were waiting the undertaker of Sturgis came along going to Mrs. Cain's. Uncle Sam had died that morning and the undertaker had been sent for. He thought to make the trip in a car and this was the condition he found the creek in when he got there. Of course you see we were in quite a predicament. Finally a man from the Crittenden side dared to ford the turbulent stream with the water reaching his buggy seat. He then drove my horse across for me, with most of our purchases made at town piled in the seat of the buggy. Some of our goods got wet at that but we were thankful to escape with our lives. The undertaker had to get a farmer from Crittenden to pull his car over with a mule. Then after about two hours work on the car he started on his mission.

This little incident is only one of the many that happen at Cypress year in and year out for the want of a bridge. Should we go on risking our lives and spending our hard earned money with nothing in return just for the want of a bridge when a comparatively small sum of money accompanied with a little brotherly love and unselfishness toward our neighbor would relieve the whole situation? I understand the bridge will cost money—everything worth while does—but Union county and Sturgis has appropriated their part also the citizens of the Bells Mines community have agreed to donate their labor and money to have this bridge.

Trusting that this missive will be the means of awakening in some the spirit of altruism so much lacking in most of us, and helping us to so far forget self that we may see some of the needs of others, I am not yet a tax payer, but a sincere good roads advocate.

WIN TWO FROM BENTON

Marion Baseball Club Wins Two Games of Series From Benton

Marion came out victorious in the first game of the series with Benton, scoring the winning run after two men were out in the last of the ninth. It was a hard fought game from start to finish, neither team scoring until the last of the fifth when Lamb crossed the plate for the first run for Marion. Benton remained scoreless until their round at bat in the ninth, when they scored two runs after two men had been retired.

Cowen managed to get to third in the Marion round at bats in the ninth and when the pitcher tried to pick him off the third baseman being played in being failed to catch the throw allowing Cowen to score. Benton failed to tally in the tenth. Lamb the first man up for Marion got a safety and was advanced to third and scored the winning run on Wheeler's grounder through second.

Wheeler worked on the mound for Marion and pitched air tight ball allowing only three hits and striking out fifteen men and allowing no bases on balls.

Cowen, playing short for Marion, seemed to be in the right place all the time. In fact the whole Marion team played ball with the old time pep.

The second game of the series was easily captured by Marion. Kinney, the first man up for Marion knocked a home run and Marion kept the lead. The game developed into a hitting match and Marion outdug the visitors. The final score was 10 to 6. Lamb pitched for Marion and did good work on the mound.

Farm Bureau Notes

Orchard Field Day

Next Wednesday August 8th is the day that all orchardists in Crittenden county should journey to Mr. W. W. Ward's orchard one mile south of Crayne and attend the orchard field day to be held at that place. This field day is for the purpose of showing what Crittenden county can produce in the way of apples and peaches. The meeting will start at 1:30. Mr. W. W. Mogel, orchard specialist from the experiment station and Mr. Ben Niles secretary of the State Horticultural Society will be there to make addresses on more and better fruit in Kentucky. Both have had a wide experience in fruit growing and they will be able to give you some interesting helpful facts. Farmers who attend will be at liberty to ask all the questions they wish concerning orchards. This is the first meeting of the kind in the county and every fruit grower should be present.

Don't forget the date—next Wednesday afternoon.

Limestone

This is an excellent time to order limestone and many farmers are making good use of the opportunity. Several cars have been received and there is more to follow as the farmers learn of the low price of \$1. a ton f. o. b. quarry at Princeton. A special rate is made on agricultural limestone by the I. C. Railroad so that the stone is now cheaper than it has been for some time. The County Agent has the rate certificate and can save you a little freight if you plan on ordering a car.

Sheep Sale

A number of sheep owners have asked about pure bred rams to head their flocks this coming year and they are certainly on the right track. The County Agent can arrange for rams to be purchased at the Princeton sheep sale next Tuesday August 8th by the sheep specialist at the Experiment station. He will be glad to do this and makes no charge and you will be sure of the best stuff that may be obtained at your price. 100 pure bred rams and ewes will be sold and 800 ewes also. Good rams are scarce and this sale offers a good opportunity to obtain one.

HELPS TO WIN COUNTY CONTEST

Former Marion Girl Helps Win County Seat Contest in Oklahoma

According to the Tishomingo (Okla.) Capital-Democrat it was a hotly contested battle of votes that decided the question as to which town, Tishomingo or Milburn, should be the county seat of Johnston county, Okla. Though Mrs. Henry Cole, who before her marriage was Miss Susie Wilborn, a daughter of Albert Wilborn, formerly of this city, did not reside in either of these towns but in Mannsville, she espoused the cause of the Tishomingoes in opposition to her father and other friends. Tishomingo won by a vote of two to one. The Capital-Democrat says: "As soon as Ravis and Mannsville had reported everybody here knew it was all off but the shouting and the shouting began."

Immediately after dark it was reported that Mrs. Henry Cole of Mannsville was on her way to the county seat. She had been with us all the way through and had fought for us and "Mrs. Cole is coming over" shouted the crowd "Let's meet her at Ravis with the band," some one shouted, so the cars began to fill and were soon on their way. At Rock Creek a car was seen coming. It was reasonably sure that it was Mrs. Cole. About 40 cars from here parked on each side of the road and waited. As soon as she was recognized all car lights were turned on and the horns began blowing. Mr. and Mrs. Cole stopped, "I thought you were Ku Klux" she said as the crowd surged around her. After shaking hands with the crowd, the automobile procession started for town. After going about a mile on the return trip the procession met another procession coming headed by the band. They took the lead and placed Mrs. Cole's car next to the band and returned to this city.

On behalf of the people of Tishomingo Mrs. Dr. J. T. Looney made the address of welcome to our distinguished guest. Mrs. Cole also addressed the crowd stating that "she had rather be received this way by her friends in Tishomingo than to be president of the United States."

It was a great ovation and one long to be remembered by all. Three cheers were given for Mrs. Cole as she concluded her address by at least 2000 people."

Illinois Central System's Appreciation of Its Faithful Employees

The pension department of the Illinois Central System which has been in operation twenty-one years is a strong factor in promoting the allegiance of employees. The Illinois Central System was the third railroad in the country to establish a pension system for its employees and up to date it has paid out to pensioners a total of \$2,456,000.00. Since the adoption of the pension system 1,499 employees have been retired on pension.

Under the pension system as operated by the Illinois Central System each year of service by an employee serves in the same manner as the payment of a premium on an endowment insurance Policy. The main difference is that there is no charge whatever against the employee. The pension system is financed entirely by the railroad.

The amount of pension awarded depends upon the length of service and the average pay. For each year of continuous service the pensioner is allowed 1 per cent of the average monthly pay received during the last ten years of his active service.

Thus, an employee with thirty years of service to his credit who had received an average of \$150 a month during the last ten years would, upon retiring, receive 30 percent of \$150 or \$45 a month during the remainder of his life with forty years of service he would receive \$60 a month, and with fifty years of service he would receive \$75 a month.

An employee with thirty years of service to his credit who had received an average of \$200 a month during the last ten years, would upon retiring receive 30 per cent of 200 or \$60 a month during the remainder of his life; with forty years of service he would receive \$80 a month and with fifty years of service he would receive \$100 a month.

An employee with thirty years of service to his credit who had received an average of \$250 a month during the last ten years would upon retiring receive 30 per cent of \$250 or \$75 a month during the remainder of his life, with forty years of service he would receive \$100 a month and with fifty years of service he would receive \$125 a month.

The minimum pension is \$25 a month, and any employee entitled to less than that under the computation as outlined above receives the minimum.

An employee does not have to live to be any certain age in order to obtain the benefits of the pension system, if he becomes incapacitated for work. In some cases employees who have not been in the service more than fifteen years, regardless of their age, have been pensioned. The rule is that any employee who becomes incapacitated after twenty-five years of service is entitled to be pensioned.

In addition to the foregoing, the pensioned employees of the Illinois Central System receive other considerations which attest the esteem in which they are held by the railroad, among them annual passes for themselves and their wives over the lines of the entire Illinois Central System.

That the interest of the pensioned employees and their loyalty to the company can be counted upon has been evidenced many times by their readiness to return to active service and render such assistance as they can in times of emergency.

The board of pensions which administers the department is composed of officers who themselves have been in the service of the railroad many years. The service records of the board members range from eighteen to forty-six years.

We believe that the employees of the Illinois Central System as a body are as efficient and as loyal as any large body of employees in the service of any other railroad or any other large industry. They are invaluable to our railway system and our patrons, and we believe that our patrons have that same high appreciation of their fidelity and loyalty and efficiency that we have.

Constructive criticism and suggestions are invited.

C. H. MARKHAM,
President, Illinois Central System.
